MAYOR'S FOREWORD

CLLR MG MHLONGO MAYOR, CITY OF uMHLATHUZE

INTRODUCTION

A good government is one that exercises maximum and inclusive participation of all stakeholders and holds dear the principle of transparency and accountability. These are the hallmarks of a caring and responsible government as envisaged by the Freedom Charter and the Constitution of the Republic of South Africa.

Council has been able to oversee a smooth transition as the year 2016 was election year. The gains made by the 2011-2016 Council have laid a solid foundation for the direction that the municipality ought to take moving forward with specific focus on Radical Economic Transformation, Youth Empowerment, Women Empowerment, Rural Development and Service Excellence.

The municipality will see an additional growth in citizenship as a result of the new determination of boundaries by the Demarcation Board that will see the end of Ntambanana Municipality and the adding of four (4) new wards to the City of uMhlathuze. This will create a new and exciting challenge for Council to be able to change the lives of the new communities that will join it due to existing service delivery backlogs.

It is vitally important that Council is able to lead with truthfulness and vigour in order to be able to self-critique where its falls short and come up with solutions. Though still very far from the intended achievement, the communities are still suffering from historical injustices, and with 2016 declared as the year for the advancement of peoples power in every community, Council is striving to roll back the injustices of the past and ensure that all citizens are well equipped for the fight against poverty, inequality and unemployment.

SERVICE DELIVERY

Water, Electricity and Sanitation

The basic level for the provision of water is communal supply less than 200 metres from a household. A total of 957 households were upgraded to yard-taps in 2015/2016 resulting in 98.17% of the total number of households being provided with water at the end of the financial year.

The challenge that needs to be dealt with is the constant supply of water with fewer interruptions; therefore, funding is required for future upgrades that will also include the wards coming from Ntambanana which have to be included in the water reticulation network of uMhlathuze.

During the period under review, the City of uMhlathuze continued to invest in electricity infrastructure, including strategic investment in energy infrastructure to support industrialisation. This investment included replacement of ageing cables, creation of additional energy generating capacity as part of the energy-mix for current and future demand.

Over the past few years the City has spent more than R200 million in new and upgrading of existing electricity infrastructure to enhance security of supply. The City is providing domestic electricity supply to 100% (34 140 households) of the municipal electricity licenced area and connected 166 additional households from in-fills to the electricity network during the 2015/2016 financial year.

Over the past 5 years, Council has aimed to always ensure that human dignity is restored and maintained, by building dignified VIP toilets for households to ensure better sanitation in rural areas. The basic (RDP) level for domestic sanitation is one VIP toilet per household. A total of 2 904 additional VIP toilets were constructed during the 2015/2016 financial year resulting in 88.10% of the total number of households provided with basic sanitation service at the end of the financial year.

Housing Projects

The City of uMhlathuze has a Level 1 and Level 2 Housing Accreditation and as such the municipality is allowed to do beneficiary management, subsidy budget planning and allocation, priority programme management and administration.

To this end, during the 2015/2016 financial year a total of 1966 low cost housing units were constructed in rural areas. The following sustainable human settlements ground breaking projects are currently underway and at various stages of implementation:

(a) Aquadene Superblock Housing project

The contractor is already on site for bulk sewer and water infrastructure. The envisaged completion is as follows: Bulk Water—Oct 2016 and Bulk Sewer—Jan 2017. The next phase before the construction of houses can commence, is the reticulation, stormwater and internal roads construction. Once completed, this project will yield approximately 1800 housing units. (600 RDP housing units and 1200 Community Residential Units (CRU)).

(b) Dumisani Makhaye (Phase 6 and 8)

Planning has started and the necessary statutory processes are being attended to currently. Once completed, this project will yield 1200 housing units. (130 RDP housing units, 80 Financial Link Individual Subsidy units and the rest will be social housing units.

(c) Esikhaleni-Vulindlela Expansion Corridor

The Feasibility study processes have already started.

(d) Empangeni Mega Housing Project

Land for the Empangeni Mega Housing Project has been acquired and transferred to the municipality. The layout plan has been approved by Council. Planning for bulk infrastructure services rollout will commence in due course. The City has already invested R80 million in this project. Once completed, this project will yield 10 000 housing units. (4 000 RDP housing units, 2 000 Bonded housing units, 2 000 Financial Link Individual Subsidy housing units and 2 000 Social Housing units). The estimated total budget for this project is R3.9 billion and this will be the biggest investment in sustainable human settlements to date.

It is also important to highlight that the City is the proud recipient of the Goven Mbeki Human Settlements Award for the Best Performing Municipality for the past four (4) years in a row.

Roads

Council committed to City wide road rehabilitation projects that saw the reconstruction of major roads, gravelling of 59.2 kilometres and rehabilitation of 6.9 kilometres tarred access roads in the 2015/2016 financial year. The roads rehabilitation projects will cost the municipality an amount of R27 million to complete. The road construction programme also focuses on upgrading of the Esikhaleni interchange expansion project and tarring of Mandlazini Road.

Economic Transformation

In the 2015/16 financial year the City, working together with its partners, developed a Blueprint for Economic Development, Transformation and Job Creation that will be an anchor strategy to guide and channel job intensive and inclusive economic growth interventions in an integrated and coherent manner. The following strategic sectors have been prioritised as key to accelerated economic growth and are aligned to the RBIDZ strategic focus areas and other industries:

- Manufacturing & logistics
- Agriculture and Agro processing
- Maritime & blue economy with specific focus on oceans economy
- Tourism
- Wholesale, retail, trade and services
- · Mining and beneficiation
- Township economy
- · Construction and built environment
- ICT

Accordingly, the above sectors will be the cornerstone of propelling the economy of the City to greater heights and help in job creation and mainstreaming of SMMEs.

The Department of Energy announced that a 2000 MW Liquefied Natural Gas Plant will be built in Richards Bay. It is Council's quest that as soon as possible, and working together with all stakeholders, that we should start accessing downstream and localisation opportunities so that local entrepreneurs can prepare themselves for this massive investment in our City.

As part of changing the current economic landscape, the City has identified strategic flagship projects that will add value to the quality of life and position the City as a destination of choice to live, work, play and invest. These strategic flagship projects are currently being implemented.

EDUCATION AND TRAINING

The City of uMhlathuze has signed MOUs with institutions of higher learning focussing on developing skills that will be specific to the new developments that have been taking place around the City in sectors such as Maritime, Mining, Manufacturing and Agriculture.

Council has also committed to a program that seeks to assist young aspiring academics to access institutions of higher learning to ensure that they gain access to study and excel from within. Consequently, a total of 81 students of the City of uMhlathuze have been awarded registration fee assistance for tuition.

GOOD GOVERNANCE

The City of uMhlathuze prides itself on good, clean governance as a recipient of a Clean Audit opinion from the Auditor General of South Africa 4 financial years in a row. Such accolades reflect a visionary leadership and good governance.

Conclusion

It is not difficult to concede that a lot of work has been done by Council, but a number of challenges still remain. Through the old idiom, "Rome was not built in a day" we must find comfort in the fact that what we have already achieved will benefit many generations to come.

May God Bless Africa and our City.

Cllr Mduduzi Mhlongo

MAYOR

City of uMhlathuze

MUNICIPAL MANAGER'S FOREWORD

DR NJ SIBEKO MUNICIPAL MANAGER, CITY OF UMHLATHUZE

This report is a reflection of the end of an important term for Council which was ushered within the 2011 elections. It is reflected in the previous report that this term started on a back foot with a deficit of about R168 million. therefore It became necessary that we embark on serious cost cutting measures without compromising service delivery. This was a very delicate balancing set but one is proud to say the municipality did very well.

Not only did we do well, we were recognised by CoGTA in the Municipal Excellence awards as the best performing municipality in provision of Basic Services. In fact, this term was characterised by a series of awards which illustrates the good performance of the municipality. These awards include:

- Most credible IDP four years in a row
- Govan Mbeki Award Winner 2015
- Govan Mbeki Award Category B (2 years National)
- Best Rural Housing Project
- Best Residential Units
- National 1st Runner up Greenest Municipality Awards

The crowning moment was obtaining Clean Audit for four consecutive years. The municipality has been able to achieve these accoladesbecause Councillors have been diligent in their oversight role and administration has been able to exercise its role as well. In this term the structures of governance functioned very well. The governance structure includes the following:

- Audit Committee
- Enterprise Risk Management Committee
- Performance steering committee
- Performance Audit Committee
- Municipal Public Account Committee (MPAC)
- ICT steering committee

One can safely say that all the pillars are in place to sustain uMhlathuze as a top performing municipality. Acclaimed writer Jim Collins said: "Good is the enemy of Great" and as an organisation it is important to ensure that we do not become complacent in being good- but rather take continuous steps to become great.

The new term will be one of economic growth, as we execute the Economic Roadmap which has been developed. I am confident in the quality of administration we have that such should be achieved with relative ease. It is in our DNA that we turn vision into action.

I also wish to convey my appreciation for the support I receive from my esteemed colleagues and honourable Councillors. I wish all Councillors the best of luck, including those who are outgoing and the new ones those who were voted back and I welcome the new one.

Ngiyabonga!

Dr NJ Sibeko

MUNICIPAL MANAGER

City of uMhlathuze

CHAPTER 1

GOVERNANCE INTEGRATED DEVELOPMENT PLAN

Introduction and Background

The IDP entails processes through which a municipality, its constituencies, various sector departments, interested and affected parties come together to prepare clear objectives and strategies which serve to guide allocation and management of resources within the municipal area of jurisdiction. The Integrated Development Plan spans a five-year period which is directly linked to the term of its Council.

City of uMhlathuze implement its IDP to fulfil its role of "developmental local governance". Central to this role are the objectives and strategies contained in the plan, which guides the municipality in the realm of: Municipal Budgeting and Institutional re-structuring in order to fulfil the strategic intent of the plan including integrating various sectors (housing, land use, etc.) with economic, social and environmental dimensions.

Process Plan

The IDP review was compiled in terms of a process plan developed and adopted by Council to ensure compliance with certain quality standards and also to ensure that proper coordination between and within the spheres of government is established. Council approved the process plan for the 2015/2016 IDP review process on 28 October 2014 in terms of Council resolution number **9696** that set out the methods and approach according to which the IDP review process was to be conducted.

3rd Generation

Integrated Development Planning has evolved over the three generations of IDPs and to this end, the Department of Corporative Governance and Traditional Affairs (CoGTA) introduced the 3rd Generation IDP concept that made specific recommendations on outcome based approach which emphasises the following:

- That the municipality focuses on achieving the expected real improvements in the life of all its residents;
- that through the integrated development planning, municipality clarifies what the community expect to achieve, how they expect to achieve it and how will they know whether they are achieving it; and
- that the municipality improve the lives of citizens rather than just carrying out its functions.

City of uMhlathuze in collaboration with all relevant stakeholders adopted its $3^{\rm rd}$ Generation IDP for 2012-2017 in June 2012. The Municipal Systems Act (Act 32 of 2000 as amended) does however require municipalities in South Africa to review their IDP's on an annual basis in order to keep track and remain relevant to the ever changing needs and dynamics in communities.

The priorities and actions identified in the 2012/2017 IDP and 2015/2016 IDP review informed the structure of City of uMhlathuze, service delivery standards, all financial planning and budgeting as well as performance reporting by the municipality. In relation to the illustration below of the evolution of IDP's over a 5 year period this process can be described as the 3 Review of the 3rd Generation IDP off the uMhlathuze Municipality.

Figure 1: Evolution Of IDPs

Development of 2015/2016 IDP was merely a review of the 3rd Generation IDP and did not attempt to rewrite the five year plan but mostly focussed on assessing and reporting on the strategic objectives and targets set in the 5 year plan. Figure below indicate the evolution of the 3rd IDP Generation review process:

Figure 2: 3rdGeneration IDP Review Process

Alignment with Government Imperatives

The 2015/2016 IDP Review of uMhlathuze is developed on the premise of outcome based approach, which means that the strategic framework of City of uMhlathuze is aligned with all government policies and priorities, including but not limited to the National Development Plan, the Provincial Growth and Development Plan and the uThungulu Growth and Development Plan. Further to the inclusion of sector department projects in uMhlathuze's 2015/2016 IDP is another trend that points toward improved vertical alignment between the different spheres of government, enabling the City of uMhlathuze to approach the development of its communities in an integrated and holistic manner.

uMhlathuze Municipality values the support and the spirit of cooperative governance which is attested by the contributions in the IDP p process made by different spheres of government and all stakeholders of uMhlathuze in ensuring that this municipality continues to develop a credible IDP, which remains a single, strategic and inclusive plan that guides the whole of government's investment in a municipal space.

City of uMhlathuze prides itself for consistently being recognised and awarded by the Department of Corporative Governance and Tradition Affairs for remaining the best municipality in the entire province that produces a credible IDP. In the 2015/2016 IDP Review uMhlathuze's IDP was also deemed credible. This achievement is an indication of the ability and readiness of this organisation to deliver on its legislative and Constitutional mandates.

Another exciting trend that emerged during the IDP process, and is confirmed by National Treasury is that City of uMhlathuze fundamentally is aligning its budget with the priorities articulated in IDPs. This means that the organisation is increasingly becoming more responsive to the needs expressed by communities and that the strategic priorities identified in IDPs are aligned to community needs.

IDP Roadshows

City of uMhlathuze does not plan for people; it plans with them. It is Council's commitment to constantly engage with all the people of the city. Hence the process plan makes provision for communities to participate throughout the review of the IDP. Below is the schedule of public meetings held during the development of the 2015/2016 IDP Review:

The Deputy Mayor, Cllr. NV Gumbi (Centre) receiving two awards from the MEC Corporative Governance and Traditional Affairs, Awards are Top IDP Achiever for 3 consecutive years, second Award being the Most Credible IDP in 2015/2016 within KZN Province.

Below is a list which is a summary of community issues raised during IDP and Budget Public meetings. These issues were considered to influence both the 2015/2016 IDP Review and 2015/2016 Medium Term Revenue and Expenditure Framework (MTREF):

- Maintenance of Mandlazini Road
- Pedestrian bridges
- Pensioner gym equipment
- Water losses community reporting issues delays in resolving issues
- Bursary provision for children from uMhlathuze
- Delays in issuing Title Deeds
- Richards Bay SPCA Service Level Agreement
- Rural sports facilities
- Streetlights in high crime areas
- Improved communication with regards to water interruption, etc.
- High water tariff increases for high end users are a concern
- Sponsorship for agricultural projects
- Taxi ranks requisition
- Rebates for churches
- Multi-purpose centres to be fully utilised
- Electricity supply in Eskom supply areas
- Pensioner rebates
- Provision of halls and clinics
- Provision of community sportfields

Figure 4: A 2000 seater marquee filled to its capacity by community members during one of the roadshows in Esikhaleni

Figure 5: Ward Committee members hard at work, assisting with registration and handling Information related queries during IDP roadshows

Legislative Compliance

All legislative requirements and timeframes in respect of the IDP Process Plan and in terms of the Municipal Systems Chapter 5 Section 32 (review & adoption) and submission of the 5 year IDP were successfully complied with, and the Final IDP for 2015/2016 was adopted by Council in May 2015.

CHAPTER 2

SERVICE DELIVERY PERFORMANCE

ORGANISATIONAL PERFORMANCE MANAGEMENT SYSTEM

Legislative requirements

Outlined in Section 40 of the Municipal Systems Act of 2000 (MSA) Municipalities must establish mechanisms to monitor and review its Performance Management System (PMS) so as to measure, monitor, review, evaluate and improve performance at organisational, departmental and employee levels. Section 34 of the MSA furthermore point out that the Integrated Development Plan (IDP) has to be reviewed on an annual basis, and that during the IDP review process the Key Performance Areas, Key Performance Indicators and Performance Targets be reviewed and this review will form the basis for the review of the Organisational Performance Management and Performance Contracts of Senior Managers.

The Municipal Planning and Performance Management Regulations (2001) stipulates that a "municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role-players" (Chapter 3, Section 7, Municipal Planning and Performance Management Regulations, 2001).

Section 46 of the Municipal Systems Act (Act 32 of 2000), stipulates the following:-

"Annual Performance Reports"

- 46. (1) A municipality must prepare for each financial year a performance report *reflecting* -
 - the performance of the municipality and of each external service provider during that financial year;
 - a comparison of the performances referred to in paragraph (a) with targets set for and performances in the previous financial year; and
 - (c) measures taken to improve performance.
 - (2) An annual performance report must form part of the municipality's annual report in terms of Chapter 12 of the Municipal Finance Management Act."

Introduction

The first performance management framework was adopted by the City of uMhlathuze on 28 May 2002. The framework was reviewed and amended during 2012/2013 financial year to align with the best practice guidelines suggested by the then Department of Provincial and Local Government and Traditional Affairs of Kwazulu-Natal. The framework/policy was again reviewed in May 2015 to address the Auditor General finding that the municipality did not have documented and approved internal policies and procedures to address the process of collection, recording, processing, monitoring and reporting of performance information.

The Reviewed Performance Management Framework and Policy has been enhanced to include the National Treasury Communications Directive: Framework for Managing Programme Performance Information (FMPPI).

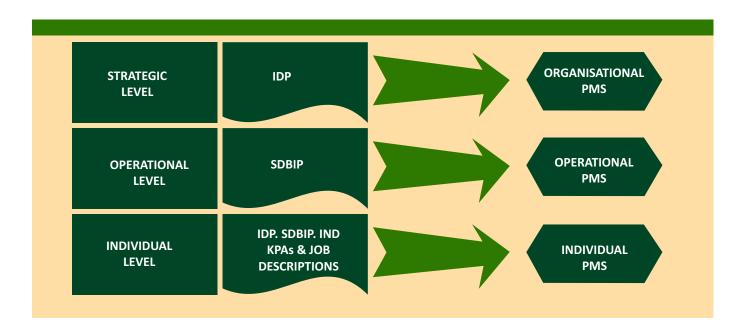

The Local Government Regulations on the appointment and conditions of employment of Senior Managers (Reg 21 of 17 January 2014) were also included in the reviewed framework, since it was promulgated after the adoption of the previous Performance Management Framework and Policy.

The approved and adopted Performance Management Framework/Policy has been adopted in June 2016, per item on RPT 160112 and framework/policy document on DMS 1122026 together with the newly established Standard Operating Procedure (DMS 1077198) to clarify the processes to collect, collate, verify and store of performance information and documents are available on Councils official website (www.umhlathuze.gov.za under the "Performance Management" link).

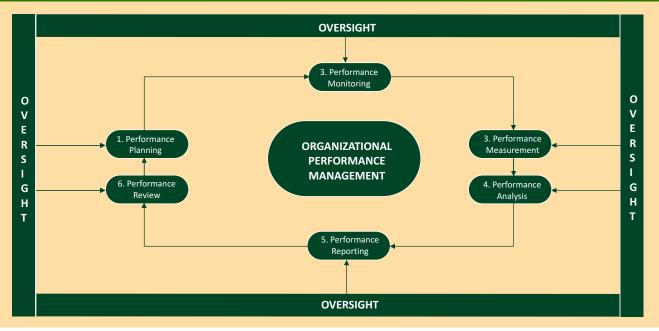

The Organisational Performance Management function of City of uMhlathuze is delivered by an internal Performance Management Unit within the Office of the Municipal Manager under the direct supervision of the Chief Operations Officer. The Performance Management unit consists of two permanent employees, i.e. one post of Manager: Performance Management and one post of Performance Management Specialist.

Organisational Performance Management Process

The legislative framework as set out above provides for performance management at various levels in a municipality including organisational (sometimes also referred to as municipal, corporate or strategic) level, operational (also referred to as services, departmental or section/team level) and lastly, at individual level as. These levels are however integrated and interdependent on each other.

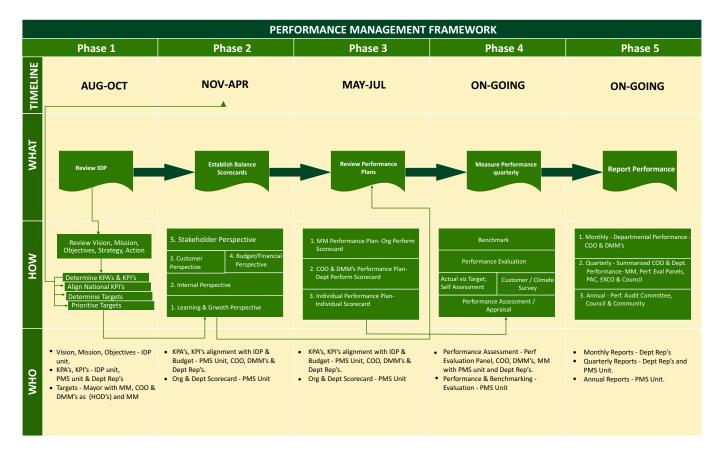

The process of managing performance at organisational level in the City of uMhlathuze involves the stages as set out in the following diagram:

Key performance indicators have been refined in support of the municipality's development priorities and objectives as set out in the revised IDP framework (aligned with the organizational structure and Council's priorities) for the five year IDP period to ensure consistency in measuring and reporting on long terms strategies and projects. Measurable performance targets with regard to each of these development priorities and objectives were established and are reflected on the 2015/2016 OPMS Scorecard. A process to ensure regular reporting is in place and gets reported quarterly to the Council via the Performance Audit Committee.

Individual performance agreements and performance plans were prepared in line with provisions prescribed in the Performance Regulations (Notice 805, published on 1 August 2006 in the official gazette) and signed by the Municipal Manager and Deputy Municipal Managers (Heads of Department). These agreements are fully implemented and aligned with the Service Delivery and Budget Implementation Plan as required in terms of the Municipal Finance Management Act (No 56 of 2003)

The following diagram illustrates a summary of the reviewed performance management framework for the City of uMhlathuze for performance measurement and reporting, adhering to the guidelines suggested by KwaZulu-Natal Province, Department for Cooperative Governance and Traditional Affairs:

uMhlathuze Performance Management Framework diagram

Performance Audit Committee

The Performance Audit Committee established in 2003 in terms of of Section 14(2) (a) of the Local Government: Municipal Planning and Performance Management Regulations of 2001 and membership changed over time. The Performance Audit Committee for the 2015/2016 financial year was re-affirmed on 24 February 2016, by Council Resolution 10664 (Item on RPT 159661). The appointment of the following members will lapse at the end of January 2017 after the annual report is adopted by the Council:

- Ms M J Ndlovu Chairperson (external member)
- Ms R de Waal (external member)
- Mr B S Ndaba (external member)
- Cllr M G Mhlongo (Mayor)
- Cllr N V Gumbi (Deputy Mayor)

The Performance Audit Committee is meeting on a quarterly basis for each financial to consider the reported quarterly performance achievements reported on the OPMS scorecard as well as the Performance Achievements reported in terms of the Service Delivery Budget Implementation Plan.

The Performance Audit Committee has met quarterly during the 2015/2016 financial year as follows:

Quarter 1	28 August 2015	RPT 158819	RPT 158820
Quarter 2	19 November 2015	RPT 159337	RPT 159338
Special	01 March 2016	RPT 1598497	RPT 159850
Quarter 3	01 April 2016	RPT 160014	RPT 160015
Quarter 4	24 June 2016	RPT 160558	RPT 160559

The Draft Annual Performance was finally reviewed on 28 August 2015 to consider the reported annual performance achievements reported on the OPMS scorecard as well as the Performance Achievements reported in terms of the Service Delivery Budget Implementation Plan on the completed 2014/2015 financial year. The minutes of meetings are available on the GroupWise electronic document management system.

Performance Evaluation Panels

Performance Evaluation Panels have initially been established for the assessment of performance of the Municipal Manager as well as Managers directly accountable to the Municipal Manager per Council Resolution 4120 of 10 October 2006. The Performance Evaluation Panels were re-affirmed over time and subsequently again for the 2015/2016 financial year on 3 November 2015, by Council Resolution 10431 (Item on RPT 159161).

Performance Assessment Panels for the assessment of Section 57 employees were established as follows:

- For purposes of evaluating the annual performance of the municipal manager (section 54A), an evaluation panel constituting of the following persons was established
- (I) Executive Mayor or Mayor;
- (ii) Chairperson of the Performance Audit Committee;
- (iii) Member of the Mayoral or Executive Committee or in respect of a plenary type Municipality, another member of Council;
- (iv) Mayor and/or Municipal Manager from another Municipality; and
- (v) Member of a Ward Committee as nominated by the Executive Mayor or Mayor."

Clr M G Mhlongo	Mayor/Chairperson
Clr N V Gumbi	Member of the Executive Committee
Ms M J Ndlovu	Chairperson of the Performance Audit Committee
Clr S W Mgenge	Mayor from another Municipality (uMfolozi)
Mr E S Luthuli	Ward Committee member

- (b) For purposes of evaluating the annual performance of managers directly accountable to the Municipal Manager, an Evaluation Panel constituted of the following persons was established:
- (I) Municipal Manager;
- (ii) Chairperson of the Performance Audit Committee or the Audit Committee in the absence of a Performance Audit Committee:
- (iii) Member of the Mayoral or Executive Committee or in respect of a plenary type Municipality, another member of Council; and
- (iv) Municipal Manager from another Municipality."

Dr NJ Sibeko	Chairperson
Clr N V Gumbi	Member of the Executive Committee
Ms M J Ndlovu	Chairperson of the Performance Audit Committee
Mr KS Gamede	Municipal Manager from another Municipality

Performance Evaluation sessions are conducted at the end of each quarter. The first and the third quarter assessment are informal assessments. Formal assessments are conducted on the Second and Fourth quarter. The final(Fourth) and formal performance evaluation sessions of the Municipal Manager and Managers Directly accountable to the Municipal Manager covering the financial year are performed in November to allow sufficient time for validation and auditing of information reported on the completed financial year. The minutes of all meetings are available on the GroupWise electronic document management system. The final performance evaluation results and scores are reported via the Performance Audit Committee to the Executive Committee and Council before submission of the Annual Financial Statements and the Annual Report.

Auditing of Performance Information

The MFMA and the Municipal Planning and Performance Management Regulations require that the Municipal Council establish an audit committee consisting of a minimum of three members, where the majority of members are not employees of the municipality. No Councillor may be a member of an audit committee. Council shall also appoint a chairperson who is not an employee.

The Regulations give municipalities the option to establish a separate performance audit committee whereas the MFMA provides for a single audit committee as further being recommended by National Treasury in terms of their MFMA Circular no. 65 of November 2012. The municipal Council has however taken a decision to continue with a separate Performance Audit Committee and Audit Committee to allow for Councillors to serve on the Performance Audit Committee to enable Councillors to provide input towards Performance Management related matters.

The Audit Committee relies on the work done by the Performance Audit Committee in terms of the Audit Committee charter and receives and considers reports presented to it by the Performance Audit Committee at its scheduled meetings.

In carrying out its mandate, the Audit Committee and Performance Audit Committee must have a good understanding of the strategic goals of the Municipality, strategic focus areas as outlined in the Integrated Development Plan (IDP) and the Service Delivery Budget Implementation Plan (SDBIP) and should:

- Review and comment on compliance with statutory requirements and performance management best practices and standards.
- Review and comment on the alignment of the Integrated Development Plan, the Budget, Service Delivery and Budget Implementation Plan and performance agreements.
- Review and comment on relevance of indicators to ensure they are measureable and relate to services performed by the Municipality.
- Review compliance with in-year reporting requirements.
- Review the quarterly performance reports submitted by internal audit.
- Review and comment on the Municipality's annual reports within the stipulated timeframes. Review and comment on the Municipality's performance management system and make recommendations for its improvement at least twice a year
- At least twice during a financial year submit an audit report to the municipal council concerned.

In reviewing the municipality's performance management system the Perforamance Audit Committee focus on economy, efficiency, effectiveness and impact in so far as the key performance indicators and performance targets set by the municipality are concerned.

The Internal Audit Executive within the office of the Municipal Manager coordinates and manages the Internal Audit function within the municipality. A Panel of service providers (SekeleZabiso, PriceWaterHouseCoopers and Deloitte & Touche) have been appointed by City of uMhlathuze for a three year period to deliver the Internal Audit function.

As part of their scope, auditing of the Performance Management System and Predetermined Objectives are performed and reported on for each quarter in terms of the following internal audit plan:

Audit Project	Focus Area
Review of Performance Information - Quarter 1	 Consistency in reporting; Measurability and reliability; Performance reports reviews; Performance score verification (Municipal Manager and Deputy Municipal Managers); Compliance with relevant laws and regulations.
Review of Performance Information - Quarter 2	 Consistency in reporting; Measurability and reliability; Performance reports reviews; Compliance with relevant laws and regulations
Review of Performance Information - Quarter 3	 Consistency in reporting; Measurability and reliability; Performance reports reviews; Compliance with relevant laws and regulations
Review of Performance Information - Quarter 4 (Annual Performance	 Consistency in reporting; Measurability and reliability; Performance reports reviews; Compliance with relevant laws and regulationsReport)

The Auditor General finally audits all achievements reported in the Organisational Performance Management System Scorecard as reported in the Draft Annual Performance Report that is submitted together with the Draft Annual Financial Statements at the end of August of each year. Their findings are reported in their management letter and are included in the Annual Report. The information reported therefore is validated for correctness.

The Auditor General will be performing the auditing of information submitted in this report, together with all achievements reported in the Organisational Performance Management System Scorecard and submit their findings in their management letters to be included in the Annual Report of 2014/2015. The information reported therefore will be validated for correctness.

Customer Satisfaction

Council has appointed Siloam People Development Agency to conduct the 2015 Customer Satisfaction Survey. The Comprehensive feedback and analysis report was received in June 2015. The results were reported to Council via the Performance Audit Committee per Council Resolution 10335, RPT 158509 on 28 August 2015. The comprehensive analysis feedback report is available on Council's official website. (www.umhlathuze.gov.za under the "Performance Management" link

Annual Organisational Performance Information

Performance Monitoring underpins the Municipality's IDP in terms of reviewing progress regularly in achieving our priorities and delivering value for money services. Early investigation into variances enables remedial action taken where appropriate.

The Draft Annual Performance Report highlights the key performance measures included in the Integrated Development Plan (IDP) for the 2015/2016 financial year. These priority measures constitute the Organisational Performance Scorecard for 2015/2016.

The annual performance reporting on the 2015/2016 financial year has been completed and reflected in the Organisational Performance Scorecard in a table format (as prescribed by KZN CoGTA). The Draft Organisational Performance report is herewith presented to the Auditor General for auditing together with the Annual Financial Statements on 31 August 2016.

This Annual Performance Report (Tables) once finalized and approved should be read in conjunction with the uMhlathuze Annual Report, including the Annual Financial Statements as well as Auditor General Report on the Annual Financial Statements and Performance on Predetermined Objectives Information for 2015/2016.

On 30 June 2016, 75% of organisational performance targets have been met within 95% or exceeded the annual targets set. An average percentage annual achievement of 111.2% against the annual key performance targets set. Areas for improvement are shown in the relevant column directly in the Organisational Performance Scorecard for 2015/2016 (OPMS Scorecard). Accountable managers have provided commentary to put performance into context and identified actions that they are taking to address instances where under performance is reported.

The traffic light system used to report performance is as follow:

- Blue Performance above 2% of the target
- Green Performance meets target
- Amber Performance within 5% of target
- Red performance more than 5% adverse of target

In relation to the 2015/2016 year end performance results, the final results can be analysed as follows:

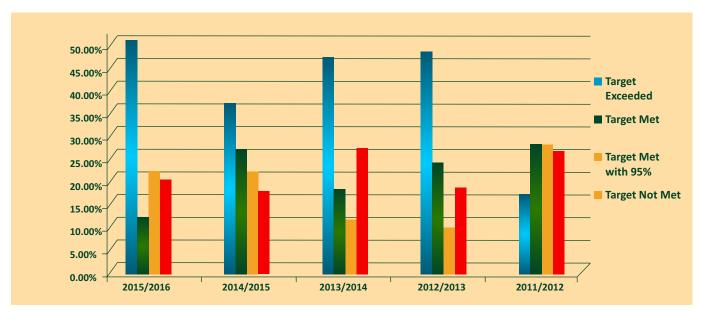

- 81% of targets have been met within 95% or exceed against the year-end target set
- 19% of targets not achieved, has increased compared to last financial year where 17% of targets were not met

The performance results for the organizational priorities can be summarized as follows:

Traffic Light Status	2015/2016 Performance	2014/2015 Performance	2013/2014 Performance	2012/2013 Performance	2011/2012 Performance
Blue – Exceeded target	49%	36%	46%	48%	21%
Green – Met target	11%	26%	18%	24%	27%
Amber – Missed target by less than 5%	22%	21%	10%	9%	27%
Red – Missed Target by more than 5 %	19%	17%	26%	19%	25%

In 2015/2016 the average performance on performance targets achieved has decreased when compared with 2014/2015 financial year. It is worth noting the impact of factors such as budget and staff retention whilst continuously increased demand for services putting pressure on achievement of challenging targets. Ultimately the municipality has achieved savings for the financial year, maintained good levels of service delivery (as demonstrated through comparative information) and seen increased levels of satisfaction across a number of services.

The following chart illustrates overall performance for the 2015/2016 financial year with performance achieved during the four previous financial years, 2014/2015, 2013/2014, 2012/2013 and 2011/2012 financial years respectively:

Web-Based Organisational Performance Scorecard Dashboard

The following high level dashboard score has been achieved on the Organisational Performance Scorecard 2015/2016 financial year, populated in the Electronic web-based KZN CoGTA performance management system developed by SigmalT.

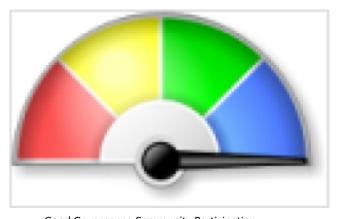

The web-based Performance Management System has scored the achievement of individual key performance areas as follows:

"KZN Municipalities >> KZN Cogta PMS >> KZN 282: uMhlathuze LM >> KZN 282: Organisational Scorecard: IDP (Tier 1)"

ID	NAME	ТҮРЕ	SCORE
7738	Good Governance Community Participation and ward Committee Systems	Key Performance Area	10.0
7739	Basic Service Delivery and Infrastructure Development	Key Performance Area	5.5
7740	Local Economic Development	Key Performance Area	10.5
7741	Municipal Transformation and Institutional Development	Key Performance Area	8.4
7742	Financial Viability and Financial Management	Key Performance Area	5.5

1. Good Governance, Community Participation and Ward Committee Systems

Good Governance Community Participation and ward Committee Systems Score 10

The municipality excelled in the area of community liaison and public communication and exceeding the number of planned IDP and Budget roadshow meetings. The annual target for ward committee management meetings and community meetings were reduced in anticipation of the municipal elections, however were exceeded by recording 344 ward meetings held against the annual target of 180. The total number of public meetings held was 131 against the annual target of 60 meetings.

IDP and Budget Roadshows, Ward Committee, Stakeholder Liaison and Council meetings were successfully scheduled and convened in accordance with Council's Standing Rules of Order to ensure ongoing community involvement in municipal decision making.

2. Basic Service Delivery and Infrastructure Development

Basic Service Delivery and Infrastructure Development Score 5.5

The basic water service infrastructure improved during the financial year with a total of 85 028 (98.17%) households connected to the water network within the municipal area. The target of 1000 water-metering connections upgrades was slightly under achieved with 957 new meters installed (yard connections), contributing to an upgrade in water supply services.

A total 75 325 (88.10%) of households do have access to basic sanitation services. 2 904 additional VIP's was constructed, below the amended annual target of 4 200, as result of challenges experienced with contractors appointed for the construction of VIP toilets. Appointed contractors have experienced labour problems, however the municipality was able to decrease the sanitation backlog of 13 138 households without access to sanitation to 11 284. The projects have been rolled over to the next financial year and targets are included in the Organisational Scorecard for the 2016/2017 financial year.

The municipality is delivering electricity supply to 34 140 households and has connected 166 additional households to improve access to basic electricity services in the municipal electricity licensed area; however this target remains reliant on consumers applying for this service. The annual target of 250 new connections was not achieved. The municipality is in a position to deal with all applications received.

3. Local Economic Development

Local Economic Development
Score 10

A total of 1966 low cost houses were constructed in the rural areas against the amended annual target of 766, therefore over achieved on the number of houses constructed during the financial year. No targets were set for Hostel units upgrading sine the allocation process for the residents of Bhambatha Hostel/Flats was nullified due to some irregularities during the allocation process by Izingelosi Consulting and the new service provider was appointed by Council which completed the allocation process by end March 2016. Then the appointed contractor which was appointed by October 2015 had to wait till the allocations were finalized and residents to move to two blocks that had been refurbished already where they only started working in May 2016 and are expected to finish by February 2017 according to the addendum of the programme.

The target for low cost housing in urban areas has been amended to zero. The outstanding units at Dumisane Makhaye Village are 12 in phase 7, there has been a delay due to the fact that the Implementing Agent did not cater for disabled residents and they were experiencing problems with the units that were allocated to them since they are on wheel chairs. The Implementing Agent Infraserv was instructed to address these challenges and the cheapest option was to relocate those residents to new stands where a bigger house will be built for disable residents with all the requirements inside. Currently the Implementing Agent with the municipality is in the process of changing ownership for those units and build new proper units for disabled residents.

In terms of community capacity building programmes, 6 informal Trading sessions were conducted through the Mentorship Programme over 3 months as well as training sessions for small scale farmers, mentorship provision to SMME's and informal traders as well as the training of agricultural cooperatives.

The annual amended targeted jobs created through EPWP incentives were achieved within 99.5% and slightly below target as some projects only span over 6 months; therefore 731 jobs were recorded at the end of the financial year against the annual target of 734.

In provision of public transport facilities and infrastructure in the urban and rural areas, 58.5 kilometers of rural gravel roads were established against the target of 48 kilometers. Due to higher demands by the community, rural gravel roads were re-prioritized and funds re-allocated on the maintenance budget to meet the community demands. In terms of maintenance of tarred roads, rehabilitation target was not met, however in terms of dealing with potholes, the amended annual target was exceeded.

In terms of provision of recreational facilities and environmental services to the community, the annual target of 6 community halls to be upgraded has been met and 3 sports fields were upgraded against the annual target of 4 due to due to several rain delays experienced.

4. Municipal Transformation and Institutional Development

Municipal Transformation and Institutional Development
Score 8.4

The municipality was able to meet the annual targets set for the recruitment and retention of staff from designated employment equity groups and still experiences a high level in staff turnover. The municipality continues with the implementation of the Employment Equity Plan during the 2016/2017 financial year.

In terms of the target set for female employees in management positions, there were 14 females appointed against the annual target of 9. A total of 806 females are employed at the municipality on 30 June 2016 against the annual target of 785. A total of 730 youth are employed at the municipality on 30 June 2016 against the annual target of 665.

A total of 84 Workplace Skills training programs was conducted during the financial year against the annual target of 60, resulting in an over achieved by 24. The percentage of budget spent on Workplace Skills Plan was slightly over achieved, due to the large number of external programmes.

The target of 200 occupational health and safety initiatives to be implemented has been exceeded by conducting 259 due to an increase in the number of contractors and inspections.

5. Financial Viability and Financial Management

Financial Viability and Financial Management
Score 5.5

R 2 078 104 614 was collected from customers of the municipality for the 2015/2016 financial year, contributing to a 101% on the targeted amount of R 2 075 753 356.

Except for capex spend, all financial Viability Indicators have improved, indicating an improved sound financial standing of the municipality. It needs to be noted that the Cost Coverage Ratio of 2.74 is in excess of the benchmark of 2, in addition this was achieved without the drawdown of the approved external borrowing for both the 2014/15 and 2015/16 financial years of R185miilion.

The municipality spent 93% of grants and subsidies received from government departments, since a roll-over application for grants received from the previous financial year was approved by National Treasury.

The challenge lies with deterioration in capex spend. Through some poor planning, the Municipalities capex spend reduced from 92.1% in the 2014/2015 to 78.39 % (R393m of R501m) in 2015/16 financial year. Measures have been put in place to improve on this indicator in the next financial year.

Annual Organisational Performance Scorecard

The following table reflects the organisational performance targets and achievements as reflected in the Integrated Development Plan, in relation to the achievements of the previous financial year as well as reflecting corrective measures to be taken in the 2016/2017 financial year in cases of under achievement:

Section 46(1)(a) of the Municipal Systems Act (No. 32 of 2000) require the Municipality to reflect the municipality's, and any service provider's, performance during the financial year reported on. The City of uMhlathuze is fortunate not to be reliant on external service providers in provision of Basic Services, i.e. water, sanitation, solid waste removal services delivered by the district municipality like most other local municipalities do.

Water distribution to the community by uMhlathuze is delivered through water purification by WSSA and through purified water purchased from the Mhlathuze Water Board. Electricity is distributed to communities by City of uMhlathuze in the municipal licensed area, through purchasing electricity from ESKOM. Also other Basic Services delivered by City of uMhlathuze include, solid waste removal (refuse collection) and sanitation. The number of households served with basic services as reflected in the table below reflects the municipality's and any service provider's performance on delivering basic services during the financial year, also a comparison with performance in the previous financial year as contemplated in section 46(1)(a) of the Municipal Systems Act (No. 32 of 2000).

The information reflected below will been subjected to validation in the Internal Auditing process (in line with the appointed panel of Internal Auditors and the Municipal Public Accounts Committee) (as well as the Auditor General upon their annual audit process) as reported via the Performance Audit Committee on 26 August 2016 per Council item RPT 160819, the Executive Committee on 14 September 2016 and before Council on 14 September 2016. Reports are available for inspection.

NOTE: The planned annual targets for 2016/2017 financial year, reflecting in the far right-hand column in the organisational performance scorecard below will have to be amended in line with the mid-year adjustment budget to include the total number of additional households as result of the four additional wards taken over from Ntambanana Municipality due to the dissemination of Ntambanana Municipality. The level of services to the additional four wards will have to be established and included into future planning and reporting on organizational performance.

	2016/2017	Annual Target	8	272	102	30 June 17	%56.66	1000	ТВА	95.52%	4000				39233
		Corrective action for Annual target not met / remarks	Over achieved on the Annual Target by 2	Over achieved on the Annual Target by 164	Over achieved on the Annual Target by 71	Target achieved one month ahead of the target date	Target not achieved by 0.68% Target not achieved by 49. Over achieved on the Annual Target by 2236 Target not achieved by 1.58% Target not achieved by 1.58% Target not achieved by 1.296 A delay was experienced in re-appointing a contractor to complete 1800 units. The contractor could not start with the project due to problems with the community caused by the previous contractor i.e. unpaid labourers and issues of starting from another area not the area where the previous contractor was working had to be resolved first. In future, the deviation route (Section 36) will be followed when a contract is cancilled to avoid further delays with restarting the SCM process to appoint another contractor. Promote improved relationships and communications with the community buy-in in projects.								Target not achieved however within 96.26% against the annual target set.

		Corrective action for Annual target not met / remarks	Annual target not achieved (Amended from 3 to 2 as validated by AG) The Athletics track project was on schedule for completion in June but will unfortunately now only be completed in the 1st quarter of the 2016/17 financial year due to several rain delays experienced in May/June 2016.	Annual target achieved Ngwelezane community hall extension in progress and will be completed in 2016/2017 financial year.	Target amended to zero. The allocation process for the residents of Bhambatha Hostel/Flats was nullified due to some irregularities during the allocation process by lzingelosi Consulting and the new service provider was appointed by Council which completed the allocation process by end March 2016. Then the appointed contractor which was appointed by October 2015 had to wait till the allocations were finalized and residents to move to two blocks that had been refurbished already where they only started working as May 2016 and are expected to finish by beginning of February 2017 according to the addendum and the programme

	2016/2017	Annual Target	0	0		
		Corrective action for Annual target not met / remarks	Target amended to zero The outstanding units at Dumisane Makhaye Village are 12 in phase 7, there has been a delay due to the fact that the implementing Agent did not cater for disabled residents and they were experiencing problems with the units that were allocated to them since they are on wheel chairs. The implementing Agent Infraserv was instructed to address the challenges and the cheapest option was to relocate those residents to new stands where a bigger house will be built for disable residents with all the requirements inside. Currently the Implementing Agent with the municipality are in the process of changing ownership for those units and build new proper units for disabled residents. No target is set for 2016/2017 since bulk services and reticulation will be completed in 2016/2017.	Target over achieved by 1200 Due to the Kwazulu Natal Department of Human Settlements financial challenges at the time of setting the targets, they had advised the municipality to produce 180 units during the year under review. However, the limplementing Agent with the contractor manage to fast track the project as it did not make business sense for them to only do 180 whilst they could do more and close off the project. The target was amended to 766, hence houses were completed and then resulted in over achievement of the target. DoHS had to shift some funding from other allocations to cover this project.

Comments:

Access to electricity (New connections): The Quarterly targets and achievements for this KPI are dependent on the number on applications received.

Free basic Service (Households with access to free electricity): The Quarterly targets and achievements for this KPI are dependent on the number on indigent applications received.

Total number of households: The annual targets as reflected in the approved IDP have been revised to 86609 based on Stats SA (Sensus 2011) figures.

ACHIEVEMENTS: The annual achievements as reported in the Actual (June 2016) column audited by the Internal Auditors (SekeleZabiso, PriceWaterHouseCoopers and Deloitte & Touche) and subject to the Auditor General and final adjustments made together with the Annual Financial Statements and AG Report.

CHAPTER 3

ORGANISATIONAL DEVELOPMENT PERFORMANCE

Nathi Mthethwa Chief Operations Officer

OFFICE OF THE MUNICIPAL MANAGER

INTRODUCTION

The cities of the 21st century are the largest sites of human settlement today and are increasingly acting as critical nexus points of social, economic, ecological and technological change. The City of uMhlathuze has significantly improved service delivery and developed strategies to drive economic growth, human development and access to basic services. Against this backdrop, the Office of the Municipal Manager (OMM) remains the epicentre of driving city strategy, innovation and service delivery excellence. In this regard, the city continues to receive accolades for its achievements in service delivery and good governance.

The Office of the Municipal Manager is supported by the Chief Operations Officer as well as specialists responsible for integrated development planning, performance management, internal audit, communications, and enterprise risk management. The strategic role of the OMM is to ensure a coherent and integrated approach to service delivery by all departments and alignment of programmes and projects in order to achieve maximum impact. Access to basic services by all residents of the city remains a priority and this can be only be achieved through good governance and financial prudence.

To this end, the following key achievements have been recorded in terms of basic service delivery:

- 1. Access to water is 98.8%
- 2. Access to sanitation is 88.1%
- 3. Access to electricity in areas serviced by the city is 100%
- 4. Number of households with access to solid waste removal is 77.3%
- 5. Number of houses completed in rural areas is 1966 in the 2015/2016 financial year.
- 6. Jobs created through EPWP in the 2015/2016 financial year is 731.
- 7. The city received Back to Basics Provincial Scoring of 82%

During 2015/16 financial year, the OMM, in partnership with other City Departments, pioneered strategic projects such as the trategic Roadmap for Economic Development, Transformation and Job Creation, Smart City initiatives, International Relations and City to City Twinning Arrangements, Customer Care and Service Standards, Knowledge Management, Ward Profiling, Business Continuity, packaging of catalytical projects to stimulate the economy, establishment of a Mayoral Advisory Panel, adopted and aligned internal shop to Institute of Internal Auditors Standards including the development of Internal Audit Universe etc.

These diverse strategic projects are critical in positioning the city as an investment destination of choice and will contribute towards the realisation of economic transformation, sustainable economic growth and service delivery excellence.

Integrated Development Planning

Business Function

The IDP entails processes through which a municipality, its constituencies, various sector departments, interested and affected parties come together to prepare clear objectives and strategies which serve to guide allocation and management of resources within the municipal area of jurisdiction.

Key Deliverables

Our primary function include:

- Facilitation and coordinating the development of a credible integrated development plan,
- Facilitation and coordinating the development of a credible integrated development plan,
- Facilitating and coordinating the development of the Corporate Plan
- Championing the Development of Sector Plans Development of Ward Profiles
- Ensuring alignment between the IDP, Budget and Performance Management Systems

In producing a credible IDP, the unit works tirelessly to ensure proper planning and coordination. Various structures have been established to ensure proper co-ordination; this includes the IDP Steering Committee.

Our role is very important towards the growth of the City, if the IDP is not credible and poorly implemented Service Delivery can be compromised.

Performance Management

Business Function

The unit is responsible to ensure that the municipality inter alia complies with the Municipal Planning and Performance Management Regulations (2001) which stipulate that a "municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role-players".

Key Deliverables

The Performance Management Unit coordinates and ensure timeous submission of required performance monitoring and reporting through the Performance Audit Committee to the Council and to various organs of state, i.e. Quarterly Organisational Performance Report, Quarterly Non-Financial Performance Targets in terms of the Service Delivery Budget Implementation Plan, Monthly Back to Basic's reporting to National CoGTA, Quarterly Back to Basic's reporting to Provincial CoGTA and the preparation of the Annual Performance Report, reflected in Chapter 2 of this report.

The unit is continuously studying improvement opportunities, participating in workshops with various organs of state, attending of seminars and training sessions to stay abreast of development and provides guidelines and information on best practices on Performance Management and ensure implementation and management thereof at the municipality to ensure continuous improvement on service delivery to the community.

Internal Audit

Business Function

The Internal Audit Activity (IAA) of the municipality is established and regulated by section 165 of the Municipal Finance Management Act No. 56 of 2003 (as amended) (MFMA) read together with the MFMA Circular no. 65 of 2012 issued by the National Treasury and by the Municipal Systems Act, No. 32 of 2000 (MSA) which provides for the establishment of the IAA so as to regulate the function and to provide for matters incidental thereto.

Internal audit exists to provide independent objective assurance and consulting insights on the effectiveness, economy and efficiency of City of uMhlathuze's governance, risk and controls in order to create and drive innovation, responsiveness and sustainability of the service delivery value chain.

Key Deliverables

The critical success factors and deliverables for an effective Internal Audit unit are:

Three year rolling strategic and operational plans that are:

- o Aligned to strategic objectives of the organisation.
- o $\,$ Covers the strategic risk areas facing the organisation
- Is risk based addresses the key risks areas/concerns of management.
- Is prepared in consultation with management, the audit committee and external auditors.
- o Matches assurance needs with available resources.
- O Trusted advisor to management
- Promoting the sustenance of an effective internal audit function
 Promoting accountability
- O Performing consulting activities in accordance to client needs
- O Assisting management with the enhancement of the overall
- o governance, risk and internal control environments
- o Maintenance of a Quality Assurance and Improvement Programme:
 - O That covers all aspects of the internal audit activity.
 - O The programme includes an evaluation of the IAA's conformance with the definition of Internal Auditing and the Standards and an evaluation of whether the internal auditors apply the Code of Ethics.
 - O The programme also assesses the efficiency and effectiveness of the internal audit activity and identifies opportunities for improvement.

Enterprise Risk Management

Business Function

The City of uMhlathuze defines risk management as an holistic and smart approach to managing threats to the achievement of objectives, as well as identifying and pursuing opportunities that may improve achievability of objectives. We understand the importance of thinking ahead so that services are delivered to our communities, on time and according to the highest standard. We are of the belief that this thinking ahead can only be achieved through active, entrenched Enterprise Risk Management.

Key Deliverables

The main activities of the unit include:

Management of the risk management process

- Fraud and Corruption Prevention
- Business Continuity Management; and
- Compliance

The organisation has in place risk registers (Operational, Strategic and City Wide) in which threats and opportunities which are present or may arise in the fulfilling of its mandate, are recorded, assessed, acted on, monitored and reviewed as per legislated and best practice requirements.

Communications, Marketing And Outdoor Advertising

Business Function

City Communications plays a critical strategic central role to disseminate and cascade council resolutions and programmes to relevant internal and external audiences through proper and formal mediums of communication timeously. The vision and the mission of the City of uMhlathuze ought to be carried to greater heights through robust marketing and promotions in order to achieve its objectives of being a port city that is hard at work and poised for economic growth and beneficiation to its people.

The City is on a drive change the landscape for the better through catalytic projects that will see the relocation of its regional airport and the development of an Airport City, development of the International Convention Centre (ICC) with a shopping complex and entertainment amenities, state of the art world class water front, container terminal and harbour expansion, The Ridge up market suburb and many others. These projects will transform the look and feel of the City and shall certainly position the city into attracting tourists as well as investors while creating jobs and beneficiation for the local business community.

Key Deliverables

Communications and Marketing therefore plays a central role in packaging all these products and services then sell them to different markets to solicit strategic partnerships for investments. The Communications unit is the custodian of The Brand City of uMhlathuze. This unit has a sole role to promote, protect and develop The Brand through different creative programmes and awareness activations. The City of uMhlathuze demographics dictates massive effective public relations and media campaigns in order to meet expectations, communicate services and product offering, facilitate feedback from stakeholders, sector groups, companies and multilingual and multi-racial communities living side by side in the city.

The City of uMhlathuze demographics dictates massive effective public relations and media campaigns in order to meet expectations, communicate services and product offering, facilitate feedback from stakeholders, sector groups, companies and multilingual and multi-racial communities living side by side in the city.

CORPORATE SERVICES

Senamile Masondo
Deputy Municipal Manager

The Corporate Services Department is comprised of three sections namely Administration, Human Resources and Information Communication Technology.

Administration Section

The section is divided into 5 divisions, namely:

- Diverse Administration;
- Records Management;
- Legal Services- Conveyancing, Contracts etc.;
- Legal Services- Litigation; and
- Public Participation and Councillor Support.

Diverse Administration

The division consists of four (4) units:

- Call Centre and Customer Service Desk
- Facilities Management
- Secretariat Services
- Literary Standards

Call Centre and Customer Services Desk

The call centre and customer services desk serves as the central point of contact for City of uMhlathuze facilitating responsive accessible and accountable Local Government through providing a high quality customer support services for both internal and external customer satisfaction and building a long term positive relationship with customers by maintaining transparency through continuous communication.

Its vision is to maintain quality communication with the community and to provide quality services to all citizens of the City of uMhlathuze through various platforms including telephone, email, walk-ins and social media.

The Call Centre operates a 24 hour 7 days a week toll free number-0800 222 827. The toll free line is for complaints only and it is not transferrable. Complaints such as power failure, water leaks, pipe bursts and metre faults are recorded on the Municipal Issue Tracking (MITS) and then the call is dispatched to the relevant department's depots for further action.

Calls logged on Municipal Issue Tracking System (MITS)							
Quarter1	2 703						
Quarter2	2 117						
Quarter3	2 783						
Quarter4	3 308						

The customer services desk is stationed at the Richards Bay Civic Centre and is tasked to facilitate the following:

- Processing new applications for water and electricity connections;
- upgrading and downgrading of electricity phases and water metres:
- issuing of tender documents once they have been paid for and filing of proof of payments;
- dealing with service delivery complaints;
- assisting the public (especially the walk-ins) with enquiries pertaining to municipal services;
- directing members of the public to the correct officials and office numbers;
- capture complaints onto the MITS system and distribute to the relevant departments;
- communicate and co-ordinate work with internal departments;
- follow up on customer interactions and provide feedback;
- keep records of customer enquiries, interactions and transactions; and
- ensure a high level of customer service excellence.

The switchboard operates the main line **035 907 5000** from 07h20 to 16h00 from Monday to Friday where calls are screened and transferred to the relevant departments for attendance.

	Incoming calls	Outgoing calls	
Quarter 1	224 373	354 780	
Quarter 2	204 393	201 247	
Quarter 3	223 300	351 071	
Quarter 4	89 839	140 183	

Facilities Management

The Facilities Managements function is to support the organization by enhancing the quality of physical facilities, which is done through planning, designs, engineering, construction and maintenance in a responsive service oriented, effective and environmentally conscious manner.

This is a newly established unit, which has the following strategic plan:

- · Centralizing planning and management;
- increasing collaboration between departments;
- establishing an enterprise- wide master planning process;
- leveraging technology; and
- conducting an inventory and assessment of current buildings/ space.

To this end, the unit has facilitated the establishment of a Facilities Management Committee which is responsible for effective and efficient management of municipal facilities.

Secretariat Services

The function of the division is to provide quality support services to both internal and external stakeholders, to ensure the provision of a secretariat, administrative, printing and distribution facilities provision and management function.

It aims to continue to improve, implement, maintain, and serve the community of both internal and external stakeholders by developing standards, operating procedures, internal policies and capacity building of staff within the section.

Secretariat Services provides administrative and secretariat support in respect of a number of Council Committees established in terms of inter alia Sections 79 and 80 as well as other sections of legislation in terms of the Local Government: Municipal Systems Act, Act 32 of 2000. The section also attends to booking and control of municipal venues.

During the period under review meetings were accommodated as follows in the undermentioned venues:

VENUE	JULY TO SEPT 2015	OCT TO DEC 2015	JAN TO MAR 2016	APRIL TO JUNE 2016	TOTAL

The following is the statistical information of Access to Information applications received in terms of the Promotion of Access to Information Act 2 of 2000 for the reporting period 1 April 2015 to 31 March 2016 as per legislative requirement.

Reports in terms of Section 32

Reporting period:01 April 2015 to 31 March 2016	Total Number	Comments
(a) Number of PAIA requests received	22	Of the 22 applications received 20 were standard applications
(b) Number of requests granted in full	20	20 applications granted in full.
(b)(1) Number of applications not finalised	Nil	Nil
(c) Number of requests granted despite there being a ground for refusal	Nil	Nil
(e) Number of requests: (1) Refused in full	1	Application was declined as a result of record privileged from production in legal proceedings
(2) Refused partially	Nil	Nil
(3) Number of times a provision of PAIA was relied on to refuse a request in full/partially	Nil	Nil
(4) number of requests not granted due to their being no record	1	Matter was not attended to by this municipality
(e) Number of instances where the 30 day period to deal with a request was extended	Nil	Nil
(f) Number of internal appeals: (1) Lodged with the relevant authority	Nil	Nil
(2) Number of cases where the requests were granted as a result of an internal appeal	Nil	Nil
(g) Number of internal appeals lodged on account of a deemed refusal	Nil	Nil

(h) Number of applications to court on the grounds that the internal appeal was dismissed by the relevant authority failing to give advice of its decision during the time frames stated in section 77(3)	Nil	Nil
Comments including those relating to implementation, application, requests, or areas of the Act for which reforms are recommended	Nil	Nil
(4) number of requests not granted due to their being no record	Nil	Nil

Legal Services

Contracts, Conveyancing & Business Licenses

The Legal Services Sub-Section aims:

• to manage the provision of a comprehensive, efficient and effective legal service to the Municipality in line with the Constitution of South Africa and other applicable pieces of legislation.

The following services are rendered by Legal Services:

Legal Agreements

The table below is a summary of the legal agreements concluded in the reporting period:

	1 st Quarter	2 nd Quarter	3 rd Quarter	4 th Quarter	Total for 2015/16
Lease Agreements	7	5	3	7	22
Lease agreements: Public Open Spaces	0	0	0	2	2
Encroachments	0	0	2	0	2
Sale Agreements	5	2	1	5	13
Service Level Agreements	33	26	36	47	142
Sale Agreements: Public Open Spaces	0	0	0	0	0
Memorandum of Understanding, Railway Facility Agreement, Grant Funding Agreements, Servitude Agreements, etc	18	40	35	40	133
EEDBS Agreements	0	0	0	70	70
TOTAL	63	73	77	171	384

Conveyancing

The table below is a summary of conveyancing transaction concluded in the reporting period:

Properties Registered	1 st Quarter	2 nd Quarter	3 rd Quarter	4 th Quarter	Total Amount
4	R19 342 698,56				R19 342 698,56
1(Council was purchaser)		R82 500 000,00			R82 500 000,00
3			R22 898 860,00		R22 898 860,00
4				R1 198 140,00	R1 198 140,00
Total value of 9 transfe	ers registered				R125 939 898,56

Business Licenses

The table below is a summary of business licenses act in the reporting period:

	1 st Quarter	2 nd Quarter	3 rd Quarter	4 th Quarter	Total Amount
Licences issued Item 1 (Foodstuff)	16	21	8	16	61
Licences issued Item 2 (Entertainment)	3	5	0	2	10
Total New Business Licenses Issued	3	11	4	18	36
Duplicate Licenses Issued	1	0	4	4	9
Renewals	6	138	235	3	382

The division also provides legal opinions to departments when required.

Legal Services - Litigation

Legal Services provides support to both the Administration and Council. The functions and responsibilities of the municipal Legal Services have the following key performance areas:

- Institutional Corporate Legal Compliance
- Giving advice and opinions
- Labour Law services
- Coordinate and re-align Municipal Bylaws
- Litigation
- Providing a contracts management service
- Property legal service

The following bylaws were reviewed and amended during the 2015/2016 financial year:

- Street trading Bylaws
- 2. Standing Orders for Council and its Committees
- 3. **Public Amenities Bylaw**
- 4. Nuisance Bylaw Street Trading Bylaw
- 5. Advertising Sign Bylaw

Human Resources Administration

The main function of the Human Resources Administration Unit is to develop policies, processes and procedure guidelines regarding the uMhlathuze's employee benefits, recruitment and selection functions; Employee Records Management, Leave Management and Employment Equity and ensure the correct implementation thereof. The division ensures compliance with the Bargaining Council directives, Conditions of Service issues and the implementation of Council Resolutions and application of legislative imperatives. HR Administration unit is further responsible for facilitating, directing and maintaining the organisational recruitment and appointment of employees.

Activities and Main Function of the Unit

- Render provision and support to departments and employees;
- Implementation of legislative imperatives;
- Implementation of Collective Agreements on Conditions of
- Implement an intergraded recruitment and selection process;
- Development of policies, procedures and guideline;
- Ensure the uMhlathuze Municipality's compliance with Employment Equity Act (EEA)
- Create an enabling environment through various sensitisation programmes (i.e Diversity Management programmes);
- Develop a workplace strategy in order to mainstream issues relating to gender, youth and employees living with disabilities;
- Exit Management;
- **Diversity Management**
- Statutory reporting.

Achievements:

- Approval of the Talent Management Strategy;
- Strategy on recruitment of people with disabilities;
- Taking into account the provision targets set to monitor appointment of designated groups, a total of 136 appointments were effected from July 2015 – June 2016:
- Employment of youth; a total number of 81 youth employed for the period 1 July 2015-30 June 2016.
- Co-ordination of the EPWP processes.

- Completion of EE Plan with departmental targets for the City;
- Submission of annual compliance reports to the department of
- Submission of annual compliance reports to the department of Labour:
- Work shopping of Labour Component (IMATU & SAMWU) and Councillors on Talent Management Strategy;
- Conducted HR administration road shows for Council employees; Long Service Awards Ceremony (see below pictures)

Awareness Campaigns

- 1. Diversity Programmes Heritage day
- Woman's day Celebration
- Long Service Awards

Challenges

- Introduce an internal standardised selection assessment battery to assist in the recruitment processes;
- Implementation of ERP System for the Self Service System;
- Implementation of electronic Time and Attendance system (Biometric):
- Insufficient Operational budget Allocation for the HR programs.

Training and Development

The Vision of Training and Development is to ensure that Council has a skilled and capable workforce to support inclusive growth and development of skills within the City.

This is achieved through the co-ordination and provision of quality assured skills development training interventions for Council employees to ensure that they function at an optimal level thus contributing to effective and efficient service delivery.

Skilling of Council employees and Councillors is achieved through relevant training interventions and sustainable development initiatives that cascade skills to all disciplines on all levels within the organisation.

The Workplace Skills Plan (WSP) serves as the strategic document that gives direction to training and development within the Municipality. The WSP is aligned to the National Skills Development Strategy, the Skills Development Act 97 of 1998 as well as the Skills Levies Act 09 of 1999. The WSP, Annual Training Report and Pivotal Report are submitted annually to the LGSETA. Submission of these reports ensures that the Municipality receives its Mandatory grant.

Council's Skills Development Facilitator (SDF) is a member of the Provincial Skills Development Forum (PSDF) and LGSETA SDF Forum. Council also has a Bursary Policy which provides for bursaries for its employees and their children.

Training Committee members attended a training programme on the "Functioning of the Training Committee". During the 2015/2016 financial year, Council employees were trained on the following;

Induction Training:

Senior Manager Induction Programme (SALGA); Computer Induction; Induction for new employees and Induction for Interns and Expanded Public Works Employees (EPWP);

Financial Management Training:

Minimum Competency Training; Contract Management and Internal Audit training.

Management Training:

Executive Leadership Management Development Programme (ELMDP); Knowledge Management and Mentorship / Coaching Training.

Mobile Plant Training:

Brushcutter Training; Operate a Chipper training and Tree / Pole pruner Training.

Adult Education and Training (AET) Asset Management Training ESRI Building Geodatabases Training Workshops for employees:

Customer Care and Communication Skills Training, HR Roadshows and Pre-retirement workshops.

Occupational Health and Safety / Risk Training:

First Aid; Basic Firefighting and Emergency Evacuation Co-ordinator; Confined Space Entry; Incident Investigation; Disaster Risk Management; VIP Protection Officers Training, Hazard Identification and Risk Assessment; Enterprise Risk Management training for the ERM Committee and ERM Risk Champions.

Labour Related / Skills Development Training:

Local Labour Forum Training (LLF) and Functioning of a Training Committee Training.

Artisan / Apprenticeship Training:

Apprenticeship Training for Plumbers and Bricklayers.

Learnerships:

Local Government Accounting (LGAC) Learnership.

Administration Training;

MS Excel; Records Management; Report writer; Call Centre and Correspondence handling training.

During the 2015/2016 financial year, Councillors were trained on the following;

Management Development Programme – MDP; Policy Workshops for Councillors; Financial Management Training, Local Labour Forum Training and MPAC Training.

In-Service Training / Internships

During the 2015/2016 financial year Council placed 97 learners on in-service training at Council.

A Memorandum of Agreement (MOA) was signed between the City of uMhlathuze and the Umfolozi TVET College wherein Umfolozi TVET College provided off-the-job training and Council provided in-service training for learners to be able to graduate. Council offered in–service training to learners from various tertiary Institutions.

Graduate Development Programmes

Council is currently hosting a Graduate Development Programme that is funded by National Treasury through the Infrastructure and Skills Development Grant (ISDG). Graduates are placed within the following Departments, Infrastructure and Technical Services, Corporate Services and City Development. These graduates are paid a salary that has been funded by National Treasury.

Organisational Development And Change Management

Organisational Development

Organisational design refers to the process of aligning the structure of the organisation with its objectives, with the ultimate aim of improving the efficiency and effectiveness of the organisation.

Change Management

Managing change and transition cuts across all the phases of the organisational structuring process. It includes communication and consultation with staff and key stakeholders. How effectively change and transition are managed has a major impact on the final outcome of the organisational structuring processes or any other changes the organisation have to deal with.

Other functions include:

Productivity and continuous improvement

- Efficiency studies;
- Utilisation studies;
- Feasibility studies.

Business process re-engineering

- Cause and effect studies;
- Process analysis;
- Process improvement and workflow analysis.

Job evaluation facilitation

Activities

A number of investigations were conducted by the unit with the aim of improving service delivery by creating additional capacity in different functional units. These functional units include the Office of the Municipal Manager, the City Development Department and the Corporate Services Department. These investigations culminated in reports that were approved by Council. The unit also focused on maintenance of the organisational structure and providing inputs into initiatives of departments to improve on productivity and work relations.

The Organisational Development Unit also focused on the finalisation of job descriptions of all the posts in the Municipality, in order to be in a state of readiness for job evaluation. uMhlathuze Municipality accepted the challenge of hosting the job evaluation of Region 4. A Job Evaluation Committee was established with uMhlathuze Municipality representation on the Job Evaluation Committee. Members of the Job Evaluation Committee were trained and the Committee has commenced with job evaluation

Challenges

The Organisational Development and Change Management Unit is understaffed, which at this stage hampers its efforts to pro-actively conduct productivity studies in the different departments.

Occupational Health And Safety (OHS) Management

Vision

To support Council in the attainment of its Occupational Health and Safety plan, by striving to have zero incidents, impacting on the safety, health and work environment.

Mission

To assist City of uMhlathuze employees, employee representatives, supervisors and management to manage the occupational risk exposure, as effectively as possible.

Strategic Priorities / Aims

The strategy for the Occupational Health and Safety (OHS) Section will be to:

- 1. Identification of Occupational Risk exposures.
- 2. Develop a management system that is OHSAS 18001compliant to manage the occupational risks.
- 3. Communicate the system and standards to all.
- Evaluate the effectiveness of the Occupational Health and Safety management system.

Basic Fire Fighting – Emergency Evacuation Coordinators

Incident Investigation - Managers

First Aid Level 2 - Employees

Employee Assistance Programme

The EAP aims to provide a high quality of proactive and reactive employee wellness services to the staff of the City of uMhlathuze by implementing and developing effective, supportive and accessible wellness programmes for all employees and their families.

The following awareness campaigns were conducted during the period under review:

- Cancer Awareness;
- TB Awareness; and
- STI/ condom week

Other programmes included:

- Spiritual uplifting programme (prayer day)
- Employee wellness day
- Financial education and Consumer Rights Protection

Pictures from the above awareness campaigns are included below:

Labour Relations:

The core function of this section is to maintain and control the application of specific procedures associated with sound industrial relations climate by attending to and guiding disciplinary and grievance processes, reporting to specific Committees on the status of the function, capacitating Management Representatives on the application and interpretation of policies and agreements, in the long run thus ensuring proper function of Council.

Labour Relations co-ordinates frequent meetings with Organised Labour to keep abreast with internal labour related developments within the sector and in particular the Municipality

Disciplinary Matters:

There were 30 disciplinary hearings that took place during this financial year. The following schedule indicates the type of misconduct committed, incidents of such misconducts and sanctions emitted. Cases that were postponed and or pending do not feature in the table below:

TYPE OF MISCONDUCT	NUMBER OF INCIDENTS	CHARGES WITHDRAW	WRITTEN WARNING	FINAL WRITTEN WARNING	DISMISSAL
Absenteeism	12	4	4	6	2
Abscondment	2	n/a	n/a	n/a	2
Dishonesty	4	n/a	n/a	1	3
Insubordination	6	1	3	2	n/a
Negligence	4	1	n/a	n/a	3
Sexual Harassment	n/a	n/a	n/a	n/a	n/a
Damage to Property	3	1	n/a	n/a	2

Disputes Referred to The SALGBC and Awards:

NATURE OF DISPUTE	NUMBERS	SETTLED	DISMISSED	AGAINST EMPLOYER	REFERRED TO LABOUR COURT
Unfair Dismissal – Resigned upon Discipline	1				
Unfair Dismissal – Sexual Assault	1		1		1
Unfair Dismissal – Dishonesty	1		1		

Transfer of Staff:

Facilitated the negotiations on the disestablishment of Ntambanana Municipality.

Training:

- Local Labour Forum's training;
- Labour Relations Employee engagement session;

Team Building Exercise between Management and Labour Component:

Information Communication Technology (ICT)

ICT Section performance is continuously assessed on a monthly, quarterly and yearly basis by various structures as follows:

ICT Steering Committee:

The committee meets monthly to assess the performance of the ICT Section and discuss the reports submitted. The members of the committee are the Municipal Manager, Deputy Municipal Managers and the ICT Manager. Officials representing various departments with ICT interests sit in the committee but do not take part in decision making.

Corporate Services Portfolio:

The ICT Section also submits performance and progress reports to the Corporate Services Portfolio Committee.

Internal Audit Services:

The ICT Section is audited on a regular basis, and submits performance reports to the Internal audit Service as and when required.

Audit Committee:

On a quarterly basis, the ICT Section submits progress reports to the Audit Committee with special focus on the progress in addressing the critical issues listed the ICT Risk register.

Auditor General:

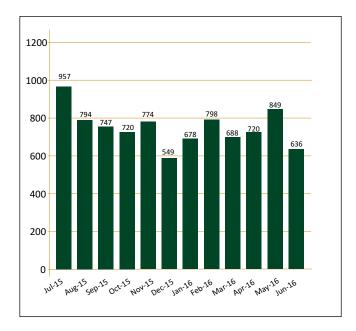

The ICT Section is audited annually by the Auditor General to ensure compliance with relevant legislation, frameworks and performance targets thereof.

ICT Service Delivery

The Service Delivery sub-section of ICT is responsible for the following:

- Establishment, management and maintenance of a functional and effective ICT Service Desk.
- Provision of ICT support services to the end-users as per logged support requests.
- Reporting on logged, resolved and closed support requests.
- Planning, installation, upgrade and relocation of end-user equipment including office automation.
- Planning, installation and upgrade of end-user software.
- Maintenance of the ICT Asset Register

The graph below show the number of requests logged with the ICT Service Desk for the reporting period by month.

The following statistics show the number of calls opened with and closed by the ICT Service Desk for the reporting period.

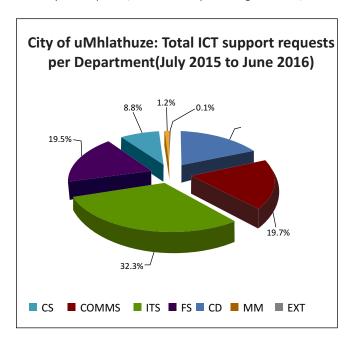

The following statistics show the number of calls opened with and closed by the ICT Service Desk for the reporting period.

STATUS	Jul- 2015	Aug- 2015	Sept-2015	Oct- 2015	Nov-2015	Dec-2015	Jan- 2016	Feb-2016	Mar- 2016	Apr- 2016	May- 2016	Jun- 2016
OPEN	49	173	75	42	20	17	45	42	37	14	20	0
CLOSED	908	621	672	678	754	532	633	756	651	706	829	636
Total	957	794	747	720	774	549	678	798	688	720	849	636

Number of support requests per Ticket State (status) on the date of reporting:

The following chart shows the number of calls opened with the ICT Service Desk for the reporting period per department.

CS = Corporate Services, **COMMS** = Community Services, **FS** = Financial Services, **ITS** = Infrastructure and Technical Services, **CD** = City Development, **MM** = Municipal Manager's Office, **EXT** = External

ICT Infrastructure

There are two focus areas of the ICT Infrastructure sub-section:

- Network Connectivity Infrastructure: that entails planning, installation, configuration, support, maintenance and management of all voice and data network devices including access control and CCTV cameras. This sub-section is also responsible for cabling including fibre and wireless radio network infrastructure.
- Server Infrastructure: including planning, installation, configuration, support, maintenance and management of all servers within the City of uMhlathuze, including backup, DRP (Disaster Recovery Plan) and ICT Service Continuity planning, implementation, testing, and maintenance.

It is imperative that the Municipality is able to continue servicing the public during times of disaster hence the implementation of an effective DRP and ICT Continuity Plans.

ICT Governance and Projects

This sub-section exists to assist the ICT Manager in providing strategic direction for the entire ICT Section, to ensure that ICT goals are aligned with business objectives and are achieved, risks are managed appropriately, and resources are allocated used responsibly. It also ensures proper planning and management of all ICT related projects for the City of uMhlathuze. Key activities include:

- Supporting the ICT Manager in the provision of strategic direction for the ICT Section
- Establishing and documenting acceptable Information Technology policies, procedures and standards
- Capacity Planning, risk assessment, management and mitigation including DRP (Disaster Recovery Planning) and the ICTSCM (ICT Service Continuity Management)
- Conducting compliance audits, coordinating all internal and external ICT audit requirements and formalising corrective action plans and management responses
- Preparation and co-ordination of all ICT reports.
- Continual improvement and change management
- $\bullet \hspace{0.4cm}$ Planning, co-ordination and management of all ICT projects

As part of good governance, the ICT is required to develop and implement sound security policies to ensure that employee data and all other Council information assets are adequately protected at all times. The following ICT policies were reviewed, approved on 31 March 2016 and implemented by Council during the reporting period in compliance with the adopted COBIT Governance Framework and the CGICTPF (Corporate Governance of ICT Policy Framework).

- 1. ICT Governance Policy;
- 2. ICT Change Control Policy;
- 3. ICT Disaster Recovery and Service Continuity Management Plan;
- 4. ICT Security policy (main policy);
- 5. ICT Utilisation Policy;
- 6. ICT Network Password Policy;
- 7. uMhlathuze Enterprise Architecture in line with GWEA (Governmant Wide Enterprise Architecture).

Completed ICT Projects

- Fibre Route Phase 1 between Richards Bay and Empangeni Connecting the two main towns;
- 2. Enterprise Resource Planning Phase 1 (Business requirements gathering and process mapping consulting);
- Customer Relations Management System for logging, tracking and reporting on customer queries;
- 4. ICT Governance Review in line with GWEA and COBIT;
- Development of the Richards Bay Airport Website (www.richardsbayairport.co.za);
- Fibre Internet Link installed in Richards Bay Main Office (Civic Centre);
- 7. Personal computer equipment replacement/ refresh;
- 8. Mobile GIS applications for Scientific Services;
- SHE online system for logging and tracking and reporting on safety and health related incidents;
- 10. Novell ZEN Works Solution for remote update and management of desktop equipment;
- 11. ICT Network Switch Infrastructure Upgrade Phase 4.

ICT Projects in Progress

- 1. Fibre Route Phase 2 between Empangeni and Esikhaleni;
- 2. IP PABX Telephone System with Call Centre functionality rental for 2016 to 2019;
- 3. Printer Rental Solution for the period 2016 to 2019;
- 4. Enterprise Resource Planning Phase 2 (Implementation);
- 5. Financial Department Self Service Kiosks.

Projects by other Departments where ICT provides support

1. MSCOA (Municipal Standard Chart of Accounts) Pilot in line with National Treasury Requirements.

Planned Future Projects

- 1. Biometric Access Control and Time and Attendance;
- 2. Fraud and Security Management System;
- 3. RFID system for ICT Asset management;
- 4. Visitor Management System;
- 5. Wi-Fi Broadband/ Public Wi-Fi;
- 6. Fibre Route Phase 3 between Richards Bay and eNseleni;
- 7. Fibre Route Phase 4 between Richards Bay and Meerensee;
- 8. User Environment Maintenance;
- 9. Inventory Management System;
- 10. Video Conferencing facilities;
- 11. Early tamper detection for underground cables;
- 12. ICT Rollout Mobile Application;
- 13. Occupational Clinic System;
- 14. Cabling infrastructure upgrade (Empangeni Civic 1 and 2);
- 15. Replacement of delegate system: EXCO and Empangeni Civic 1;
- 16. Ntambanana ICT Network Link to Empangeni Civic 1;
- 17. ICT Governance Tool

COMMUNITY SERVICES

Methews Oliphant Deputy Municipal Manager

As I look back on the 2015/2016 financial period I am proud to report that "performance with purpose" is woven into the fabric of this Department. The year can be summed up as one of hard earned successes, but also one that posed many challenges. Our aim, to touch the lives of all citizens living in the uMhlathuze municipal area is clearly displayed in this annual report which is a testimony of our commitment to service delivery to the entire community.

Key achievements for this department during the 2015/2016 financial year are as follows:

- The establishment of two (Waste) Material Recovery Facilities that enables the optimisation of waste;
- Establishment of a partnership with "Wildlands Conservation Trust" to optimise recycling and job creation by providing a platform for small scale recyclers to operate from;
- Successful procurement of a Calibrator and "Zero Air Generator" to calibrate Ambient Air Quality Monitoring Stations to ensure accurate readings & air quality statistics;
- Establishment of an Industrial Data Base to enable effective Air Quality Management.;
- Construction and establishment of a fully functional Occupational Health Clinic;
- Successful procurement of a 37m Hydraulic Ladder Platform Fire Engine as well as three 4x4 LDV's with Bush Fire-Fighting Skid Units:
- LGSETA Accreditation for the Fire and Rescue Services Training Centre for First Aid Levels I, II and III Basic Fire fighting Courses;
- Establishment of one-stop facilities for cemetery services
- Phased development of public open spaces (Parks)
- Refurbishment/development of 5 Sports and Recreation facilities;
- Successful rehabilitation of Alkantstrant beach area;
- Construction and establishment of new Library in Aquadene and upgrade and expansion of eSikhaleni Library;
- Successful establishment of Arts and Culture Component for outreach and development of artists in various genres;
- Refurbishment of 6 Halls/Thusong Centres in different Wards;
- Effective traffic management of both major and minor events; and
- Establishment of effective VIP Protection Unit.

Public Health and Emergency Services:

Waste Management Services

"Preserving a Healthy Environment"

The Constitution of South Africa, 1996, provides the foundation for environmental regulation and policy in South Africa. The right to environmental protection and to live in an environment that is not harmful to health or well-being is set out in the Bill of Rights (section 24 of Chapter 2).

This fundamental right underpins environmental policy and law, in particular the framework environmental legislation established by the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA).

The Waste Act fundamentally reforms the law regulating waste management, and for the first time provides a coherent and integrated legislative framework addressing all the steps in the waste management hierarchy.

Strategic Goals

The eight strategic goals around which the uMhlathuze Waste Management Strategy in line with National Waste Management Strategy (NWMS), are structured is as follows:

- Goal 1: Promote waste minimisation, re-use, recycling and recovery of waste.
- Goal 2: Ensure the effective and efficient delivery of waste services.
- Goal 3: Grow the contribution of the waste sector to the green economy
- Goal 4: Ensure that people are aware of the impact of waste on their health, well-being and the environment.
- Goal 5: Achieve integrated waste management planning.
- Goal 6: Ensure sound budgeting and financial management for waste services.
- Goal 7: Provide measures to remediate contaminated land.
- Goal 8: Establish effective compliance with and enforcement of the Waste Act.

In terms of City of uMhlathuze Waste Management the following has been achieved, in line with its strategic goals,

Goal 1: Promote Waste Minimisation, Re-use, Recycling And Recovery Of Waste.

Under this goal, several programmes have been implemented in order to minimise waste that goes to landfill site, whilst at the same time benefiting the communities.

Recycling

Two Material Recovery Facilities (MRF) have been built and are operational. Drop off-points such as Alton MRF, eNseleni MRF, Essenwood Drop Off, Meerensee Drop Off and 5 nodes in which recyclables are collected are also operational.

A partnership has been established with Wildlands Conservation Trust and the Municipality is working other small scale recyclers in the City in order to optimise recycling. The main aim here is the implementation of a hierarchy as shown below.

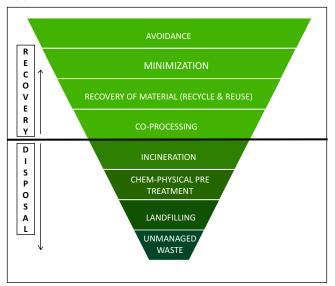

Table 1The following table shows a breakdown of different waste streams recycles in the year at hand.

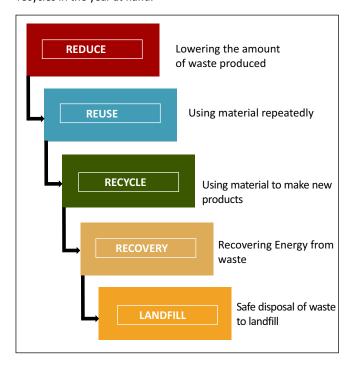

Table 2

MONTH	RECYCLABLES IN TONS	% WASTE MIN
Quarter 1	2 659	19%
Quarter 2	3 230	22%
Quarter 3	3 280	23.%
Quarter 4	3 110	22%
Total	12279	21.5% Average

Tabe 2 above reflects that 21.5% of the waste generated and landfilled within the City of uMhlathuze boundaries was recycled or reused. The recycling programme has benefitted a number of individuals in the green economy whom we refer to as Waste Entrepreneurs and further contributes to achieving Goal 3 which deals with the contribution of the waste sector to the green economy.

Goal 2: Ensure The Effective And Efficient Delivery Of Waste Services

In terms of the Constitution the responsibility of waste management functions are to be devolved to the lowest level of government. It is therefore clear that the City is responsible for Waste Management within its area of jurisdiction and has to ensure proper handling of waste thus preserving a health and safety environment.

The following are the daily core operations carried out to achieve goal 2

- Weekly waste collection and disposal thereof at an approved landfill site.
- Street and rank litter picking and public ablution facilities cleaning.
- Street and rank litter picking and public ablution facilities cleaning.
- Recovery of re-usable and recyclable material from the main stream of waste.
- Clearing of illegal dumping within the City of UMhlathuze.
- Plans to eradicate backlog.

Table 3

QUARTER	NO OF TRIPS	TONAGE OF WASTE DISPOSED OF
1 st Quarter	2 008	10 982
2 nd Quarter	2 059	10 327
3 rd Quarter	1 857	9 526
4 th Quarter	2 076	10 293
TOTAL	8000	41 128

A total of 8000 **trips** were made to the uThungulu Regional Landfill Site and Alton Recycling Centre and 41128 tons of waste was disposed during 2014/2015 period.

A total of about **77%** (65102) on average of total households (86000) had access to the basic weekly solid waste removal service at the end of June 2016.

Goal 4: Ensure That People Are Aware of the Impact of Waste on their Health, Well-being and the Environment.

A number of Community Clean up campaigns were carried out involving scholars from schools and community members.

Waste Management has a partnership with the National Department of Environmental Affairs under the "Youth Jobs in Waste Program" in which youth members identified in the Community work with the section in educating communities on the negative environmental effect of improper management of waste.

In 2015/2017 there were 26 waste management environmental awareness campaigns which took place in schools and communities in the form of clean up campaigns, school talks and door to door campaigns. All this was aimed at ensuring that people start recycling and discourage illegal dumping so as to promote a healthy environment. In conducting these campaigns several awards have been bestowed on the Municipality.

Goal 5: Achieve Integrated Waste Management Planning.

The City of uMhlathuze has finalized its updated integrated waste management plan (IWMP) which will be implemented in the next five years.

One of the new exciting projects will be the alternative treatment of waste rather that landfilling. The City is currently busy with study on "Diversion of waste away from landfill site", which is funded by the German Government through the National Department of Environmental Affairs. This study is being implemented by GIZ and will be finalized in the next financial year.

Goal 6: Ensure Sound Budgeting and Financial Management for Waste Services.

Within the constraints of a limited budget the section has managed to expand services to rural areas that previously did not have access to these services. This is unfortunately putting more pressure on the budget. The Section has carried out a survey within its current business so as to ensure that customers receive the service they pay for at all times. The Section has further stabilized expenditure on overtime and currently only allows for planned and approved overtime. Further avenues are being investigated to ensure that more is done within the limited funding available.

Goal 7: Provide Measures to Remediate Contaminated Land.

This section has developed a comprehensive plan on illegal dumping which outlines the role of each and everyone within our jurisdiction, ranging from business, contractors, garden services, law enforcement and even media in order to addressl illegal dumping and land pollution.

This plan has yielded good results even before it being fully implemented. Communities are sending information and culprits are caught on the spot.

Goal 8: Establish Effective Compliance with and Enforcement of the Waste Act.

In terms of the Waste Act, all handlers of waste should be registered with the Waste Management Officer. Currently there is a number of waste handlers who have registered already, and who assist with the proper profiling of waste.

Air Quality Management

The Air Quality Management Unit (AQMU) is a component under Community Services. The role of AQMU is to ensure that the environment is protected by providing reasonable measures for prevention and enhancement of air quality for the sake of the Citizens within the City of uMhlathuze.

Objectives

- To comply with the Constitution, NEM: AQA 2004 & other related pieces of legislation
- To be in line with the NAQF in attaining compliance with ambient air quality standards, and give effect to the Republic's obligations in terms of international agreements
- To effectively communicate air quality status information to all levels of the society, from experts in the field to primary school children and the ordinary citizen on the street
- To improve information sharing with other spheres of government and relevant institutions dealing with air quality.

Mandate on Air Quality Management

City of uMhlathuze has an obligation to ensure that Section 24 of Chapter 2 of The Constitution of the Republic of South Africa of 1996 stating "Everyone has the right an environment that is not harmful to their health or well-being". Furthermore the organization has a mandate to adhere to legislation such as the National Environmental Management Air Quality Act of 2004.

2015/16 Milestones

Inspections

There were eighty seven (87) inspections conducted. These inspections include various types of industries such as smelters, pulp and paper mills, chemicals, harbour, iron steel, fertiliser, coal exporters, mineral mining, forests, blasting and sugar cane.

Complaints

There were one hundred and two (102) complaints attended. These complaints include spillages, odour, burning, etc. Out of 102 complaints, 58 were related to overgrown private owned properties.

Awareness Programmes

The awareness programmes are based on bringing awareness to various stakeholders including schools, clinics, ward meeting and informal industries. The awareness focuses on:

- Sources of air pollution
- Effects of air pollution on the environment and human health
- Strategies to embark on to minimize air pollution
- Indigent Burial Assistance Policy
- Clinic Awareness Programmes

Eight Clinics were visited during the 2015/2016 financial year.

Richards Bay Clinic

Phaphama Clinic

Mandlazini Clinic

Khandisa Clinic

Empangeni Clinic

Thokozani Clinic

Isiboniso Clinic

Ward Meetings

Six (6) ward meetings were attended, i.e. Hlanganani Community Hall (Ward 20), Mabamba Clinic (Ward 29), Nqutshini Primary School (Ward 29), eNiwe Community Hall (Ward 29), Dumisani Makhaye (Ward 9) and Anglican Church (Ward 21)

Hlanganini Community Hall (Ward 20)

Mhlanga – ePhayindana (Ward 29)

Anglican Church (Ward 9)

Schools

Awareness programmes were presented at eleven (11) schools. They include Ingweni, Kwandisa, Engalangala, Gobandlovu, Wood & Raw, Maqhama, Musi, eNiwe, Kati, Vondlo and Bhejane Primary Schools respectively.

Scheduled Trade Permits

Thirteen (13) Scheduled Trade Permits including renewals were attended to during the period 1 July 2015 to 30 June 2016, that includes 3 New Scheduled trade permits, 2 Renewals and 8 were in progress as at 30 June.

Notices

Fifty Nine (59) Non-compliance notices were issued during the reporting period and include 4 to Industries, 51 were issued in respect of overgrown properties and 9 to swimming pool owners for non-compliance.

Pest Control

Twenty one (21) requisitions were issued for perst control for the removal of bees.

Indigent And Pauper Burial Assistance

There were 250 Indigent burials and 32 Pauper burial applications that were processed at a cost of R597 219.

Ritual Slaughter

A total number of sixty nine (69) ritual slaughter applications were processed and permission granted.

Overgrown Privately Owned Properties

A total number of 401 overgrown properties were cut and cleared to promote the safety of the community

Projects

The following projects were successfully completed during the 2015/2016 financial year:

 A Calibrator and Zero Air Generator were procured to calibrate the Ambient Air Quality Monitoring Stations that were installed towards the end of the 2014/2015 financial year.

- An Industrial Database has been established. A project to register all industries within the City of uMhlathuze was conducted in 2015. A total number of 704 industries were recorded in our database. A number of 30 EPWP were employed to assist in this project.
- 3 Air Quality Management Awareness sign boards were erected during the 2015/2015 financial year.

Occupational Health Clinic

New Occupational Clinic

The building of the new Occupational Health Clinic in Alton is nearly completed. This will serve all employees in City of uMhlathuze. There will be two occupational clinic for employees, one in Empangeni and the new clinic being built in Richards bay, Alton.

Medical Surveillance

Medicals surveillance is being done on employees per department. This is to prevent any occupational disease and ensure early detection of occupational and chronic disease to promptly start intervention. With pre-employment is to establish if the future employee is health and fit for the position to eliminate risk and to comply with the Occupational Health and safety act of no 85 of 1993. Exit medicals are being done to establish the health status of employee on exiting the municipality.

Depot Visits

The clinic has been visiting the depots and inspected the first Aid boxes. The clinic with the peer educators is filling the condom containers. Health topics are given monthly to peer educators.

Department Visits

The doctor has been visiting department to identifying health issues. These findings are then incorporated into the annual medicals. This is to protect the employee against any harm in the work place.

Clinic Visit Per Quarter

	JUL – SEPT QUARTER 1	OCT-DEC QUARTER 2	JAN-MAR QUARTER 3	APR-JUN QUARTER 4	ANNUAL TOTAL
Total Head count	3361	3042	2760	2830	11993
Minor ailments attended to	1 435	3042	1 529	1 283	5 716
Pre-employments examinations	40	3042	20	34	159
Total medical surveillance examinations	550	3042	445	305	1594

The clinic attended to 11 993 employees in the 2015 – 2016 financial year. 5 716 employees were treated for minor illness during the financial period. A total of 1 594 medicals were conducted with 159 being pre-employments.

Fire and Disaster

The Fire and Rescue Services excelled once again in the quality and quantity of the service delivery that it provides to the community. Loss of life and property has been kept to a minimum due to effective fire fighting, rescue, hazardous material incidents and fire prevention activities. This is due to the dedication and loyalty of all staff that have once again gone that extra mile for the community that they serve and protect.

The Fire and Rescue Services expanded its vehicle fleet with procuring the following vehicles:

37 Meter Hydraulic Ladder Platform Fire Engine

The hydraulic ladder platform fire engine is fully operational and is utilised during fire-fighting and rescue operations in multi-storey buildings, industrial structures as well as ship related incidents. The rescue of patients and occupants from multi-storey buildings, e.g. hospitals, hotels, schools, etc. can be carried out effectively with this specialised piece of equipment.

4 X 4 Ldv's With Bush Fire-fighting Skid Units

The three 4 x 4 Light Delivery Vehicles with Bush Fire-Fighting Skid Units mounted on the back ensure effective fire-fighting. The skid units can be removed from the Light Delivery Vehicles with ease, thus releasing the vehicles for other duties and reloaded within minutes in the event of a fire.

The purchasing of the above vehicles has further enhanced service delivery within the City of uMhlathuze area of jurisdiction.

Emergency Generator

The Fire and Rescue Services have procured and installed a fully operational emergency generator in the event of power outages and can therefore continue with day to day operations.

Training Division

LGSETA ACCREDITATION FOR FIRST AID LEVEL I, II III & BASIC FIRE FIGHTING COURSES

The City of uMhlathuze Fire and Rescue Services obtained accreditation from the Department of Labour to present First Aid Level I, II and III and Basic Fire Fighting Courses.

Disaster Management

- Assistance in the form of food parcels, blankets and shelter was given to families within the City of uMhlathuze area of jurisdiction whose residences were destroyed by fire and / or natural disasters.
- Standby duties were carried out at various mass public gatherings/ venues throughout the City of uMhlathuze during the year and as a result of good pre-planning, no incidents were reported.
- The Disaster Management plan for the City of uMhlathuze was kept updated throughout the year and was tested on various occasions by means of evacuation drills and other emergency exercises which took place at industry, commerce, medical institutions and schools.
- Various emergency plans were received and scrutinized from major industry, commerce, medical institutions and schools and were placed on file.
- During the year Fire Awareness Campaigns were conducted where scholars received educational information and/or career guidance.

Environmental and Recreational Service, Arts & Culture

Horticulture & Cemeteries

Cemeteries

The provision of interment services is the integral part of our service provision to the community. Currently there are two fully operational cemeteries within the City of uMhlathuze that being in Richards Bay and eSikhaleni. There are also non-operational cemeteries at Empangeni, Nseleni and Vulindlela. General maintenance was performed during the past financial year on all of the above-mentioned cemeteries.

Interments are performed primarily over weekends thaty has a direct impact on the overtime budget which has increased substantially over the past few years. Council remains with the responsibility to cater for this service to the public regardless of challenges at hand. The average number of burials conducted per month ranged between 54 to 60 internments

It is worth noting that Council is streamlining the service delivery to the community by providing One Stop facilities for cemetery services that includes the booking/reservation at the following treasury offices

- eSikhaleni Treasury Office (Hlanganani and New Hall)
- Vulindlela Treasury Office
- eNseleni Treasury Office
- Richards Bay Treasury Office (Civic Centre)
- Ngwelezane Treasury Office
- Empangeni Treasury Office

During the same financial year an amount of R 1 506 950.00 was spent on the further development/ extension on the eastern side of Richards Bay cemetery which included paved internal roads.

Horticulture

General maintenance is performed in all suburbs and municipal staffs are assisted by private contractors to maintain various identified areas from time to time.

Large areas of overgrown vegetation were also cleared adjacent to residential, businesses and other public amenities to keep the city clean, prevent crime and to ease future continued maintenance. The Section has also made use of the service of EPWP employees to continue with the rendering of services to the community

Aboriculture And Maintenance

A successful arbour week was hosted by City of uMhlathuze in conjunction with local public schools that included John Ross College and Aquadene Secondary School. The mayor together with other stakeholders planted the tree of the year.

The planting of indigenous trees continued over the past financial year. The department took a different approach this time by planting more developed/matured trees, particularly in the newly developed park at Esikhaleni. Street trees were also planted at Dumisani Makhaye Village and eNseleni. However, the threat of vandalism is still a reality as some of the trees planted were vandalised just a few weeks after they were planted.

• Public Open Spaces

A phased park development at Esikhaleni has commenced and an amount of approximately **R 1 250 000** was spent over the past financial year. This phased park development is being developed on Erf 396 in eSikhaleni. The department has completed portion earthworks, fenced the area under development and planted various tree species. The next phase will be the installation of paved walkways, walkway lights and permanent barricade fence. Since it is a phased development, various infrastructure will be erected and made available at various stages of development.

Before any grass can be planted, suitable topsoil had to be brought into the area

Arrival / delivery of well -established trees at the park development site

• Landscaping : Community Halls

The objective of landscaping projects is to provide the community with an outdoor setting which can be used for recreational purposes. Greening projects are also part of uplifting communities and making them realize that they are part of the global village that we live in. Green spaces are very important in the environment that we live in. By creating green areas we are improving the environment. In many of our projects we strive not only for aesthetic appeal but for functionality and to use plant material that will not only look pretty but last and will be environmentally friendly.

Garden at eNseleni Hall **Beginning**

Current

• Future Projects

The planning and the conceptual landscaping designs of erven 1370, 2449 and 1432 in Ngwelezane and Dumisani Makhaye Village were completed and the phased development of these public open spaces will commence on the availability of financial resources.

Environmental, Alien And Invader Control

In co-operation with the KZN Department of Agriculture and Environmental Affairs who provides the funding for the Alien Eradication and Invader Control projects, the uMhlathuze project has spent approximately **R1.8m** on clearing work during the past financial year. The major components that constitutes the expenditure are Wages R 964 144, Transport R 307 164, Herbicide control R 89 262. An area of 2333 hectares has been cleared on follow up and 11 155 person days have been achieved over the past year. Without the aforementioned Department's financial support, Council would not have been able to successfully fund, perform and maintain such projects.

Sport and Recreation

Milestones and achievements during the year under review include the following:

• Senior Citizens Golden Games

These games which are played by senior citizens are aimed at promoting active ageing. Senior citizens compete in games such as soccer, athletics, ball relay, jukskei, rugby ball throw, duck walk, ring the stick, dress-up and many more. This programme starts at ward to cluster level after which it's UMhlathuze Golden Games. Athletes selected at UMhlathuze Golden Games get to participate at District level after which they represent the District at the Provincial Games. Those selected at Provincial Games get to participate at the National Golden Games. About 18 senior citizens from UMhlathuze participated at the 2015 National Golden Games in Kimberly.

• Salga Kzn Games

SALGA KZN Games are rated as one of the main annual events in the Provincial Sport Calender. These games are played in all municipalities with an aim of unearthing and nurturing new talent. Athletes are selected during elimination games to represent their respective wards, clusters, local and district municipalities at provincial level. The City provided about 70 percent of athletes to Team uThungulu that participated in the 2015 Provincial Salga Games at ILembe District Municipality. Through the SALGA Games, uMhlathuze has produced many professional athletes in codes such as Netball, Football and Basketball and Volleyball.

• Education And Training

To capacitate sport administrators, coaches and other technical officials, different workshops were presented. Sport codes which benefitted in these workshops were Football, Chess, Rugby and Karate.

Disability Sport

This programme is aimed at encouraging a healthy lifestyle in people living with disabilities which is done through participation in various sporting activities. A sports day was held at Thuthukani School for the disabled where sport equipment was donated and various sport codes were played on the day.

Sport Facilities

The following facilities were completed and handed over to the respective communities during the 2015/16 financial year:

- New ablution facilities and Combi court were constructed at Mandlazini (Ward 4).
- New Combi court was constructed at Ngwelezane (Ward 28).
- New ablution facilities were constructed at eNseleni's Muzuvukile (Ward 6)
- New ablution facilities were constructed at Ndesheni (Ward 13).
- Upgrades were completed at the uMhlathuze Sport Complex Athletics Track

Pools

The swimming pools opened on the $1^{\mathfrak s}$ September 2015 for the new season.

The hot conditions during this season did attract large number of patrons/public. All the swimming pools hosted regular school galas and the Learn to Swim programs. Schools on the outskirts of neighboring towns also visited the swimming pools for school excursions. The Arboretum swimming pool hosted about 40 swim galas while Empangeni pool hosted 10 galas. Pools were fully utilized during the out of season period for Baptism by various churches within the City of uMhlathuze.

Beaches

The amazing weather all year round and the well-protected beaches did attract crowds of people throughout the year. Due to Council having shark nets that extends for kilometers along our stretch of beach, bathers and surfers feel much safer to use the beaches. Tourist from all over the world visited our beaches during the 2015/2016 financial year.

Harsh sea conditions eroded most of our coastline and severely affected the City's main beach. Council invested about R9 million rand in placing Geobags as a defense mechanism to prevent any further eroding. With the assistance of Transnet, the continuous dredging did allow for the beach to be restored to a certain extent.

Events that took place at the beach during the year:

- 4 surfing competitions
- 1 modeling contest
- 1 surf ski competition
- Several fishing competition
- 4 Skate boarding competition

The festive season averaged about 16000 bathers daily and about 150 000 on New Year's Day. During these days a number of rescues were performed with no serious fatalities during hours. Richards Bay is proud to boast having the most magnificent beach and waves in the north coast also the most spectacular skate park in the country.

The main beach, Alkantstrand, is well guarded and a safe beach throughout the year. There are 3 security guards on patrol during the open time and several SAPS on regular patrol day and night.

The Management team is grateful to the staff for their efforts in the upkeep of Council's facilities within the Amenities section.

Arts and Culture

Libraries

The period 1 July 2015 to 30 June 2016 was a busy period for Council's Libraries and is evident in the following statistical data.

Circulation:

	Richards Bay	Empangeni	Ngwelezane	Felixton	eSikhaleni	eNseleni	Brackenham
July 2015 - June 2016	88 989	41 900	2 514	2 260	9 439	13 306	6 113

Total UMhlathuze Libraries (Active members): 52104

School Projects:

uMhlathuze Libraries have become research hubs. Many learners made use of the internet services and books available at the respective Libraries to do research for projects. The libraries are used throughout the year by many learners and tertiary students for studying.

A number of school visits were also accommodated during the year.

Projects facilitated for difference schools in the uMhlathuze area during the 2015/2016 financial year include:

- Maps
- State of the nation address
- Visual arts
- Mandela Day
- The national budget
- Bridges
- Careers
- The human body
- Substance abuse
- National budget
- The story of Easter
- South African democracy
- South African coat of arms
- Careers
- Substance abuse
- HIV and aids
- Freedom Day
- The electoral procedure in South Africa
- Tuberculosis
- Asthma
- HIV and Aids
- Scientists
- Labour Unions
- Paper making process
- Worker's day/May say
- The electoral procedure in South Africa

- Religions
- Careers
- Democracy and Rights
- Women Politicians in South Africa
- Labour Unions
- Paper making process
- African Union

Displays:

Displays play a very important role in promoting the library material. Displays presented include:

Our Heritage

Libraries Online

Nelson Mandela & Nadine Gordimer

Outreach - Programs (Library Promotions)

• SAVF (Old Age Home), Veldenvlei

One of the outreach Programmes conducted by library staff is the book delivery services that is offered to the mentioned home. A number of retired individuals who are unable to visit the library to get their own books are catered for. Books (based on the individual's request and preference) are delivered twice a month on a block loan to the home. A library card was created against which a block loan is issued. These books are exchanged twice a month to keep them reading.

• Ntongande High School (Mzingazi)

Staff delivered books and met with a teacher librarian from the school. Assistance was offered with setting up a library.

Nawe Zifunze Disabled Centre

Staff met with the management of the centre and established a relationship with this centre that is based in Mzingazi outside Meerensee. The library delivered old magazines as well as a Block-Loan of books based on their preferences. Part of the reason for this will also be involved in literacy programmes with the individuals at the centre.

• Lungelo Youth Development Centre (Mzingazi)

Library Staff visited this Centre to establish a working relationship based on their needs. The Centre comprises of a Pre-School as well as a Youth development establishment. We reached an agreement to visit and deliver books and also conduct storytelling and book reading activities.

Board Games (Chess, Mlabalaba & Snake and Ladders)

With school kids coming through in the afternoons from school and while waiting for their parents to keep them occupied we (library staff) help them with the playing of the aforementioned games. Gaming is used to attract the younger generation to Libraries.

Story Telling/reading

This service is offered in Libraries in an attempt to attract younger children to the Libraries. Parents are happy and children take books home for the parents to read to them.

Information Communications Technology (ICT)

RFID System (Radio Frequency Identification)

This new system has been installed at the library (Richards Bay). It consists of a **RFID Compliant Security** gate; this is situated at the exit to ensure safety of the library stock as anyone exiting the library has to go through the mentioned gate.

- Self-Check In system Also as part of the RFID system, this unit
 is located next to the library exit and patrons are now able to
 return their items during and after hours unassisted and they
 get issued a receipt as proof that their items has been returned.
- Self-Check IN/OUT System This unit that is located inside the library, that looks like an ATM, As the name says, Patrons uses this popular unit to take out books and renew as well as return their borrowed books, it also has a functionality whereby a library user can look at their library account and they are issued a receipt also for all transactions done

• Toy Traning At Enselni Library

Mzo Zuma from the KZN Library Services Promotions section came to conduct training of library staff and local Crèches (Teachers), on how to take care of the toys, what is their meaning and how to play toys.

• World Play Day: Mzuvukile Sportfield (Enseleni)

Word Play day took place at u Mzuvukile Sportfield on the 19 May 2016. Educators and Learners from 12 local schools , kids from 8 $\,$ day care centres , groups of old age centres were all invited to attend this event. The event was hosted by uMhlathuze Librarians supported by the Department of Arts and Culture and KZNPL (KwaZulu Natal Provincial Library) services.

Learners were playing Umlabalaba, chess and gaming. Kids playing with dolls.

Marita Empangeni Library and Mara Felixton Library watching kids while they are enjoying World Play Day.

Fun run: Zinhle with elderly people.

Malusi Radebe and learners were playing basketball

Mara and educator from local day care centre observing learners while they were busy playing with toys

• Gaming at the Library

Participants doing aerobics

• Toy Libraries

KZNP Libraries services donated different types of toys to our Libraries

Kids play with different Toys at Enselni Library.

• Solar Sustainable Energy Project: Donated to Empangeni Library

Library for the Blind

Esikhaleni Library have the previlege of a **Mini Library for the Blind.** This facility is a valuable aid to a group of blind and partially blind member of the community of Esikhaleni as well a many students who attend Esikhawini FET College. This facility provides for a corner with one Computer set and Print reader (Eye pal). We offer large Print books and talking books for the partially blind as well as Daisy reader machines that we order from **NATIONAL LIBRARY FOR THE BLIND.**

This service is very helpful in our communities, it makes those who are affected feel that they are part of the community and boost their self esteem and developes their reading skills.

Esikhaleni Library Extention:

With large numbers of patrons added in the system every month, and many visitors who are non members of the library visiting our library for internet cafe, Esikhaleni library is one of the busiest libraries in the City of Umhlathuze . The library was overcrowded on a daily basis. This gave way to the need to extend Esikhawini Library. The extention of the library started on October 2014 and like with any other project there were sometimes problems which led to delays. Work was completed in November 2015.

Air-conditioner at Ngwelezana Library and Nseleni Library:

Ngwelezana Library;

New air conditioners were installed 3 in the library, 1 in the auditorium, 2 in the group activity room and 1 in the study room 7 in total.

Nseleni Library:

New Air conditioner was installed 5 inside the Library, 1 in the workroom, 1Librarian office and 1 in study Room, 8 in total.

New Library - Aquadene

A new, state of the art Library was completed in Aquadene and handed over to the Community on 30 June 2016 during a formal handover.

A number of KZN Provincial delegates, they Mayor of Umfolozi Municipality and Umhlathuze Council Officials were present at the event that was chaired by Cllr Dawood.

Construction of the 750m² library commenced on 28 July 2014 and was completed at a total cost of R7 045 537 on 22 September 2015.

KZNPL (KwaZulu Natal Provincial Libraries) equipped the Library by provided the shelves, furniture, books and IT equipment.

Museum

The Museum once again had a full program during the period 1 July 2015 to 30 June 2016. Past during July and August the museum displayed a selection, of the permanent Artwork that the Museum owns. Works included those of: Diamond Bozas that is 96 years of age and still painting, Paul Sibisi, Philemon Sangweni, Willis Nxumalo and many more, local artists.

The Museum invest in purchasing local artists works: these works are usually sourced through major galleries and displays, and of very high standard. The value of these works increases every 5 years making it a valuable investment for the Municipality.

During the month of September Zulu Craft and Zulu Beading was showcased. These works were all made by a local entrepreneur, Mr. Linda Masinga that often teaches other people the skill of beading through mediums like Zikulise.

October and November 2015

The Museum showcased the art and craft work of the WI (Woman's Institutes) of the greater Umhlathuze and UThungulu area.

The following groups displayed a variety of magnificent works.

- Empangeni / Inkanyezi WI:

Quilts, crochet items, Mosaic, Patchwork items, preserves, Machine embroidery and much more.

- Mtubatuba WI:

They had an array of very colorful patchwork quilts and many crochet items like miniature dolls, blankets etc.

- Richard Bay WI

This group consists of two smaller groups, one evening and one day group. The following could be found amongst their items: Sugar Art, hand embroidery, patchwork quilts, handbags made from different mediums, beadwork

December 2015 - Mid March 2016

This was once again time for the annual **Local Artist Exhibition**. We have had wonderful support from the community in displaying their works at the Museum. Works from some of the people:

Mrs. Mandla Mlotshwa a senior lecturer at Unizul displayed some of his more modern works. Mags lyer, one of council's employees have also submitted several paintings for display.

Mr. Zulu, the Art Educator at the Empangeni High Schools work can also be displayed.

March – May 2016

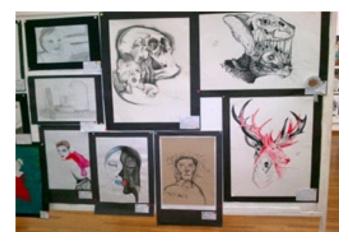

Another selection of works owned by the Museum/ Municipality went on display during these two months. Due to environmental damages that may occur: sunlight, hat, moisture etc. works should be kept in a dark area/ store room and only be displayed at intervals.

June - July 2016 (High School Section)

The Zululand Eisteddfod takes place Bi- annually. All the schools in the greater UThungulu/ North Coast gets invited to participate and compete against each other. We had entries as far afield as Pongola that brought their works to be displayed, and have nearly 300 works on display at the moment.

Halls and Thusong Centres

In 2009, the section administered 11 Functional halls which fall under townships and towns. Council took a resolution of partnership with traditional Authorities to take over the existing rural halls, refurbish and manage them. Partnership with Amakhosi was developed and strengthened by signing the agreements to take over the halls before revamping or refurbishment.

The revamping and refurbishment of these halls has been an ongoing project and during the 2015/2016 financial year the following halls were attended to:

• Kwa-khoza Traditional Authority:

Bhejane Hall (Ward 5): The 2015/2016 budget provided for R914 000 that was allocated for the construction of a Guard House and 3 Offices and refurbishment of the exterior Ablution Facility. The project was completed.

Kwa-Mkhwanazi Traditional Authority:

uMsasandla Thusong Service Centre (Ward 10): an amount of R 1 330 000 was allocated for development of the Thusong Centre. The design plans for the extension of the hall and the library were done and approved in the financial Year 2014/2015. The refurbishment of the centre is in progress at 95% completion for the 2015/2016 financial year.

Ntuze Hall (Ward 11): An amount of R 2 037 511 was allocated to this project in 2015/2016 financial year for the refurbishment of the hall that was completed.

• Kwa-Mthiyane Traditional Authority:

Mandlanzini Hall (Ward 4): an amount of R1 100 000 was used for refurbishment which included tiling, painting, a Stage, Fencing, Roof, Guard House and a 24 hour Security Guard during the 2012/2013 financial year. The hall thereafter burned down and insurance compensation to the amount of R1400 000 was received. The refurbishment project is currently at tender stage.

• Ngwelezane Hall (ward 27):

Funds were provided in the 2013/14 Financial year for the extension of the main hall, plans for additional ablution Facilities, Councilor's Office and Administration Offices. Due to a shortfall in the funding the project could not be completed until additional funds became available in the 2015/2016 budget to supplement the funding requirements for completion. The project stood at 60% complete on 30 June 2016.

• Veldenvlei Hall: (ward 3):

R1 690 000 in total was provided for in the 2014/2015 and 2015/16 budget for refurbishment which included offices, tiling, roof, ablution facilities, ceiling, lighting, Air conditioners, paving and signage.

Port Dunford Community Service Centre (ward 18):

An amount of R 4 000 000 (Four Million Rand) which was part of the Private Public Partnership between Council and Richards Bay Minerals was used for the revamp of the centre Municipality added R450 000 for installation of electricity. Project completed and Handed over by the Minister of Minerals Recourses to City of uMhlathuze

Currently the section is responsible for a total of 21 halls that are situated in urban, rural and township areas. The halls are used frequently by community members for weddings, funerals, church services, Conferences, arts and cultural activities Anniversaries etc.

Arts And Culture Programmes/Events

The following programmes were assisted with/presented during the 2015/2016 financial year:

- 1 July to 30 September 2015:

Assistance in the facilitation of 2 Arts and Culture events were provided, i.e. Umkhosi Womhlanga as well as the Heritage Day in September 2015.

- 1 August to 31 December 2015:

Assistance in the facilitation of 6 Events, i.e. Beach festival, SATMA, Afrika Rize Ragae Fest, Ingoma Fest, Uthungulu Last Dance and Mzansi Perfect Creations: Spring Tour Music Fest were provided.

- 1 January to 31 March 2016:

The Arts and Culture Summit was successfully hosted on 31 March 2016

- 1 April to 30 June 2016:

6 Arts and Culture Events were hosted during the 4th Quarter which included:

- A workshop with KZN Music House on 15 and 18 April,
- Maskanda Competition on 30 April,
- Talent Search through KZN Music House on 7 May,
- Gospel Competition on 21 May,
- World Play Day (Libraries) on 27 May; and
- Educational Youth Festival on 19 June.

On 23 June the Port Durnford Thusong Services Centre was handed over as part of the Project outreach programme.

Public Safety and Security

Traffic

The Traffic Department is divided into:

- The Law Enforcement Division made up of various enforcement teams:
- The Administrative Support Section or Admin made up of clerks; and
- The (Traffic) Communications Centre made up of control room operators.

Vision

"Striving to be the best law enforcement agency provincially and beyond."

Mission Statement

"To do it right, the first time and all the time by effectively enforcing law and promoting road safety through education and other means in a manner consistent with the upholding of our constitutional obligations as enshrined and entrenched in the justiciable Bill of Rights and thus promoting good governance principles."

Departmental Objectives And Values

- Saving lives through effective law enforcement and road safety education.
- Providing a free and safer environment for the local community and all citizens within the City of uMhlathuze through effective law enforcement and crime prevention activities.
- Easy access to law enforcement services by all people.
- Efficient and effective use of resources allocated to the department.
- To foster a culture of law abiding citizens and patrons.
- To realise value for money spent.

Traffic Operations

The Traffic Section has successfully managed both minor and major events during the past year. Below are a list of major events:

Participation

March Against Police Killers.

On the 20th February 2016the local Traffic officers marched against the killing of police officials, educators and traffic officers. The traffic officers came out in their numbers in searing summer heat and marched in uniform along Bullion Boulevard towards the Veldenvlei Sports Complex. At the Sports Complex, senior police officials spoke strongly against these killings.

National Wreathe laying

On the 26th November 015 the Traffic department was represented in the first ever National Wreathe Laying Ceremony which was held at Boekenhoutskloof Traffic Training College in Pretoria. The ceremony was held in honour of the traffic officers who died in the line of duty nationally. The Ceremony was planned by the Road Traffic Management Corporation (RTMC) in partnership with ITMPO-SA and ILOSA.

Operation Oxide

On the 31st of August 2016 Traffic participated in Operation Oxide at the Port – This is an exercise which is aimed at testing readiness in the case of an emergency or disaster taking place at sea such as a hostage situation in the ocean. Other stakeholders which were involved are Disaster Management, SAPS, Traffic, TNPA, EMRS, Port Health, SANDF and French Navy, The Bay Hospital and Ngwelezana Hospital. Although Traffic was ready in place the exercise was called off when real injuries were sustained by those at sea during the exercise.

Water Distribution Project

On 5 March 2016 a Water Project to supply water to the people of Macekane was undertaken by the City. Traffic had to escort the Water Tanker and provide security during the delivery of the water to the community.

Logos Hope or OM Ship- A Regional Event of the Africa Programme

On the 4th May 2016 to the 18th May 2016, the Richards Bay Port Committee comprising of pastors from churches within the City of uMhlathuze, hosted the Logos Hope or OM ship at the Small Craft Harbour. This ship (Logos Hope or OM Ship) is central to the concept of a floating library and ship ministry which is part of a global Christian Training and Outreach Movement that began in 1970.

Since its launch, the OM ship have visited over 500 different ports in 151 countries and territories and welcomed over 44 million visitors on board. This once in a lifetime opportunity to go on board the OM Ship was experienced by the Richards Bay local community. The ship visited Richards Bay as an Africa programme and regional event. Its goal is to bring knowledge, help and hope to the people of the world through the medium of supplying vital literature, encouraging cross-cultural understanding and training young people for more effective life and service, providing needed relief, and sharing a message of hope in God wherever there is an opportunity. The OM ship visited the Richards Bay Port and was opened hundreds of visitors each day of its visit.

Impala Substation Emergency Exercise

Traffic attended an emergency response exercise which took place on the 11th of February 2016 at Athene. The exercise is a statutory requirement of the National Kepoints Act. The Act requires that an emergency exercise be carried out annually to ensure the objective of establishing rapid response to real emergency situations at the substation.

Incidents

Peace Office Assault

On the 12th of October 2015, the case of the suspect who assaulted a local traffic officer whilst on duty set down for trial and the accused was found guilty of assault of officer with intent to cause grievous bodily harm. The convicted assaulter was sentenced to a fine of R3000-00 or 12 months imprisonment.

Crash-in Incident.

On the 3rd of July 2015 on the John Ross Parkway in the vicinity of Alumina Allee andR34 intersection, a Toyota minibus taxi, ploughed into a clearly marked roadblock area on the John Ross (R34) in broad daylight. Two officers who were on duty at the roadblock were struck and sustained physical injuries. The Driver was charged with reckless or negligent driving and having entered into a plea bargaining agrrement with the state, was convicted and sentenced.

Demolition of Illegal Structures

In April/May Traffic officers assisted in the execution of demolition plans by Public Safety and Security to demolish buildings which were illegally constructed on Council land near the police station in Ngwelezana. The structures were on site 1273 and 1241 in Ngwelezana.

During this demolition exercise a suspect who interfered with the demolitions and drew a firearm at the officers was arrested and detained. The suspect is the Induna of a Tribal Council of KwaMadlebe tribal authority who is believed to have allocated the sites to some people under the guise of these sites being owned by the tribal authority. The matter is sub judice.

Stop Sign Case

The much publicised incident of a motorist who failed to stop at a stop sign in Meerense was finalised by the court. The incident sparked public attention on You tube, Facebook and the Zululand observer showing videos of traffic officers apprehending the female suspect. Although there was much speculation about the legality of the actions of the traffic officers. The officers had simply done their job and arrested the convicted driver for violation of traffic laws and resisting the arrest after their attempt to issue a fine to the motorist were resisted. The driver was convicted after admitting guilt.

Enforcement Statistics

Drunken Driving Arrests

More than fifty (50) drivers suspected to be under the influence of alcohol on our roads were arrested by the traffic officers and handed over at various police stations.

Road Safety

Child-In Traffic Programme

This programme has continued to educate learners on the use of roads and crossing at school zones. As can be seen in the quarterly reports hundreds of school children were reached by the programme.

Phelophepha Train

Transnet Foundation, Health Portfolio, were assisted by traffic in Staging Phelophepa program may I once again express at Empangeni Station between 10th and 21st of March 2014. The staff of Transnet have been encouraged by the patient turn-out as well as the high level of community involvement that was achieved and the number of people reached through the various outreach programmes and on-board services in the train. Appreciation was expressed by means of a letter of appreciation.

Traffic Control

The 1st of January 2016 festivities brings a long a traffic grind to the free flow of traffic around the beach roads. Due to the capacity of the roads and the immense rise in traffic volumes during the festive season this day becomes nightmarish for the Traffic department. However a dedicated traffic team came out in numbers and manned various traffic points and roadway sections which contributed to the great success in bringing about mobility during the festive event. With no rain distracting this time, more traffic poured in at the Alkantstrand beach areas and at some point the inlets had to be blocked off. This has gone down as another successful effort by the Traffic department because the flow was maintained fluid despite the challenges.

Event Security

Numerous events were attended as can be seen in our quarterly reports and traffic officers assisted with traffic marshalling at the entrances and roadways, traffic control and direction, parking and free flow of traffic.

All the protests that came to the section's attention were attended to and SAPS was assisted throughout the event stages.

Security

The security Section mandates is to protect Councils assets and property:

- Security at Cash Offices and Electrical Substations
- Security at Council Major Buildings and Sites
- Security at Municipal Halls , Parks and Sports Facilities
- Diverse Security Services
- Security at Water Treatment works and Sewage pump stations and related amenities

Security Company guards on parade on Beach on 1 January 2016

ZE MHIAT

Tumelo Gopane Deputy Municipal Manager

INFRASTRUCTURE AND TECHNICAL SERVICES

Water and Sanitation Services (WSS)

The City of uMhlathuze in its capacity as the Water Services Authority and juristic entity is compelled by the following acts:

Water Services Act 107 of 1997

To provide for the rights of access to basic water supply and basic sanitation

Recognising

- the rights of access to basic water supply and basic sanitation necessary to ensure sufficient water and an environment not harmful to health or well-being;
- that in striving to provide water supply services and sanitation services, all spheres of Government must observe and adhere to the principles of co-operative government; and
- that the provision of water supply services and sanitation services, although an activity distinct from the overall management of water resources, must be undertaken in a manner consistent with the broader goals of water resource management.

Ensuring

 that the quality of the City's water resources, portable water and wastewater systems are continually monitored in an endeavour to maintain quality and evaluate against set standards/specifications/guidelines.

The section comprises 2 divisions, namely Infrastructure Maintenance and Scientific Services.

Infrastructure Maintenance (Urban & Rural) is divided into the three following areas:

- Northern: Richards Bay and surroundings
- Southern: Esikhaleni, Dlangezwa and surroundings
- Western: Empangeni, Ngwelezane and surroundings

Infrastructure Maintenance- Northern

Water reticulation network

Asbestos Cement (AC) pipes installed from the early 1970s at the City of uMhlathuze's water network are used to reticulate water to the community. AC pipes were installed mainly because they were an affordable, non-corroding alternative to metallic pipes in areas prone to corrosion.

AC pipes deteriorate as a result of a variety of factors, including the environment, operational conditions over the years with little or no maintenance attention and when stressors such as pressure and soil bearing exceed their strength. These pipes deteriorate by degradation depth (thickness) of the inner and outer walls, thus compromising the overall strength of the pipe to an extent that the pipe size itself contributes to breakages if differential pressures between internal pressures due to water and soil bearing are not in equilibrium. In other words, factors such as vibrations can cause a tilt from the equilibrium, thus posing stress to the already deteriorated pipe.

Pipe degradation depths are correlated with pipe residual strengths, microstructure characteristics, pipe age, water quality, and flow dynamics due to unevenly eroded internal surface of the pipe and soil properties.

Furthermore, constructed structures on pipe servitudes or grounds compromise the integrity of the AC pipe, necessitating re-routing.

Figure 1 and table 1 below summarize the annual water infrastructure maintenance for 2015/2016. The most common cause for meter replacements was damage by vehicles, increased tripping of water meters, and burst pipes as a result of ageing infrastructure.

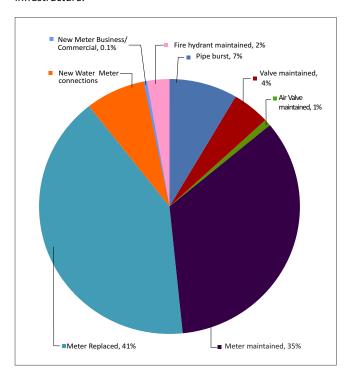

Figure 1: Water Infrastructure Maintenance for 2015/2016 financial year

Table 1: Wat	Table 1: Water Infrastructure Maintenance for 2015/2016 financial year

Sewer reticulation network

There are two main causes of blockages and collapse or failure of pipes in a sewer system, namely:

- 1. Introduction of foreign unsolicited objects or materials into the sewer system, eg. through open manhole covers; and
- 2. corrosion due to hydrogen sulphide.

Open manholes have been a consequence of theft of steel manhole covers, vandalism of concrete covers and the effect of hydrogen sulphide on concrete covers. Since most sewer manholes are constructed from concrete, bricks and mortar, hydrogen sulphide attacks mortar thus resulting in a weakened or compromised manhole structure, resulting in the bricks falling into the system.

Procurement of polymer plastic covers is on-going to curb factors that result in open manholes.

From table 2 and figure 2 below, the most common cause of sewer blockages is the dumping of foreign objects into the sewer system, water entering manholes and manholes being damaged by trucks.

Table 2: Sewer Infrastructure Maintenance for 2015/2016 financial year

	Sewer Infrastructure Maintenance Annual - 2015/2016								
Ward	Sewer blockages/ overflows	Sewer pipe jetting	Manhole repaired	Sewer connections repaired	New Sewer connection

Mechanical Maintenance

Operations and Maintenance of Water and Sewer Pumpstations

The maintenance section is responsible for reticulation infrastructure network. 12 pump stations drain to the Empangeni system, covering areas of Felixton, Central Park, Hillview, uMhlathuze village, Wilton Park, Empangeni CBD, Empangeni rail. Felixton pump stations drain to Vulindlela Wastewater Treatment plant, Dube village Pump Station Pumps to Esikhaleni Wastewater Treatment Plant. 45 pump stations drain the Richards Bay system; 11 in Alton, 19 in Meerensee, 2 in Birdswood, 6 in Arboretum & Veldenvlei, 1 in the Richards Bay CBD, and 3 in Aquadene & Brackenham.

For the Richards Bay system, the sewer is pumped into 2 Macerators; Alton and Arboretum and then pumped to Mhlathuze Water line to the sea.12 pump stations drain the Empangeni system, covering areas of Felixton, Central Park, Hillview, uMhlathuze village, Wilton Park, Empangeni CBD, Empangeni rail. The maintenance scope also includes the swimming pool pumps and ground water pumps in Richards Bay.

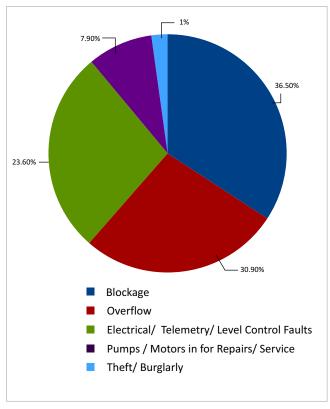

Figure 6: Pump stations Maintenance for 2014/2015 financial year

Customer Services, Retail and Marketing

The percentage gught has left the Goedertrouw Dam at 22.55% water level, leaving only 10% for human consumption. Also resulting from drought conditions is the fact that Lake Mzingazi and Lake Cubhu are averaging at 10% and 30% levels respectively. The water levels are in a critical state and drastic measures were required in terms of water demand management.

The City, during the reporting period, implemented level 4 water restrictions as summarized below:

Table 9 (a): Water Challenges

Sector	Agriculture	Domestic use	Industrial
Level 1	50%	10%	5%
Level 2	60%	20%	10%
Level 3	70%	30%	10%
Level 4	80%	40%	15%

Table 9 (b): Water Awareness Campaign

Day 1	Day 2	Day 3	Day 4	Day 5	Day 6	Day 7
14/03/2016	15/03/2016	16/03/2016	17/03/2016	18/03/2016	19/03/2016	20/03/2016
Phalane Primary School.	Mkhwanazi Traditional Authority	Qambokwethu Primary School Zenzeleni Mashamase High School	Gobandlovu Primary School Esikhaleni Senkosi High School	Manzimpofu Primary School	Walk for water: 3km Walk - Richards Bay CBD	Qhubandaba Primary School

During the Walk for Water event, more than 400 Zululanders donated 5 litre bottles of water used to assist water stricken areas. The aim was to create awareness about the severity of the drought crisis and to educate the community on water saving measures. The event was jointly organised by the City of uMhlathuze, Mhlathuze Waterboard, South 32, RBCT, Tronox KZN Sands, IDZ, Foskor, Royal Haskoning DHV and the Zululand Observer. The media partners included the Zululand Observer and 1KZN TV.

An additional 5 Jojo tanks were donated to various schools as part of a competition, and more than 3000 litres of water were distributed as part of the ShareWater campaign.

Scientific Services

The City of uMhlathuze in its capacity as the Water Services Authority and juristic entity is compelled by the Water Services act 107 of 1997 and National Water act 36 of 1998 to ensure that the quality of the City's water resources, potable water and wastewater systems are continually monitored in an endeavour to maintain quality and evaluate against set standards/specifications/guidelines. The Scientific Services division is responsible for the effective management of this function within Water and Sanitation Services.

Various key functional areas within the division contribute to the reliability and credibility of an effective water quality management system. The two major units of the Scientific Services is the Laboratory and Water Quality Management sections. Together these sections exist in a cooperative relationship in an endeavour to combat water pollution.

Laboratory Testing Services (Chemistry & Microbiology)

Formal recognition that laboratories are competent to carry out specific tasks/tests is given by the South African National Accreditation System (SANAS) in a form of accreditation. Although achievable by all labs, SANAS accreditation historically believed to be a status awarded to only large laboratories (centred on the major metropolitan areas).

Department of Water Affairs (DWA) with sector partners developed the strategy to ensure institutions use laboratories deemed competent & produce credible results to manage and report on their drinking and wastewater quality. Strategy denotes a process whereby DWA shall approve the use of laboratories competent to analyse drinking- and wastewater samples.

The laboratory is currently undergoing method development and validation as well as phased implementation of ISO 17025. The laboratory is also participating in Proficiency Testing schemes for Chemistry and Microbiology in order to continually improve accuracy and precision when compared to other laboratories.

Laboratory Testing

Table 10: Number of Tests per Sample Type from July 2015 to February 2016

CHEMISTRY	
Sample Type	Total Number Of Analysis
Lakes (Cubhu & Mzingazi)	3600
Surface Water	5050
Sewage	2467
Drinking Water	3
Ground Water	1232
Grand Total of analysis per sample type	12352

Surface Water	383
Drinking Water	1
Ground Water	56
Grand Total of analysis per sample type	640

Laboratory Achievements

- Second phase development of laboratory information management system (LIMS). LIMS is a database where all laboratory information, including test results are kept;
- extension of the Scientific Services Building with new offices and new laboratories;
- construction of new Microbiology laboratories for water and
- procurement of new Microbiology laboratory equipment e.g. Biosafety Cabinet- a cabinet equipped with HEPA filter(s), designed to provide personnel or both personnel and product protection from bio hazardous materials that are used as reference materials in the Microbiology lab.

Water Quality Management

The water quality functions include:

- Water & wastewater quality monitoring as per the Water Quality Monitoring Program (WQMP);
- drinking Water Quality Management (including consumer complaint management);
- Industrial Effluent Permit Management;
- Industrial Pollution Management;
- Industrial Inspections;
- · Water pollution incident investigations; and
- Stormwater Inspection and Pollution Management.

Samples from various sources are collected for analysis of key parameters to determine water quality.

Table 12: Total samples from July 2015 to June 2016

SOURCE	SAMPLES
Surface Water (Industrial)	288
Surface Water (Pump station)	339
Surface Water (Urban/Rural Suburbs)	56

Drinking Water and Wastewater Systems

Mhlathuze Waterboard is responsible for the water and wastewater purification and distribution function. An extensive water quality-monitoring program for drinking water and wastewater quality has been implemented. The monitoring program contains the following:

a) Water Treatment Works:

- Esikhaleni Water Treatment Works
- Mzingazi Water Treatment Works
- Ngwelazane Water Treatment Works

b) Drinking Water Reticulation monitoring:

There are a number of test points along the water networks that serve to ensure that the quality of potable water (to the consumer) complies with national standards (SANS 241:2015). There are 61 samples tested per week/month by uMhlathuze Water.

c) Waste Water Treatment Works includes:

- Alton Macerator Station
- Arboretum Macerator Station
- John Ross Highway Macerator Station
- Nseleni Wastewater Treatment Works
- Esikhaleni Wastewater Treatment Works
- Empangeni Wastewater Treatment Works
- Ngwelezane Wastewater Treatment Works
- Vulindlela Wastewater Treatment Works

d) Wastewater Treatment Monitoring

There are 7 test points at the wastewater treatment works and macerator stations, which ensure that the final effluent quality complies with national standards before discharge. Additional monitoring from the councils own laboratory adds credibility to the monitoring program.

Water Pollution Management

The Water Quality Monitoring Program (WQMP) has been developed and implemented, so that Council meets the statutory requirements and for the sustainability of water resources within its area of jurisdiction.

The WQMP is the monitoring programme that the laboratory follows to conduct its testing. The WQMP comprises the standards/guidelines and regulations that are required to effectively and efficiently monitor the entire city's water sources. Trend analyses will in future assist the council to detect from early on the water quality status of the water sources and timeously put in mitigation measures.

The following areas are monitored for possible pollution:

Table 13: Sample types being monitored by the WQMP

Sample Type	Description
Surface Water	Lakes (Cubhu & Mzingazi) Rural/Urban Suburbs (stormwater steams) Rivers/Streams/ Canals Industrial (stormwater streams) Pump-stations (streams close to pumpstations)
Coastal Water	Alkantstrand 1 & 2
Groundwater	Municipal Cemetery Landfill Site
Sewage	Industrial Effluent (sewage network)

Water Pollution Control

Water pollution control includes monitoring of Waste Water Treatment Works, streams and rivers, water bodies and borehole monitoring. These all are influenced by industrial waste, pump station- and sewer overflows and non-compliances of industry and WSP's to national effluent standards. The following are some of the elements indicative of pollution:

- pH
- Conductivity
- Suspended solids
- Turbidity
- Total dissolved solids
- Turbidity
- Sulphate/chloride ratio
- Ammonia
- Faecal coliforms
- E.coli
- Heavy metals and other inorganic constituents

Various pollution incidents that occurred are mentioned below as well as compliance notices issued in terms of contravening specific sections of Water Services Bylaw. The permits are issued in terms of Water Services Bylaw.

Table 14: Compliance Activity of the Water Quality Section (July 2015 – June 2016)

ASPECT	AMOUNT	DESCRIPTION
Industrial inspection	14	Inspection of industries for their compliance to Water Services Bylaw requirements
Permits issued	10	Permits issued to companies as per section 88 and 86 of Water Services Bylaw to discharge via municipal sewer system.
Water Complaints	1	Consumer complaints on drinking water quality.
Pollution incidents	7	Incidents that resulted in pollution of open water source or open ground areas.
Forums attended	6	Meetings with industry in presenting their environmental performance to relevant stakeholders.
Internal Non conformances	3150	Non-conformances generated from laboratory results, which are out of the specified range according to WQMP.

Blue & Green Drop Incentive Based Programmes

The Minister of Water Affairs introduced the concept of Incentive-based Regulation on 11 September 2008 to the water sector at the National Municipal Indaba held in Johannesburg. The concept was defined by two programmes: the Blue Drop Certification Programme for Drinking Water Quality Management Regulation and the Green Drop Certification Programme for Wastewater Quality Management Regulation.

Criteria to be complied with in order to be awarded a Blue Drop Status

The Water Services Authority responsible for the provision of water is required to ensure that the following criteria is met in each drinking water treatment works:

Table 15: Blue Drop Criteria

			2014 Score per Criteria (%)			
	Criteria	Allocated Weight (%)	Mzingazi WTW	Esikhaleni WTW	Ngwelezane WTW	Nsezi WTW
1	Water Safety and Security Plan	35	97	92	100	98
2	Drinking Water Quality process management & control	8	85	75	100	100
3	Drinking Water Quality Verification	30	55	89	82	89
4	Management, accountability & local regulation	10	81	81	89	81
5	Asset Management	11	100	100	100	100

a) Blue Drop Incentive Based Program

The Blue Drop process measures and compares the results of the performance of Water Service Authorities and their providers, and subsequently rewards (or penalizes) the municipality upon evidence of their excellence (or failures) according to the minimum standards or requirements that have been defined.

The Blue Drop incentive based regulation programme endeavours to facilitate and drive a continuous improvement process, seeking sustainable improvement in service delivery, progressive improvement in drinking water quality and steadfast coverage of unserviced areas.

The Blue Drop Status of the City of uMhlathuze is depicted as follows:

Table 16: Comparative Table - Blue Drop Status

Blue Drop Systems	2010 Score	2011 Score	2012 Score	2014 Score
Mzingazi WTW	81.25%	89.28%	89.91%	85.45%
eSikhaleni WTW	79.75%	90.07%	92.35%	91.85%
Ngwelezane WTW	79.75%	91.35%	96.37%	95.02%
Nsezi WTW	NA	88.90%	98.39%	95.38%
The Average Score*	80.4%	89.26%	92.94%	89.60%

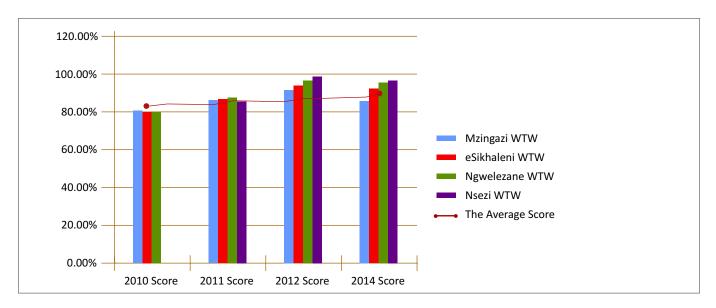

Figure 7: Blue Drop Status

a) Green Drop Incentive Based Program

The Green Drop process measures and compares the results of the performance of Water Service Authorities and their providers, and subsequently rewards (or penalises) the municipality upon evidence of their excellence (or failures) according to the minimum standards or requirements that have been defined.

Criteria to be complied with in order to be awarded a Green Drop Status

The Water Services Authority responsible for the provision of water is required to ensure that the following criteria is met in each wastewater water treatment works:

Table 17: Green Drop Criteria

				2013	Score per Crit	eria (%)	
	Criteria	Allocated Weight (%)	Empangeni WWTW	Esikhaleni WWTW	Ngwelezane WWTW	eNseleni WWTW	Vulindlela WWTW
1	Process Control & Maintenance Skill	10	92	80	92	84	80
2	Monitoring Program	15	95	95	95	95	95
3	Submission of Results	5	100	100	100	100	100
4	Effluent Quality Compliance	30	10	58	66	90	66
5	Risk Management	15	100	100	100	100	100
6	Local Regulation	5	100	100	100	100	100
7	Treatment Capacity	5	59	90	90	94	90
8	Asset Management	15	93	96	96	100	100

A marked improvement in the overall scores for the Green Drop Systems within the City can be noted in the table below:

Table 18: Green Drop Score for City of uMhlathuze

Green Drop Systems	2009 Score	2011 Score	2013 Score
Empangeni WWTW	72 %	84.30%	77.20%
eSikhaleni WWTW	72%	82.60%	86.73%
Ngwelezane WWTW	72%	83.20%	91.18%
eNseleni WWTW	72	83.20%	95.99%
Vulindlela WWTW	72%	86.10%	90.74%
The Average Score*	72%	83.3%	84.94%

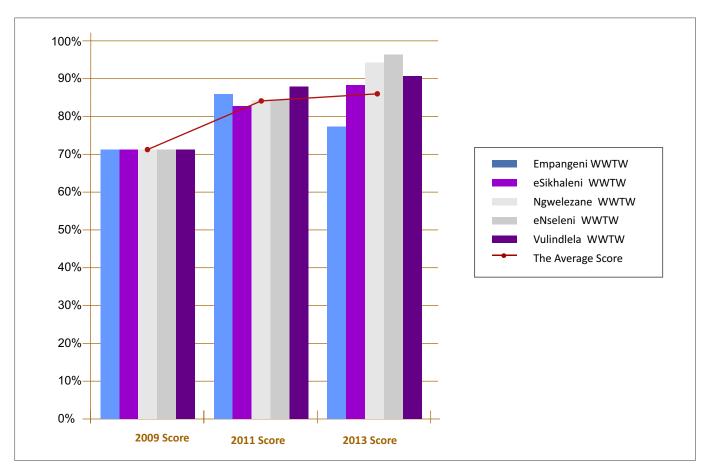

Figure 8(a): Green Drop Score for City of uMhlathuze

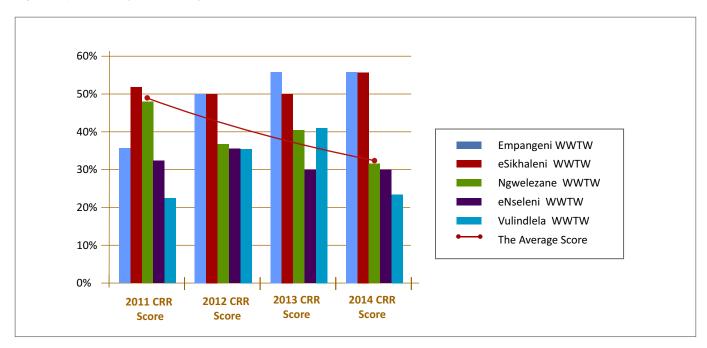

Figure 8(b): Green Drop CRR Score

Water Quality Achievements

- Water Quality Management section has managed to implement a permit system, which assist the municipality to minimise impacts to the sewage system from discharge of effluent by companies;
- the implementation of the Drinking Water and Wastewater Incident and Failure Response Management Protocols;
- improved Cumulative Risk Ratio (CRR) for the Waste water treatment works;
- attaining of two Blue Drop statuses for Ngwelezane Water Treatment Works and Nsezi Water Treatment Works; and
- development and implementation of Water Safety Plan and Wastewater Risk Abatement Plan.

Water and Sanitation – Team Building

To ensure strong working relations within the teams employed to serve the community, team building sessions are held from time to time. Below are some pictures from the past year:

Water Awareness Campaign- Nhlangenyuka Rural Area

Electricity Supply Services (ESS)

Introduction

The City of uMhlathuze receives electricity supply from eight (8) of Eskom's Points of Supply, and distributes it to about 34 998 customers. Of this customer base, 8 are key customers, including Mondi Group, Coallink (Transnet Freight Rail - TFR) and Transnet National Port Authority (TNPA) are all supplied at 132kV voltage level. The following are other key customers which are supplied at 11kV: Richards Bay Coal Terminal (RBCT), Bell Equipment, BidVest Tank Terminals, Foskor and Mhlathuze Water.

About 67 customers are categorized as large power users (LPU) with a demand of more than 1MVA and 3271 supplied at 400V, while approximately 31 492 are residential or small power users at 230V.

The total notified maximum demand (NMD) is as follows:

- 1. Richards Bay 230MVA: Maximum (197MVA)
- Empangeni Main 20MVA: Maximum (11MVA)
 Empangeni Western 20MVA: Maximum (21MVA)
- 4. Felixton 0.7MVA: Maximum (0.5MVA)
- 5. Vulindlela 1MVA: Maximum (0.86MVA)

- 6. Esikhaleni 16MVA: Maximum (19MVA of which 11MVA is Fskom load)
- 7. Nseleni 2.7MVA: Maximum (2.65MVA)
- 8. Ngwelezane 7MVA: Maximum (6.43MVA)

The City has total of 43 Substations, of which 12 are 132 kV and 31 are 11 kV, with the following electrical infrastructure:

- 1. 94.3 km of 132kV Overhead Lines
- 2. 109km of 11kV Overhead Line (OHL)
- 3. 503km of 11kV underground cable (UGC)
- 4. 850 Minisubs
- 5. 53 Ring Main Units
- 6. 136 Pole-mounted transformers
- 7. 7257 customer distribution kiosks
- 8. 17423 streetlight poles and 87 Traffic lights

Customer Services, Marketing and Retail

All customers consumed a total of 913 GWhs of electricity while 964 GWhs was purchased from Eskom, indicating a total energy loss of 51 GWhs which amounts to an average loss of 5% over the financial year. It is to be noted that the energy losses are showing a slow decrease since 2013/2014. This figure includes both technical and non-technical losses.

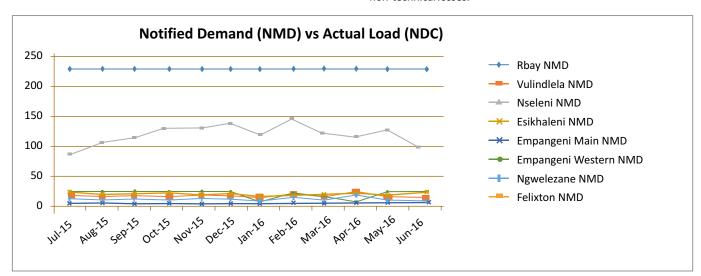

Figure 9: Notified demand versus actual load

The consumption of municipal installations amounted to a total value of 9 209 889 kWh for 2015/2016.

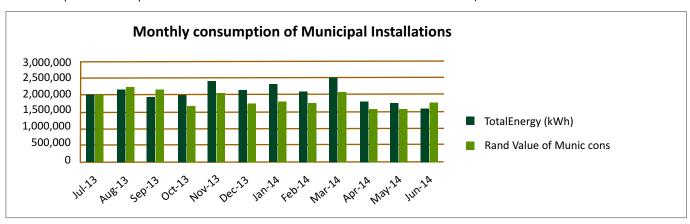

Figure 10: Monthly consumption- municipal installations

Energy losses unit

The Electricity Supply Services Department embarked on a projection April 2013 to identify and address energy losses in the City of uMhlathuze.

The process entailed the following:

- Audit of all miniature substations;
- audit of all ring main units;
- audit of all pole mounted transformers;
- identifying and replacement of redundant / old metering equipment i.e CYLP meters and Indigo+ meters; and
- installation of bulk meters in miniature substations.

The installation of bulk meters in substations/mini-substations and pole mounted transformers which was an attempt at reconciling the electricity consumed by the Business and Commercial Customers, has already yielded results. Meter replacements only started in July 2013 after the required installation audits were completed. To date a total of 519 meters have been installed or replaced in this ongoing programme.

Below is the distribution of the meter installations:

Table 15: Distribution of meter installations

	Minisub Bulk	Customer Meters
Richards Bay	119	197
Empangeni	12	74
Esikhaleni	34	11
Vulindlela	7	8
Nseleni	22	2
Ngwelezane	28	4
Felixton	0	1
	222	297

During the 2014/2015 financial year a considerable increase in energy losses in Ngwelezane was noted and a similar project was launched in Vulindlela during the 2015/2016 financial year with the funding allocated from the Energy Losses capital vote.

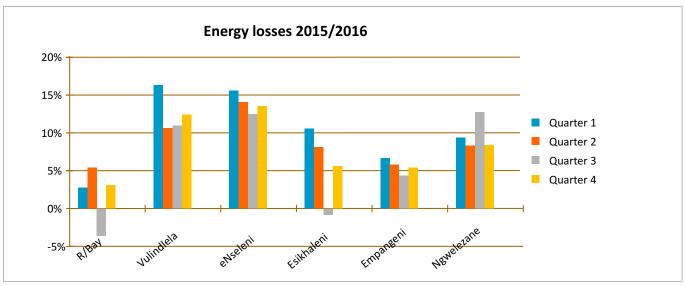

Figure 11: Energy losses 2015/2016

Ngwelezane has very few check meters installed and this is because of the installation of Split Prepayment meters by the erstwhile Empangeni Municipality; and the fact that there is no space available in kiosks to install check meters. Thus accurate measurement of 'stolen' energy is not possible and calculations in respect of tampering can only be affected for one year using the average calculated prior to the established date of the tamper. For this reason-there is under recovering of losses in the area.

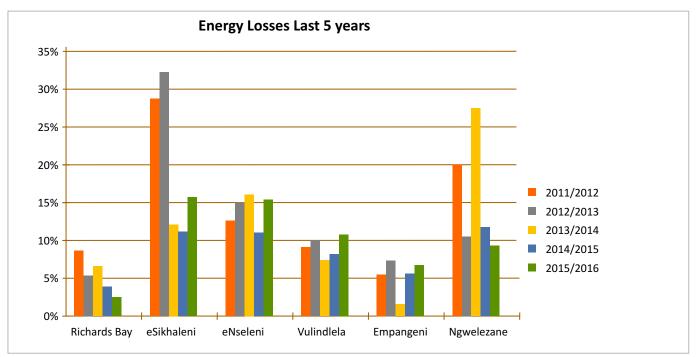

Figure 12: Energy losses 2011 to 2016

Revenue Protection unit

Table 16: Prepayment meter audits

Prepayment Meter Audits: All Areas	Annual Total
Houses Visited (general audits) EES	1017

Eskom had no projects during 2014/2015 and 2015/2016

Operations and Maintenance (Substation, HV & MV Operations)

Operations & Maintenance constantly seeks to deliver reliable electricity supply to customers by maintaining the network to avoid outages, and by responding promptly to outages when they occur. Hence, uMhlathuze's network reliability is measured by the frequency and duration of power interruptions in the network. Most power interruptions that customers experience reflect faults or failures of the medium voltage (MV) network.

 $NRS\,047-1:2005$, section 4.5.3 recommends that after unplanned interruptions, power should be restored as follows:

- 30% within 1.5 hours;
- 60% within 3.5 hours;
- 90% within 7.5 hours;
- 98% within 24 hours; and
- 100% within a week.

The City of uMhlathuze recorded the following outage duration over the past three years:

Table 18: Power outage duration summary 2013-2016

MV Outage Duration						
2013/2014 2014/2015 2015/2016						
Within 1hr 30mins	39	34	24			
Within 3hrs 30mins	92	95	82			
Within 7hrs 30mins	94	106	129			
Within 24hrs	120	115	153			
After 24hrs	62	101				
Total Forces Interruptions	474	412	489			

The year 2015/2016 indicated an increase in duration of 7.5 hours compared to the year 2014/2015; the biggest contributor being the power MV failures in the Esikhaleni and Brackenham areas.

The City of uMhlathuze Operations and Maintenance division uses the following key performance indicators (KPI) to monitor the network performance:

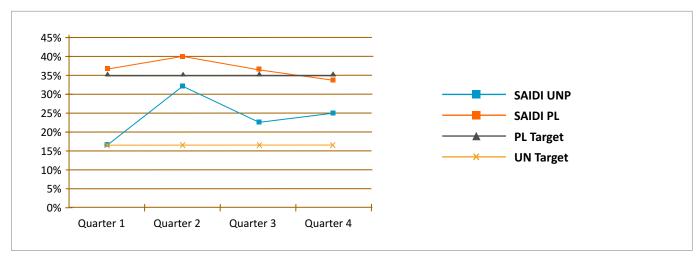

Figure 13: System Average Interruption Duration Index (SAIDI)

Definations

System Average Interruption Duration Index (SAIDI)

Definition: Average duration (in hours) in total that the customer was without supply.

System Average Interruption Frequency Index (SAIFI)

Definition: Average frequency that the customers supply is interrupted

In the winter months there is typically low frequency and probability of fault occurrence as opposed to summer. This trend is explained by the fact that most of the City's MV network is powered by underground cables. With the summer rains comes a sharp increase in ground moisture which compromises aged cables and leads to a higher probability of failure. The sharp drop in faults for December is thought to be a result of the closure of most light industrial customers for the end of year break. A steep increase is also recorded in January as production resumes in the new year.

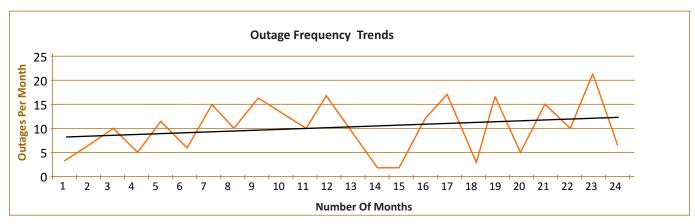

Figure 14: Power outage frequency trends

Further analysis of the outage frequency data from the past two years show that on average, and with every passing month, the number of faults increases. This comes as no surprise as most of the network equipment was installed approximately 40 years ago and therefore most of the major components have reached the end of their useful life. Under normal circumstances, maintenance can be used to flatten the trend. As shown in figure 14, most of the outages may be attributed to cable failure.

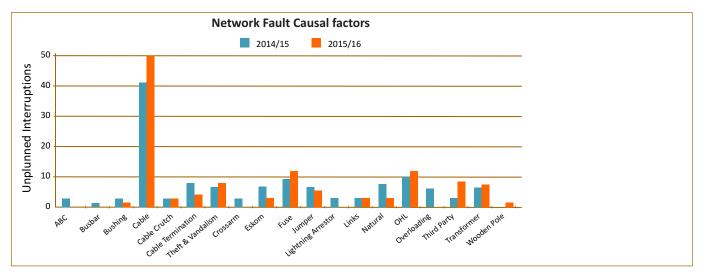

Figure 15: Network fault causal factors

The significant rise in network faults in 2015/2016, can be attributed to the frequent failure of the Esikhaleni Cygnus transformer, aged cables and Brackenham overhead lines which peaked towards the end of the financial year. The Cygnus 11 kV panel replacement project also contributed, to a small degree, to power failures due to the lack of redundancy during commissioning. To eliminate this problem in future, the City has started to conduct electrical conditioning monitoring on the Esikhaleni network. This is the first step towards pro-active, as opposed to reactive maintenance; and the test results will provide network status and areas requiring urgent attention, facilitating maintenance prioritisation per criticality identified in the test results.

Some factors affecting reliability, such as the condition of the network and the level of redundancy (subject to planning), can be controlled by the organisation. Others however, such as weather events and customer density, cannot. For example, some networks- and especially those in the boundary of the municipality have on average lower redundancy. These characteristics increase the likelihood of interruptions and longer outage durations. Although overall reliability data shows a network characterised by classic aging symptoms; a mini-substation and RMU maintenance contract is in progress, and the soon- to- be- implemented contracts on HV cable; cubicles; and Esikhaleni cable replacement; will go a long way in bringing much needed improvements to the reliability of the network.

The Cygnus 11kV replacement project is now showing positive results whereas before this project was commissioned, 132kV breakers were used to trip for 11kV faults. This has changed and the 11kV breakers are now tripping for MV faults, which takes out only affected sections unlike in the past when the whole of Esikhaleni was off during such instances.

Public Lighting

The street lighting complaints via the call centre has processed a total of 679 works orders, of which 632 were street light fitting failures, 42 cable failures, 5 cable thefts and 242 knocked down poles. On routine maintenance, 1355 streetlights were repaired, 356 streetlight poles were replaced, 226 photocells replaced and 141 streetlight cable faults repaired. The total number of lamps replaced amounted to 4296 while 210 fittings and 283 photocells were replaced. The call centre is operational 24 hours a day on 0800222827, also allowing complainants to log calls either via the website at www.umhlathuze.gov.za, or via e-mail to streetlights@umhlathuze.gov.za.

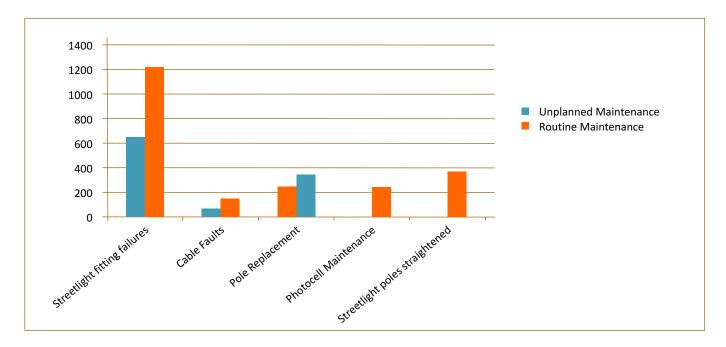

Figure 16: Street lighting maintenance statistics

Table 19: Street lighting maintenance summary 2015/2016

	Unplanned maintenance	Planned Maintenance
Streetlight fitting failures	632	1214
Cable faults	42	141
Pole replacement	242 (Knocked down poles)	356 (Rotten/Rusted poles)
Photocell Maintenance		226
Streetlight poles Straightened		379

Pole replacement consisted of 100 rotten poles replaced in Esikhaleni H section and 100 rotten poles in Esikhaleni J section.156 rusted poles were replaced in Empangeni.

Planning and Strategy

The City of uMhlathuze continues to strive to provide a safe environment with zero harm, secure and reliable supply of energy in a cost-effective manner. The City achieved this by planning its network and making investment decisions in line with Council decisions and the GRAP17 Capital Investment Process (CIP) and Asset Management; as well as executing the majority of its planned projects. The Planning and Strategy division addresses strategic planning relating to capital investments and renewal of electricity assets. The technical decisions taken with regard to designs and operation of the network are in accordance with the compliance obligations of network management legislation, regulations and related codes of practice as per National Energy Regulator of South Africa (NERSA), and reflect recognised industry best practices and standards relating to the management of electricity infrastructure assets.

The City of uMhlathuze's electricity network development is undertaken in accordance with the Electricity Supply Act and the National Electricity Grid Code for Sub-transmission (132kV substations and Switching Stations as well as 132kV Feeders) and Distribution Network (11kV, 400V and 220V networks) Planning Criteria and Guidelines. The City also took the opportunity during past two years to explore non-network services to support its grid through energy efficiency and renewable energies as supported by other organs of the state such as National Treasury, the Department of Energy and the Department of Environmental Affairs to mention the few; by conducting intensive audits in order to ascertain the benefits and/ or effects of the application of various technologies to this effect. The City followed SALGA EE & RE strategy review which is in line with DME National Energy Efficiency Strategy and National Climate Change Response White Paper (2011)

In general, the City of uMhlathuze plans the development of its network to ensure:

- Network capacity is adequate to meet power transfer requirements as well as 10% to 20% supply reserve margin as stipulated in 2015/16 IDP to support the economic growth in the area of KwaZulu-Natal;
- electrical and thermal design ratings (normal and overload) of equipment is not exceeded;
- supply reliability is in accordance with published standards, or as negotiated to meet the special requirements of individual major network customers;
- quality of supply meets published standards and system voltage levels are maintained within acceptable standard limits; and that safety standards are maintained or exceeded; and
- environmental constraints are observed.

There are four major undertakings that the City of uMhlathuze has adopted in order to achieve the smooth running and operating of the network; namely:

- 1. Network Refurbishment projects;
- 2. Network Strengthening projects;
- 3. Network Reliability projects; and
- 4. Energy Efficient Demand Side Management and Renewable Energy projects.

Report on Capital Projects

There are various capital projects under different categories that were initiated during 2015/16.

All of the below mentioned projects deal not only with service delivery concerns but also with social upliftment as per EPWP programme to create job opportunities for the community.

Completed projects under this project category are as follows:

Table 20: Private Development projects

Project Name	Project Description	Comment	
RBIDZ (Richards Bay Industrial	Supply IDZ 1A development with 10MVA	Project completed	
TNPA (Transnet National Port Authority)	Installation of 132kV feeder bay at 132kV Neptune Switching Station for firm supply at TNPA	Project completed	

Table 21: Network projects

Project Name	Project Description	Comment	
Cygnus Substation Refurbishment project	Replacement of obsolete and unsafe 11KV switchgears and protection	Project completed	
eSikhaleni 11kV cable replacement	Replacement old and problematic 18km of cable in eSikhaleni 11kV network	Project completed	
Electrical Network Master Plan	Electrical Network Master Plan identified the areas of the network where network expansion is needed in order to accommodate current and future developments	Project completed	

Table 22: Electrification projects

Project Name	Project Description	Comment	
Mandlazini Electrification	Electrification of 564 households	Project is completed, 644 households were connected	
Mzingazi Electrification	Electrification of 209 households	Project is completed, 239 households were connected	
Dumisani Makhaye Village Electrification Phase 7	Electrification of 559 households	Project is completed, 532 households were connected,	
A1275 Ngwelezane Electrification	Electrification of 220 households	52 customers were connected as per erected houses and the remaining will be connected as when required during 2016/17	

Table 23: Public lighting projects

Project Name	Project Description	Comment
John Ross/Empangeni Main Road Street Lighting Installation	Installation of street lighting on John Ross Empangeni Main Road covering total distance of 2.5km on either side of the road	Project completed
Central Sports Field Flood Lights Installation	Installation of flood lights for main soccer stadium at Veldenvlei	The consultant and the contractor were appointed during 2015/16 and the construction will start during 2016/17

Energy Management

The City of uMhlathuze continues to support SALGA Energy Efficiency & Renewable Energy Strategy Review which is in line with the Department of Energy's National Energy Efficiency Strategy and National Climate Change Response by implementing the identified energy efficiency technologies in parts in its areas for demand response in order to alleviate network constraints and contribute in minimising power outage. Relevant organs of the state were consulted during 2014/15 fiscal year for different funding in order to pursue and support the National Climate Change Response.

Energy Efficiency

During 2015/16 the City of uMhlathuze implemented certain Demand Side Management initiatives in order for the municipality to respond to the required CO2 reduction over the period of time. The following audits were done during 2013/14 fiscal year and the status during 2015/16 was as follows:

Table 24: Audits completed

No	Project Name	Comment
1	RLM (Ripple Load Management): Household water heating and pool pumps	Project was not implemented due to lack of funding, partial funding available but the project cannot continue until the full required funding is achieved. Different financial alternatives are being explored to cover the shortfall.
2	Pumps Stations: Installation of Soft Starters or VSD's (Variable Speed Drives) or any other equipment, in the water and sewer pump stations, to achieve load shifting	Project was not implemented due to lack of funding. Energy Management section is exploring alternative funding options.
3	Auditing for HVAC (Heating Ventilation & Air Conditioning) systems for all municipal buildings	Project was not implemented due to lack of funding. Energy Management section is exploring alternative funding options.

No	Project Name	Comment
4	Audit for installation of LED (Light Emitting Diode) lighting with Motion Sensors and online telemanagement for all municipal buildings	Project was not implemented due to lack of funding. Energy Management section and has engaged finance for exploring alternative funding options.
5	200 randomly selected Household Survey for energy consumption as per DoE requirement	Project was not implemented due to lack of funding. Energy Management section is exploring alternative funding options.
5	Traffic Signal energy consumption base lining	Project is completed and 1515 lights are replaced

Process Control & Telecommunications

The Technical Operational Centre (TOC) is operating 24 hours, 7 days week on an integrated information system; however without human intervention to monitor the system. The scope of services incorporated in the nerve centre includes the following functionality:

- Electricity monitoring strategic power distribution points with alarm features and historian devices;
- Sewer monitoring of sewer plants and sumps with alarm and remote pump control;
- Water monitoring of water plants, reservoirs with alarm and remote pump control;
- 4. Street lights monitoring of street and traffic lights;
- Fleet monitoring that vehicle follows prescribes routes.
 (The Geotab system is installed in at least 60% of Council vehicles); and
- Water, Metering and Load Management monitoring of meter water consumptions vs supply demand in order to correct distribution, enhance revenue and facilitate smart metering migration platform.

The Technical Operational Centre has been developed for the following primary objectives:

- To protect the revenue of the municipality by implementing load balancing and load management on its electricity network in the form of report generation;
- to drastically improve service delivery by managing electricity and water network with live data, remote intervention capabilities and proactive maintenance;
- to be pro-active and use the complaints data collected through the call Centre to identify and eradicate recurring network failures and mitigate bottlenecks in services;
- to ensure that sewer capacity and leaks are identified and documented in a useful manner for leakage eradication and future planning;
- to ensure that the municipal fleet stick to predefined and prescribed routes and that municipal vehicles are utilized for official business only;
- to monitor Council vehicles in real time;
- to monitor feedback to consumers in complaints management using sms, telephony or email facilities;
- to restore the faith and trust of the community in the institutional capability; and
- to ensure that power failures are reduced in peak times and that all consumptions are recorded per smaller zones in order to pinpoint illegal usage.

Roads, Transport and Stormwater Management Section (RTS)

Introduction

This section is responsible for the following:

- Transport Planning and Strategy;
- Urban Roads and Rail;
- Stormwater and Coastal Management System; and
- Rural Roads.

Transportation Planning

Achievements

SIGNALISED INTERSECTIONS

Table 26: Traffic signal upgrades

5	Richards Bay	Bullion Boulevard	Bullion Boulevard Pedestrian Crossing		Nov
6	Empangeni	Main Rd President Swart		Jan	Feb
7	Richards Bay	Anglers Rod Krewelkring		Jan	Feb
8	Richards Bay	East Central Arterial	Essenwood	Feb	Mar

Table 27: Traffic signal timing upgrades

	CROSSING			
No	Road 1	Road 2	Request	Done
1	P496 - John Ross	Foskor	September	September
2	Alumina Allee	Carbonode Cell	July	August
3	Nkoninga	Fiddlewood	June	August
4	P496 - John Ross	Mondi Rd	August	September
5	Bullion Boulevard	Town Square Mall	September	November

Transportation Roads And Stormwater Related Contracts/ Quotations

This section also executes Planning and Maintenance Contracts, namely:

- Traffic calming;
- repairs to pedestrian bridges;
- new traffic light warrants and designs;
- walkways;
- shelters; and
- bus/taxi laybys

Table 28: Contracts and Quotations completed in the financial year

No	Year	Month Commenced	Description	Quotes Complete	Value at Completion(R)
1	2015	November	H3 Infill -Kerbs and Channelling	December	R184 390
2	2016	February	Painting of Traffic Signals Poles Empangeni and eSikhaleni	April	R100 000
3	2016	February	Painting of Traffic Signals Poles Richards Bay	March	R100 000
4	2016	April	Construction of Bus Shelters	June	R183 900
5	2016	April	Upgrade of intersections – Pedestrian crossings, humps and signage - Ngwelezane	June	R76 000
6	2016	April	Upgrade of intersections – Traffic circle, walkway and related works.	June	R140 000
7	2016	April	Load restriction Signs Richardsbay CBD	June	R180 000

Pictures of some of the projects are included below:

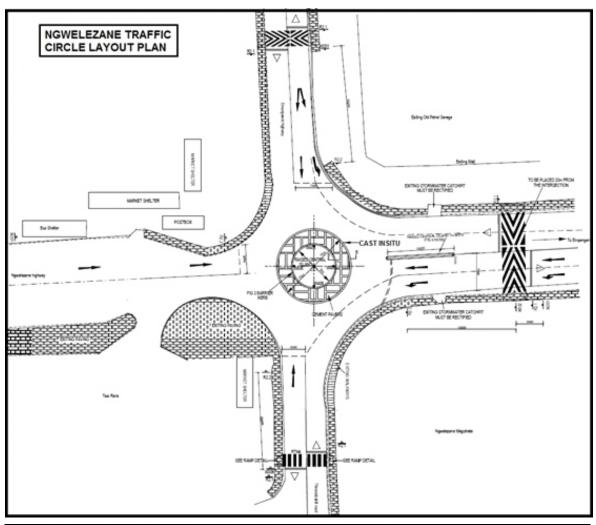

Construction of Bus Shelters in Wards 7, 14, 23, 25, 27 and 28

Upgrade of Intersections

Pedestrian Crossings, Humps, Signage, Traffic Circle, and Related Works

Load Restriction Signage - Richards Bay Cbd

The City, in an endeavour to curb ongoing damage to roads infrastructure, embarked on a project to set and enforce load restriction signage in the CBD.

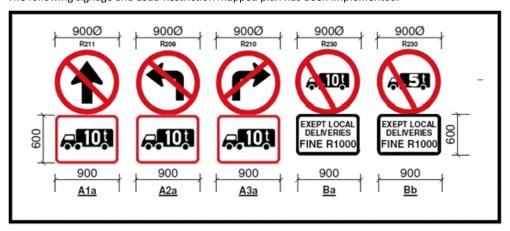

Damages to Roads Infrastructure by Heavy Duty Vehicles

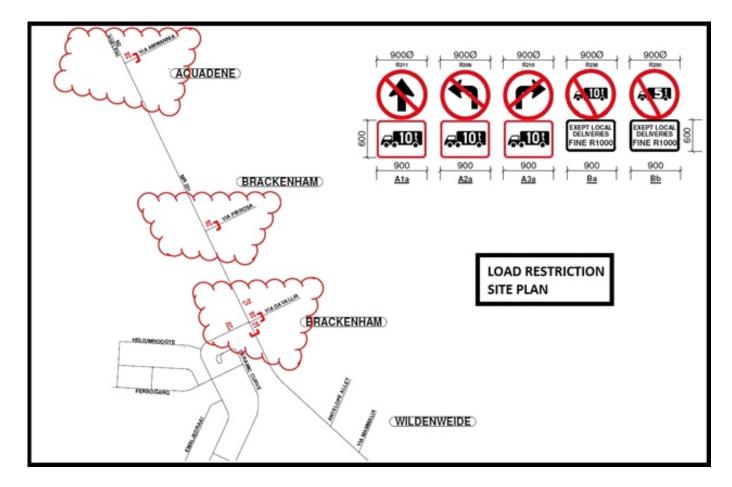

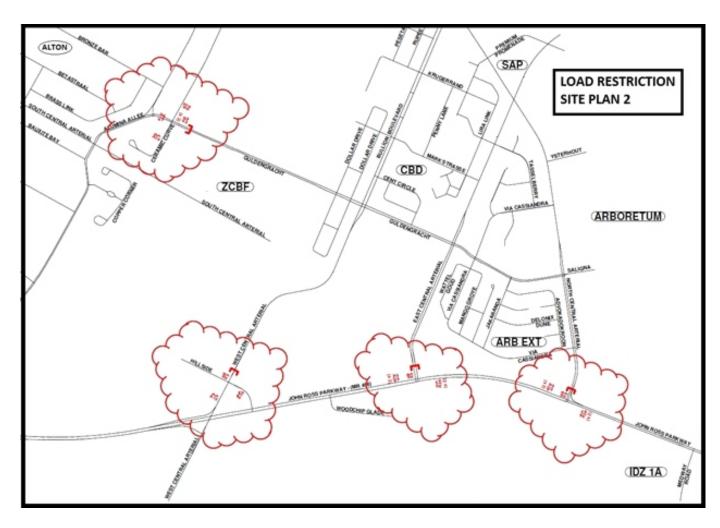

The following signage and Load Restriction mapped plan has been implemented:

Transportation Planning

During 2015/2016 Financial Year the Section executed the following work:

- Traffic Impact Assessments;
- $Provision \, of \, transportation \, related \, comments \, on \, new \, and \, private \, developments$
- Calculated Roads Contributions

Month	Planning and Development Act Applications	Traffic Impact Assessments	Road Contributions	Consent Applications	Lease Applications	CD Items Comments
July 2015	3	3	6	3	16	0
Aug 2015	2	2	8	7	10	1
Sept 2015	4	5	3	0	16	5
Oct 2015	1	1	8	6	15	1
Nov 2015	1	1	6	5	7	1
Dec 2015	1	0	9	7	7	1
Jan 2016	2	5	10	12	10	6
Feb 2016	3	4	2	3	8	2
Mar 2016	1	3	12	8	8	3
April 2016	0	3	4	4	11	1
May 2016	1	2	5	4	4	1
June 2016	5	8	12	9	6	5

Urban Roads and Rail

This section consists is stationed in three depots; namely:

- Empangeni
- Esikhaleni
- Richards Bay

The section maintains 570.2 km's of Urban Blacktop Roads and 17.1 km's of Private Rail Sidings and comprises of Three Depots. It undertakes day to day maintenance activities as well as major planned maintenance activities.

12 Roads throughout the entire City of uMhlathuze were rehabilitated during the 2015/2016 Financial Year. Amongst the major planned activities that were undertaken and completed this year were as follows:

One of the major rehabilitation by means of a mill, stabilize and fill operation was that of uBhejane road in Nseleni.

Before and after Photos of Milling in Ubhejane at Nseleni

A similar operation was performed on Phelendaba Road in Ngwelezane.

Before and after Photos of Phelendaba Road in Ngwelezane

Other activities for the year included:

Table 30: Summary of day to day work completed in the 2015/2016 financial year

DESCRIPTION	UNIT	TOTAL
Walkways repaired	M^2	3931
Kerbing - Repaired	m	400
Potholes Repair / Preparation	m²	13239
Bollards - Replaced	No	244

Stormwater Systems and Coastal Planning

The Stormwater System and Coastal Planning Section is responsible for the overall Stormwater Management and Preparation functions throughout the City. It also deals with the Coastal Management functions such as Beach Rehabilitation and Maintenance through the cooperation of various stakeholders involved in the various activities and functions along the City's coastline; namely:

- Uthungulu District Municipality;
- Transnet National Ports Authority; and
- KZN Wildlife Authority.

Stormwater Systems Operations and Maintenance

The Operations and Maintenance functions of the Stormwater Infrastructure Component is dealt with both in-house (internally) which forms part of the un-planned maintenance and out-sourced (externally) which forms part of the planned maintenance.

Table 32 (a): Summary of Stormwater related infrastructure

Small Culvert Bridge - New	No			
Walkways Cleaning	m			350

Similar to the rest of the municipality, the division operates in all zones of the City, including North, South and West as previously mentioned in the report.

Coastal Management And Beach Rehabilitation

The division oversees engineering aspects through Erosion Protection and Beach/Shore Rehabilitation of the City's Coastal Areas ranging within the following geographical scope:

- Mzingazi Canal;
- Pelican Island and Pelican Bay; and
- Alkantstrand and Northern Beaches

The division together with City Development, and Parks Sports and Recreation under Community Service Department, have embarked on an emergency beach rehabilitation project to assist in safeguarding the Alkantstrand Beachfront from further erosion, as experienced during the October 2014 storms that caused considerable damage to the City's beaches and is threatening damage to the lifeguard facilities and the existing park along Alkantstrand Beachfront. This project entailed the construction of a geofabric container bas revetment wall- as presented below.

Geobag Project Along Alkantstrand

Beach Replenishment by Means of Sandpumping

One of the functions of monitoring and reporting of the section is that of the Dredging and Beach Restoration Operations performed by the Transnet National Ports Authority (TNPA), by supplying sand to the City's Northern Beaches in an attempt to maintain beach nourishment.

Transnet National Ports Authority (TNPA) has undertaken to supply a minimum of 950 000 $\rm m^3$ of sand annually, therefore monitoring of this function and adherence of TNPA to this agreement is of utmost importance.

Below are photographs of the above-mentioned operation.

Isandlwana Dredger: Commisioned In 2010 with an Operations Capacity of 2800m3

Isandlwana Dredger: Connecting to Sand-pumping Pipeline after Dredger

Sandpumping Discharge onto Alkantstrand Beach

Currently the Isandlwana Dredger has been replaced by the Ilembe Dredger which has an even larger operating capacity of 3300m3, and is much newer, therefore sustaining less breakdowns and decreased operation time.

Other Capital Projects Completed (RTS) Construction of 4 New Pedestrian Bridges in Wards 14,15,18,22

The construction of the Pedestrian Bridge in Ward 14 has not commenced as yet, however it is envisaged to be finalised before 30 September 2016.

Erosion Protection of Embankment along Blind Canal

Stormwater Management Bylaws

The current Stormwater Bylaws have been amended to incorporate additional clauses that will assist Council as well as the public with resolutions on how to deal with the following:

- Natural stormwater-flow disputes between neighbours and/or adjacent properties;
- illegal dumping of waste and litter within the storm water servitude causing blockages or damage to storm water infrastructure; and
- building restrictions within the floodplain area or within the $\ensuremath{\mathbf{1}}$ in 50 year flood-line area.

These amended Bylaws will be made available to the public for review and comment in due course.

Table 33: Stormwater Bylaw

BYLAWS	DESCRIPTION
Storm Water Management Bylaw	New amended by law promulgated in 2011 and developed to protect open water resource and to enforce stricter controls for managing this area more effectively.

Rural Roads

The Rural Road Operations division attends to the following in rural areas:

- Rural roads;
- access roads; and
- pipe culvert bridges.

During the period in review, the following was achieved: Rural Roads- 350 km's of roads graded, 59.2 km's gravelled, and 16 Pipe Culvert Bridges installed. Cleaning of congested pipe culverts was attended to on a continuous basis thereby assisting hundreds of residents residing in rural communities.

The table below is a summary of the work executed:

Table 34: Rural Roads work completed in 2015/2016

	R	OADS GRADED	ROA	ADS GRAVELLED	STORMWATE	R PIPE CULVERTS

Council has invested in the acquisition of its own earth moving plant which is utilised by the division to carry out its function. Such plant includes:

- TLB
- Grader
- Roller
- Water tanker
- Tipper truck

Grading and Gravelling Programme and Other Information

The work carried out is reflected in the graph below:-

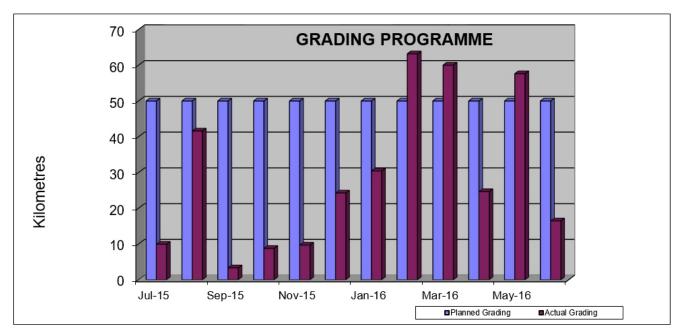

Figure 17: Grading programme

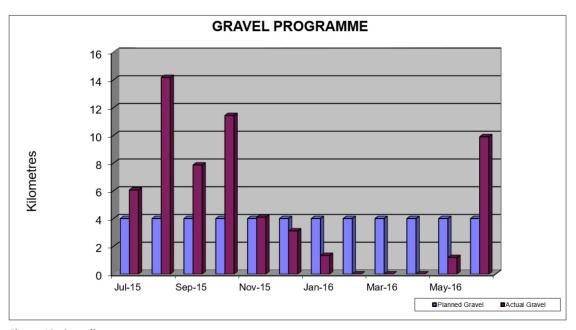

Figure 18: Graveling programme

Engineering Support Services (ESS)

Fleet Management

The Fleet and Transportation division is a support unit for the maintenance, servicing and repair of the entire municipal fleet. This includes compiling the budget for the replacement of fleet. The division also functions as support for the maintenance of yellow plant used in the entire area of jurisdiction of the City of uMhlathuze. Management of the vehicles and supervision of driver behaviour resorts under user departments, who are responsible for the daily operations and control and management of the vehicles and plant allocated to them.

The division is responsible to:

- Set out and implement standards to regulate physical management, recording and internal controls to ensure that vehicles, plant and equipment is safeguarded against inappropriate loss or utilisation, thereby maximising useful economic life;
- provide a framework within which expenditure on vehicle, plant and equipment can be incurred including scrapping of such vehicles, plant and equipment; and
- ensure that vehicles, plant and equipment are acquired, operated, maintained, repaired and disposed of within the applicable regulatory framework, taking into consideration budgetary constraints.

Capital Projects

The City spent approximately R30 million on additional fleet during the 2015/2016 financial year to improve service delivery. The acquired fleet included:

- 1 Road Sweeper
- 26 Double Cab 4 x 4 LDV's
- Half Ton LDV's
- **Fuel Trailer**
- **Tipper Trucks**
- Water Tankers
- Graders

Road Sweeper and Aerial Platform

Capital funding for the procurement of additional and replacement plant and vehicles will require significant investment in the coming years if the municipality's fleet is to meet the growing demands required to render effective service delivery.

Plant and Equipment Statistics

Table 36: Vehicle and plant maintenance statistics (current)

Item	Qty
Commercial vehicles (3 ton and above)	124
LDV'S and Panel vans	256
Sedans / SUV's and mini-busses	81
Tractors	35
Yellow Plant (including small plant)	36
Plant and Equipment	146
Motor cycles	4
Total Vehicles and Plant	682

Auction of redundant vehicles and plant

On 31 March 2016 a public auction was held for the disposal of redundant vehicles and plant. This was the first auction of redundant vehicles and plant that was held for several years. The requirement for a registered auctioneer was advertised by City of uMhlathuze's Supply Chain Management Unit. The auction was well conducted and all funds due to uMhlathuze Municipality have been deposited into Council's Bank account. Officials from Council's Supply Chain Management Unit supervised the Auction proceedings.

A total amount of R1 278 852 was realised through the auction.

Project Management Unit

This division is responsible for the implementation of capital projects on behalf of other departments which do not have the capacity to execute the same. It's role includes preparation of specifications and tender documentation. The MIG Grants funding is also implemented by Project Management Unit (PMU) division. In addition, the division deals with the coordination of Expanded Public Works Programme (EPWP) in which departments are responsible in terms of making sure that they create job opportunities in all service delivery budgets under the municipality.

Project: Construction of 20ML Reservoir

The project is key to the growing developments that are being planned by the City and it will supply the Empangeni Mega Water Stone developments and supply other extensions as well as add to the reservoirs capacity within the areas.

Project: Construction of Market Stalls at B-rank

Project: Refurbishment of Esikhaleni Depot

Project: Upgrade of Sportfields in Enseleni (muzuvukile)

PROJECT: EXTENSION TO ESIKHALENI LIBRARY

Project: Mkhwanazi North Phase 5 Water Reticulation Zone L1

Project: Mandlazini Agri-Village Sewer Network Phase 1

Please note that these figures are as per the EPWP programme report based on based on 240 days worked without interruptions which is equivalent to one job opportunity created.

Expenditure on Wages for all Municipal EPWP Projects: 2015/2016 Financial Year

A minimum of R21 884 477 million has been spent on wages for all EPWP programmes (Infrastructure sector, the Environmental sector and the Social sector) undertaken by the municipality during the 2015/2016 financial year. The amount includes wages paid by contractors undertaking municipal infrastructure projects.

Building & Structures

The Buildings and Structures division comprises subdivisions as follows:

- **Buildings Maintenance**;
- Mini Buildings Projects (Maintenance Contractors);
- Lighting Services; and
- Air conditioning and Refrigeration

This division is responsible for the maintenance and servicing of all Council owned building maintenance works, whereas smaller tasks are executed by the division on behalf of and for user departments. Budgeting for minor work is done by user departments and work planning is done based on needs and budget availability. The number of such projects completed during the reporting period equals 26, with an additional 6 either in planning or initiation/ control and monitoring phase or awaiting finalisation from Consultants.

A Structural Engineer was appointed to conduct annual inspections and provide detailed reports on conditions/structural integrity and remaining life of all municipal buildings pending refurbishment and renovations.

Infrastructure Asset Management

This division is tasked with providing the following services for support:

- GIS in relation to capturing As Build information;
- surveys for internal projects;
- bulk contributions on civil works;
- drawing; and
- asset management programmes in collaboration with Financial Services Department.

The section also attends to investigations of site encroachments through and in collaboration with City Development Department. The issue of As Built approvals and capturing on the system is vitally important in order to ensure that Council runs asset data across the board.

CITY DEVELOPMENT

Nontsundu Ndonga Deputy Municipal Manager

City Development

The City Development Department directly addresses the National Key Performance Areas of:

- Basic Services and Infrastructure Provision
- Local Economic Development
- A number of relevant cross cutting KPAs are also addressed relating to urban and rural development as well as property management

In context of the above KPAs, the City Development Department is divided into three sections, namely Economic Development Facilitation, Urban and Rural Planning and Public Transport Facilities and Operations Coordination. The respective Units under each of these sections are indicated hereunder:

Eco	nomic Development Facilitation	Public Transport Facilities and Operations Coordination	Urk	oan and Rural Planning
0	Property Administration	o No Sub-Units	0	Development Administration
0	Business Support, Markets and Tourism		0	Land Use Management
			0	Spatial and Environmental Planning
			0	Human Settlements Programmes

A synopsis is provided of each of the listed Units and a thread drawn with the Municipality's IDP Goals, Objectives and Strategies.

Economic Development Facilitation Section

The long term vision of the City of uMhlathuze is to become "the Port City of uMhlathuze offering improved quality of life for all its citizens through sustainable development." The municipality intends to achieve this through sustained socio-economic development and distribution of opportunities for the benefit of all communities in an efficient, cost-effective manner.

The City of uMhlathuze has a growing population with a relatively high density, fairly high levels of urbanisation and high unemployment rate.

Indicator	Value
Total surface area	789 square metres
Total population	334,459
Population growth rate from 2001 to 2011	1.45%
Percentage of female in population	51%
Percentage of the youth in Population	72%
Unemployment levels	26.5%
Percentage of population with access to water	89.3%
GDP	R3.7 Billion
uMhlathuze contribution to GDP of KwaZulu-Natal	7.6%

The City of uMhlathuze has identified key projects through the established Richards Bay Industrial Development Zone (RBIDZ) to address unemployment and slow economic. The municipality together with the RBIDZ has identified the following potential industries to promote manufacturing in the region:

- Manufacturing of plastic piping for bulk water transportation
- Paint manufacturing
- Machinery and equipment assembly and repacking
- Manufacture of solar water heater geysers
- Manufacture of energy storage and micro grid systems
- Cement blending and production facility
- Establishment of caustic soda/ chorine chemical production plant
- Manufacturing of stainless steel cookware
- Manufacture of products that use nano-precipitated calcium carbonate
- Manufacturing of tomato paste
- Manufacturing of agricultural supplements
- Manufacturing of Titanium dioxide pigment
- Pulp manufacturing
- Generation of 60 megawatt green electricity
- Establishment of a metallurgical coke production facility
- Aluminium beneficiation
- Manufacturing of welding electrodes

According to the RBIDZ report, some of the above manufacturing industries have already committed (signed) and are ready to start while others have been approved for feasibility and implementation. The Municipal Economic Development Facilitation Section provided necessary support through its Business Support, Tourism Development and Marketing, and Property Administration Units to both RBIDZ and

Business Support, Markets and Tourism

Relevant Council Goals, Objectives and Strategies

NATIONAL KPA 3: LOCAL ECONOMIC DEVELOPMENT						
Goals	Objectives	Strategies				
3.1 Viable Economic Growth and Development	3.1.1 To create and environmental that will create jobs and alleviate poverty	 3.1.1.1 Develop and sustain urban and commercial agriculture to build food security 3.1.1.2 Facilitate and grow SMMEs 3.1.1.3 Promote local production for local needs 3.1.1.4 Review and implement LED Strategy 3.1.1.5 Affirm local entrepreneur 				

In line with the above IDP Objectives, the following are the targets that have been achieved as per the SDBIP for the year under review.

Business Support And Markets

The large businesses located in the City of uMhlathuze are mainly in the environmentally sensitive sub sectors such as mining, smelting, pulp and paper, etc. These sectors and sub sectors also require highly technical and scarce skills.

These above mentioned challenges and others not mentioned present a good opportunity for City of uMhlathuze to engage with large and small business towards the objective of economic development, job creation and transformation.

The municipality has since implemented the following in the 2015/16 financial year to address some of the above mentioned challenges:

Skills Development

The Economic Development Facilitation Section partnered with various stakeholders to ensure that the business community, in particular, the Small and Medium Enterprises are equipped with necessary skills to grow their businesses.

Program	Activity	Beneficiaries	Outcome	Stakeholders
Agricultural Support	Value adding training	19 cooperatives	Co-operatives learned how to add value to their produce	Department of Agriculture & Rural Development
Informal Business Support	Financial literacy training	40 informal traders	Participants became more confident about financial matters and learned how to make informed financial decisions	Old Mutual & Nedbank
Tourism Product Development	Sustainable Competitive and Responsible Enterprise Development (SCORE)	25 tourism establishments	Improved tourism product offering	International Labour Organization

NedBank & Old Mutual Financial Literacy Training for Informal Traders Value Add Training for Agricultural Cooperatives.

Marketing

The municipality provided assistance to various businesses in the City of uMhlathuze through marketing platforms and business networking.

Program	Activity	Beneficiaries	Outcome	Stakeholders
Agribusiness Business Linkage	Annual Agricultural Market day	11 cooperatives	Ensure access to market	Business Community
Tourism Marketing	Marketing uMhlathuze as the Preferred Coastal Destination in Northern KZN	Tourism Industry in the City of uMhlathuze	Increase in a number of tourists visiting the City of uMhlathuze	A) The Best of KZN and Beyond magazineB) Explore the East 3 Route MagazineC) Woza Zululand magazine
SMME Promotion	Advertise companies on the LED Screens in the municipal rate halls	19 SMMEs	Ensure access to market	SMMEs
Township economy	Business Breakfast meeting	150 SMMEs	Networking amongst township businesses Strengthening Communication between township businesses and the municipality	Esikhaleni SMMEs, Ngwelezane SMMEs and Vulindlela SMMEs

Township Business Breakfast

A Business Breakfast was hosted with the purpose of fostering a good working relationship between the Municipality and Local Businesses in Townships. The Business Breakfast focused on the Township Economy as one of the pillars of the Municipal Economic Transformation Road Map.

Agricultural Market Day

Council hosted their Annual Agricultural Market day. This event affords Small Scale Farmers from Council's Agricultural Support Programme an opportunity to sell their produce and market themselves.

Tourism

City of uMhlathuze Beach Festival

The City of uMhlathuze hosts the annual Beach Festival that takes place during the month of December. The 2015 event which was attended by approximately 3000 people from the City and its surrounding areas was held in partnership with the Provincial Department of Arts and Culture and uThungulu District Municipality. The Beach Festival acts as the catalyst for social cohesion and enables our Political Office Bearers to engage with the uMhlathuze masses on an informal basis.

Program	Activity	Outcome	Stakeholders
Event	Beach Festival	Create social cohesion	uThungulu District Municipality, KZN Department of Arts and Culture, uMhlathuze Municipality
Event	Tourism Month Celebration	To create awareness on the tourism product offerings in the city	KZN Department of Economic Development, Tourism and Environmental Affairs SABC Radio 1KZN TV Igagasi FM ANN 7
Event	Responsible Tourism Challenge	Winners on how to operate a business in a financially sustainable manner	

Provincial Tourism Month Celebration

Tourism Month is celebrated annually during the month of September. The theme for the past year was "A million new Experiences are a Sho't left away". The City was privileged to host the provincial celebrations during September 2015.

Property Administration

Relevant Council Goals, Objectives and Strategies

NATIONAL KPA 6: CROSS CUTTING					
Goals	Objectives	Strategies			
6.2 Immovable Property Management	6.2.1 To ensure fair valuation of properties 6.2.2 Effective Management of Council owned Immovable properties	 6.2.1.1 Development and maintenance of valuation roll in line with municipal property rates act. 6.2.2.1 Update immovable asset register 6.2.2.2 Review and adopt Land Sale and Lease Policy 6.2.2.3 Development of a Standard Operating Procedure for Land 			

The City of uMhlathuze manages its fixed assets through the Property Administration Unit which is under City Development Department. The Property Administration Unit which is responsible for the management of lease agreements and sale of municipal land has two divisions, i.e. property valuation and property leasing.

Property Valuation

The municipal Valuation Unit is responsible for the valuing of immovable properties for rating purposes. The valuation of these properties is in line with the Municipal Property Rates Act No. 6 of 2006 as amended. The MPRA is a national law that regulates the power of a municipality to value and rate immovable properties (that is building and land) located within the boundaries of a municipality, in a nutshell it standardized the valuation of properties across the board.

No. of evaluated properties	No. of objections	No. of appeals	No. of reviewed properties
586	3	0	76

Property Leasing

Leases administered by the Municipal Leasing Unit

Section	Public open spaces leases	Adopt-a-spot leases	Agricultural leases	Encroaci ments	h		Diverse Leases for commercial	Diverse Leases for Social	Leased hostels
Total number of registered leases	207	6	7	55		34	40	28	214
Total Income 2015/16 finar		eased propertie	s during the		R 8	568 537.50			

Regularizing of Leases Project

The regularising of leases project involves aligning Council's lease agreements with the approved policy and other relevant legislations. Since the project began there have been 3 successful cases of tenants with commercial leases who previously rented fees below a market related value and indefinite lease periods as required by the Municipal Finance Management Act:

- 1. Trans Tugela Bus Services
- 2. Transnet Capital Projects
- 3. American Tower Cooperation

The project impacts on revenue for Council and contributes in service delivery which is the core function of the municipality. Land transfers administered by the Property Leasing Unit

Property Description	Category	Status
Meerensee EasteNseleni Mall	Commercial	completed
Erven 1563, 1566, 1567, 1570, Rem / 1571, Rem / 1572	Commercial	completed
Erven 11645, 11646, 11649 and 11650 Veldenvlei	Student Residences	completed
Portion 1 of Erf 229 K	Commercial	completed

Leases Approved for Execution

- 1. Department of Transport for the construction of a weighbridge in Richards bay to protect road infrastructure from overloaded trucks.
- 2. MTN for the installation of a telecommunication mast at Vulindlela to improve network coverage in the area.
- **3. Umfolozi Technical Vocational Education and Training College** for the establishment of a maritime school to increase academic qualifications and training in the maritime sector.
- 4. Lot 7490 Alton (Pty) for the expansion of offices and storage for construction related operations.

Review of Land Sale Policy

The municipality is currently reviewing its Land Sale Policy in order to address the spatial transformation and relevant legislation. The policy is still a draft pending adoption by Council.

Public Transport Facilities and Operations Coordination

Relevant Council Goals, Objectives and Strategies

NATIONAL KPA 6: CROSS CUTTING						
Goals	Objectives	Strategies				
2.1 Efficient and integrated infrastructure and services	2.1.2 To expand and maintain road infrastructure in order to improve access and promote Local Economic Development	2.1.2.1 Provision of public transport facilities and infrastructure in the rural areas				

The main responsibilities of the Public Transport Facilities and Operations Section as follow:

- Developing public transport policies, plans and protocols
- 0 Managing of inter modal facilities (ranks)
- 0 Regularizing operators
- Establishing, promoting and managing relationship and partnerships
- Promoting effective and efficient public transport

Operating Licence Applications

In line with the provisions set out in the National Land Transport Act, 5 of 2009, the Unit has attended to the following operating licence related letters:

Application category	Jul-Sept 2015	Oct-Dec 2015	Jan- Mar 2016	Apr-Jun 2016	Total For the Year
Renewal of operating licenses	30	25	9	47	111
Renewal and change of vehicle	12	9	0	6	27
Renewal of bus transport licenses	0	0	268	0	268
Amendment of operating licenses	0	3	0	3	6

Conversion of a permit	0	0	0	3	3
Duplicate operating licenses	5	2	5	3	15
Temporary operating license	0	0	0	0	0
Total applications handled	99	109	335	109	652

Promotion of Cooperation and Dialogue

In an effort to proactively discourage Operators/Associations from resorting to disruptive and possibly property and life threatening actions, the Unit compiled a report titled "PROMOTION OF THE SPIRIT OF COOPERATION AND DIALOGUE: PUBLIC TRANSPORT SECTOR".

The said report chiefly sought to achieve the following messages:

- 1. Re-declaring Council's commitment, preparedness and preference of a dialogue route in pursuance of stable, effective and peaceful public transport operations.
- 2. Calling upon public transport operators to in words and most importantly actions, subscribe to the spirit of cooperation and dialogue when engaging issues, each other the authorities, and conduct themselves and their activities in such a manner that will not be disruptive, provocative and endangering lives and property

This report served before the uMhlathuze Public Transport Liaison Committee on 4 November 2015 and was ratified by Council on 1 December 2015. Emanating from the deliberations the following resolutions were supported by all stakeholder:

- 1. Council re-declares its commitment, preparedness and preference to follow a dialogue route in pursuance of stable, effective and peaceful public transport operations;
- 2. To promote efficient, stable and peaceful public transport, operators subscribe to the spirit of cooperation and dialogue when engaging issues, each other, the authorities, and they commit to conducting themselves in a manner that is not disruptive, provocative and endangering lives and property; and
- 3. It be noted that Council, as a Planning Authority reserves the right to take or recommend taking of necessary compliance enforcing measures in order to prevent any loss of life and damage to property.

Although operators were involved and participated during discussion of the report, the Unit, when addressing the Annual General Meeting held by Ubunye Regional Taxi Association on 9 June 2016 at Ngwelezana Hall, used the opportunity to encourage all Associations to abide by the spirit generally advocated by the report.

The taxi industry in particular, will always be unpredictable, due to the ever present low key inter associations rivalry and sense of suspicion towards the authority. It is cautiously trusted that the agreement reached, combined with other relationship gestures often pursued, should contribute in creating an atmosphere conducive to constructive engagements. The fact that discussions of this nature do occur is encouraging and should be viewed as an essential ingredient for a peaceful period ahead, especially as Council is preparing to tackle potentially sensitive measures aimed at implementing rank management system.

Rank Improvement Programme

The year 2015/2016 saw Council taking decisive action and signalling a shift from previous approaches and attitudes towards public transport. For instance, a budget of R7 million was allocated towards rank improvements. With the "do more with less" attitude, the following actions were successfully undertaken:

Lot 63 Upgrading Project

Almost all existing public transport facilities require urgent and serious attention, however after careful consideration, it was deemed prudent to prioritize Lot 63 at Empangeni due to the most pressing and disaster threatening challenges it was posing. In order to obtain a better understanding of demand and operational a traffic study was commissioned. From the study, invaluable information and statistics were gathered. Based on the gathered information, land constraints and limited budget, the design displayed hereunder was developed:

This project is being implemented in line with the Empangeni Revitalization Program which Council is pursuing. The Lot 63 upgrading project is the first practical step attesting to Council's commitment towards achieving the objectives encapsulated in the said revitalization program.

A contractor has been appointed for the rehabilitation of Lot 63. The existing vehicle congestion and overcrowding characterizing activities at Lot 63, combined with the limited land, are factors that prompted consideration of an idea of only utilizing the facility as a loading area, post the upgrade. Since such an approach represented something new to the operators, in terms of their operational culture, extensive consultation were embarked upon to motivate the idea as well as reaching consensus on the suitable land that will be used as a holding area.

Richards Bay CBD Rank

The following pictures reflect views on how the proposed new and enhanced facility is set to look like after completion.

The finalization of the above shown detail designs is a significant step towards readiness to execute the project as soon as funding becomes available. Efforts are underway to seek funding assistance from other Government sources.

The grounds have been covered so far ever since the establishment of the Public Transport is indeed courageous. The Unit started operating in 2013.

Urban and Rural Planning

Land Use Management

Relevant Council Goals, Objectives and Strategies

NATIONAL KPA 6: CROSS CUTTING						
Goals	Objectives	Strategies				
6.1 Integrated Urban and Rural Development	6.1.3 To ensure effective Land Use Management and Building Management	6.1.3.1 Review and implementation of the uMhlathuze Land Use Scheme 6.1.3.2 Effective processing of development applications				

In line with the above IDP Objectives, the following has been achieved as per the SDBIP for the year under review.

Implementation of Spluma

Having considered the impact of fragmented pieces of Town Planning Legislation which caused racial inequality, segregation and unsustainable settlement patterns, the National Government saw the need to adopt a uniform National Planning Act. The Spatial Planning and Land Use Management Act, 2013 (SPLUMA) was assented to on 2 August 2013, and requires municipalities to adopt spatial development frameworks and land use schemes and empowers them to enforce land use schemes and approve applications for the rezoning of land, subdivision/consolidation of land, township establishment, removal, amendment and suspension of restrictive condition of title, consent use applications, etc.

Municipalities in KwaZulu-Natal have performed these functions since 2010 under the provisions of the KZN Planning and Development Act, 2008, and are therefore not unfamiliar with these types of applications. In addition, municipalities will now be required to also establish Municipal Planning Tribunals to decide applications, categorise applications, decide on appeals against decisions, etc. and also to establish Appeals Tribunals.

The Act is applicable to all land within the Municipal area, including land owned by the Ingonyama Trust Board. The Spatial Planning and Land Use Management Act commenced on 1 July 2015.

With regards to the implementation of the requirements of the Spatial Planning and Land Use Management Act, 2013, the Municipality has successfully implemented the following:

- The first uMhlathuze Land Use Scheme became effective on 7 January 2014. The Scheme has since been reviewed (effective from 25 June 2015), and a second review process will be undertaken during the 2016/2017 financial year. The process will be elaborated upon in the section that deals with Land Use Management.
- A SPLUMA compliant Spatial Development Framework was adopted in June 2016 and will be elaborated upon under the section that deals with Spatial and Environmental Planning.

a) Establishment of a Municipal Planning Tribunal

It can be reported that the uMhlathuze, Ntambanana and uMfolozi Municipalities agreed to establish the "uThungulu North Joint Municipal Planning Tribunal". In line with the requirements of the Act, it has commenced with its operations and the names of the Tribunal Members were Gazetted in accordance with Government Gazette Notice No. 1639 of 10 March 2016.

b) Establishment of a Municipal Appeal Tribunal

Section 51 of the Spatial Planning and Land Use Management Act, 2013, deals with the establishment and functioning of a Municipal Appeal Tribunal. The Act states that a person whose rights are affected by a decision taken by a Municipal Planning Tribunal or an Authorised Official may appeal against that decision by giving written notice of the appeal and reasons to the *Municipal Manager* within 21 days of the date of notification of the decision. A Municipal Appeal Tribunal was established during the 2014/15 reporting period.

c) Drafting of a Municipal Planning Bylaw

The drafting of a Municipal Planning Bylaw in line with the requirements of SPLUMA has commenced. A comprehensive public participation process will be initiated during the 2016/2017 financial year.

Planning Applications

Planning applications were submitted to the Municipality for decision-making in accordance with the provisions of the Spatial Planning and Land Use Management Act, 2013, and the KZN Planning and Development Act, 2008 to the Development Administration Unit.

Applications include rezoning, subdivision and consolidation of land, development of land situated outside scheme areas, phasing or cancellation of approved layout plans for subdivision or development of land, the alteration/suspension/deletion of restrictions relating to land and permanent closure of municipal roads and public places.

The section attended to the following planning applications received during 2015/2016:

	uMh	lathuze Scheme Area		Outside Scheme Area	Total
	Rezoning	Sub-Division / Consolidation	Other / Combined Applications		
QUARTER 1	0	0	1	0	1
QUARTER 2	1	0	2	0	3
QUARTER 3	0	6	4	0	10
QUARTER 4	1	2	3	0	6

Land Use Management

Relevant Council Goals, Objectives and Strategies

NATIONAL KPA 6: CROSS CUTTING							
Goals	Objectives	Strategies					
6.1 Integrated Urban and Rural Development	6.1.3 To ensure effective Land Use Management and Building Management	6.1.3.1 Review and implementation of the uMhlathuze Land Use Scheme 6.1.3.2 Effective processing of development applications					

The Land Use Management Unit has development control and building control as its main responsibilities as further outlined hereunder.In line with the above IDP Objectives, the following has been achieved as per the SDBIP for the year under review.

Development Control

Development Control promotes orderly development through regulation and management of land use within the City. As such, the section is responsible for processing the following types of applications:

- **Special Consent**
- Formal Authority
- **Building Line Relaxation**

The relevant applied policies and legislations are:

- Spatial Planning and Land Use Management Act
- Natal Town Planning Ordinance

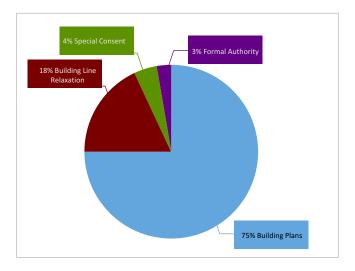

a) uMhlathuze Land Use Scheme

The current Land Use Management Scheme, which is the instrument whereby development rights of land located within the City of uMhlathuze is controlled and guided, has been in operation since January 2014 when it was adopted by Council. Its latest amendment was effected on June 2015. The desire of Council to apply a singular Land Use Scheme for the entire City in accordance with Spatial Planning and Land Use Management Act, 2013 (SPLUMA) and KZN Planning and Development Act, 2008 (KZNPDA) is in course of finalisation, and as such processes have been streamlined relating to land development applications.

In the 2016/17 financial year, Council will commence with the development of a wall-to-wall scheme inclusive of the entire municipal jurisdiction, also incorporating wards inherited from Ntambanana Municipality. This will assist greatly in incrementally introducing regulation of land uses in previously excluded areas, and will contribute immensely to orderly development within the City.

b) Land Development Applications

Various applications for council's Special Consent and for the rezoning of properties were dealt with and Council's exempted authority status has contributed to the fast-tracking of applications, taking due cognizance of statutory requirements which need to be followed in the process. Apart from normal day-to-day responsibilities carried out by staff located in the Richards Bay and Empangeni offices, the following numbers of applications were dealt with during the 2015/2016 financial year:

APPLICATION TYPES	Nr	%
Building plans	536	75
Building line relaxation	127	18
Special Consent	29	4
Formal Authority	18	3
	710	100

Building Control

Building control promotes the structural integrity of all structures erected within the City. Before commencement of alterations or additions to dwellings or constructing a new building, law requires building plans for such work to be passed in terms laws that apply.

- o National Building Standards and Regulations Act
- o Spatial Planning and Land Use Management Act
- o uMhlathuze Land Use Scheme

The table below reflects the following:

- Number of building plans submitted during over three financial years
- Estimated building cost of proposed buildings and structures over three financial years

FINANCIAL YEAR	TOTAL NUMBER OF BUILDING PLANS SUBMITTED DURING FINANCIAL YEAR	TOTAL ESTIMATED BUILDING COST OF PROPOSED BUILDINGS AND STRUCTURES
2013/2014	476	424 129 800
2014/2015	395	359 203 600
2015/2016	536	442 960 000

From the above it is clear that steady growth investment is taking place in the City of uMhlathuze from a developmental point of view, despite a slump being experienced in the country's economy. Building control remains a challenge due to illegal structures being constructed and appropriate punitive action is taken and/or advisory services are rendered.

Spatial And Environmental Planning

NATIONAL KPA 6: CROSS CUTTING						
Goals	Objectives	Strategies				
6.1 Integrated Urban and Rural Development	6.1.1 1 To plan for areas for future development and formalisation 6.1.1 2 To promote environmental conservation and protection	 6.1.1.1 Review the Spatial Development Plan for adoption by Council. 6.1.1.2 Development of Rural Framework Plans 6.1.1.3 Development of Urban Framework Plans 6.1.1.4 Development of Rapid Urbanisation Management Plans 6.1.1.5 Developing Commercial precinct plans for all suburbs 6.1.2.1 Developing a Strategic Environmental Assessment for the entire municipal are 				

Here is an outline of the work done for the year under review in respect of the Spatial and Environmental Planning Unit in line with the IDP Objectives outlines above.

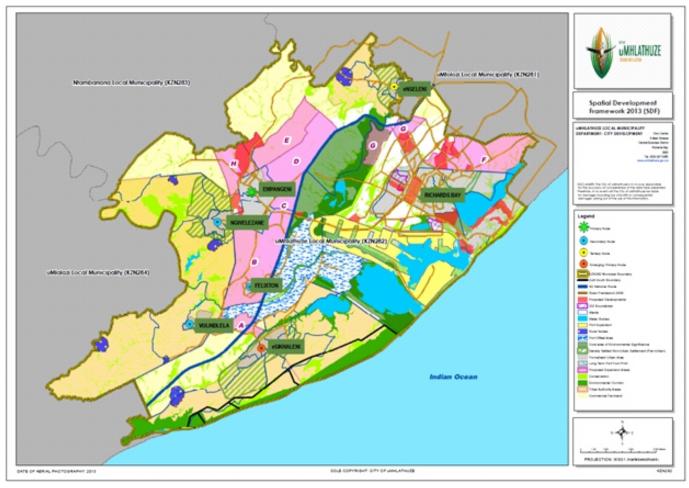

Spatial Development Framework

The Spatial Development Framework (SDF) is the visual presentation of the municipality's development vision and strategies; hence it reflects the current reality, but also the logical future development options.

A SPLUMA compliant Spatial Development Framework was adopted in June 2016. The Spatial Development Framework provides a long term development vision of the municipality and it provides a development direction to both public and private investors. The 2016/2016 Spatial Development Review main focus was Spatial Transformation and spatial equity which addresses a number of socio-economic challenges. It also provides strategies on how the municipality should plan future developments especially in the townships and traditional authority areas.

The Municipal Spatial Development Framework also provides Land Use Scheme guidelines to ensure that development processes are flexible and that land use application procedures are streamlined to fast track development initiatives.

uMhlathuze Municipal Spatial Development Framework

The uMhlathuze SDF Review places a strong emphasis on the National Development 2030 that makes a strong statement about the need to "address the challenges of apartheid geography". To this end, the following five (5) pillars of Spatial Transformation feature prominently in the uMhlathuze SDF:

- 1. Land Distribution and Development (Brown and Green fields)
- 2. Public Transport Planning
- 3. Economic Development and Economic Opportunities
- 4. Social Development
- 5. Integrated Human Settlement

Selected investment proposed by the City of uMhlathuze to attain the objectives of spatial transformation for the 2016/2017 financial year are summarised hereunder:

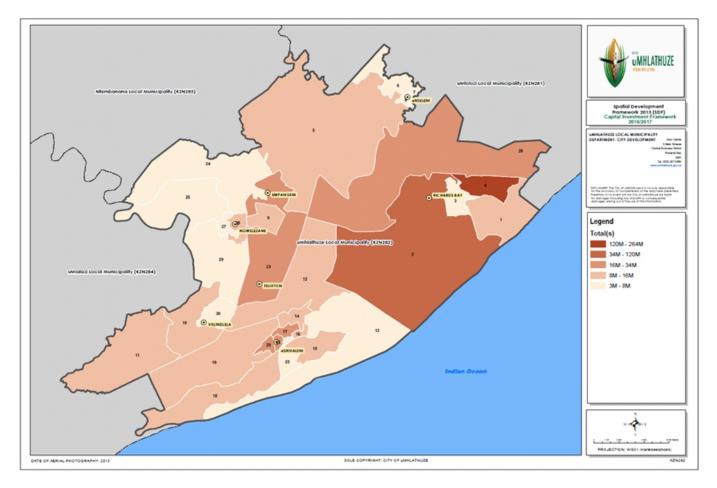

Summary of Spatial Transformation Interventions

		2016/2017		Core SDF Elements					
Spatial Transformation Pillar	Project		Nodes & Corridors	SDF Expansion Areas	Integrated Human Settlements	Urban Renewal & Precinct Planning	Public Transport Facilities	Catalytic Projects	
	Land Audit								
Land Distribution &	Review of Land Disposal Policy					х

The following mapping of the municipal Capital Investment Framework for the MTREF is also contained in the SDF Review.

2016/2017 Capital Investment Framework

Hierarchy of Plans

A hierarchy of plans is being development in aid of implementing the municipal SDF. These plans are prepared for a range of areas with various purposes as outlined further hereunder.

a) Steel Bridge Redesign Conceptual Redesign

The prime location of the Richards Bay attracts a diverse range of users that evokes a proud sense of place and culture in the region. The area has developed as a playground for boating and water sports enthusiasts. As such, the Richards Bay Waterfront accommodates a small craft harbour, where luxurious ocean yachts dock. In addition, an upmarket office complex, numerous shops, pubs, restaurants, luxurious accommodation and walk on moorings in this precinct all add to the vibrant atmosphere of the area.

The Richards Bay Steel Bridge has a Bailey Bridge design, associated with military operations that requires limited engineering and is convenient to assemble. The bridge was developed with the sole intention of serving the Tuzi Gazi residential estates and re-constructed in the 1990's after heavy flooding washed away the previous bridge.

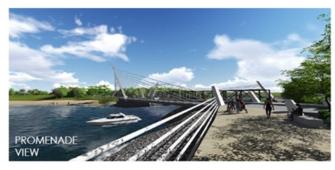

The utilisation of the bridge has increased significantly and it now serves a thriving economic and tourism hub being the primary access that spans over the Mzingazi Canal to the Waterfront.

This one-way Steel Bridge that is controlled by traffic signals on either end that poses a number of operational constraints in terms of its height and width restrictions to the economic and tourism hub that it serves. The conceptual redesign of the bridge has been initiated to propose a replacement bridge concept for the Mzingazi Canal crossing. The bridge concept has to be more functional than the existing Steel Bridge and will become the signature emblem for the Richards Bay Waterfront.

The overall intention of this project was to lay the proverbial foundation for the development of an iconic bridge structure, in order for the area to reach its full potential.

Steel Bridge Urban Design Concept

b) National Upgrading and Support Programme

The Municipality has prepared the following Municipal Informal Settlement Upgrade and Relocation Plans for the following seven identified settlements as part of the National Upgrading Support Programme (NUSP):

- o uMzingwenya River Settlement Plan
- o Mzingazi Village Settlement Plan
- o Mandlazini Village Infill Areas Plan
- o Mandlazini-Airport Settlement Plan
- o Vulindlela/UniZulu Settlement Plan
- o Ngwelezane Hospital Settlement Plan
- Nseleni Settlement Plan

The National Upgrade Support Programme (NUSP) aims to assist Municipalities and Provincial Departments in achieving their Delivery Agreement targets, while at the same time promoting incremental upgrading, participatory planning and livelihoods-based approaches to the upgrading of informal settlements. The National Upgrade Support Programme is an important initiative which works closely with government at all levels in achieving Output 1 of Outcome 8, i.e. Sustainable human settlements and improved quality of household life.

The uMzingwenya River Settlement

The main purpose of the Informal Settlement Upgrading and Relocation Plan is to determine which settlements will be fully upgraded, which ones will be partially upgraded and the identification of areas where people can be relocated to due to the nature of land where they are situated.

More specifically, the key project outputs are as follow:

- Community engagement and participation including Participative Community Action Planning (PCAP).
- Socioeconomic field survey of a sample of households.
- Technical studies focussing on geotechnical conditions, environmental factors, land legal issues, bulk services availability, land developability assessments and plans showing developable and undevelopable land.
- Engineering services assessments, desktop design and preliminary services layouts.
- o Preliminary settlement planning layouts.
- o Settlement assessments and upgrading plans
- The development of preliminary cost estimates in MTEF format to guide future investment in settlement upgrading.

The go-ahead has been received from the Department of Human Settlements to proceed with the implementation of the uMzingwenya Slums Clearance project following the completion and adoption of the National Upgrading Support Programme in uMhlathuze.

c) Esikhaleni Business Support Centre Urban Design Concept

During February 2016 Council adopted an Urban Design Framework for the eSikhaleni Business Support Centre. The proposed eSikhaleni Business Support Centre will be located on Erf H1077, eSikhaleni.

The urban design framework does not only focus on the Business Support Centre planning, but also considers a revitalising strategy for the study area with an intention to create a landmark gateway that promotes urban restructuring, sustainable communities, the use of old government buildings, economic development, poverty alleviation and environmental sustainability.

eSikhaleni Business Support Centre Urban Design Concept

Human Settlement Programmes

Relevant Council Goals, Objectives and Strategies

NATIONAL KPA 2: BASIC SERVICES AND INFRASTRUCTURE PROVISION						
Goals	Objectives	Strategies				
2.1 Integrated Urban and Rural Development	2.1.3 To promote the achievement of a non-racial, integrated society, though the development of sustainable human settlements and quality housing	2.1.3.1 Improve community standard of living through accelerated development of houses in rural areas 2.1.3.2 To provide housing for vulnerable groups 2.1.3.3 To provide low-cost housing (urban)				

NATIONAL KPA 6: CROSS CUTTING							
Goals	Objectives	Strategies					
6.1 Integrated Urban and Rural Development	6.1.1 To plan for areas for future development and formalisation	6.1.1.6 Review of Human Settlement Sector Plan					

Hereunder is an outline of the work done for the year under review in respect of the Human Settlements Unit in line with the IDP Objectives outlines above.

Hostel Refurbishment

The refurbishment of hostels is a programme funded by the Department of Human Settlements under the old Hostel Re-development Programme which has now changed to Community Residential Units (CRU). One of the objectives of the programme was to promote human living conditions and also include plans for accommodating those who are displaces by the project at Dumisani Makhaye Village Housing Project.

The first phase of the project was the conversion and refurbishment of all hostel units, the second phase intends to replace the asbestos roof covering (as the current project only included repair and cleaning), with the third phase intended for the landscaping, i.e. parking, grassing, subsoil drain system and play areas provided funding is available.

Since the inception of the programme in 2002, six (6) hostels (306 units) have been refurbished with 3 blocks (54 units) remaining.

The Bhambatha Flat refurbishment of the two blocks (Block A and B) was completed in May 2015. The Contractor for the refurbishment of the remaining three blocks (Block C, D and E) commenced with work in May 2016 and 33% of work has been done.

Hostel Name	No. of Units	Status
Bhambatha (H396)		2 blocks (36 units) Refurbished
		3 blocks (54) Refurbishment underway

Bhambatha Hostel under Refurbishment (H396)

City of uMhlathuze approved funding for the second phase of the project being the replacement of the asbestos roof covering with more suitable, safe, healthy and environmentally friendly alternative technology, i.e. galvanised profile metal sheeting (0.53 mm thick Zincalum roof sheeting in IBR profile).

The contractor was appointed during the 2015/16 financial year for roof replacements at Sokesimbone Flats (J223), Madala Flats, King Cetshwayo Flats (H862) and Chief Albert Flats (H395). Work commenced on site in May 2016 and it is anticipated to be complete by 30 July 2016.

Rural Housing Projects

To date all 1 200 houses at KwaBhejane/Khoza project have been constructed with 766 houses constructed in this financial year (2015/16) and handed over to the approved beneficiaries. The retention period is now being observed for the houses which were constructed on both the first and second quarter. The project has been completed.

Project Name	No. of Units	Houses Built
Bhejane/Khoza	1200	1200 project complete

Urban Housing Projects

a) Dumisani Makhaye Village

Phase 7 comprising of 547 houses is nearing completion and 4 houses were built in this financial year making the total number of houses built in phase 7 to 536.

b) Urban Projects at Planning Stage

Project Name	No. of Units Planned	Project Status
Aquadene	2416 (RDP, CRU, FLISP, SH)	 Project is still at planning stage Installation of bulk services commenced during in February 2016. Municipality to commence with construction of stormwater, outfall sewer and roads. Town Planning application for the township establishment was approved by Council 30/03/16.
eMpangeni Mega Project	10 000 (RDP, CRU, FLISP, SH)	 Project is still at Planning Stage Phase 1A is approved with no amendment in terms of the existing Development Facilitation Act (DFA) approval. Phase 1 B has been amended and re-submitted to the municipality for approval. Phase 2 the overall concept was supported by Council and the service provider has prepared the town planning application for submission and approval by the municipality.
Mzingwenya slums clearance	In-situ upgrade and relocation	 Project is still at planning stage Feasibility studies are being conducted by the appointed service provider.
Dumisani Makhaye Village Phase 6 and 8	FLISP: 82 CRU/Social:1000 Low income: 130 Total: 1212 (RDP, CRU, FLISP, SH)	 Stage 1 application pack: Planning & Design submitted to the Department of Human Settlements. Preparation of Stage 2 (Infrastructure and Services) Application Pack.

Enhanced Extended Discount Benefit Scheme

In terms of the Old Housing Stock (R293), one hundred (100) properties were transferred to the qualifying beneficiaries in accordance to the Enhanced Extended Discount Benefit Scheme (EEDBS) in this financial year.

Accreditation

The City of uMhlathuze Municipality was accredited with Level II accreditation status by the KZN Department of Human Settlements in 2012 and the Implementation Protocol (IP) was signed in March 2013. This was a three (3) year term agreement expiring on the 6th of March 2016. The agreement was extended for another three months which expired at the end of June 2016. Assessments were conducted in April 2016 and the new implementing Protocol (IP) will be signed in the new financial year.

National Housing Need Register (nhnr) Worhshop

Councillors were workshopped on the 25th of May 2016 on the National Housing Needs Register (NHNR) by the KZN Department of Human Settlements. The National Housing Needs Register is a tool that will be used for planning and allocation purposes. The municipality awaits the launch of the programme by the MEC for KZN Human Settlements which is anticipated in the new financial year.

Housing Consumer Education

The eSikhaleni Flats Tenants Awareness Programme was conducted in all six (6) hostels during the 2015/2016 financial year. The purpose of the training was to refresh the owners' understanding of their rights and obligations under the sectional title scheme and consequences thereof of not adhering to the rules and regulations. In addition, tenants understanding of the management principles of the Body Corporate setup and the roles and responsibilities of the management agent and of the municipality under the scheme. The awareness covered the following topics:

- 1. Lease Agreements
- 2. Sectional title vs Title Deed.
- How does the sectional title operate (body corporate, maintenance).
- 4. Revival of LNG Committee.
- 5. Municipal Accounts (Payment of Rent and services)
- 6. Waste Management (Waste Collection, keeping flats clean)
- 7. Water and Sanitation (Maintenance)
- 8. Electricity (health and safety)

The Hostel Local Negotiation Group (LNG) was also revived in May 2016 to assist with addressing all hostel/flat matters. New members of the committee will be nominated in the coming financial year as their terms of office will be expiring in August 2016.

Achievements

In 2015 the City of uMhlathuze again participated in the Provincial Govan Mbeki Awards. The Municipality was awarded:

- o Best Performing Level II Accredited Municipality
- o Best Implementing Agent: Linda Masinga & Associates
- The runners' up for Madlebe Rural Housing Project

In 2015 the City of uMhlathuze was also awarded at the National Govan Mbeki Awards for Best Performing Level II Accredited Municipality.

FINANCIAL SERVICES

Mxolisi Kunene Deputy Municipal Manager

Strategic priority: Sound Financial Management both departmentally and throughout the Municipality

Financial Overview

The review sets out to highlight the Municipality's performance for the past year. Full details appear in the audited Annual Financial Statements. The municipality is financially viable and sustainable.

National Treasury through their annual assessment of the budget has found the municipal budget to be funded, credible and sustainable for five consecutive years.

This achievement has been a team effort from all within the finance department.

Sections within the Department

The following are the sections within the finance department under the control of the CFO:

- o Administration and Strategic Planning
- Financial Support, Budget Process Management, Budget Reporting, and Expenditure Management
- o Financial Accounting, Reporting and Assets Management
- o Creditors, Loans, Investments and Cash Management
- Supply Chain Management
- o Income Billing Management and Reporting
- o Customer Relations Management
- Credit Control, Debt Collection & Indigent Support

Overview Of The Municipality's Financial Results

The steady progress made to date evidenced by a better cash coverage ratio and an increased ability of the Municipality to contribute towards its own capital projects have been the critical milestones of the municipality.

The financial performance of the municipality has been accurately forecasted with marginal deviation to the operational budget when comparing actual results to the budget. The cascading of performance information to all management levels with the organisation is another initiative that will bring accountability and ensure that departmental managers ability to plan, organise control and lead is evaluated at period intervals hence allowing for early detection of areas of weakness.

Executive Summary of Key Financial Achievements for the Year Under Review

Sound Financial Management

The leadership of the CFO together with immediate management has now completed a seventh year financial plan which includes amongst others an organization structure with specialized divisions in internal and external service delivery and financial management support for the Municipality as a whole. The strategy has been to:

- Be clear with the priorities or focus areas of attention for the department therefore eliminating any possible confusion of the future direction of the department.
- Ensure that the top management within the department are effective.
- Ensure the level of leadership within the department sets a professional tone and are exemplary of the ethos that is expected from employees.
- Ensure communication is enhanced such that even though each unit is specializing, information sharing is the culture so that accounting standards and internal controls are debated, thus learning takes place.
- The development of staff and monthly departmental meetings and contract management is done.

Evidence of very good work in progress as at the end of 2015/16 is clearly visible by:

- Maintaining the Clean Audit Finding by the Office of the Auditor General;
- Sound Liquidity Situation;
- Credible and Funded Budgets;
- Cash Backed Reserves, carried over Grant Funds and carried over unspent Borrowings;
- Finance Department Divisions working more in the collective than in silo's;
- Quality of Financial Reporting being amongst the best in the Country;
- Quality of Credit Control & Debt Management being the best in the Country;
- Quality of Creditors Management being the best in the Country;
- Quality of Inventory Management being amongst the best in the Country;
- Quality of Billings being close to faultless with one of the fairest socio/economically structured Tariffs in the Country;
- Selected by National Treasury to pilot the introduction of a costing segment to the Country's public sector Standard Chart of Accounts (SCOA) and successfully completed;
- Selected by National Treasury to pilot the whole of the MSCOA reforms in preparation for Country-wide implementation from the 1st July 2017.
- Partially successful in the implementation of MSCOA on 1 July 2015. It is expected that most of the teething problems to be ironed out during the 2016/17 financial year.

Contribution to our Developmental Obligations

Supply Chain Management Division

- Council's approved Supply Chain Management Policy promotes inter alia local economic development and support Community based Vendors
- It also assists the Operation Sukuma Sakhe (OSS) which is the KwaZulu Natal Provincial Government to address the social ills and poverty alleviation.

Income Division

- Providing the lowest priced basket of services to all our Consumers with one of the widest range of free basic services for the poor and indigent residents of our Municipality, in the Country:
- Providing "Consumer Specific" indigent support to parentless households and to destitute households;
- The e-UMHLATHUZE portal, which is a payment portal to make access to account statements easier via electronic means has been very successful and more convenient for rate payers.
- The traditional area customer sms statement option to mitigate the postage shortcomings.
- Continued customer focused service.
- The cost of electricity from third party vendors is the same as procuring electricity at the municipal offices and are widely used by customers.

Expenditure Division

The following are the 3 Sections key achievements. These were accomplished despite the implementation of a new municipal chart (MSCOA) together with a new financial system for the Supply Chain and Expenditure system including the main General Ledger.

Creditors and Cash Management Section

As part of the Municipality's developmental obligations and sound financial management these are key activities in developing and assisting our community:

- The Creditors Section facilitated the training of six interns across all major sections of the Finance Department in the financial year. Rotations as well as Personal Development Plans were developed for interns. The progress with this program is very good, especially in the absence of other institutional platforms providing a suitable stepping-stone for aspirant local government financial managers.
- Providing cash flow relief for our SMME vendors by paying invoices within 7 days;
- The signing of Cession agreements with primary suppliers, to assist SMME's to receive there materials on time;
- Guaranteeing every single creditor who has their invoices and associated orders "GRN'd", payment within 30 Days. The Municipality has no creditor payments outstanding more than 30 Days;
- Greater emphasis is being placed on maintaining a healthy and positive relationship with Council's suppliers. This endeavor was sadly prejudiced by the new system development during the course of the year.

- Stricter controls are being implemented in the payment/ procurement process between Municipal user departments and suppliers in ensuring Supply Chain Management processes are followed.
- The section also ensures that available Municipal funds are managed on a daily basis. Council has only short term funds available, hence are invested likewise accordingly. The balance of funds invested as at 30 June 2015 was R432 million (2015 R405 Million). This marginal increase, despite the fact that we were carrying the 2014/15 and 15/16 capex financed through loans by our working capital. This is a 100% improvement in comparison to the year prior 2013 and achieved in a depressed economy.
- The Section has managed the highest short-term investment portfolio in the history of the Municipality to date and doubled its earnings on short term investments year on year.

Financial Support, Budget Process Management And Budget Reporting Section

The process of planning to the approval of each MTREF (Medium Term Revenue and Expenditure Framework) is a continuous cycle, commencing immediately after the ensuing years MTREF is approved by Council.

The process of planning to the approval of each MTREF (Medium Term Revenue and Expenditure Framework) is a continuous cycle, commencing immediately after the ensuing years MTREF is approved by Council.

Following the budget participation process any amendments that have been identified by the community are incorporated into the Final 2015/16 Budget and Medium Term Revenue and expenditure Framework (MTREF). Council adopted the 2015/2016 MTREF on 26 May 2015.

In light of the endeavour by National Treasury to ensure that municipalities prepare a budget document that provides concise and understandable financial and non-financial information, which will ensure that informed decisions are made to promote effective financial management and service delivery. By ensuring that the allocation of financial resources is aligned to service delivery targets it will be clear what services are being promised when budgets are approved.

National Treasury decided to create a template called "Batho Pele City" as a guide for municipal officials responsible to produce their real municipal budget documents.

The aim of Budget Guide is to provide more detailed guidance on the format and content of a municipal budget so as to ensure full compliance with both the letter and the spirit of Schedule A of the Municipal Budget and Reporting Regulations.

In light of the above, Council's Tabled and Adopted Budget report was prepared in line with the template provided by National Treasury.

An exceptional exercise in the 2015/16, was the implementation of MSCOA on the new system. Although MSCOA is a business reform that requires transformation from the whole administration, the core operational steering team came from the Expenditure Division. This was done in addition to the continued high standard of budget, control, reporting and support.

Financial support section also includes payroll administration. The payroll administration section ensures that 2000+ employees (including 60 councillors) are paid their monthly salaries and allowances timeously and accurately. In order to achieve this strict deadlines are required to be met.

Financial accounting, reporting & asset management

The functions of this section include ensuring that the Annual Financial Statements are completed and timeously submitted to the Auditor General for auditing purposes and that the Municipality has GRAP compliant Financial Assets Register.

It needs to be noted that this section has produced unqualified annual financial statements for the last 15 years. It is also the lead section in achieving, what in South Africa is referred to as a "Clean Audit"

Supply Chain Management

Statutory reporting & compliance

Monthly reports have been submitted in respect of procurement of goods and services in terms of each required regulation of the Supply Chain Management Policy of the Council.

Training of all bid committee members on their roles and responsibilities was done by Provincial Treasury. Training on the oversight role of Council was conducted with Councillors by Provincial Treasury.

Controlling Expenditure

The Supply Chain Management Unity (SCMU) scrutinizes all Requisitions for material and verifies that the correct Budget as per the SDBIP is utilized for the procurement of materials and services.

It will be noticed that compared to previous years, the value of orders placed by the Supply Chain Management Unit has increased substantially, which indicates growth in the orders processed by SCMU.

2009 / 2010 total transactions:	R 104,221,294.00
2010 / 2011 total transactions:	R 166,969,064.00
2011 / 2012 total transactions:	R 256,852,052.24
2012 / 2013 total transactions:	R 435,584,919.73
2013 / 2014 total transactions:	R 878,899,965.76
2014 / 2015 total transactions:	R 822,316,543.30
2015 / 2016 total transactions:	R 1,133,255,526.53

Materials Management

Total discrepancies for 2015/16 were as follows:

- o Shortages R 1 500 987.53
 - The major component was attributable to fuel and oil which are subject to various environmental factors
- o **Surpluses** R 1 524 490.57.
 - The net effect is a surplus of R23 503.

The above figures, measured in the context of total value of orders managed by the SCMU, is a reflection of good management of supply chain management, especially if we consider the challenges we experienced with the new system

Statement Of Financial Performance

Summary

Revenue

The 2015/16 financial performance has seen the municipality reporting a Net operating surplus after five years of successive deficits from the 2010/11 financial year. This comes at a time when the pricing risk strategy of the municipality has been fully implemented. The gradual increase tariffs have allowed for the revenue streams to be more aligned when the municipal basket of services are compared to other secondary cities. The universal approach to household affordability ensures that the tiered tariffs which cater for the poor and indigent are addressing the societal income gaps that exist.

The Rates base of the City has increased by R 35 million which is 10 per cent year on year comparison (this includes a 6 percent increase in rates tariff). National and provincial grants and subsides allocations have increased by R 36 million. The total allocation of R492 million still only represents only 18 percent of the City sources of revenue.

The revenue from exchange has grown by 2 percent on year on year comparison. This has been primarily due to economic decline and the drought.

The City reported a net operating surplus of R124 million (surplus R149 million for 2015).

Despite the massive investments already made, more funding is still required on the asset renewal and replacement programme and presently the demand for which continues to outstrip the City's supply resources.

Expenditure

The main expenditure items are employee costs and bulk purchases. Collectively this items account for R 1,640 billion which is 63 per cent of the total expenditure budget of R 2,599 billion.

Repairs and maintenance expenditure increased by R 10 million which is 8% from previous year.

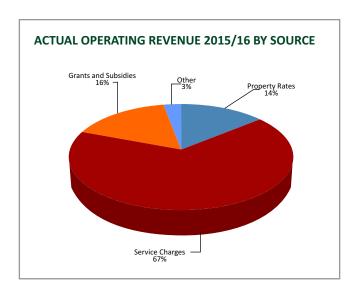

The overall summarized operating results for the Municipality in comparison to the approved budget are shown below. The statement of financial performance reflects a summary of income and expenditure.

Actual Cersus Budget R'000	2016 Actual R'000	2016 Budget R'000	2015 Actual R'000	2015 Budget R'000	Growth % 2016	Growth % 2015
Net Operation Surplus	124 266	258 112	149 252	186 006	-17%	80.2%
Operation Revenue	2 723 951	2 732 983	2 737 981	2 513 946	-1%	189.0%
Property Rates and Service Charges	2 084 147	2 126 955	2 012 006	1 975 675	4%	101.8%
Grants and Public Contributions	497 248	529 128	461 212	471 631	8%	97.8%
Other	142 556	76 900	264 763	66 640	-46%	397.3%
Operating Expenditure	2 599 686	2 474 871	2 588 729	2 327 940	0%	11.8%
Employee Benefits	592 773	629 901	533 157	561 455	11%	95.0%
Finance Costs and Depreciation	410 040	284 820	411 198	260 004	0%	158.2%
Bulk Purchases	1 047 811	1 063 124	1 100 661	1 065 919	-5%	103.3%
Other	549 062	497 026	543 713	440 562	1%	123.4%

Operating Revenue

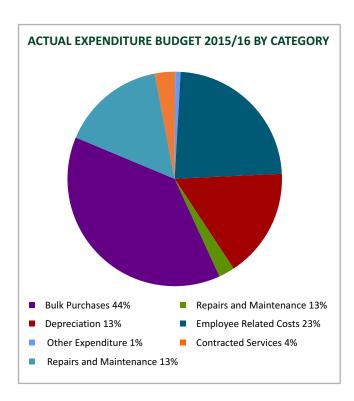

The major operating revenue streams that supported the Municipality's programs and activities were:

- Property Rates
- Services charges which are made up of
 - Electricity sales;
 - Water sales;
 - Wastewater management(sewage and sanitation); and
- o Government operating grants
- Other

Operating Expenditure

The cash flow recovery plan put forward to council by the finance department supported by the entire municipal administration has managed to yield good results in the control and containment of costs. The reduction of finance costs was as a result of council not taking up any further loan but reducing the existing debt that the municipality has.

Spending Against Capital Budget

Capital expenditure incurred during the year amounted to R393,7 million which represents 79% (2015: 91%) of the approved capital budget. It is clear that there has been an increase in capital spending. Below is the funding mix of capital expenditure.

Capital Funding R'000	2016	2015	2014	2013	2012
	R	R	R	R	R

Graph - Capital Expenditure Versus Budget For 2016

Graph- Capital Expenditure Versus Budget For 2015

Cash Flow Management And Investment

The following information shows the Municipality's cash flows for the year under review.

	2016 R' million	2015 R' million
Cash from operating activities	480 835	576 613
Cash from investing activities	(309 768)	(433 916)
Cash from financing activities	(130 451)	(125 569)

Cash flow from operating activities

The Municipality's sources of liquidity are cash flow from operating activities and borrowings. Cash flow from operating activities increased from R 576 million to R480 million primarily due to economic decline.

Cash flow from investing activities

Cash flow from investing activities relates primarily to investments in capital expenditure and short term investments of longer than three months.

Cash flow from financing activities

Cash flow from financing activities is primarily the repayment of the loans. Positive resulted in municipality not taking up its planned loans of R185 million hence investing activities were financed out of cash flow. This loan will be taken up in the 2016/2017 financial year.

Other Financial Matters

Annual Tariffs

		ANNUAL	TARIFF INCREASES			
Year	Rates	Water	Electricity	Refuse	Sewer	CPI
2004	10.00 %	13.5 %	11 %	8 %	10 %	5.1 %

2015	6%	6%	7.29%	6%	6%	5.9%

Debtor Accounts

Electricity and water meters readings are performed, processed and posted monthly to ensure that all account holders receive accurate accounts and that a high payment rate is maintained. The collection of monies has been very difficult. The department however still obtained an average debt collection ratio of 96.86%, despite these difficult times.

Outstanding consumer debtors as at 30 June 2016 were R389 million (2015: R 360 million). The total provision for impairment decreased from R110 million to R 101 million. The amounts included in the consumer debtor balances considered to be doubtful are covered by a provision for impairment of R101 million, which represents 25,96% of the total outstanding consumer debtors. Included in the provision is R10 809 065 for traffic fines. This is as a result of the implementation of IGRAP1

Debt Collection Ratio / Nett Debtor Days - For **Consumer Debtors**

The overall payment ratio for the past seven years is illustrated below. The Ratio indicates the collection rate; i.e. level of payments. It measures increases or decreases in Debtors relative to annual billed revenue. The formula and norm is prescribed by the National Treasury in MFMA circular 71. The published norm is 95 %. Despite the difficult economic climate and the reason for decrease compared to the previous year, as detailed below, the payment ration is still above the norm. There has been a decrease in the payment ratio, which is attributed to the closure / liquidation of Tata Steel (KZN) Pty Ltd. They were Council's biggest single debtor.

Year	Payment Rate
2008 / 2009	98.56 %
2009 / 2010	98.67 %
2010 / 2011	100.11 %
2011 / 2012	99.49 %
2012 / 2013	99.17 %
2013 / 2014	100.93 %
2014 / 2015	99.08 %
2015 / 2016	96.86 %

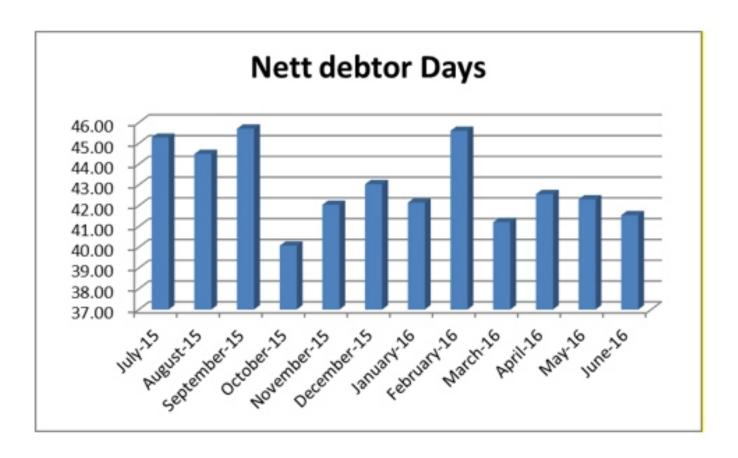

Nett Debtors Days

This ratio reflects the collection period. Net Debtor Days refers to the average number of days required for a Municipality to receive payment from its Consumers for bills / invoices issued to them for services.

The Ratio exclude balances for Debtors, which the Municipality has assessed as potentially irrecoverable, and is also a good indication of the effectiveness of credit control procedures within the Municipality as well as the extent to which the Municipality has provided for doubtful Debts.

Month	Nett debtor Days
June-16	41.54
May-16	42.30
April-16	42.55
March-16	41.20
February-16	45.60
January-16	42.14
December-15	43.03
November-15	42.04
October-15	40.07
September-15	45.70
August-15	44.48
July-15	45.27

Non-Compliance With MFMA

There municipality complied with all the provision of the Municipal Finance Management Act.

Unauthorized, Irregular, Fruitless And Wasteful Expenditure

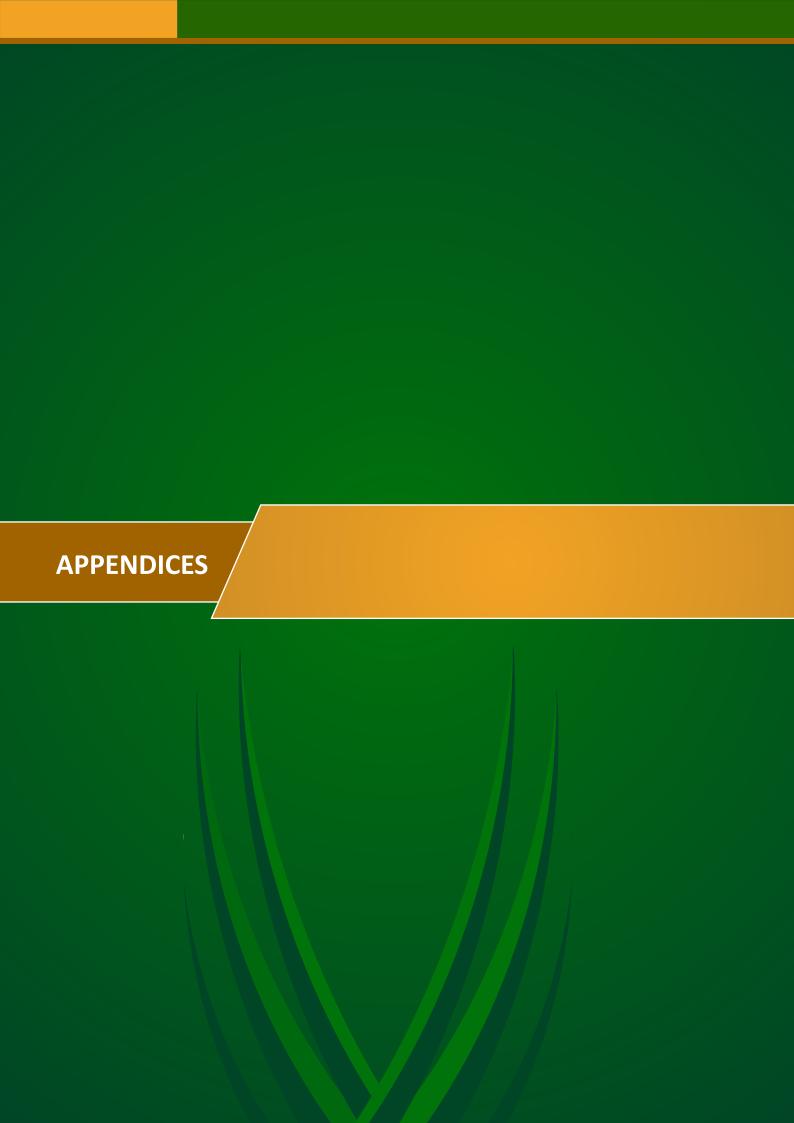

No unauthorized, irregular, fruitless and wasteful expenditure was incurred by the Municipality during the year.

Expression of Appreciation

I wish to convey my sincere appreciation to the Mayor, the Executive Committee, members of the Finance portfolio committee, the audit committee, the Municipal Manager and the Executive Management team for their support and cooperation received during the year.

A special word of gratitude to all financial staff, and to the staff of the auditor general for conducting the external audit the manner in which they did, and for their assistance, support and cooperation during the year.

Finally, a further word of thanks to everybody for the months of hard work, sacrifices and concerted effort during the year to enable the Municipality to finalize the financial reporting with special emphasis on the financial statements which culminated to a clean audit report

APPENDIX E:

WARD REPORTING & THE FUNCTIONS OF WARD COMMITTEES

The Constitution of the Republic of South Africa in section 152 lists the objects of local government, among them is to provide democratic and accountable government for local communities and to encourage the involvement of communities and community organisations in the matters of local government.

Pursuant to these noble objectives, as set out in the Constitution, Council has taken a deliberate decision to strengthen and intensify its public participation drive. Department: Corporate Services has this unit called Councillor Support and Public Participation. It is charged with ensuring that there is an organised and structured manner in which the Municipality communicates and/or consults the community on their developmental needs, so that intervention programmes can target real community needs.

We are happy to report that over the past years we have seen a drastic increase in the participation of community members in our IDP, Budget, Project Launches, Sod Turning and also in Izimbizo called by our Principals.

Councillor Support

This unit focuses on the capacitation of Councillors, various trainings has been offered to equip the Councillors on better service delivery. In early January 2013 Circular No 30 of 2012 was received from the Department of Cooperative Governance, which included a section on Tools of Trade for Councillors. In order to adhere to these new requirements laptops were procured for all Councillors. The ultimate intention of this is for a new "greener" e-Council, which will ensure paperless meetings, benefiting the environment.

Furthermore the council is in process of providing Ward Councillors with offices in their respective wards, this will benefit our community.

Ward Committees

As it is embedded in the Constitution for the democratic government public participation is central in deepening democracy. Public participation is described as an open, accountable process through which individuals and groups within selected communities can exchange views and influence decision-making. It is a process of engaging people, deciding, planning and playing an active role in the development and operation of services that affect their lives. Public participation narrows the social gap between the communities and the elected representative. Communities are defined as wards and each ward has to elect a Ward Committee which is a central representative structure that links the community with Council and ensures that communities take part in the decisions in the affairs that affect their lives.

To fulfil the abovementioned objective Council has undergone a programme of electing Ward Committee members that is 10 members per ward. With the amalgamation of Ntambanana Municipality our Ward Councillor's has increased from 30 to 34, so we will be having 340 Ward Committee Members in total, the emphasis its not on the number but on the quality of work and reports that they carry in communicating the needs, views and aspirations of the Community.

As part of Council commitments to motivate ward committee members, Council has budget 4 m for the ward committee out of pocket expense, ward committees received a stipend on R1 202.00 per month with an increase of 7% every financial year.

Taking Council to the Community Synergistic Partnership with Amakhosi

Over the past few years, Council has in its public participation schedule of meetings, ensured that it as a matter of practice; it conducts sessions exclusively targeting traditional leadership whenever dealing with integrated development plan reviews as well as the annual budget. There have also been extensive engagements on other topical issues such as cooperating on ensuring the successful implementation of the GOVERNMENT approved human settlement projects, water and sanitation programs etc. Council does also now and then facilitate other engagements between Amakhosi and other stakeholders. The City of uMhlathuze has five Traditional Councils within its jurisdiction, Mkhwanazi, Madlebe, Kwa Dube, Kwa Bhejane and a section Mandlanzini Agri Village under Kwa Mthiyane (Mambuka). The traditional Councils are now be represented by two Amakhosi who sit a members of council but will not have voting powers, their role is to bring issues related to their communities to the attention of the council, we trust that this will a very successful initiative and will ensure efficient and responsive services to our community. The two Amakhosi are Inkosi M M Mkhwanazi and Inkosi Z K Zungu but so far only Inkosi M M Mkhwanazi has been inaugurated; we are hoping to finalise this process very soon. There have been visits to Traditional Councils to introduce the new City of uMhlathuze leadership, bearing in mind that we have new Inkosi at Kwa Dube and Kwa Khoza Traditional Authorities.

Special Programmes

PEOPLE WITH DISABILITY

On 26 May 2012 was launched with the aim of championing the interests people with disabilities, since then this sector has developed partnerships with fraternal Departments (Social Department, Education, Health, Transport to mention a few), the motive behind the partnerships was to amongst other things address the discrimination that disabled people encounter on a daily basis in that we do not have conducive transport facilities both in government and in the private sector and an intervention is underway even of procuring our own specially equipped vehicle as the Municipality for the disabled; which will serve as a model even for public transport.

WOMEN SECTOR

Building from the summit or a conference held on 07 October 2012, the Municipal Council resolved on having a sector that does not only deal with conferences and morale of employees however that would focus on women emancipation both in the Municipality and in the community of uMhlathuze at large, accordingly council has put aside funds which will enable the council to assist this sector, and to ensure that no financial constrains do not frustrate the fast tracking of women initiatives, this is clear indication of councils commitment to addressing the imbalances of the past; particularly for women, since they were the most affected by oppression in comparison with other sectors. By May this year the Municipality would have had a fully-fledged Women Structure/ Council where women would have a permanent platform in the municipality where they address their issues themselves and advise council on how they wish to tackle them.

YOUTH SECTOR

Since the establishment of a Youth Council the municipality's approach has always been events based when it came to issues of youth. The youth summit held on 19 - 20 June 2013 resolved on a new approach to be followed; which will see the youth adopt a more programmatic stance than just hosting events; to this end, we have committed to procuring the services of a suitably qualified consultant to facilitate a strategic planning session to assist develop an Integrated Youth Development Policy for the municipality in line with National strategy.

INTER CULTURAL INTERGENERATIONAL DIALOGUE

The country as a whole is experiencing moral degeneration and this concept whilst its managed to develop an understanding of how different generations view moral different topical issues and encourage tolerance of the views of other generations, this council resolved on changing this strategy by shifting the event based strategy in to a more focused programme and decided to create a programme that deals with Moral Regeneration which the municipality culminates in celebrations every 27th day of April of every year or soon thereafter, however; we are encouraging our communities to practice this ideal 365 days a year.

SENIOR CITIZENS

The Municipality has also developed a Senior Citizens forum where amongst other things it tries assist the aged on issues of their well-being consequently we have begun discussions with Social Department (SASSA) with an aim of entering into strategic partnership with them to ensure that we take better care of our beloved senior citizens this includes other stakeholders in the private sector.

APPENDIX G:

AUDIT COMMITTEE REPORT

The Honourable Speaker Council of the City of uMhlathuze Civic Centre Mark Strasse Richards Bay 3901

Dear Sir

REPORT OF THE AUDIT COMMITTEE TO COUNCIL

The Audit Committee of the City of uMhlathuze has pleasure in submitting its tenth report to the Council of the City of uMhlathuze. This report is submitted in terms of the provisions of sections 121(3)(j), 166(2)(b) and 166(2)(c) of the Municipal Finance Management Act of 2003 ("the MFMA") and covers the financial year from 1 July 2015 to 30 June 2016 except where otherwise stated.

Members

1. The following persons served as members of the Audit Committee for the year under review:

S Nkonzombi - Chairperson

A Dhuki

B Zulu

EMS Ntombela - (resigned 30/09/2015)

N Zulu - (appointed 01/10/2015, resigned 01/12/2015)

J Ndlovu - (appointed 01/04/2016)

Upon resignation of Dr. EMS Ntombela, Mrs J Ndlovu, served as Chairperson of the Performance Audit Committee and as such represented the Audit Committee on the Performance Audit Committee.

Overview of activities

- 2. The Audit Committee had five formal meetings during the period covered by this report. The Audit Committee therefore complied with the provisions of section 166(4)(b) of the MFMA which requires the Audit Committee to meet at least four times per year.
- 3. The meeting dates and attendance at these meetings were as follows:

Name	29 October 2015	08 December 2015	01 April 2016	20 May 2016
S Nkonzombi (Chairperson)	✓	✓	✓	✓
A Dhuki	✓	✓	✓	✓
B Zulu	✓	✓	✓	✓
EMS Ntombela (resigned 30/09/2015)	n/a	n/a	n/a	n/a
N Zulu (Appointed and (Resigned 01/12/2015)	√	n/a	n/a	n/a
J Ndlovu (appointed 01/04/2016)	n/a	n/a	✓	✓

- 4. Set out below is a summary of the matters which were dealt with at the Audit Committee meetings:
 - The Internal Audit Plan for the 2015/2016 financial year was considered and approved;
 - Council's Enterprise Risk Management Policy document was considered and commented upon;
 - The recommendations and guidance contained in Guideline 65 which was issued by National Treasury during November 2012 was considered and is dealt with in more detail below;
 - At each of the meetings, reports from the internal auditors on work done by them in terms of the approved audit plan, was tabled, discussed and approved;
 - At each meeting a progress report of actual work done as measured against the Internal Audit Plan, was considered;
 - At each meeting feedback was received and considered relating to critical ICT issues and related risks;
 - Attention was given to Council's Performance Management System by considering reports from Council's Performance Management Committee.

Report

5. For purposes of executing its statutory duties as contained in section 166(2)(a) of the MFMA as well as its mandate as set out in the Audit Committee Charter, the Audit Committee relies on the work done by internal audit. The internal audit function is overseen and coordinated by the Chief Audit Executive who is a Council employee. In executing her mandate, the Chief Audit Executive was assisted by the following contracted firms of professional service providers:

SM_Xulu Consulting SekelaXabiso . PricewaterhouseCoopers Deloitte & Touche

- 6. In order to be able to rely on the work performed by internal audit, the Audit Committee has to satisfy itself that the quality and scope of the work performed by internal audit is sufficient to be able to place the necessary reliance thereon. This requires that the internal auditors should be able to do their work without any restrictions and that the internal auditors are, at all times, fully independent. It is the view of the Audit Committee that the work performed by internal audit is of a high standard, that it is properly planned and controlled and that the reporting is detailed and comprehensive. There is also sufficient evidence that internal audit findings are discussed with the responsible officials and that implementation of corrective measures that have been agreed upon, is followed up regularly. Consequently we have no hesitation in relying on the work performed by internal audit for purposes of executing our mandate. We are therefore in a position to advise Council that as far as matters relating to internal financial control, the adequacy, reliability and accuracy of financial reporting, performance management and evaluation, effective governance and compliance with the MFMA and other relevant legislation are concerned, the internal audit reports considered by the Committee have not revealed any material issues that may compromise any of these functions or responsibilities. This comment should however be read with our concerns and recommendations which are dealt with in paragraph 10.
- 7. Section 166(2)(b) of the MFMA requires the Audit Committee to "review the annual financial statements to provide the council of the municipality with an authoritative and credible view of the financial position of the municipality, its efficiency and effectiveness and its overall level of compliance with this Act, the annual Division of Revenue Act and any other applicable legislation". For these purposes, the Audit Committee relies on the work performed by the Auditor-General during its audit of the financial statements of the municipality.
- 8. The members of the Audit Committee reviewed the financial statements and the report of the Auditor General for the year ended 30 June 2016 and can report as follows:

Auditor General's report on the financial statements

- 8.1 The Auditor-General's report on the financial statements has been noted. In this regard it is pleasing to note that the Auditor-General expressed an unqualified audit opinion on the financial statements for the year ended 30 June 2016.
- 8.2 An overview of the financial performance of Council for the year ended 30 June 2016 is set out in the table below.

Financial performance for the year ended 30 June 2016

	Comment	2016 R000	2015 R000
1	Financial performance Total income Total expenditure Surplus for the year Surplus for the year slightly decreased compared to the previous year as a result of a decrease in total revenue against an increase in expenditure.	2 723 951 2 599 686 124 266	2 737 981 2 588 772 149 209
	Comment	2016 R000	2015 R000
2	Positive cash flow from operating activities Council achieved positive cash generation from operating activities after the removal of non-cash items (primarily depreciation).	507 270	620 092
3	Revenue from property rates and service charges Percentage increase	2 084 147 3.59%	2 012 006 5.7%
3	Revenue from property rates and service charges Percentage increase	2 084 147 3.59%	2 012 006 5.7%
4	Revenue from government grants Percentage increase	492 508 7.79%	456 923 21.7%
5	Employee costs Percentage increase	592 773 9.30%	542 327 9.8%
6	Bulk purchases Percentage decrease	1 047 811 4.8%	1 100 661 4.5%

Financial position at 30 June 2016

	Comment	2016 R000	2015 R000
1	Net assets Increase as a result of the surplus for the year	4 549 985	4 425 719
2	Cash and cash equivalents Increase primarily due to positive cash flow from operating activities	462 406	421 637
3	Trade receivables before provision for bad debts Percentage increase	404 440	361 011
4	Provision for bad debts There seems to have been a deterioration in collections which is evidenced by the increase in trade receivables (see 3 above) which required an increase in the bad debt provision	(101 785)	(109 661)
5	Ratio of current assets to current liabilities This ratio, which is an indicator of liquidity, is almost equivalent to prior year.	1.3:1	1.3:1
6	Percentage overspending of final approved operating expenditure budget	5.04%	15.4%
7	Percentage under-spending of final approved capital expenditure budget	21.5%	36.2%
8	Percentage under-spending of conditional grants received	29.47%	25.4%

^{9.} Insofar as the provisions of section 166(2)(c) of the MFMA are concerned, we can report that, in our opinion, there are no issues raised by the Auditor General in the audit report which require Council's specific attention.

Reporting and disclosure

10. The preparation of Council's annual financial statements is governed by various International Financial Reporting Standards, Generally Recognised Accounting Standards and Generally Accepted Municipal Accounting Standards. In addition, there are a number of financial reporting requirements issued by National Treasury which have to be complied with. In spite of the substantial compliance burden which these standards require, Council's Treasury Department managed, as in the previous financial year, to comply with these standards to the satisfaction of the Auditor General and Treasury should, in our view, be congratulated with this achievement. Future compliance with financial reporting standards will however continue to place severe strain on existing financial capacity and infrastructure. It is therefore crucial that Council acknowledge the importance of maintaining and improving its financial capacity to meet this ongoing challenge.

Guideline 65

- 10.1 During November 2012, National Treasury issued Guideline 65 under the Municipal Finance and Management Act of 2003 titled *Internal Audit and Audit Committee*. The stated purpose of this guide was to assist municipalities in improving the effectiveness of internal audit and their Audit Committees. The Audit Committee devoted considerable time to the recommendations contained in this document which resulted in the following outcomes:
 - The Audit Committee Charter and the Internal Audit Charter was redrafted in order to more accurately reflect the proposals and principles contained in Guideline 65, and
 - The Guideline appeared to recommend that municipalities with a separate Performance Audit Committee should combine this committee and the Audit Committee into one committee. This recommendation caused considerable debate within the municipality and culminated into the Chairpersons of the Audit Committee and Performance Audit Committee being requested to engage with National Treasury to obtain clarity on this matter. This was duly done and the respective Chairpersons issued a report dated 5 June 2013 in which a recommendation was made that the current status quo be retained and that the Audit

Internal audit issues

- 10.2 The main function of the Audit Committee is to receive and consider reports from Internal Audit in which their findings on work done in terms of the approved Internal Audit Plan are recorded. For purposes of completeness, the process which is typically followed when a specific area is selected for audit is as follows:
 - A pre-scoping meeting is held with the HOD and other senior officials of the relevantdepartment in which the audit
 objectives and outcomes are discussed;
 - A scoping document is then prepared which is approved by the relevant HOD;
 - DMS 1015084 254
 - Fieldwork commences. During this process regular interaction with relevant officials takes place;
 - After completion of the fieldwork a draft report is prepared for discussion with the HoD and senior officials. The purpose of
 this discussion is to iron out any errors or differences of opinion and to obtain managements' comments and implementation
 commitments;
 - These reports are collated on a quarterly basis and presented to the Municipal Manager and other senior officials for discussion and final approval;
 - These approved reports are then tabled at the next Audit Committee meeting for discussion.
- 10.3 3 Because of the above procedure and the fact that the Audit Committee only meets on a quarterly basis, the time line from initiation of an audit cycle to final reporting is very long and, as a result, some urgency with the addressing of identified problem areas is lost. It is however, conceded that the interaction between Internal Audit and officials during the fieldwork stage has a lot of value and compensates to a degree for the lost benefits associated with the long reporting time line.

Conclusion

- 11. The implementation and maintenance of proper systems of internal control, the prevention of fraud and error, the safeguarding of the assets of the municipality and compliance with relevant laws and regulations, are Council's responsibility. The role of the Audit Committee is to monitor the efficiency of the procedures and mechanisms which Council has put in place in order to ensure that its policies and procedures are adhered to. We can report that, taking into account the exceptions noted above and based on the reports submitted to us, that our overall impression is that the systems and procedures implemented by council are operating efficiently.
- 12. We also wish to take the opportunity to thank the Municipal Manager and his officials for their hard work and the dedication they display to their duties and their positive interaction with the Audit Committee.

700 minus

Yours faithfully

S Nkonzombi

Chairman - Audit Committee

09 December 2016

APPENDIX K (II):

REVENUE COLLECTION PERFORMANCE BY SOURCE

ASSESSMENT BY THE MUNICIPALITY'S ACCOUNTING OFFICER OF THE MUNICIPALITY'S PERFORMANCE FOR REVENUE COLLECTION FROM EACH REVENUE SOURCE AND FOR EACH VOTE OF THE MUNICIPALITY

The Rates base of the City has increased by R 35 million which is 10 per cent year on year comparison (this includes a 8.2 percent increase in rates tariff). National and provincial grants and public contributions allocations have increased by R 35 million. The total allocation of R492 million still only represents only 18 percent of the City sources of revenue.

The revenue from exchange has reduced by 2.1 percent on year on year comparison. This has been primarily due to decrease in service contributions and also revenue on traffic fines. The municipality however did management to receive 99% of its budgeted revenue.

Revenue performance by source

Vote	Actual 2015/2016	Adjusted Budget 2015/2016	Actual / Budget
	R'000	R'000	%

Report of the auditor-general to the KwaZulu-Natal Provincial Legislature and the council on the City of uMhlathuze

Report on the financial statements

Introduction

1. I audited the financial statements of the City of uMhlathuze set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2016, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget with actual information for the year then ended as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Local Government: Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2015 (Act No. 1 of 2015) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-general's responsibility

- 3. My responsibility is to express an opinion on the financial statements based on my audit. I conducted my audit in accordance with the International Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
- I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the City of uMhlathuze as at 30 June 2016 and its financial performance and cash flows for the year then ended, in accordance with the SA Standards of GRAP and the requirements of the MFMA and DoRA.

Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

8. As disclosed in note 33 to the financial statements, the corresponding figures for 30 June 2015 have been restated as a result of errors discovered during the year ended 30 June 2016 in the financial statements of the City of uMhlathuze at, and for the year ended, 30 June 2015.

Events after reporting date

 As disclosed in note 32 to the financial statements, City of uMhlathuze incorporated three wards from Ntambanana Municipality after the local government elections. This arose due to a redetermination of boundaries in terms of section 21 of the Local Government: Municipal Demarcation Act of South Africa, 1998 (Act No. 27 of 1998).

Additional matter

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure notes

11. In terms of section 125(2)(e) of the MFMA the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and accordingly, I do not express an opinion thereon.

Report on other legal and regulatory requirements

12. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report, compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

- 13. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the basic service delivery and infrastructure development presented in the annual performance report of the municipality for the year ended 30 June 2016.
- 14. I evaluated the reported performance information against the overall criteria of usefulness and reliability.
- 15. I evaluated the usefulness of the reported performance information to determine whether it was consistent with the planned development priority. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for managing programme performance information.
- 16. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
- 17. I did not identify any material findings on the usefulness and reliability of the reported performance information for the basic service delivery and the infrastructure development objective.

Additional matter

18. I identified no material findings on the usefulness and reliability of the reported performance information for the selected development priority, however, I draw attention to the following matter:

Achievement of planned targets

19. The annual performance report on pages x to x includes information on the achievement of the planned targets for the year.

Compliance with legislation

20. I performed procedures to obtain evidence that the municipality complied with applicable legislation regarding financial matters, financial management and other related matters. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

Internal control

21. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with legislation. I did not identify any significant deficiencies in internal control.

Other report

22. I draw attention to the following engagement that could potentially have an impact on the municipality's financial, performance and compliance matters. My opinion is not modified in respect of this engagement that is in progress.

Investigation

23. At the request of the municipality, the Department of Co-operative Governance and Traditional Affairs investigated allegations of possible maladministration and corruption. The investigation covered the period 1 July 2013 to 30 June 2014. The investigation was still in progress at the date of this report.

Pietermaritzburg

30 November 2016

Auditor-General

Auditing to build public confidence

Statement of the Municipal Manager's Responsibility

The City of uMhlathuze, situated at 5 Mark Strasse, Richards Bay, is a category B municipality, established in terms of section 12(1) of the Municipal Structures Act, 1998 (Act No. 117 of 1998) and published in terms of the Provincial Government Notice 346 on 19 September 2000. The Local Government operations of the Municipality are assigned by section 156 and 229 of the Constitution of the Republic of South Africa, 1996 (Act No 108 of 1996) and are defined specifically in terms of section 83 of the Municipal Structures Act.

I am responsible for the preparation of these annual financial statements, which are set out on pages 6 to 81, in terms of section 126(1) of the Municipal Finance Management Act, 2003 (Act No 56 of 2003) and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in note 21 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act, 1998 (Act No 20 of 1998) and the Minister of Provincial and Local Government's determination in accordance with this Act.

As required by Section 45 of the Municipal Systems Act and Section 121(4)(a) and (b) of the Municipal Finance Management Act, the Annual Financial Statements were submitted to the Auditor-General South Africa (AGSA) on 31 August 2016.

31/8/2016

Dr N.J. Sibeko

City of uMhlathuze MANAGER

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

1. BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention.

These annual financial statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003) with the exception of certain accounting policies adopted in accordance with International Accounting Standards (IAS).

The principal accounting policies adopted in the preparation of these annual financial statements are set out below:

GRAP I	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors
GRAP 5	Borrowing Costs
GRAP 6	Consolidated and Separate Financial Statements
GRAP 9	Revenue from Exchange Transactions
GRAP 12	Inventories
GRAP 13	Leases
GRAP 14	Events after the Reporting Date
GRAP 16	Investment property
GRAP 17	Property, Plant and Equipment
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets
GRAP 21	Impairment of non-cash generating assets
GRAP 23	Revenue from Non-exchange transactions
GRAP 24	Presentation of budget information
GRAP 25	Employee benefits
GRAP 26	Impairment of cash generating assets
GRAP 31	Intangible Assets
GRAP 100	Non-Current Assets Held for Sale and Discontinued Operations
GRAP 103	Heritage Assets
GRAP 104	Financial Instruments
GRAP 105	Transfer of Functions between entities under common Control
GRAP 106	Transfer of Functions between entities not under common Contro

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016 (Continued)

1. Basis Of Presentation (continued)

GRAP 107 Mergers

2. Presentation Currency

These annual financial statements are presented in South African Rand. The figures are rounded off to the nearest rand.

3. Going Concern Assumption

These annual financial statements have been prepared on a going concern basis.

4. Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

5. Standards, Amendments To Standards And Interpretations Issued But Not Yet Effective

The following GRAP standards have been issued but are not yet effective and have not been adopted early by the Municipality:

- GRAP 18 Segment Reporting
- GRAP 20 Related Party Disclosures
- GRAP 32 Standard of GRAP on Service Concession Arrangements: Grantor
- GRAP 108 Statutory Receivables
- GRAP 109 Accounting by Principals and Agents

The Municipality has not adopted any GRAP standard that is not yet effective, but has based its accounting policies on such standards, except for GRAP 18.

The following GRAP standards have been issued and effective but are not applicable to the Municipality:

- · GRAP 4 The Effects of Changes in Foreign Exchange Rates
- GRAP 6 Consolidated and Separate Financial Statements
- GRAP 7 Investment in Associate
- GRAP 8 Interest in Joint Ventures
- · GRAP 10 Financial Reporting in Hyperinflationary Economies
- GRAP 27 Agriculture

5.1 Significant accounting judgements, estimates and assumptions

The preparation of the Municipality's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgements

In the process of applying the Municipality's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements

Operating lease - Municipality as lessor

The Municipality has entered into commercial property leases on its investment property portfolio. The Municipality has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are as follows:

Depreciation and impairment

The Municipality depreciates its assets over their estimated useful lives taking into account residual values, where appropriate. The appropriateness of its assets' estimated useful lives, residual values and their depreciation methods are re-assessed on an annual basis. The actual lives of these assets and their respective residual values may vary depending on a variety of factors. In re-assessing asset lives, factors such as technological innovation, product life cycles and maintenance programmes are taken into account.

Management used their judgement in applying the internal and external impairment indicators to its assets. No impairment indicators were identified and as such the recoverable amounts of the aforementioned assets was not calculated.

Customer receivables

At year-end management makes an estimate of the amount of total outstanding customer debt that it expects to hand over to external debt collectors and the total subsequent receipts it expects to receive after year end. In addition, management estimates the amounts that it expects to recover from outstanding balances handed over based upon the age profile of debts handed over and based on prior experience and trends. A provision for impairment is raised based on these estimates. A detailed breakdown of the student fee receivable is provided in note 13.

6. Comparative Information

6.1 PRIOR YEAR COMPARATIVES

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

When the presentation or classification of items in the Annual Financial Statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

6.2 Current Year Comparatives:

Budgeted amounts have been included in the annual financial statements for the current financial year only.

7. Property, Plant And Equipment

7.1 Initial Recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

Infrastructure assets in particular are those that are part of a system or network, specialized in nature and do not have alternative uses, immovable and maybe subject to constraints on disposal.

The cost of an item of property, plant and equipment is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Property, plant and equipment are initially recognised at cost on its acquisition date or in the case of assets acquired by grant or donation, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality.

Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

7.2 Subsequent Measurement

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the entity and the cost or fair value of the subsequent expenditure can be reliably measured.

Subsequently all property plant and equipment, are measured at cost (or deemed cost), less accumulated depreciation and accumulated impairment losses. Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is included in surplus or deficit when the compensation becomes receivable.

Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it de-recognises the part of the asset being replaced and capitalises the new component.

7.3 Depreciation

Land is not depreciated as it is regarded as having an indefinite life. Depreciation on assets other than land is calculated on cost, using the straight-line method, to allocate their cost to their residual values over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality on each asset.

Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The depreciation rates are based on the following estimated useful lives.

Depreciation only commences when the asset is available for use.

The annual depreciation rates are based on the following estimated average asset lives:

	Years		Years
Infrastructure		Other	
Roads and Paving	15-65	Buildings	30
Pedestrian Malls	30	Specialised vehicles	10
Electricity	20-30	Other vehicles	3-7
Water	15-65	Office equipment	3-5
Sewerage	15-50	Furniture and fittings	7
Housing	30	Watercraft	15
Community		Bins and containers	5-10
Buildings	30	Specialised plant and equipment	10-15
Recreational Facilities	20-30	Other items of plant and equipment	2-5
Security	5		

7.3 DEPRECIATION (Continued)

The assets residual values, estimated useful lives and depreciation method are reviewed annually, and adjusted prospective or retrospectively if appropriate, at each reporting date. Any changes are recognised either as a change in accounting estimate or correction of error if appropriate in the Statement of Financial Performance.

7.4 Derecogntion

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

8. Leases

The Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the Municipality. Property, plant and equipment subject to finance lease agreements are capitalised at the lower of the fair value or present value of minimum lease payments.

The cost of the item of property, plant and equipment is depreciated at appropriate rates on the straight-line basis over its estimated useful life. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease expenses are recognised on a straight-line basis over the lease term.

The Municipality as Lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the Municipality's net investment in the leases.

Finance lease or instalment sale income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Leased assets are classified as investment property measured at cost model and depreciation on leased assets has been calculated in accordance with GRAP 17 Property, plant and equipment.

9. Impairment Of Non-financial Assets

In assessing whether there is any indication that an asset may be impaired, the following have been considered:

External sources of information

- Cessation or near cessation, of the demand or need for services provided by the asset;
- Significant long-term changes with an adverse effect on the entity that have taken place during the period or will take place in the near future, in the technological, legal or government policy environment in which the municipality operates.

Internal sources of information

- Evidence of physical damage of an asset;
- Increased expenditure on repairs and maintenance on the asset.

Impairment of Cash generating assets

Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the carrying amount exceeds the recoverable amount. The recoverable amount is the higher of the assets Fair Value less cost to sell, or its value in use.

Impairment of Non-cash generating assets

Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or circumstances indicate that the serviceable amount may not be recoverable.

An impairment loss is recognised for the amount by which the carrying amount exceeds the recoverable service amount.

The recoverable service amount is the higher of the assets fair value less cost to sell, or its value in use.

The value in use is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from i ts disposal at the end of its useful life

10. Intangible Assets

An asset is identified as an intangible asset when it:

- Is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability, or
- Arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the Municipality or from other rights and obligations.

10.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licenses and development costs.

The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or the service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that

- The Municipality intends to complete the intangible asset for use or sale
- It is technically feasible to complete the intangible asset
- The Municipality has the resources to complete the project, and
- It is probable that the Municipality will receive future economic benefits or service potential

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Internally generated intangible assets are subject to strict recognition criteria before they are capitalised.

Intangible assets are initially recognised at cost. Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

10.2 Subsequent Measurement

Intangible assets are carried at its cost less any accumulated amortisation and any accumulated impairment losses.

10.3 Amortisation And Impairment

The cost of an intangible asset is amortised over the useful life of 3 years.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

10.4 Derecognition

An intangible asset is derecognised when it is permanently withdrawn from use and no future economic benefit or service potential is derived from it. The gain or loss arising from the disposal of an intangible asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset. It is recognised in surplus or deficit when the intangible asset is derecognised.

11. Investment Properties

11.1 Initial Recognition

Investment property is recognised as an asset, only where:

- It is probable that the future economic benefits or service potential that are associated with the investment property will flow to the entity: and
- The cost or fair value of the investment property can be measured reliably.

Investment properties have been initially measured at cost (Transaction costs shall be included in this initial measurement). Transaction costs are costs which are directly attributable to the expenditure, for example professional fees for legal services, conveyancing fees, property transfer taxes and other transaction costs shall be included in this initial measurement.

If payment for investment property is deferred, its cost is the cash price equivalent.

The difference between this amount and the total payments is recognised as interest expense over the period of credit.

11.2 Subsequent Measurement

Subsequently investment properties are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is calculated on cost, using the straight-line method over the useful life of the property. Vacant land held under investment properties is not depreciated.

11.3 Derecognition

An investment property is derecognised upon disposal, or when it is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal. Any gain or loss arising from the retirement or disposal of investment property is included in surplus or deficit in the period of the retirement or disposal

12. Inventories

Consumable stores, unsold water, and land held for sale are valued at the lower of cost and net realisable value.

In general, the basis of determining cost is the first-in, first-out method.

For the land component recognised in terms of GRAP 12 land is recognised at cost with the cost based on fair value at date of recognition. Redundant and slow-moving inventories are identified and written down to current replacement cost.

13. Revenue Recognition

13.1 Revenue From Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered/goods sold, the value of which approximates the consideration received or receivable.

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue in the period of consumption. Where meters cannot be read during a particular month, they are provisionally billed with the necessary adjustments made in the month in which they were read. Revenue from the sale of electricity prepaid meter cards is deferred and recognised as revenue on the consumption basis, commencing on date of purchase.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied.

Service charges from sewerage are based on the water consumption on each developed property using the tariffs approved from Council and are levied monthly.

Interest and rentals are recognised on a time apportionment basis. Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariffs. This includes the issuing of licences and permits.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

13. Revenue Recognition (continued)

13.1 Revenue From Exchange Transactions (continued)

Revenue from the sale of goods is recognised when the risks and rewards of ownership of the goods is passed to the consumer.

Revenue from exchange transactions is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts allowed by the Municipality,

13.2 Revenue From Non-exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when it is accrued. Spot fines are usually not given directly to the offender. Further legal processes have to be undertaken before the spot fine is enforceable. In respect to summon, the Public Prosecutor can decide whether to waive the fine, reduce it or prosecute for non-payment by the offender.

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into use furthermore Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the Municipality.

Where public contributions have been received but the Municipality has not met the related conditions, a deferred income (liability) is recognised.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof from the responsible Councillors or officials is virtually certain

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognized.

The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

14. Provisions And Contingencies

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting sheet date and adjusted to reflect the current best estimate. Contingent Liabilities and Assets are not recognized but disclosed.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable. Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

15. Housing Development Fund

Housing selling schemes both complete and in progress at 1 April 1998, were also transferred to the Housing Development Fund. All proceeds from housing developments, which include rental income and sales of houses, is paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund are used to finance housing developments within the municipal area. Any transfers to and from the fund are recognized in the statement of changes in net assets.

16. Retirement Benefits

The Municipality provides post-retirement medical aid benefits to retired employees. The entitlement to these benefits is usually conditional on the employee remaining in employment up to retirement age.

An actuarial valuation involves making various assumptions. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

The Expected costs of these benefits are accrued of the period of employment. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized immediately in the statement of financial performance for the reporting period. The Defined benefit obligations are valued once in two years by independent qualified actuaries.

17. Borrowing Costs

Borrowing costs incurred are recognised as an expense in the Statement of Financial Performance in accordance with the revised GRAP 5.

18. Financial Instruments

Classification

The Municipality has types of financial instruments and these can be broadly categorised as either Financial Assets or Financial Liabilities.

Financial Assets

The classification of financial assets depends on their nature and purpose, and is determined at the time of initial recognition.

Subsequent Measurement

Financial assets are categorised according to their nature as financial assets at amortised costs and financial liabilities are categorized as financial liabilities carried at amortised cost in accordance with GRAP 104.

Investments

Non-derivative investments with fixed or determinable payments and fixed maturity dates, which the municipality has the positive intent and ability to hold to maturity, are measured at amortised cost using the effective interest method less any impairment.

Trade And Other Receivables

Trade and other receivables are categorised as financial assets: loans and receivables including statutory receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year end. The fair value of Debtors is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off.

Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

Cash And Cash Equivalents

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The Municipality categorises cash and cash equivalents as Financial assets: loans and receivables. The closing balance on the bank account is representative of its fair value of the monies held.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as Financial liabilities: other financial liabilities carried at amortised cost.

18. Financial Instruments (continued)

Financial Liabilities

Trade and other payables from exchange transactions

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest. The fair value of Creditors is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date

Borrowings and other financial liabilities

Borrowings are recognised initially at fair value, net transaction costs incurred. Borrowings are subsequently stated at amortised cost. Long-term borrowings are non-derivative financial loans and the Municipality does not hold financial loans f or trading purposes. Long-term borrowings are utilised. Other financial liabilities are carried at amortised cost.

The interbank rate or prime lending rate is not the risk-free interest rate, however it has been used as a benchmark for determining the market related rate of interest which is not significantly different to the current rates on long-term loans, hence the fair value of these loans equates their amortised cost.

19. Heritage Assets

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and is held and preserved indefinitely for the benefit of present and future generations.

19.1 Initial Measurement

A heritage asset that qualifies for recognition as an asset shall be measured at its cost (Cash price equivalent at the recognition date). Where a heritage asset is acquired through a non-exchange transaction, its cost is deemed to be its fair value as at the date of acquisition.

19.2 Subsequent Measurement

Heritage assets are not depreciated, since their long economic life and high residual value mean that any depreciation would be immaterial.

After recognition as an asset, heritage assets shall be carried at its cost less any accumulated impairment losses. The Municipality assesses at each reporting date whether there are any indicators of impairment of Heritage assets.

Where there is an indication of impairment the assets are recorded at their recoverable amount or their recoverable service amount.

19.3 Derecognition

A Heritage asset is de-recognised when it is disposed or where there is no future economic benefits or service potential are expected from its use or disposal. The gain or loss arising from de-recognition, is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognized.

20. Short Term Benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

21. Grants-in-aid

The Municipality donates money, goods or services to individuals, organisations and other sectors of government from time to time. When making these donations, the Municipality does not:

Receive any goods or services directly in return as would be expected in a purchase or sale transaction;

Expect to be repaid in future; or

Expect a financial return, as would be expected from an investment.

These transfers are recognized in the statement of financial performance as expenses in the period during which events giving rise to the transfer occurred.

22. Budget Information

The budget is prepared on an accrual basis. The budget amounts are scheduled as a spate additional financial statement called the statement of comparison of budget and actual amounts.

Explanatory comments are provided in the notes to the annual financial statements, first stating reasons for changes from approved to final budget and secondly reasons for overspending or underspending on line items.

23. Unauthorised Expenditure

Unauthorized expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003).

24. Irregular Expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure.

Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

25. Fruitless And Wasteful Expenditure

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

26. TAX

26.1 Normal Tax Expense:

No provision has been made for taxation as the municipality is exempt from taxation in terms of section 10(1)(A) of the Income Tax Act.

26.2 VAT

The Municipality accounts for Value Added Tax on payments basis. This means that VAT is declared to the South African Revenue Services as input VAT or output VAT only when payments are made to suppliers or payments are received for goods or services. The net output VAT on debtors where money has not been received or creditors where payment has not been made is disclosed separately in the Statement of Financial Position in terms of GRAP 1.

Total Property Valuations	37 491 348 560	36 885 991 060

The first valuation in terms of the Property Rates Act No 6 of 2004 came into effect on 01 July 2008. Valuations were performed on land and buildings together. Valuations on land and buildings are performed every four years. The last valuation came into effect on 1 July 2013. One supplementary valuation roll and objection roll in terms of the new Act were processed during the financial year. The following rate randage and ratio to residential tarrif were applied:

16. PROPERTY RATES (continued)	Rate Randage	Ratio to Residential Tariff
Predominant Use		
Residential	0.0083	1:1
Business/Commercial	0.0174	1:2.1
Industrial	0.0181	1:2.2
Agricultural	0.0021	1:0,25

26. ELECTRICITY AND WATER LOSSES		
Water losses for the City of uMhlathuze calculated at a variable cost per kilolitre amo	unts to:	
Total produced and purchased (KL)	35 232 475	43 003 829
Total sold (KL)	25 985 940	26 675 400
Water Loss (KL)	9 246 535	16 328 429
% Loss	26.24%	37.97%
Variable cost/ KL	R4.01	R2.25
Total water losses	37 078 605	36 738 965
Water losses are attributable to the following reasons:		
Non-technical reasons		
Included in these losses is measured water through bulk meters supplying the		
Traditional Areas of Mkhwanazi South, North and Dube. However, individual		
households are not metered yet hence not billed and therefore recorded as lost		
at this stage.		
Technical reasons		
Aged reticulation without sufficient replacement, refurbishment and maintenance. Incorrectly calibrated meters		

26. ELECTRICITY AND WATER LOSSES (Continued)	2016 R	2015 R

Increase/ (Decrease) during the year	509 446	509 446
Carrying amount at end of the year	11 743 466	11 743 466
Staff bonuses		
Bonuses accrue to staff on an annual basis based on their anniversary month. The		
provision is an estimate of the amount payable to staff for the following yearn a		
pro-rata basis.		
32. EVENTS AFTER THE REPORTING DATE		

The re-demarcation of municipal boundaries resulted in Ntambanana Municipality being disolved and wards redistributed to three municipalities, which are uMhlathuze, Mfolozi and Mthonjaneni. On the $3^{\prime\prime}$ of August 2016 elections took place and a new Council was formed which incorporated three wards from Ntambanana Municipality due to demarcation processes. This is a non-adjusting event as it is indicative of conditions that arose after the reporting date.

As a results of the above event uMhlathuze Municipality will take over 17 employees, assets (movables and immovables) and liabilities. The financial estimate of the above cannot be made currently.

33. PRIOR PERIOD ERROR	2015 R
Restatement of Inventory: Land	
During the year, the municipality discovered land previously not accounted for in the accounting records.	
The impact of this adjustment is as follows:	
Balance as previously stated in the Financial Statement	56 055 000
Inventory land not previously recognised	12 445 000
Restated Inventory: Land at 30 June 2015	68 500 000
Restatement of Inventory: Consumable Stores	
During the year, the municipality discovered that the closing balance of Inventory: Consumable Stores was	
misstated for the year of 2015.	
Balance as previously stated in the Financial Statement	16 534 888
Correction of error	2 062 693
Restated Inventory: Consumable Stores at 30 June 2015	18 597 581
Restatement of Accumulated Depreciation: Property, plant and Equipment	
During the year, the municipality discovered that depreciation on some assets was overcharged due to	
non-revision of useful lives , and there was also some equipment incorrectly disclosed under intangible	
assets. The impact is:	
Balance as previously stated in the Financial Statement	6 885 459 186
Transfer from Intangible Asset	5 287
Correction of error	(3 411 320)
Restated Accumulated Depreciation at 30 June 2015	6 882 053 153
Restatement of Accumulated Amortisation : Intangibles	
During the year, the Municipality reviewed the useful lives of assets and discovered that amortisation on	
some assets was over charged. There was also some Equipment that was incorrectly disclosed under	
Intangible Assets.	
Balance as previously stated in the Financial Statements	7 587 471
Transfer to Property, Plant and Equipment	(5 287)
Correction of Error	(38 993)
Restated Accumulated Amortisation at 30 June 2015	7 543 191

33. PRIOR PERIOD ERROR (Continued)	2015 R
Restatement of Property, plant and Equipment: Cost	
During the year, the municipality discovered that some assets were disclosed under Other receivables.	
There was also some Equipment incorrectly disclosed under Intangible Assets.	
Balance as previously stated in the Financial Statement	11 702 805 364
Transfer from Intangible Asset	125 855
Transfer from Other Receivables	6 634 429
Restated Property, Plant and Equipment at 30 June 2015	11 709 565 648
Restatement of Intangible: Cost	
During the year, the municipality discovered that some Equipment was incorrectly disclosed under	
Intangible Assets. The impact of this adjustment is as follows:	
Balance as previously stated in the Financial statements	14 040 804
Transfer to Property, plant and equipment	(125 855)
Restated Accumulated Amortisation at 30 June 2015	13 914 949
Restatement of Other Receivables	
During the year, the municipality discovered that some Equipment was incorrectly disclosed under	
Intangible Asset.	
The impact of this error is as follows:Balance as previously stated in the Financial statements	51 719 044
Transfer from other Receivables	(6 634 429)
Restated Other Receivables at 30 June 2015	45 084 615
Restatement of Accumulated Surplus	
Balance as previously stated in the Financial statements	4 353 845 122
Inventory: Land not previously recognised	12 445 000
Correction of Inventory: Consumable Stores	2 062 693
Correction of Accumulated Depreciation/ Amortisation	3 450 312
Restated Accumulated Surplus Balance at 30 June 2015	4 371 803 127
34. RECLASSIFICATION	
Reclassification of conditional grants expenditure	
Due to piloting of mSCOA the municipality has reclassified this line which was previously disclosed in the	
statement of financial performance. There is no overall effect on surplus. The impact of this is as follows:	
Amount disclosed as conditional grants expenditure	18 527 519
Reclassified to General expenses	(8 754 678)
Reclassified to Employee related costs	(9 170 282)
Reclassified to Contracted services	(602 559)
Net Amount	-

35. DEVIATION FROM PROCUREMENT PROCESSES	2015 R
Section 36(2) of Supply Chain Management Policy has been complied with. The total amount of deviations	
recorded for 2015/2016 financial year is R 60 916 073.53 detailed as follows:	
Emergency	31 254 536
Sole Provider	4 049 062
Exceptional case where it is impossible to follow the official procurement processes	25 612 475
Total	60 916 073

36. UNAUTHORISED, IRREGULAR, FRUITLESS AND WASTEFUL EXPENDITURE

The Municipality overspent its operating budget by R124 million as shown in the statement of budget comparison as result of non-cash items which are depreciation, debt impairment and post-employment benefit expenses. The big impact is on depreciation expenses which increased when historical zero valued assets were revalued using Directive 7 in 2009/2010 financial year and this expense is being phased-in over a period in the budget process taking into account the impact on tariffs.

37. GENERAL EXPENSES	2016 R	2015 R
Included as part of general expenses are the following:		RESTATED

43. FINANCIAL RISK MANAGEMENT

Exposure to interest rate, credit risk and liquidity risks arise in the normal course of

the municipality's operations.

Financial Risk Management

The municipality has exposure to the following risks from its use of Financial Instruments:

Liquidity Risk

Interest Rate Risk

Credit Risk

This note presents information about the municipality's exposure to each of the above risks and the municipality's objectives, policies and processes for measuring and managing those risks. Further quantitative disclosures are included throughout these financial

The Accounting Officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by it, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

43.1 Liquidity Risk

Liquidity risk is the risk that the municipality will not be able to meet its obligations as they fall due. The municipality's approach is to ensure that sufficient liquidity is available to meet its liabilities when due. The municipality uses cash flow forecasts to ensure that sufficient cash is available to meet expected operating expenses. This is guided by working capital and revenue enhancement policy

The debtors collection rate of the municipality also ensures that sufficient cash is available to cover working capital. The average collection rate of the municipality is 100.83%. (2014: 99.17%).

The following are contractual liabilities of which is interest is included in borrowings:

	Up to one year 1 - 5 years					
Borrowings	169 065 439	375 140 944	591 828 189			
Trade and Other payables	-	424 885 601				
Total	1 016 713 790					
43.2 Interest rate risk						
The municipality's policy is to manage interest rate risk so that	costs do not have a					
material impact on surplus. All long-term debts are at fixed rate						

43. FINANCIAL RISK MANAGEMENT (continued)

43.3 Credit Risk

Credit risk is the risk of financial loss to the municipality if customers or counterparties to financial instruments fail to meet their contractual obligations. Credit risk consists mainly of cash deposits, cash equivalents and trade debtors.

Investments

The municipality limits its exposure to credit risk by investing with only reputable financial institutions and within specific guidelines set in accordance with Council's approved investment policy.

Receivables

Receivables are amounts owing by consumers and are presented net of impairment loss. The municipality has a credit control policy in place and the exposure to credit risk is monitored continuously. The municipality establishes an allowance for doubtful debts that represents its estimate of anticipated losses in respect of receivables. Payments of accounts of consumer debtors who are unable to pay, are negotiated in line with the 'credit control policy and terms of payments are agreed upon with the consumer.

Cash and cash equivalents

The municipality limits its exposure to credit risk by investing with only reputable financial institutions and within specific guidelines set in accordance with Council's approved investment policy. The municipality does not consider there to be any significant exposure to credit risk.

The carrying amount of financial assets represents the maximum credit exposure.

The maximum exposure to credit risk as at 30 June was:

	2016 R	2015 R
Call investments	290 000 000	150 000 000
Cash and cash equivalents	172 406 308	271 637 538
Long-term receivables	71 828	114 931
Trade receivables	302 655 742	251 349 75
Other receivables	94 027 207	545 084 615
Total	859 161 085	718 186 839

44. BUDGET INFORMATION

44.1 Explanation of variances between approved and final budget amounts

The reason for the variance between approved and final budget is mainly due to the adjustments budget approved by Council on 24 February 2016.

44.2 Explanation of variances greater than 10%: final budget and actual amounts

44.2.1 Statement of financial position

Total Liabilities

The decrease is due to the loan amount of R100 million budgeted to be taken in financial year was deferred to be taken in 2015/2016 year.

44.2.2 Statement of financial performance

Revenue

Fines

The variance is due to that the municipality uses past trends when budgeting for traffic fines revenue whilst actual revenue is recorded by applying IGRAP 1 requirements.

Interest Earned - external investments

The variance is the result of increased in funds surplus funds available for investments during the year.

Interest Earned - outstanding debtors

The variance is due to property rates penalties being included under interest on outstanding debtors on the budget whilst in the financial statements it reflected under property rates.

Government Grant and Subsidies

The variance is the result of under spending in grant funded projects and therefore revenue could not be recognised due to conditions not being met.

Public Contributions

Revenue from public contribution is not included in the budget unless there is a written confirmation as to when money will be received, hence the variance.

Other Income

The variance is the result of high revenue received on extension fees for engineering contribution and also own revenue on MIG Vat.

Gains on Sale of Land

The municipality does not budget for this revenue item as there are no certainty at budget stage as to whether land sales will materialize or not, hence a variance.

44.2.2 Statement of financial position

EXPENDITURE

Debt impairment

The variance is the result of an increase in the allowance for doubtful debts including traffic fines as well as increase in provision for rates and rural water during the year.

Depreciation and amortisation

The variance is due to the review of assets useful lives, the depreciation of assets which were previously classified as work in progress. Another impact is that a portion of depreciation of assets funded through internal reserves is not included in the budget when determining the tariffs.

Collection costs

The variance is due to an increased number of debtor accounts that have been handed over to the attorneys for collection.

Repairs and maintenance

The variance is due to increase in unplanned maintenance which is caused by emergencies, therefore funds were transferred from contracted services.

Post-employment benefits

This expenditure item represents the costs calculated by an actuarial valuator on the post-employment medical benefits as required in terms of GRAP 25. This cost is not included in the budget

General expenses

The variance is due to savings on programming material, community facilitation, uniforms, advertising, insurance and valuation roll.

Grant and subsidies paid

The variance is due to some grants not paid out as planned in the budgeting stage due to business plans not submitted by applicants

Contracted services

The variance is due to reductions in the scope of some of the work performed under contracted services therefore funds were transferred to repairs and maintenance.

44.2.2 Statement of financial position

Finance costs

The budgeted finance charges include charges relating to the loan which was meant to be taken in 2015/2016 but was not drawn down by year-end.

44.2.3 Cash flow statement

The variance is mainly due to an increase in revenue from engineering contributions and also loan not taken in the financial year as budgeted.

44.2.4 Capital Expenditure

The underspending is mainly due to delays in awarding of tenders. The bulk of the projects have been carried forward to the 2016/2017 financial year
