List of Tables

Table 1: Age group in 5 years by population group and Gender 9

Table 2: Migration, Province of Birth by Region of Birth 11

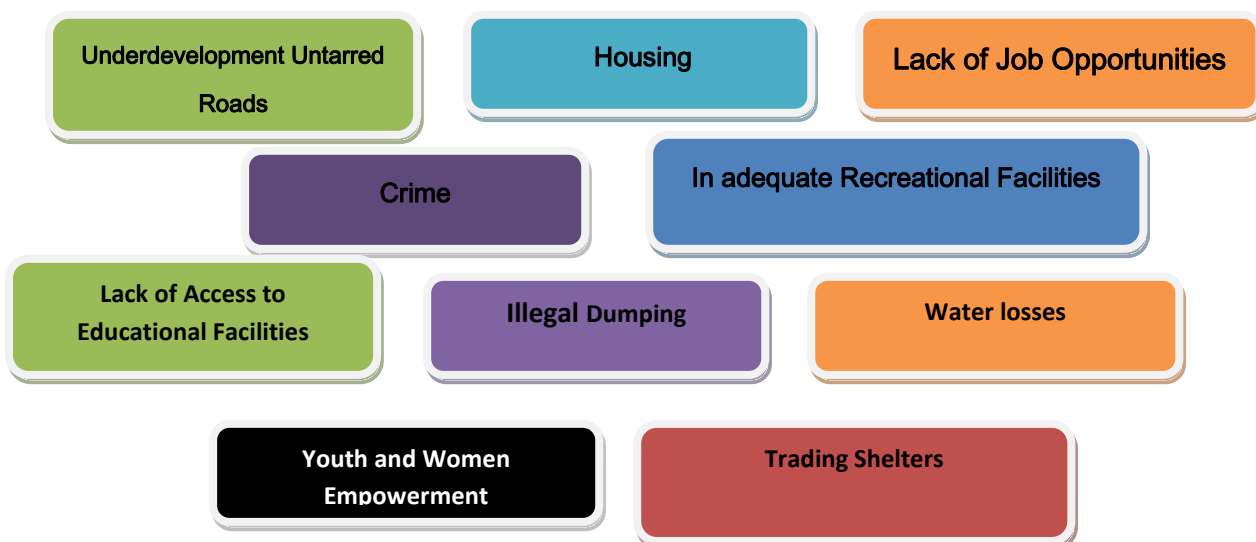

1. INTRODUCTION

These Ward Profiles were prepared by the IDP Unit based on Census 2011 statistics. These Profiles provide a portrait of the demographic, social and economic characteristics of the people and households in each City Ward. The Census Profiles contain information on population by age, households and dwelling types, families, and language groups etc.

2. WARD VISION – DESIRED FUTURE

“To be the community which is well developed, Self - Sustainable, Educated and Living In a Secure, Healthy & Comfortable Environment”

3. WARD CHALLENGIES – CURRENT REALITY

4. SIZE OF THE WARD

Ward 15 has an estimated population of **12255** as per Census 2011.

5. WARD COMMITTEE STRUCTURE

Ward 15 has a fully established ward committee with each member representing each portfolio; the following are members of the ward committee:

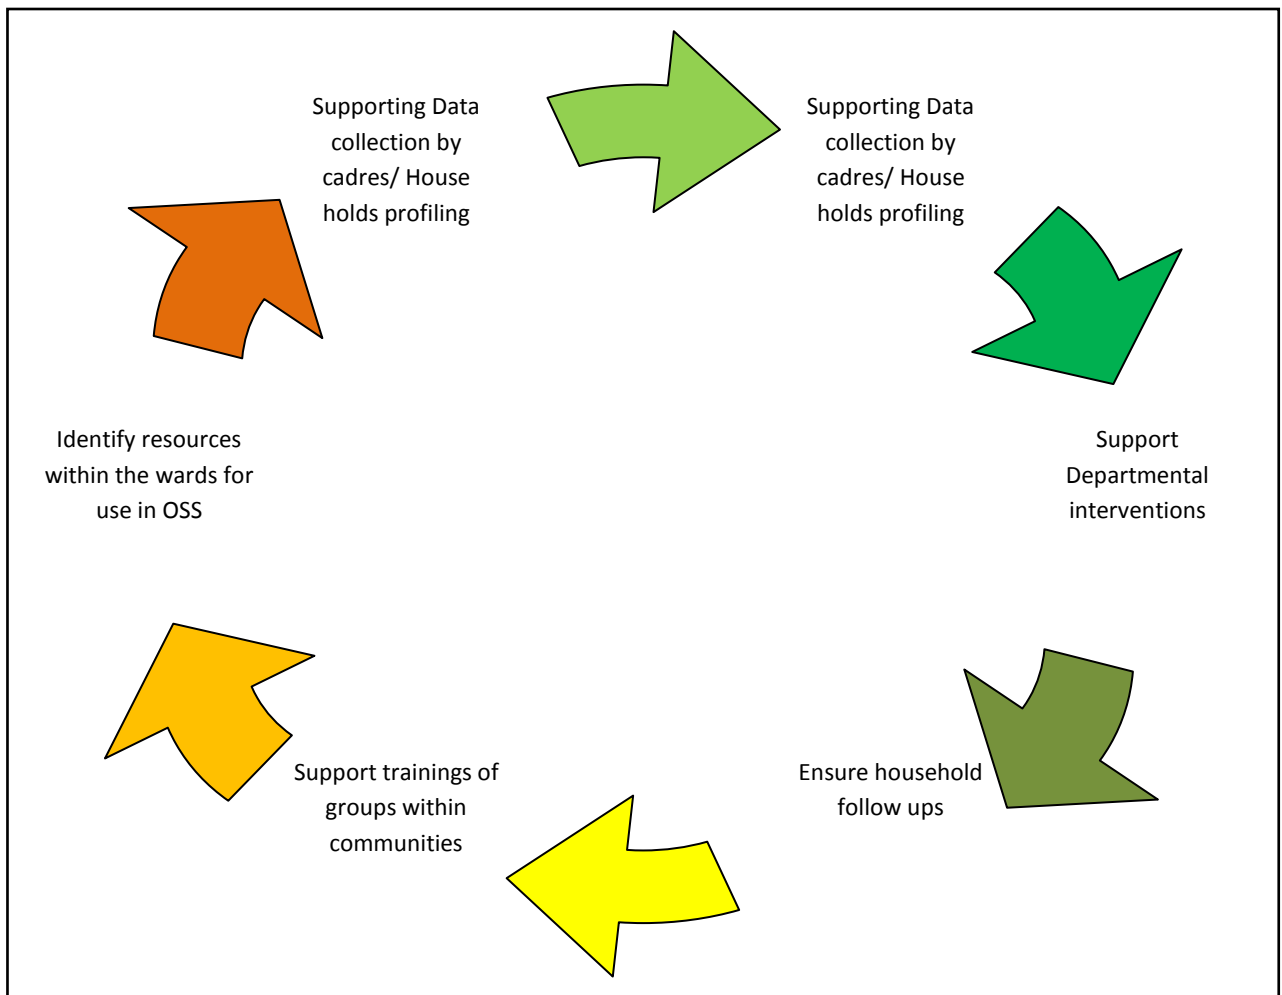

Figure 1: Ward Committee

5.1 War Room Representatives

War Rooms are an integrated service delivery structure comprised of government, municipality, CBOs, business and other stakeholders at ward level. Their main responsibility is not limited to the following:

Figure 2: War Room: Objectives

The war room seat once fortnightly on Thursday at 11:00, it is championed by the Ward Councillor and the following are executive members of Ward 15 War Room:

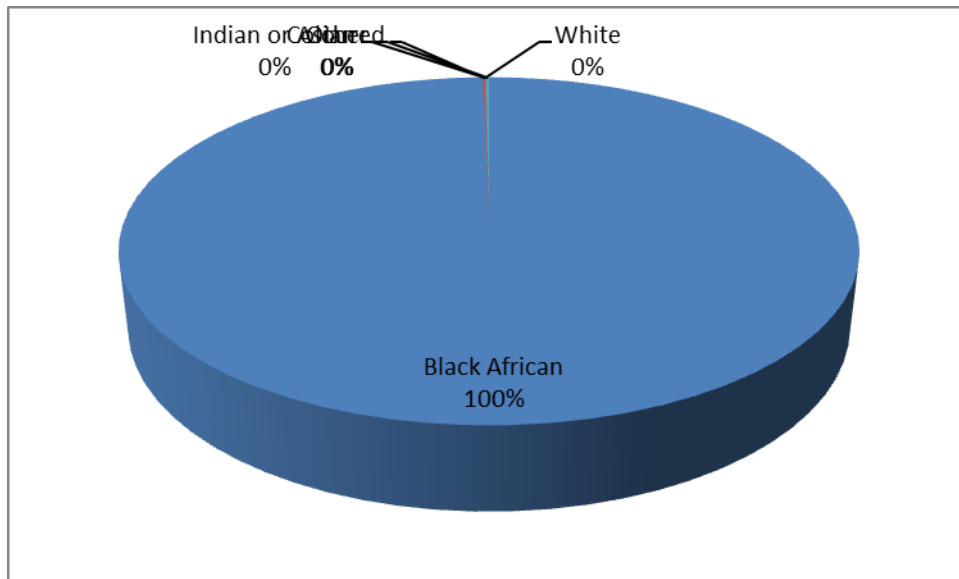

Committee Members	Designation	Contact No.
VACANT	CHAIRPERSON	
VACANT	SECRETARY	

6. DEMOGRAPHICS

6.1 Population

In terms of 2011 Census, the population of Ward 15 is estimated at **12255**.

Figure 3: Population by Population Group

Source, Stats SA Census_ 2011

From the figure above it is clear that Ward 15 is 100% dominated by the Black African Population.

6.2 Age and Gender Profile

Knowledge about the age-sex distribution of a population is valuable information on demographics and social economic concerns. Figure - below presents the distribution of the ward population by age and sex. The figures below show that there are a fairly large proportion of females than males. Ward is youthful, with a largest age group of 00-04.

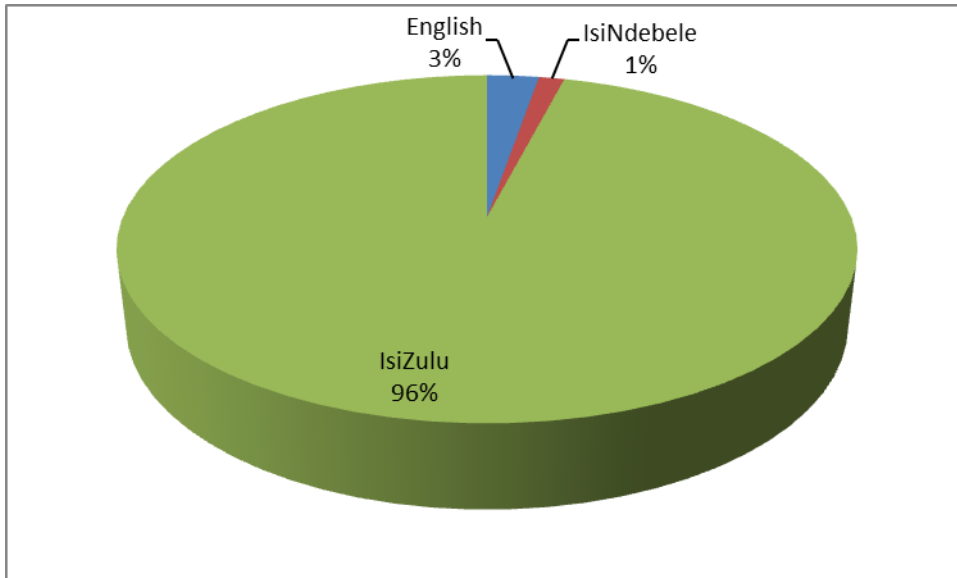

Figure 4: Age and Gender Pyramid

6.3 Language

Out of eleven South African languages, isiZulu with 98% is the main spoken language, followed by English and isiNdebele, the statistics correlate with the statistics above where population group is highly dominated by Black African population group.

Figure 5: Language

6.4 Age Groups in 5 years by Population group and Gender

Table 1: Age group in 5 years by population group and Gender

	Black African		Coloured		Indian or Asian		White	
	Male	Female	Male	Female	Male	Female	Male	Female
00 - 04	837	828	-	3	-	-	-	-
05 - 09	684	693	-	-	-	-	-	-
10 - 14	651	594	3	-	-	-	-	-
15 - 19	693	729	-	-	-	-	-	-
20 - 24	729	888	3	3	-	-	-	-
25 - 29	627	720	-	-	-	-	-	-
30 - 34	408	444	-	-	-	-	-	-
35 - 39	300	336	-	-	-	-	-	-
40 - 44	237	270	-	-	-	-	-	-
45 - 49	186	243	-	-	-	-	-	-
50 - 54	159	186	-	-	-	-	-	-
55 - 59	105	129	-	-	-	-	-	-
60 - 64	75	117	-	-	-	-	-	-
65 - 69	39	69	-	-	-	-	-	-
70 - 74	30	54	-	-	-	-	-	-
75 - 79	18	36	-	-	-	-	-	-
80 - 84	15	51	-	-	-	-	-	-
85+	3	33	-	-	-	-	-	-

From the figure above it can be deduced that in this ward at birth age there are more Black African males born, that is consistent with all population groups, and hence the highest age groups is 00-04 and 25-29. This indicates that we have more infants in this ward more than adults across all population groups. And the ward is dominated by young people as depicted above. At elderly age group more surviving at age 85+ females can be found from the black African population, obviously because Black African are majority.

6.5 Child and Female Headed Household

Figure above indicates that a large proportion of is Male headed Household, within an age group of (25-29) ; Female headed households is also noted even at an elderly age group. There is small proportion of child headed household, if we consider age groups (10-14; 15-19 and 20-24) majority being female headed.

6.6 Marital and Civil Partnership Status

From the figure below it is noticeable that a higher percentage of the adult population that has never married is at 80% followed by married population at 11%. The percentage of a population living together as married couples is at 8% and only a 1% of widows/widower.

Figure 6: Marital Partnership

Table 2: Migration, Province of Birth by Region of Birth

	Born in South Africa	SADC	Rest of Africa	United Kingdom and Europe	Asia	North America	Latin America and Caribbean	Oceania
Western Cape	18	-	-	-	-	-	-	-
Eastern Cape	66	-	-	-	-	-	-	-
Northern Cape	60	-	-	-	-	-	-	-
Free State	-	-	-	-	-	-	-	-
Kw aZulu-Natal	11619	-	-	-	-	-	-	-
North West	12	-	-	-	-	-	-	-
Gauteng	12	-	-	-	-	-	-	-
Mpumalanga	36	-	-	-	-	-	-	-
Limpopo	12	-	-	-	-	-	-	-
Outside South Africa	-	198	9	-	-	-	-	-

The majority of the population is original born from KwaZulu Natal. There is a small population which comes from other provinces and SADC.

6.7 Parental Survival

Orphanhood estimates becomes critical with the advent of HIV which has resulted in an upsurge in the numbers of children that are orphaned especially in Southern Africa, of which South Africa is part.

These estimates provides an indication of the number of children who are vulnerable, even though all age groups are indicated above , the focus is on children aged 0-19. The total number of aged 0-19 who reported that they had lost one or both parents is, 582 have lost their mother and 1311 have lost their father, which is double the number of children without mothers.

This figure above clearly shows that paternal orphanhood is consistently higher than maternal orphanhood.

7. EDUCATION

Access to educational opportunities is a human right. This is one of the National Development Plan Goals. Through education individuals are prepared for future engagement in the labour market, which directly affects their quality of life as well as the economy of the country. Schools are the building blocks for the learning socialisation.

The South African Schooling Act (1996) made schooling compulsory for children aged 7-15 years, while education Laws Amendment Act (2002) set the age admission into grade 1 as the year which the child turns seven . Below a comparative overview of educational attainment and attendance by contributing factors such as population group, age group, sex is examined.

	Black African		Coloured		Indian or Asian		White	
	Male	Female	Male	Female	Male	Female	Male	Female
Grade 0	249	246	-	-	-	-	-	-
Grade 1 / Sub A	255	219	-	-	-	-	-	-
Grade 2 / Sub B	234	240	-	-	-	-	-	-

Grade 12 / Std 10 / Form 5	1113	1338	-	-	-	-	-	-
NTC I / N1/ NIC/ V Level 2	9	15	-	-	-	-	-	-
NTC II / N2/ NIC/ V Level 3	9	12	-	-	-	-	-	-
NTC III /N3/ NIC/ V Level 4	15	6	-	-	-	-	-	-
N4 / NTC 4	6	6	-	-	-	-	-	-
N5 /NTC 5	6	9	-	-	-	-	-	-
N6 / NTC 6	6	9	-	-	-	-	-	-
Certificate with less than Grade 12 / Std 10	-	3	-	-	-	-	-	-
Diploma with less than Grade 12 / Std 10	-	6	-	-	-	-	-	-
Certificate with Grade 12 / Std 10	48	63	-	-	-	-	-	-
Diploma with Grade 12 / Std 10	12	18	-	-	-	-	-	-
Higher Diploma	12	21	-	-	-	-	-	-
Post Higher Diploma Masters; Doctoral Diploma	6	3	-	-	-	-	-	-
Bachelors Degree	6	6	-	-	-	-	-	-
Bachelors Degree and Post graduate Diploma	12	15	-	-	-	-	-	-
Honours degree	12	-	-	-	-	-	-	-
Higher Degree Masters / PhD	3	3	-	-	-	-	-	-
Other	3	9	-	-	-	-	-	-
No schooling	255	420	-	-	-	-	-	-

The figure above shows that the proportion of persons with no schooling is estimated at 670 mostly from the black African population. Individuals who have attained grade 12 are estimated at 2451 as per Census 2011. Further there are individuals who have attained the highest level of education more than grade 12.

8. AVERAGE ANNUAL HOUSEHOLD INCOME

Figure 7: Average Annual Income by Sex of and Population Group head of household

	Black African		Coloured		Indian or Asian		White	
	Male	Female	Male	Female	Male	Female	Male	Female
No income	336	261	-	-	-	-	-	-
R 1 - R 4800	84	147	-	-	-	-	-	-
R 4801 - R 9600	162	252	-	-	-	-	-	-
R 9601 - R 19 600	249	294	-	-	-	-	-	-
R 19 601 - R 38 200	333	282	-	-	-	-	-	-
R 38 201 - R 76 400	216	132	-	-	3	-	-	-
R 76 401 - R 153 800	126	48	-	-	-	-	-	-
R 153 801 - R 307 600	57	21	-	-	-	-	-	-
R 307 601 - R 614 400	21	12	-	-	-	-	-	-
R 614 001 - R 1 228 800	9	3	-	-	-	-	-	-
R 1 228 801 - R 2 457 600	9	-	-	-	-	-	-	-
R 2 457 601 or more	3	-	-	-	-	-	-	-

Figure shows that an average female headed household earn very little on the annual income in 2011 as compared to their male counterparts, females earn an average of (at 9 601-19 600) while their male counterparts earns an average of (19 601- 38 200). In the smaller income rank (R1–R4800) female headed households are still dominant, while their male counterparts dominate at the most upper income ranks. There is significantly higher proportion of no income within the Male Black African Headed Households.

9. GENERAL HEALTH AND FUNCTIONING

The inclusion of statistics on disability serves as a crucial role in the identification of persons living with disabilities. This is one of the most marginalised and vulnerable groups in many societies regardless of whether they are rich or poor. The disabled who comes from the poorest cohorts of society inevitably have more serious problems than their wealthy counterparts as they lack resources to ameliorate their circumstances. Disparities are apparent between persons with impairments and those without. Disabled persons often have inadequate access to education, transport, health and other basic services making them vulnerable to the poverty trap and its associated vices.

Figure 8: Disability by type and degree of difficulty

Hearing	Ward 15	Seeing	52802015: Ward 15	Remembering	52802015: Ward 15
No difficulty	11046	No difficulty	10452	No difficulty	10413
Some difficulty	204	Some difficulty	753	Some difficulty	303
A lot of difficulty	24	A lot of difficulty	84	A lot of difficulty	87
Cannot do at all	12	Cannot do at all	12	Cannot do at all	45

Self Care	52802015: Ward 15	Comunication	52802015: Ward 15	Walking	52802015: Ward 15
No difficulty	9570	No difficulty	10986	No difficulty	10860
Some difficulty	180	Some difficulty	129	Some difficulty	192
A lot of difficulty	39	A lot of difficulty	9	A lot of difficulty	45
Cannot do at all	192	Cannot do at all	30	Cannot do at all	33

Results indicate that most people in ward 15 (more than 90%) had no difficulty or limitation that prevented them from carrying certain functions at the time of the Census. There is large proportion that indicated a seeing difficulty, remembering difficulty and hearing challenges.

Figure 9: Assistive Devices

A question was included in the Census to measure what extent does the population, particularly those with disabilities access assistive devices to execute certain functions. The figure above depicts that eye glasses and chronic medication were more used compared to other assistive devices 9% and 8% respectively.

10. OFFICIAL EMPLOYMENT

Figure 10: Employment by Gender

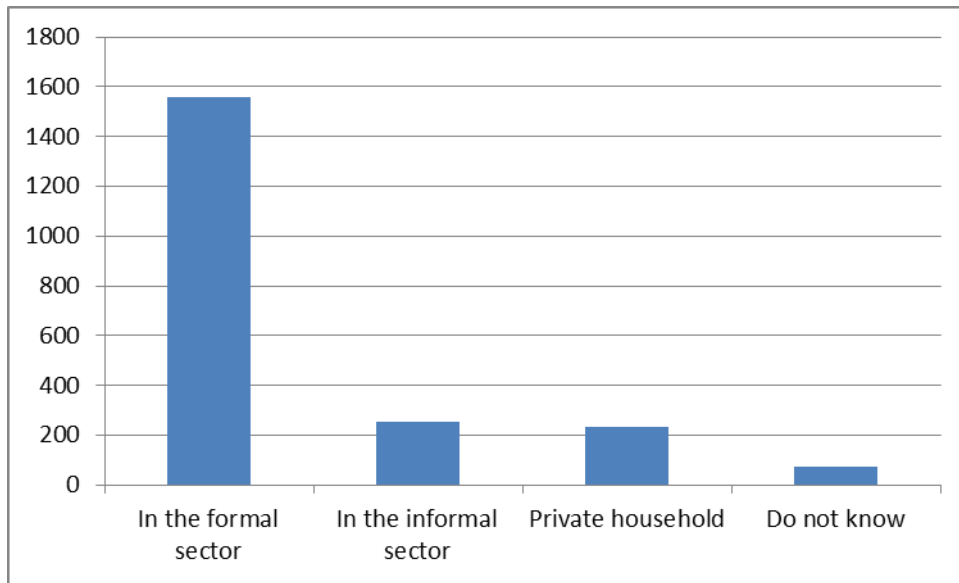

Figure 11 above indicate that a large percentage of population employed in ward 15 are males. A significant percentage of females are not economically active and they are also unemployed.

Figure 11: Employment by Population Group

On the figure Black African population is a molarity in the ward; hence a comparison could not be made with other population groups.

Figure 12: Employment by Sector

Employment is more on the formal sector followed by the informal sector and the least from private household.

11. HOUSEHOLD SERVICES

Housing is one of the basic human needs and has both direct and indirect implications on lives of households including health, welfare and social status in communities. This section highlights Census findings relating to types of main dwellings and basic services which have important policy implications.

11.1 Housing

Figure 13: Distribution of households by type of Dwelling

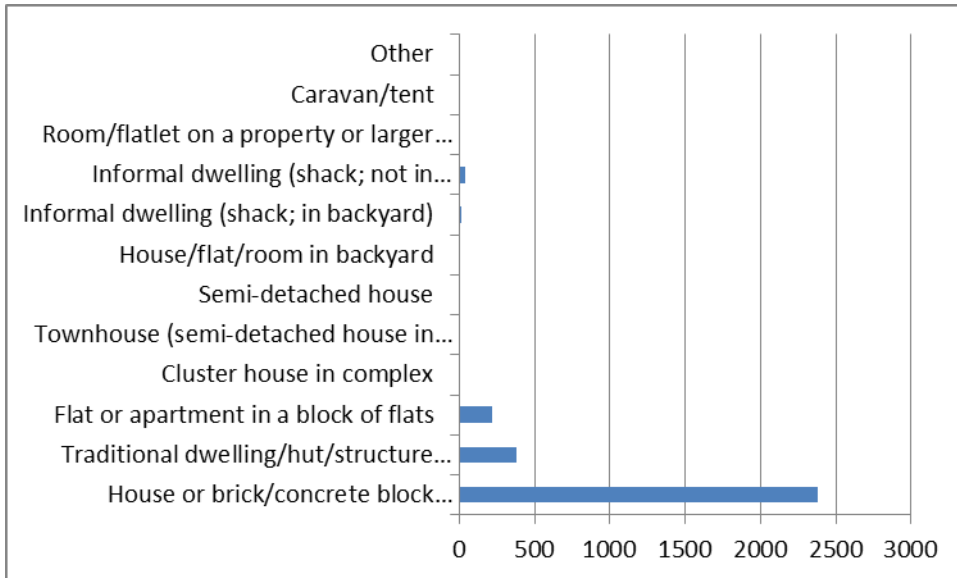

Figure 14 above shows a high percentage of households lives in formal dwellings, there is proportion of households living leaving in traditional dwellings.

Figure 14: Distribution of Households by Tenure Status

Above it is indicated that most dwellers have owned and paid off their properties and followed by those which are rented. A small percentage occupied rent free properties.

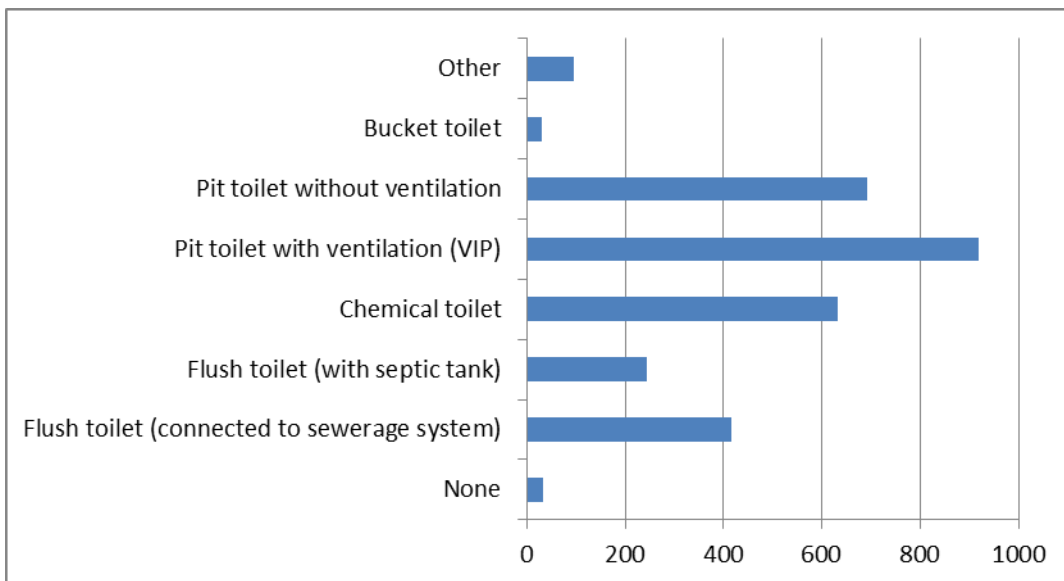

11.2 Access to Water and Sanitation Services

Figure 15: Household with access to piped water

The figure above shows that a relatively higher number of households have access to piped water in ward 15.

Figure 16: Distribution of households by type of toilet facility

Source: Census 2011

The municipality has a mandate to improve sanitation to its residents. According to the graph above, most household use VIP Toilet for sanitation purposes. A small percentage have access to flush toilet connected to sewer as compared to those with flush toilet with septic tank.

11.3 Access to Electricity /Energy

Figure 17: Distribution of households by type of energy used for lighting

Figure above shows that households using electricity for lighting in this ward is relatively high.

Figure 18 : Distribution of households by type of energy used for heating

Figure above shows that a proportion of households in ward 15 using electricity for heating is higher than those using other means of lighting.

Figure 19 : Distribution of Household by type of energy used for cooking

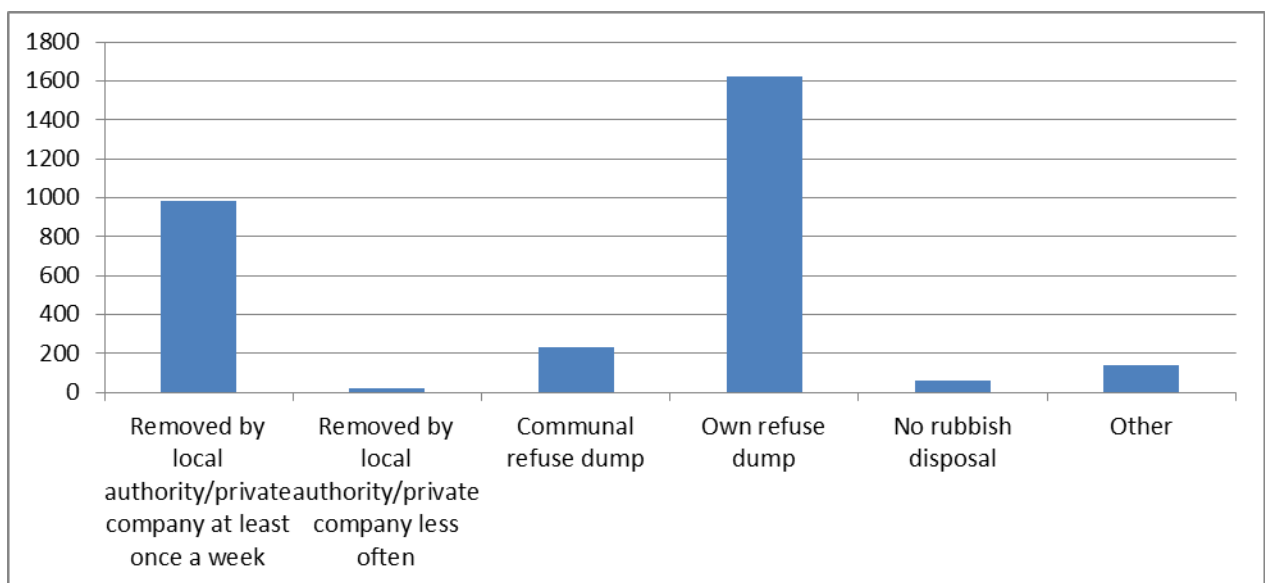

Figure above indicate a proportion of households using electricity for cooking is relatively higher than those using other means for cooking.

11.4 Access to refuse removal

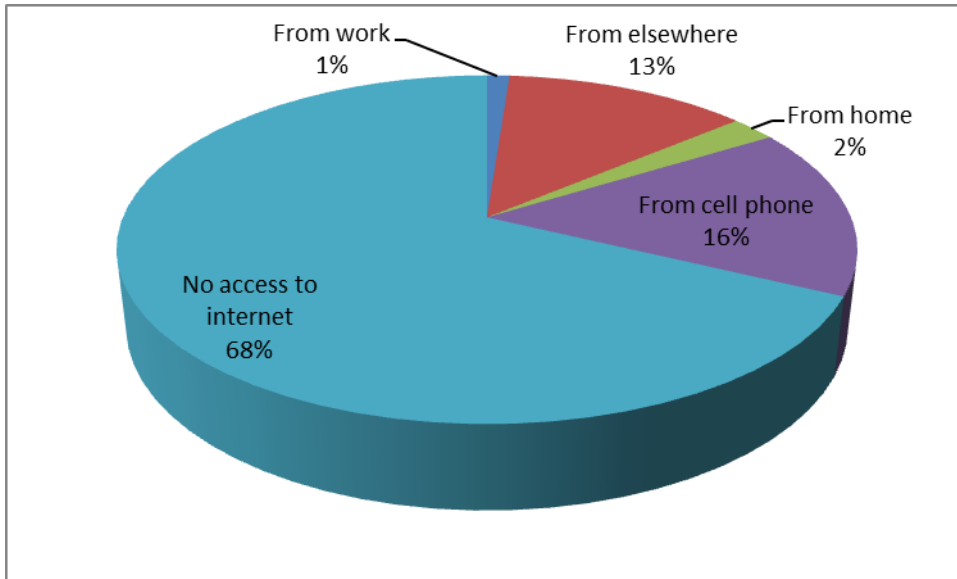

Source: Stat SA, Census 2011

Figure above shows that the proportion of households that have refuse disposal service where refuse is removed by local authority weekly is consistently high in ward 6. There is a significant proportion of households who still uses own refuse dump.

11.5 Household Goods

Figure 20: Percentage of households who have access to internet

The figure above shows the percentage of households who have access to internet; a relatively high proportion of households have no access to internet 70%. About 23 % percentage of households reported that they access internet from their cellphones . A very small percentage of households access internet from home, followed by those who access from work and elsewhere at 3% and 2% respectively.

Figure 21 : Percentage distribution of households owning various households good

The charts above shows the proportion of households owning cellphone is 90% while the proportion using landlines is 5%. The proportion owning radios is slightly lesser than those owning television. Proportion of households with computers is very low and at 9%.

It is evident that in general there is improvement in the access to basic services. Such improvements provide direct benefits to household in terms of better living conditions, environmental and health standards.

12. COMMUNITY PRIORITIES

RESPONSIBLE DEPARTMENT	COMMUNITY REQUESTS
Infrastructure & Technical Services	Pedestrian Bridges Mkhobosa , Ndindima and Ngcombo
	Speed humps Mkhobosa to Ndindima
Community Services	Sports field upgrade at Ndindima
	Urgent investigation by social development officials about continuous deduction of pensioners grants by cell phone companies
	Provision of crèche at eNgcombo
	Youth Training Centre
City Development	Day Care Centre
	Rural housing development
	Fast track the development of houses for beneficiaries whose old houses were demolished due to insufficient space in their sites.
	Fast track the identification of alternative for housing development for the affected beneficiaries due to wetlands
