Introduction

The purpose of the annual budget circular is to guide municipalities with their compilation of the 2022/23 Medium Term Revenue and Expenditure Framework (MTREF). This circular is linked to the Municipal Budget and Reporting Regulations (MBRR) and the municipal Standard Chart of Accounts (*mSCOA*), and strives to support municipalities' budget preparation processes so that the minimum requirements are achieved.

Among the objectives of this budget circular is to demonstrate how municipalities should undertake annual budget preparation in accordance with the budget and financial reform agenda by focussing on key "game changers". These game-changers include ensuring that municipal budgets are funded, revenue management is optimised, assets are managed efficiently, supply chain management processes are adhered to, *mSCOA* is implemented correctly and that audit findings are addressed.

Municipalities are reminded to refer to the annual budget circulars of the previous years for guidance in areas of the budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

The National Treasury projects real economic growth of 5.1 per cent in 2021, following an expected contraction of 6.4 per cent in 2020. Real GDP growth is expected to moderate to 1.8 per cent in 2022, 1.6 per cent in 2023 and 1.7 per cent in 2024.

South Africa experienced its largest recorded decline in economic output in 2020 due to the strict COVID-19 lockdown. Real GDP contracted by 7.2 per cent in 2020 compared to 0.1 per cent increase in 2019. It is expected to increase by 6.2 per cent in 2021/22 and moderate by an average increase of 1.7 per cent over the 2022/23 MTEF.

Manufacturing production grew by 17 per cent in the first six months of 2021 compared with the same period in 2020. Production has not recovered to pre-pandemic levels, although the Absa Purchasing Managers' Index remains above the neutral 50-point mark. Electricity disruptions, raw material shortages and rising input costs will continue to limit output in the short to medium term.

The main risks to the economic outlook are slowdown in economic growth. The evolution of COVID-19 and slow progress in vaccine rollout reinforces uncertainty and poses risks to economic recovery.

Slow implementation of structural reforms continues to weigh on business confidence and private investment. Electricity supply constraints, which could worsen over the short term, are a drag on economic growth. In contrast, progress on energy reforms poses upside risks to fixed investment and the overall economic outlook.

A further deterioration in the public finances due to various spending pressures and the materialisation of contingent liabilities could trigger further credit rating downgrades. Pressures on the government wage bill ceiling, including the implementation of the non-pensionable salary increases undermine fiscal consolidation measures.

The fiscal framework does not include any additional support to state-owned companies, but the poor financial condition and operational performance of several of these companies remains a large contingent risk. A number of entities may request further bailouts.

Government is strictly enforcing minimum criteria before guaranteeing the debt of state-owned companies, as outlined in the 2021 Budget, which has led to a decline in guarantee requests. Nonetheless, the broader context of financial distress, weak governance and unsustainable operations in many of these companies remains unaddressed.

Since the 2008 global financial crisis, economic growth has trended downwards, resulting in persistent shortfalls in tax revenue that have not been matched by adjustments to spending growth. This in turn has led to wider budget deficits, higher borrowing and a rapid increase in the ratio of debt to GDP. The reason that the debt servicing costs are growing at a pace that is faster than the rate of GDP growth, and this ratio will continue to increase until government runs a sufficiently large primary budget surplus.

To maximise the value of spending, government needs to contain costs, more especially consumption related spending, exercise prudent and compliant financial management, and eradicate wasteful treatment of public funds and resources. Compensation of employees remains a major cost pressure. It remains critical for municipalities to adhere to compensation ceilings, manage headcounts proactively and conduct staff audit to ensure the staff complement is aligned to the approved organogram. This will assist government is to improve its fiscal position.

Medium-term priorities include: reindustrialising through implementation of the master plans; growing exports through the African Continental Free Trade Area; implementing the Tourism Sector Recovery Plan; supporting township and rural economies; and promoting localisation, inclusive economic growth and job creation.

In 2021/22, gross tax revenue is expected to be R120.3 billion higher than projected in the 2021 Budget, with corresponding improvements of R69.8 billion and R59.5 billion expected in 2022/23 and 2023/24 respectively. This is still well below pre-pandemic revenue estimates, but it provides space for government to deal with immediate fiscal pressures while continuing to stabilise the public finances.

Headline inflation is expected to remain between 3 to 6 per cent target range over the 2022/23 MTEF.

In summary, the tax revenue in 2021/22 was higher than projections and this was mainly due to commodity price rally. However, these are projected to be short term, and as such long-term spending commitments should not be made based on short term revenue benefits. There are measures in place to reduce expenditure to narrow the budget deficit.

The following macro-economic forecasts must be considered when preparing the 2022/23 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2020 - 2025

Fiscal year	2020/21	2021/22	2022/23	2023/24	2024/25
	Actual	Estimate	Forecast		
CPI Inflation	2.9%	4.9%	4.0%	4.4%	4.5%

Source: Medium Term Budget Policy Statement 2021.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

2. Key focus areas for the 2022/23 budget process

2.1 Local government conditional grants allocations

Over the 2022 MTEF period, transfers to municipalities will grow below inflation. Over the next three years, local government resources increase by 4.1 per cent.

Transfers to local government will be increased by R17.8 billion, including R9.3 billion from the local government equitable share, R1.5 billion from the general fuel levy and R6.9 billion in direct conditional grants over the 2022 MTEF period. The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the 2022 MTEF period.

The annual Division of Revenue Bill will be published in February 2022 after the Minister of Finance's budget speech. The Bill will specify grant allocations and municipalities must reconcile their budgets to the numbers published herein.

Municipalities are advised to use the indicative numbers presented in the 2021 Division of Revenue Act to compile their 2022/23 MTREF. In terms of the outer year allocations (2023/24 financial year), it is proposed that municipalities conservatively limit funding allocations to the indicative numbers as presented in the 2021 Division of Revenue Act for 2021/22. The DoRA is available at:

<http://www.treasury.gov.za/documents/national%20budget/2021/default.aspx>

Division of Revenue Amendment Bill, 2021: changes to local government allocations

Budget Facility for Infrastructure Funding – R81 million is added to the direct regional bulk infrastructure grant for George Local Municipality for the implementation of the potable water security and remedial works project. Due to delays in the implementation of projects approved through Budget Facility for Infrastructure (BFI), the projects sponsors have requested funding to be reduced to align with the planned project rollout.

R1.3 billion is reduced from the public transport network grant for City of Cape Town to align to its revised implementation plan of myCiti phase 2A.

Neighbourhood Development Partnership Grant – R841 million is added to the direct neighbourhood development partnership grant for local government to create 32 663 jobs through precinct management, community safety, place-making, greening, integrated waste management and digitalisation, with special focus on poor and marginalised areas and economic nodes.

Roll-over of indirect regional bulk infrastructure grant – R582 million is rolled over in the indirect regional bulk infrastructure grant to fund the operational payments for the Vaal River pollution remediation project in Emfuleni Local Municipality. This change is shown in Schedule 6, Part B of this Bill.

Reprioritisation in the neighbourhood development partnership grant – In the neighbourhood development partnership grant, R90 million is shifted from the direct component to the indirect component of the grant, to fund project preparation, planning and implementation for municipalities facing implementation challenges. The affected municipalities are City of Johannesburg, Mogale City, Kwa-Dukuza, West Rand, Sol Plaatje, Ray Nkonyeni and City of Cape Town. These changes are shown in Schedule 5, Part B and Schedule 6, Part B of this Bill.

Changes to gazetted frameworks and allocations

Neighbourhood development partnership grant – The grant framework for the neighbourhood development partnership grant is amended to remove reference to Built

Environment Performance Plans and include the conditions attached to the approval of funds from the Presidential Youth Employment Initiative. The conditions require cities to expand the existing Expanded Public Works Programme projects and enter into new partnerships with the private sector and civil society.

Regional bulk infrastructure grant – The grant framework for the regional bulk infrastructure grant is amended to include the conditions attached to the approval of funding from the BFI for the implementation of the potable water security and remedial works project in George Local Municipality. The conditions require that the municipality submit a business plan, a cost-benefit analysis report and enter into a co-financing agreement with the Department of Water and Sanitation and the Department of Cooperative Governance.

Integrated urban development grant – The grant framework for the integrated urban development grant is amended to include a provision for purchasing special vehicles for waste management. This correction is needed to ensure alignment with conditions in the municipal infrastructure grant as municipalities can move between the two grants.

Municipal infrastructure grant – The grant framework for the municipal infrastructure grant is amended to correct for the omission of the baseline allocation of R14.8 billion in 2019/20 in the past performance section of the framework. The amount was erroneously not captured. This correction is needed to show the audited past financial performance of the grant.

3. IDP Consultation Process Post 2021 Local Government Elections

Municipalities are advised to refer to the guidance (refer to the email sent by CoGTA to all municipalities on 20 October 2021) provided through the joint National Treasury/ Department of Cooperative Governance/ South African Local Government Association (NT/DCoG/SALGA) Joint Circular No.1 on the transitional measures in relation to the IDP consultation process. This circular indicates that the previous municipal councils had an obligation to ensure that the legislative stipulations were complied with. Therefore, they were expected to continue the process of the development of the IDP starting with the development and adoption of the process plans as provided for in section 28 of the Municipal Systems Act. Municipalities should then implement the adopted budget process plan and conduct the public engagements as per dates they have indicated in the process plan.

4. Municipalities unable to pass the annual budget after 1 July

The provincial executive council must urgently request the Mayor to submit a report outlining detailed reasons and or circumstances that led to failure to approve the annual budget by the 1 July.

The provincial executive council must intervene in terms of section 139(4) of the Constitution and take appropriate steps by issuing a directive to the municipal council to approve a budget and any revenue raising measures necessary to give effect to the budget within a reasonable period.

Section 26(4) and (5) of the MFMA provides for how the expenses can be met pending the approval of a budget through a directive. Provincial Treasuries should establish clear internal processes for reviewing and recommending the approval of withdrawals by their MEC (templates can be obtained from National Treasury).

The provincial executive council must upon issuing of a directive to the Municipal Council conduct an assessment of the budget tabled by the Mayor against the norms and standards, approved budget process plan, and the outcome of public participation processes.

In the event the Municipal Council fails to approve a budget due to walk out or individual misconduct by a majority of councillors, the Speaker must immediately investigate the conduct of those identified councillors in terms of the Code of Conduct for councillors as provided for in the Municipal Systems Act, 2000.

If in terms of the assessment by the provincial executive council of the tabled budget, it is found that there are no justifiable grounds for not approving the budget, the former must submit/ present the outcome of the assessment to the Municipal Council with a directive to consider the assessment and adopt the budget. If the assessment of the provincial executive council of the tabled budget finds that it does not adhere to the required norms and standards, the directive from the provincial executive council should instruct the council to first amend the budget to remedy this before adopting the budget.

The provincial executive council must, if necessary give the municipal council a further 14 days to approve a tabled budget that complies with norms and standards and incorporates the outcome of public participation, failing which the provincial executive council must consider dissolution of municipal council, approval of a temporary budget and appointment of an administrator as a last resort.

5. Municipal Standard Chart of Accounts (*mSCOA*)

5.1 Release of Version 6.6 of the Chart

On an annual basis, the *mSCOA* chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.6 is released with this circular.

Version 6.6 of the chart will be effective from 2022/23 and must be used to compile the 2022/23 MTREF and is available on the link below:

<http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx>

The Project Summary Document (PSD) on the National Treasury webpage will be aligned to the chart changes in version 6.6 where applicable. The PSD is also available on the above link.

mSCOA chart changes are issued annually in December. For the National Treasury to consider a new chart change, the issue must be logged with all relevant background and details on the Frequently Asked Questions (FAQ) database. The FAQ database can also be accessed on the above link.

The matter will then be further investigated by the FAQ committee of the National Treasury. If it is found that a chart change is required in the next chart version, then the matter will be elevated to the *mSCOA* Technical Committee and if in agreement, it will be recommended for approval to the *mSCOA* Steering Committee. Requests for chart changes in the next version of the chart must be logged for consideration by 31 August of each year.

5.2 Credibility of *mSCOA* data strings

The credibility of the *mSCOA* data strings remains a concern although we have observed a marked improvement in some areas. At the core of the problem is:

- The incorrect use of the *mSCOA* chart and segments, balance sheet budgeting, movement accounting and basic municipal accounting practices by municipalities;
- Some municipalities are not budgeting, transacting and reporting directly in/ from their core financial systems; have not purchased all the modules of the core financial system or have not upgraded to the Enterprise Resource Planning (ERP) (*mSCOA* enabling) version of their financial systems;
- A number of municipalities are still transacting on their legacy systems that are not *mSCOA* enabling or they are using Ms Excel spreadsheets that are not incorporated in the functionality of their financial systems, while they are paying for maintenance and support for the *mSCOA* enabling system that was procured. This constitute fruitless and wasteful expenditure; and
- Municipalities are not locking their adopted budgets and their financial systems at month-end to ensure prudent financial management. To enforce municipalities to lock their budgets and close their financial system at month-end in 2022/23, the Local Government Database and Reporting System will lock all submission periods within the reporting period at the end of each quarter. The published period will NOT be opened again to ensure consistency between publications. System vendors were also requested to build this functionality into their municipal financial systems.

Municipalities should refer to the guidance provided in the *mSCOA* circulars issued by the National Treasury to classify their transactions correctly.

The credibility and accuracy of the data strings must be verified by municipalities before submission as the data strings submitted will be used as the single source for all analysis and publications in the 2022/23 municipal financial year.

5.3 Regulation of Minimum Business Processes and System Specifications

One of the key objectives of the *mSCOA* reform is to ensure that municipalities are planning, budgeting, transacting and reporting directly on and from integrated ERP systems to have one version of the truth in terms of the reported financial performance. The manual correction of data strings by municipal officials or system vendors are not allowed in terms of the *mSCOA* Regulations.

All municipalities and municipal entities had to comply with the *mSCOA* Regulations by 1 July 2017. MFMA Circular No. 80 (Annexure B) provided guidance on the minimum business processes and system specifications for all categories of municipalities (A, B and C). A number of Regulations and best practices as per the MFMA Circulars have been introduced since the issuing of MFMA Circular No. 80 in 2016.

The National Treasury will expand and regulate the business processes and system specifications in 2022/23 to these new developments. If your municipality has not yet achieved the minimum required level of *mSCOA* implementation, then a detailed action plan (road map) must be developed to indicate how the municipality will fast track the implementation of *mSCOA*. The action plan should include the following focus areas, as applicable to the municipality:

- **System landscape** – does the municipality has access to updated ICT hardware, software and licences that is sufficient to run the chosen financial management systems solution;
- **Governance and institutional arrangements** – is there a functional *mSCOA* steering committee or equivalent structure consisting of representatives from all business units, that meet regularly to monitor and report on *mSCOA* related issues to Management Committee (MANCO), Executive Committee (EXCO) and Council. Furthermore, did the

municipality appoint a suitably qualified System Administrator and the required IT securities are in place;

- **System functionality** – is the functionality of the system complying with the minimum business processes and system specifications articulated in MFMA Circular No 80; is the municipality utilising the core financial system solution and its modules optimally; and are 3rd party sub-systems seamlessly integrating with the *mSCOA* enabling financial system; and
- **Proficiency of municipal officials to use the financial system** – are the relevant municipal officials sufficiently capacitated on all system modules and functionalities to use the financial systems solution; are relevant officials in the organisation familiar with the *mSCOA* chart, balance sheet budgeting and movement accounting; and have change management taken place to ensure that *mSCOA* is institutionalised as an organisational reform and not only a financial reform.

It should be emphasised that the onus to ensure compliance with the *mSCOA* Regulations and minimum system specifications as per MFMA Circular No. 80 and its Annexure B rests with the municipality and not the system vendor. Municipalities should ensure that they budget sufficiently to become and remain *mSCOA* compliant.

The progress against the action plan must be monitored by the municipality's *mSCOA* Project Steering Committee and should also be reported at the 2021/22 Mid-year Budget and Performance engagements and the Budget and Benchmark engagements with the National and the respective provincial treasury. Copies of the action plan and progress reports should also be shared with the National and the respective provincial treasury.

5.4 Extension of RT25-2016 Service Level Agreements (SLA) for Financial Systems

The National Treasury has received numerous queries about the extension of the SLA for the transversal contract for the procurement of municipal systems of financials management and internal control (RT25-2016).

The RT25-2016 contract has expired in May 2019. Therefore, the RT25-2016 cannot be utilised to procure financial systems and Service Level Agreements (SLAs) entered into through the transversal contract cannot be extended when they expire. Municipalities that procured systems through the RT25-2016 transversal tender must approach the market to procure a new service provider for system support and maintenance. Due to the high financial investment in procuring financial systems, it is not cost effective to change financial systems every 3 to 5 years. Also, the expiry of the SLA does not necessitate the procurement of a new financial system - unless the system that is being used is not complying with the required business processes and system specifications.

Furthermore, the Municipal SCM Regulations does not prohibit the use of long-term contracts as long as the needs analysis and market analysis are done to justify the continuous need for the service. Municipalities may utilise Section 33 of the MFMA, taking into account the municipality's specific circumstances, provided that the decision is legally sound and there is evidence to support the municipality's decision.

Where a municipality has entered into a SLA for the provision of system support and maintenance through an open procurement process, the SLA may be extended in terms of Section 116(3) of the MFMA.

Notwithstanding the above, since the ICT environment changes very quickly the municipal needs must be re-evaluated to ensure that the IT systems in place are still 1) compatible with the needs and systems of the municipality, 2) aligned to modern technology and new legislative requirements and 3) cost effective prior to concluding long-term maintenance and support agreements in the event that there are other financial management solutions or

systems that may be better or even more cost effective as opposed to the current ones that may be outdated.

5.5 *m*SCOA Monthly Trial Balance

Municipalities are required to submit the following documents to GoMuni Upload portal on a monthly basis in PDF format:

1. C Schedule
2. Primary Bank Statement
3. Bank Reconciliation
4. Quality certificate
5. Monthly budget statement (Section 71 Report)
6. Trial balance

To date, the trial balances were submitted in various formats with varying levels of detail – some of them unreadable, making it difficult to identify the submission of the trial balances. From 1 July 2022, the trial balance must include the following minimum information:

- *m*SCOA item description
- Balance brought forward (i.e. opening balance)
- Movement Debit
- Movement Credit
- Balanced closing balance at the end of the document

The name of the municipality, municipal code and relevant period (year and month) must be clearly identified in the submission. Municipalities should ensure that the monthly data string aligns to the trial balance submitted to the GoMuni Upload portal.

5.6 Budgeting for the COVID-19 pandemic

In terms of *m*SCOA Circular No. 9 municipalities are reminded to record and ring fence all funding and expenditure pertaining to the COVID-19 pandemic when budgeting and transacting.

It is evident from the *m*SCOA data strings that were submitted by municipalities in terms of the monthly Section 71 reporting that not all municipalities are budgeting and reporting on COVID-19 related allocations and expenditure as per the guidance provided. Therefore, the National Treasury is not able to draw complete COVID-19 reports from the *m*SCOA data strings inclusive of the data for all municipalities as yet and the weekly manual reporting is still required.

Once the National Treasury is able to draw COVID-19 reports from the *m*SCOA data strings for the majority of municipalities and the Covid-19 restrictions is lifted as per the Disaster Management Act, 2002 (Act 57 of 2002) and its regulations, the weekly manual reporting will be stopped.

5.7 Costing Segment

The purpose of the costing segment in *m*SCOA is to provide for the recording of the full cost for the four core municipal functions, namely: electricity, water, waste water and waste management as a minimum requirement. These four services are the most significant revenue generating functions within municipalities and essential for setting cost reflective tariffs.

The costing segment does not impact on the financial statements and will be recorded as a 'below the line cost' and are recorded in the management accounts to make decisions in

formulating tariffs and cost control. Municipalities must refer to the PSD for the detailed application of the costing segment.

5.8 Classification of the Skills Development Levy

Employers must pay 1 per cent of their employees pay to the skills development levy. This is a contribution of 1 per cent of the total amount paid in respect of salaries to employees, which includes overtime payments, leave pay, bonuses etc. Therefore, this does not constitute employee related cost because it is not a compensation to employees, nor social contributions. Skills Development levy must be classified as operational costs as indicated in the *mSCOA* Project Summary Document (PSD).

5.9 Revised Municipal Property Rates Act Categories

Reference is made to paragraph 4.3 of MFMA Circular No. 107. Municipalities are reminded that section 8 of the Municipal Property Rates Act on the determination of categories of **rateable** properties has been revised through the Local Government Municipal Property Rates Amendment Act, 2014 ("the Amendment Act").

Municipalities were required to implement the new property categorisation framework by not later than 1 July 2021. The *mSCOA* chart Version 6.6 makes provision for the new and the old framework. However, the old framework will be retired in the next version of the chart and municipalities are advised to implement the new property categorisation framework as legislated. Therefore, municipalities cannot use both frameworks to avoid duplication and overstatement of revenue from property rates.

6. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. The weak economic growth has put pressure on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, Water Boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them and eliminate wasteful and non-core spending.

Municipalities must ensure that they render basic services, maintain their assets and clean environment. Furthermore, there must be continuous communication with the community and other stakeholders to improve the municipality's reputation. This will assist in attracting investment in the local economy which may result in reduced unemployment. Some municipalities are experiencing serious liquidity challenges. Therefore, the new leadership is advised to:

- Decisively address unfunded budgets by reducing non-priority spending and improving revenue management processes to enable collection; and
- Address service delivery failures by ensuring adequate maintenance, upgrading and renewal of existing assets to enable reliable service delivery.

It should be noted that it is easier for consumers to pay for services if they are reliable and when the environment is well maintained.

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The Consumer Price Index (CPI) inflation is forecasted to be within the lower limit of the 3 to 6 per cent target band; therefore,

municipalities are required to **justify all increases in excess of the projected inflation target for 2022/23** in their budget narratives and pay careful attention to tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

6.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circulars No. 93, paragraph 3.1 and No. 98, paragraph 4.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their 2022/23 MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this is a fundamental reason for municipalities not attaining their desired collection rates.

It is essential that municipalities reconcile their most recent valuation roll data to that of the billing system to ensure that revenue anticipated from property rates are accurate. Municipalities should undertake this exercise annually as a routine practice during the budget process. The list of exceptions derived from this reconciliation will indicate where the municipality may be compromising its revenue generation in respect of property rates. A further test would be to reconcile this information with the Deeds Office registry. In accordance with the MFMA Circular No. 93, municipalities are once more requested to submit their annual reconciliation of the valuation roll to the billing system to the National Treasury by no later than **04 February 2022**.

The above information must be uploaded by the municipality's approved registered user(s) using the GoMuni Upload Portal at: <https://lguploadportal.treasury.gov.za/>. If the municipality experience any challenge uploading the information a request for an alternative arrangement may be emailed to linda.kruger@treasury.gov.za.

6.2 Setting cost-reflective tariffs

Reference is made to MFMA Circular No. 98, paragraph 4.2. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (Financial and Fiscal Commission (FFC), 2011). Credible budgets are critical for local government to fulfil its mandate and ensure financial sustainability.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- A budget adequate to deliver a service of the necessary quality on a sustainable basis; and
- A budget that delivers services at the lowest possible cost.

Municipalities are encouraged to utilise the tariff setting tool referenced in MFMA Circular No. 98, item 4.2. This tool will assist in setting tariffs that are cost-reflective and would enable a municipality to recover costs to fulfil its mandate. The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website.

<http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08>

It is also imperative that every municipality is utilising the *mSCOA* cost segment correctly.

6.3 Bulk Account Payments and Concessions

During 2018/19, intense work was undertaken to resolve systemic and structural issues pertaining to the electricity function in municipalities. Core to this work was addressing the escalating Eskom debt that threatened the sustainability of Eskom as well as that of municipalities.

During the process, Eskom agreed to provide relieve in certain areas. Municipalities are reminded of the following concessions that remain in place:

- The interest rate charged on overdue municipal bulk accounts were reduced from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms were extended from 15 days to 30 days for municipal bulk accounts; and
- Eskom allocation of municipality payments to capital first and then to interest.

These concessions align to the MFMA and are meant to curb municipal growing debt levels by allowing a more conducive payment regime than what was previously employed. In addition, municipalities are urged to budget for and ring-fence their payment of bulk services. Bulk current account payments must be honoured religiously to avoid stringent application of the bulk suppliers' credit control policy.

Municipalities are also advised to enforce a culture of payment for services through their normal credit control processes. In this regard it should be noted that municipalities are only compensated for free basic services based on an indigent user component calculation through the equitable share. As such, a municipality's allocation of free basic services to all of the municipality's consumers is not funded in the equitable share. Every municipality, during the budget process, must consider the affordability to the municipality when allocating free basic services above the national norm and to consumers other than indigent consumers. **If a municipality has any arrears on any of its bulk supplier's accounts, it must limit its provision of free basic services to registered indigent consumers only.**

In this regard municipalities are reminded to take note of the Constitutional Court decision in **Mazibuko and Others vs City of Johannesburg and Others (CCT 39/09) [2009] ZACC 28; 2010 (3) BCLR 239 (CC); 2010 (4) SA 1 (CC) (8 October 2009)**. The Constitutional Court confirmed that a municipality has the right to disconnect the water service in the event of non-payment. In the case of registered indigent users, water may not be disconnected but can and should be restricted to the national policy limit of 6 kilolitres of water monthly.

6.4 Timeous allocations and clearing of the control accounts

Municipalities are encouraged to clear the control accounts on a monthly basis and to allocate trade and other receivable payments in these suspense accounts to the relevant debtor accounts regularly before the monthly submissions as required by the MFMA. Implementing and enforcing the credit control policy of the municipality whilst payments are not cleared in the control account is negligent and irresponsible. Municipalities are warned against this bad practice, and this must be avoided at all costs.

6.5 Smart Prepaid Meters Solution

The Inter-Ministerial Task Team (IMTT) of the 5th administration appointed a panel to investigate the electricity function to better understand what is causing the non-payment to Eskom. Cabinet subsequently endorsed the panel's recommendation that a smart prepaid solution for all municipalities must be explored. Municipalities are advised that the National Treasury, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a

transversal contract to standardise prepaid smart meter solutions for electricity that align to minimum and critical technical specifications for local government.

If your municipality or entity is currently in the process of procuring any smart meter solution or is planning to, you are cautioned:

- Against proceeding prior to the OCPO having issued and awarded the transversal prepaid smart meter Terms of Reference (ToR); and
- That, with immediate effect, you must obtain the National Treasury's input prior to proceeding with any current procurement or proposed procurement for any smart meter solution or similar system solution. This is to prevent unnecessary and wasteful expenditure on such solutions. Any request for National Treasury's input on the current or planned procurement of any smart meter solution or similar system solution or component thereof, must be directed to the National Treasury for the attention of the Local Government Budget Analysis Unit (Mr. Sadesh Ramjathan) Sadesh.Ramjathan@treasury.gov.za.

Your assistance in proactively ensuring that the municipality and/ or its entities are not adversely affected by these processes will be appreciated.

6.6 Completeness and credibility of revenue related information in the Budget

The Municipal Budget and Reporting Regulations (MBRR) regulates the minimum level of information required from municipalities when compiling, implementing, monitoring, and evaluating the municipality's financial management situation. Failure to include the minimum required information hampers the municipal council, the public and stakeholders' ability to make informed decisions and engage on the matter. It also limits research, studies, and benchmarking undertaken for local, provincial, and national purposes.

The National Treasury would like to take this opportunity to caution municipalities that the MBRR prescribe the minimum level of information municipalities must include as part of their legal reporting obligations.

Going forward the Treasuries will place increased attention and focus on the adequacy of municipalities' submissions. The National Treasury regards this non-compliance to include the minimum level of information as serious and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution. In this context, National Treasury will particularly focus on the completeness of asset management related information as well as the statistical information required in the A, B and C schedules during the 2022/23 MTREF.

6.7 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for price determination of the bulk costs for electricity. Bulk electricity costs are consistently much higher than inflation, having gone as high as 17.8 per cent in the 2021/22 municipal financial year. Eskom's need for increased funding means that over the period ahead they are applying for much higher tariff increases. In their Multi-Year Price Determination (MYPD 5) application Eskom requested approval for municipal bulk tariff increases of 20.5 per cent in 2022/23, 15 per cent in 2023/24 and 10 per cent in 2024/25. NERSA rejected this revenue application at the end of September 2021 and in October 2021 ESKOM filed an application in the High Court to review NERSA's decision. The matter is still in court with a decision anticipated to be made shortly. If Eskom succeeds, the court will compel NERSA to process the rejected application for tariffs for the year starting 1 April 2022 in terms of the existing MYPD methodology. NERSA will then be expected to immediately publish Eskom's application for public comment.

6.8 Long Term Financial Strategies

National Treasury is supporting municipalities to develop and implement long-term financial models and strategies. This reform seeks to develop more sustainable, and integrated infrastructure development programmes over the longer term, informed by strategic plans, and financed in the most effective and efficient manner.

Although some municipalities have long-term financial models (LTFM), they are not always integrated with municipal plans, or based on actual cash flow analysis and investment programmes, or able to consider alternative financial scenarios and outcomes in relation to the ability to borrow and the structuring of market transactions.

Municipalities need to develop LTFM that support decisions on investment selection and assesses the financial impact of policy choices, by forecasting future financial performance and the impact of infrastructure projects on borrowing capacity. The LTFM needs to inform the municipality's long-term financial strategy, which must articulate a sustainable, efficient and effective borrowing strategy and practices for the municipality and provide a clear statement of intent for lenders and other stakeholders.

National Treasury has initiated this reform in the metropolitan municipalities and some of the Intermediate City municipalities and will continue with this reform in the next financial year. Based on the piloting of this reform, guidance will be provided to all municipalities to develop and implement LTFM's and strategies.

7. Funding choices and management issues

Municipalities are under pressure to generate revenue as a result of the economic landscape, the COVID-19 pandemic, weak tariff setting and increases in key cost drivers to provide basic municipal services. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2022/23 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read with MFMA Circular No. 82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Prioritise the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

7.1 Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 dated 15 September 2021 through the agreement that was approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution should be used when budgeting for employee related costs for the 2022/23 MTREF. In terms of the agreement, all employees covered by this agreement shall receive with effect from 01 July 2022 and 01 July 2023 an increase based on the projected average CPI percentages for 2022 and 2023. The forecasts of the Reserve Bank, in terms of the January 2022 and January 2023, shall be used to determine the projected average CPI. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, in order to root out ghost employees.

7.2 Remuneration of Councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process. Any overpayment to councilors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of Section 167 of the MFMA and must be recovered from the councilor(s) concerned.

8. TRANSFERS TO MUNICIPALITIES

8.1 Criteria for the release of the Equitable Share

Section 216(2) of the Constitution of South Africa requires that the National Treasury must enforce compliance with the measures established to ensure both transparency and expenditure control in each sphere of government and may stop the transfer of funds to an organ of state if that organ of state commits a serious or persistent material breach of those measures.

The criteria for the release of the Equitable Share Instalments for the 2022/23 municipal financial year are as follows:

- The 2022/23 adopted budget must be funded and adopted by Council as per the legal framework, as required in terms of section 18 of the MFMA and consistent with the Budget Council and Budget Forum resolutions;
 - a. The adopted budget must include budget allocations for bulk suppliers current account payments;
 - b. Should the adopted budget still be unfunded, then a funding plan will be required to show how the municipality intends moving progressively out of this position into a funded state, if this plan has been adopted in the past, then a progress report must be submitted on the framework previously shared to guide municipalities which is aligned to the rescue phase of the new approach to Municipal Financial Recovery Service (MFRS);
 - c. Those municipalities that adopted an unfunded budget must work with their respective Provincial Treasuries to rectify this position in the lead up to the main adjustments budget process in February 2023; and
 - d. A council resolution showing commitment to address the unfunded position must be submitted by these municipalities to the National Treasury by 01 July 2022.

- Credible *m*SCOA data strings and source documents for the 2022/23 MTREF and 2021/22 audits must be generated directly from the core municipal financial system and successfully uploaded to the Local Government GoMuni Portal. Source documents must be submitted in PDF and no excel based spreadsheet/ templates will be accepted;
- The report submitted by bulk suppliers in terms of section 41 of the MFMA must indicate that the current account has been paid timeously in terms of section 65(2)(e) of the MFMA. In addition, where the municipality has a repayment plan with Eskom and/ or the water boards, proof that the current accounts have been paid and a copy of the agreed upon payment plan (or evidence of negotiations underway with creditors) must be submitted to the National and provincial treasuries;
- Municipalities must provide evidence that SARS, pension and other staff benefits deducted from municipal officials have been paid over the appropriate Funds and/ or institutions;
- The information requested in MFMA Circulars No. 93, 98 and 107 on the reconciliation of the valuation roll have been submitted to the National Treasury as per the required timeframes;
- The Competency Regulations reporting requirements have been complied with;
- Provide a copy of the Unauthorised, Irregular, Fruitless and Wasteful (UIF&W) expenditure register, the latest copy of the Municipal Public Accounts Committee (MPAC) recommendations, Council Resolution on UIFW as well as council approved UIFW Reduction Strategy, proof of establishment of the Disciplinary Committee Board (or evidence of progress towards their establishment) and updated audit action plan (where the audit has been completed);
- Those municipalities that received an adverse or disclaimed opinions for the 2020/21 financial year will not receive their funding allocation unless there is a council resolution committing to address these opinions with an implementable plan. The resolution must be signed by each member of the Council and submitted to National Treasury by 1 October 2022;
- The Municipal Financial Recovery Service progress reporting framework for financial recovery plans must be complied with by municipalities under intervention in terms of S139 of the Constitution;
- Additionally, those municipalities that have outstanding audits for both the 2019/20 and 2020/21 financial years as well as municipalities with outstanding 2020/21 audit opinions that also received an adverse or disclaimer opinion in 2019/20, will also not receive their allocation; and
- Any other outstanding documents as per the legal framework have been submitted including the AFS submission (municipality only and consolidated AFS).

Failure to comply with the above criteria will result in National Treasury invoking section 38 of the MFMA which empowers National Treasury to withhold a municipality's equitable share if the municipality commits a serious or persistent breach of the measures established in terms of Section 216(2) of the Constitution which includes reporting obligations set out in the MFMA and National Treasury requests for information in terms of Section 74 of the MFMA.

9. The Municipal Budget and Reporting Regulations

9.1 Schedule A - version to be used for the 2022/23 MTREF

National Treasury has released Version 6.6 of the Schedule A1 (the Excel Formats) which is aligned to Version 6.6 of the *m*SCOA classification framework and must be used when compiling the 2022/23 MTREF budget.

All municipalities must prepare their 2022/23 MTREF budgets in their financial systems and produce the Schedule A1 directly from their financial system.

Municipalities must start early enough to capture their tabled budget (and later the adopted budget) in the budget module in the financial system and must ensure that they produce their Schedule A1 directly out of the budget module. **Manual capturing on A1 schedule version 6.6 is not allowed** in terms of the *mSCOA* Regulations.

National Treasury has protected the A1 schedule version 6.6 in order to ensure that the Schedule A1 generated directly from the financial system and not populated manually.

The budget, adjustments budget and Section 71 monthly reporting Schedules that have been regulated in terms of the MBRR have also been aligned to the *mSCOA* chart version 6.6. The revised MBRR Schedules for the 2022/23 MTREF and its linkages to the financial and non-financial data string are available on the link below:

<http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Pages/default.aspx>

9.2 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

Province	Responsible NT officials	Tel. No.	Email
Eastern Cape	Matjati Mashoeshoe	012-315 5553	Matjati.Mashoeshoe@treasury.gov.za
Abigail Maila		012-395 6737	Abigail.Maila@Treasury.gov.za
Buffalo City	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
Free State	Sifiso Mabaso	012-315 5952	Sifiso.mabaso@treasury.gov.za
Cethekile Moshane		012-315 5079	Cethekile.moshane@treasury.gov.za
Gauteng	Matjati Mashoeshoe	012-315 5553	Matjati.Mashoeshoe@treasury.gov.za
Abigail Maila		012-395 6737	Abigail.Maila@Treasury.gov.za
Johannesburg and Tshwane	Willem Voigt	012-315 5830	WillemCordes.Voigt@treasury.gov.za
Ekurhuleni	Kgomotso Baloyi	012-315 5866	Kgomotso.Baloyi@treasury.gov.za
KwaZulu-Natal	Kgomotso Baloyi	012-315 5866	Kgomotso.Baloyi@treasury.gov.za
Kevin Bell		012-315 5725	Kevin.Bell@treasury.gov.za
eThekweni	Sifiso Mabaso	012-315 5952	Sifiso.mabaso@treasury.gov.za

George	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
Technical issues with Excel formats	Sephiri Tlhomeli	012-406 9064	Iqdataqueries@treasury.gov.za

National and provincial treasuries will analyse the credibility of the data string submissions.

9.3 Assessing the 2022/23 MTREF budget

National and provincial treasuries will assess the 2022/23 MTREF budgets to determine if it is complete, funded and complies with the *mSCOA* requirements. The *mSCOA* data strings for the tabled (TABB) and adopted (ORGB) budgets will be used for this assessment.

The **assessment period** of all municipal budget will therefore be from **01 April to 30 June 2022 for both the tabled and adopted budgets**. In this period, the National and provincial treasuries will evaluate all municipal budgets for completeness and for being fully funded. Any adjustment that need to be made must be done before the start of the municipal financial year on 1 July.

Importantly, in order to generate an adopted budget (ORGB) data string, the budget must be locked on the financial system by the 10th working day of July each year. Therefore, once the ORGB data string has been generated, errors in the ORGB can only be corrected via an adjustments budget in February of each year. In terms of the design principles of *mSCOA*, municipalities are not allowed to open the budget on the system for corrections after it has been locked. This means that the tabled budget data string (TABB) should in fact be verified and errors in the TABB should be corrected in the ORGB **before the adopted budget is locked on the financial system and the ORGB data string is generated**.

Amending an unfunded, incomplete and erroneous budget through an adjusted budget is also not encouraged as the National Treasury only considers an adjusted budget in the third and fourth quarter of the financial year for analysis and publication purposes. This will result in overspending and unauthorised expenditure not been monitored in the first six months of the financial year.

The National Treasury would like to emphasise that ***where municipalities have adopted an unfunded budget without a credible funding plan, they will be required to correct the funding plan and ensure that it is credible. The credible funding plan must be immediately adopted by the Municipal Council, and the changes to the budget must be effected in the mid-year adjustments budget to ensure compliance with Section 18 of the MFMA.***

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The budget and data strings that the municipality submits to National Treasury must be a consolidated budget for the municipality (including entities). The budget of each entity must be submitted on the D Schedule in pdf format.

In the past it was noted that municipalities have challenges to align the audited outcomes on the financial system to A1 Schedule. Municipalities must ensure that the audited figures and

adjusted budget figures captured on the A1 Schedule aligns to the annual financial statements and Schedule B respectively.

10. Submitting budget documentation and A1 schedules for 2022/23 MTREF

To facilitate oversight of compliance with the Municipal Budget and Reporting Regulations, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that, **immediately** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. If the annual budget is tabled to council on **31 March 2022**, the final date of submission of the electronic budget documents and corresponding *mSCOA* data strings is **Friday, 01 April 2022**; and
- Section 24(3) of the MFMA, read together with regulation 20(1) of the MBRR, requires that the approved annual budget must be submitted to both National Treasury and the relevant provincial treasury within ten working days after the council has approved the annual budget. However, given that municipalities are generating the annual budgets directly from the financial system as required by the *mSCOA* Regulations and that the budgets must be verified before it is locked on the financial system and transacted against, municipalities must submit the approved budget to the National Treasury and the relevant provincial treasury in electronic formats **immediately** after approval by the municipal council. Therefore, if the annual budget is tabled to council on **31 May 2022**, the final date of submission of the electronic budget documents and corresponding *mSCOA* data strings is **Wednesday, 01 June 2022**.

Since the 2020/21 MTREF, municipalities are no longer required to submit hard copies of all required documents including budget related, Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Electronic copies must be submitted in pdf format to the GoMuni Upload portal.

10.1 Expected submissions for 2022/23 MTREF

The following information should be submitted for the 2022/23 MTREF:

- The budget documentation as set out in the MBRR. The budget document must include the main A1 Schedule Tables (A1 - A10);
- The non-financial supporting tables (A10, SA9, SA11, SA12, SA13, SA22, SA23, SA24 etc. and any other information not contained in the financial data string) in the A1 schedule must be submitted in the prescribed *mSCOA* data string in the format published with Version 6.6 of the A1 schedule;
- The draft and final service delivery and budget implementation plan (SDBIP) in electronic PDF format;
- The draft and final IDP;
- The council resolution for the tabled and adopted budgets;
- Signed Quality Certificate as prescribed in the MBRR for the tabled and adopted budgets;
- D Schedules specific for the entities; and
- A budget locking certificate immediately at the start of the new municipal financial year on 1 July.

10.2 Go Muni Upload Portal

The National Treasury is in the process of finalising the development work on the GoMuni Upload portal. Municipalities, provincial treasuries, system vendors and sector departments should ensure that the names and contact details of the data uploaders or users of the data, as reflected on the LG Database, for their respective institutions are correct and updated as and when changes occur.

10.3 Portals for the submission of information

Municipalities must ensure that the documents are submitted to the correct portals/ mailboxes. These portals/ mailboxes are:

<https://lguploadportal.treasury.gov.za> (GoMuni Upload Portal) – All documents required in terms of legislation, including:

- mSCOA Data Strings by approved registered users;
- Budget-related and in-year documents and schedules (A, B and C) by approved registered users; and
- Reconciliation of the valuation roll to the financial system (as per MFMA Circular No. 93).

Budget related documents and schedules must be uploaded by approved registered users using the GoMuni Upload Portal at: <https://lguploadportal.treasury.gov.za/>. The GoMuni Upload Portal does not have the same size restrictions encountered with lgdocuments@treasury.gov.za, but requires all documents to:

- Be in PDF format only; and
- Each PDF file must NOT contain multiple document e.g. council resolution and quality certificate within the budget document. Each document type must be identified clearly and uploaded separately.

Municipalities may **only** send electronic versions of the above documents to lgdocuments@treasury.gov.za when experiencing problems with the GoMuni Upload Portal.

lgdataqueries@treasury.gov.za – Database related and submission queries and the grant rollover templates.

lgdocuments@treasury.gov.za – Any additional information required by National Treasury that is not listed under the GoMuni Upload portal such as the manual COVID-19 reports.

Please do not submit the same document to ALL the platforms listed above as it means that our Database Team must register the same documents three times which slows down the process. **Any document/ queries that are submitted to the incorrect portal/ mailbox will be deleted and not processed.**

10.4 Publication of budgets on municipal websites

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website. This will aid in promoting public accountability and good governance.

All relevant documents mentioned in this circular are available on the National Treasury website, <http://mfma.treasury.gov.za/Pages/Default.aspx>. Municipalities are encouraged to visit it regularly as documents are regularly added / updated on the website.

10.5 Communication by municipal entities to National Treasury

Municipal entities should not request meetings directly from National Treasury. National Treasury will only engage the entities through the parent municipalities. This includes all communications apart from the legislative reporting requirements.
