SECTION A: INTRODUCTION, DEFINITIONS AND PRINCIPLES

1. INTRODUCTION

The Local Government: Municipal Property Rates Act (2004), as amended requires Municipalities to develop and adopt rates policies consistent with the Act on the levying of rates on rateable property in the Municipality.

The Municipality needs a reliable source of revenue to provide basic services and perform its functions. Property rates are the most important source of general revenue for the Municipality. Revenue from property rates is used to fund services that benefit the community as a whole as opposed to individual households. These include construction and maintaining of streets, roads, sidewalks, lighting, and storm drainage facilities and building and operating clinics, parks, recreational facilities and cemeteries. Property rates revenue is also used to fund municipal administration, such as computer equipment and stationery, and costs of governance, such as council and community meetings, which facilitate community participation on issues of Integrated Development Plans (IDPs) and Municipal budgets.

Municipal property rates are set, collected, and used locally. Revenue from property rates is spent within a Municipality, where the citizens and voters have a voice in decisions on how the revenue is spent as part of the Integrated Development Plans (IDPs) and budget processes, to which a Municipality invites communities to give input prior to Municipal Council adoption of the budget.

This Policy is formulated in terms of Section 3 of Chapter 2 of the Municipal Property Rates Act (MPRA). When referred to a Section within the Policy it refers to the Municipal Property Rates Act unless otherwise stipulated.

2. DEFINITIONS

Any words in this policy, if included in the definitions as listed in the Local Government Municipal Property Rates Act, Act 6 of 2004, as amended will carry the same meaning unless stated otherwise hereunder.

“Agricultural property” means-

Property that is used primarily for agricultural purposes but, without derogating from section 9 of the Act, excludes any portion thereof that is used commercially for the hospitality of guests, and excludes the trading in or hunting of game.

“Agricultural purpose” means-

A property that is used primarily for agricultural purposes but, without derogating from section 9, excludes any portion thereof that is used commercially for the

hospitality of guests, and excludes the use of the property for the purpose of ecotourism or for the trading in or hunting of game

“Annually” means-
