Part 1 – Annual Budget

1.1 Mayor's Report

The Mayor will present his report at the Council meeting.

1.2 Council Resolutions

On 28th March 2025, the Council of the City of uMhlathuze will meet in the Council Chambers to adopt the budget of the Municipality for the financial year 2025/26. The Council will approve and adopt the following resolutions:

1. the Tabled Multi-year Medium Term Revenue and Expenditure Framework (MTREF) of the City of uMhlathuze for the financial year 2025/26 and indicative for the projected outer years 2026/27 and 2027/28 be approved as set out in the Budget Report (**DMS 1726265**) and in the Budget tables A1 - A10 (**Annexure B1 - B13**) (**DMS 1726607**);
2. the Final Integrated Development Plan (IDP) Review for 2024/25 (**DMS 1670422**) be incorporated into the Tabled 2025/26 Multi-year Medium Term Revenue and Expenditure Framework (MTREF);
3. the Tabled 2025/26 Medium Term Revenue and Expenditure Framework aligned with the IDP's Developmental Objectives and Goals and the Municipal Regulation on Standard Chart of Accounts (mSCOA) (Government Gazette 37577 dated 22 April 2014) for the City of uMhlathuze be approved as follows:

Description R thousands	Current Year 2024/25	2025/26 Medium Term Revenue & Expenditure Framework		
	Adjusted Budget	Tabled Budget 2025/26	Tabled Budget 2026/27	Tabled Budget 2027/28
Total Operating Revenue	5 338 040	5 862 917	6 198 918	6 603 376
Total Operating Expenditure	5 623 917	6 008 928	6 288 641	6 623 362
Surplus/ (Deficit) for the year	(285 877)	(146 012)	(89 723)	(19 985)
Total Capital Expenditure	627 805	408 987	429 292	439 827
TOTAL OPERATING & CAPITAL BUDGET	6 251 722	6 417 915	6 717 933	7 063 188

It be further noted that this Budget in as far as the Municipal's administration ability and financial system capability allowed, is Project based;

4. subject to the Chief Financial Officer submitting a report to Council in terms of Section 46 of the MFMA, Council approves in principle a loan for R 162 m for the 2025/26 financial year of which if approved by Council, will only be drawn down during the 2025/26 financial year. It be further recommended that the CFO proceed with the commencement of the Section 46 process before the commencement of the 2025/26 financial year;
5. the following table setting out the surplus/(deficit) across the services be approved:

Description	2025/26 Medium Term Revenue & Expenditure Framework		
R thousand	Budget Year 2025/26	Budget Year +1 2026/27	Budget Year +2 2027/28
Electricity and Energy Sources			
Surplus/(Deficit) for the year	136 452	103 052	110 509
Water Management			
Surplus/(Deficit) for the year	(63 393)	(53 580)	(32 501)
Waste water management			
Surplus/(Deficit) for the year	(88 820)	(78 681)	(82 164)
Waste management			
Surplus/(Deficit) for the year	34 413	44 652	38 990
Rates and other Services			
Surplus/(Deficit) for the year	(164 664)	(105 167)	(54 820)
Surplus/(Deficit) for the year	(146 012)	(89 723)	(19 985)

6. the Tabled Service Delivery and Budget Implementation Plan (SDBIP) 2025/26 **(DMS 1726591)** as submitted be approved;

7. in terms of Section 2(3) of the Local Government: Municipal Property Rates Act, the following property rates for the 2025/26 financial year be approved:

Category	Proposed tariff (from 1 July 2025)	Ratio to Residential Tariff
	C	
Residential Properties	0,0133	1 : 1
Business / Commercial	0,0279	1 : 2,10
Industrial	0,0293	1 : 2,20
Agricultural Properties	0,0033	1 : 0,25
Public Service Purposes (State Owned)	0,0152	1 : 1,15
Public Service Infrastructure	0,0033	1 : 0,25
Public Benefit Organisation Properties	0,0033	1 : 0,25
Mining Properties	0,0306	1 : 2,30
Vacant Land	0,0279	1 : 2,10

8. on application by the relevant ratepayers, the following rebates be applied subject to the provisions contained in the Rates Policy:
- Agricultural properties - 5%
 - Non Profit Organisations - 20%
9. the Rates Policy as contained in **Annexure D1 (DMS 1723039)** be approved;
10. in addition to the statutory R15 000 reduction in the valuation on residential properties, a further reduction of R145 000 of the valuation on all developed residential properties valued at R480 000 and below be made;
11. in addition to the reductions in recommendation (10) above and subject to the criteria set out in the Property Rates Policy, an additional R250 000 reduction in the value of the primary residential property belonging to a pensioner or a social grantee be made;
12. in accordance with the implementation of the universal approach of the indigent policy improved residential property valued at R160 000 or less will be exempted from refuse and sewer charges. The following sliding scale will be applied for charges on improved residential properties higher than R160 000 on the following basis:
- a) Properties valued between R160 001 and R200 000 will receive a rebate of 25% in respect of the sewer and refuse charges.
 - b) Properties valued at R200 001 and higher will pay the normal tariff.
13. the amendment of the Tariff of Charges as per **Annexure C (DMS 1705155)** be approved;
14. the Tariff policy as per **Annexure D2 (DMS 1723980)**;
15. any work function or tariff not accommodated in the Tariff of Charges be dealt with as cost plus 20%;

16. in addition to the free 50 units, the indigent customers to be granted additional 300 units that can be bought per month but be capped at 350 units each month;
17. the property rates and tariff adjustments as set out above be dealt with in terms of Section 14 of the Local Government: Property Rates Act and Section 24 of the Municipal Finance Management Act 2003;
18. Free water be capped at seven (7) kl per month;
19. Strategic grouping of water service tariffs, dividing them into groups as follows:
 - a) Tariff Structure 1 (T1) will be for indigent customers with consumption not exceeding seven (7) kl per month. These customers will not be liable for paying the basic charge and this applies to both the universal approach and the targeted approach;
 - b) Tariff Structure 2 (T2) will be for households managing their consumption to be greater than seven (7) kl per month but not exceeding 25 kl per month; and
 - c) Tariff Structure 3 (T3) will be for all the customers not in (a) and (b) above, customers consuming above 25 kl per month. These customers will be billed from the first scale to the highest scale based on the consumption consumed using the applicable tariffs;
20. Railway siding maintenance be charged to all property owners whose properties are alongside the vicinity of the facility;
21. No person or entity may collect waste for removal from premises unless authorised by Deputy City Manager - Community Services or City Manager;

22. In terms of various policies, the following increases in allowances are submitted to Council for approval subject to the Cost Containment Policy:

	Approved Tariffs - 2024/25	Proposed Tariffs - 2025/26
	R	R
Standby - Travel allowance	127	133
Standby - Subsistence allowance	83	87
Subsistence allowances		
Daily allowance	180	188
Overnight allowance	242	253
Own accommodation	333	348
Interview candidates	86	90
Accommodation		
All employees	1 514	1 582
All councillors and Section 56 employees	2 539	2 653
Municipal Manager, Mayor/ Deputy Mayor, Speaker and Municipal Chief Whip	4 235	4 426
Ward committee members	1 822	1 905
Indigent Burial Assistance		
Adult	3 340	3 490
Child (1 day to 15 years)	2 539	2 653
Stillborn / foetus	1 737	1 815

23. the funding for Indigent Burial Assistance be capped for the 2025/26 Financial Year at R655 200;
24. the profit on sale of all erven be allocated 100% to the Rates and General Capital Replacement Reserve account;
25. should there be any unspent conditional grants received from the National Fiscus at year end, Council hereby requests that the City Manager via letters to the respective transferring officers apply for a roll-over of funds received in **2024/25** financial year to the next financial year, namely the 2025/26 financial year;

26. although Council has an approved Virement Policy, in terms of this 2024/25 MTREF Budget appropriation, a MFMA mSCOA Circular No. 8 (**DMS 1402904**) be Adopted with the following:
- No virements (transfers) will be allowed out of:
 - All Repairs and Maintenance Projects unless approval has been sort jointly between the City Manager and the Chief Financial Officer;
 - Purchase of Bulk Electricity and Bulk Water Projects;
 - A Project extending over/ incorporating more than one mSCOA function or sub function, then savings in the budgetary allocation in a function or sub-function may be applied across the functions and/ or sub-functions directly linked to the same Project and Funding Source;
 - Where the Finance and Administrative function or sub-function is directly linked to another Function or sub function, then savings in the linked function/ sub-function may be applied in the Finance and Administrative function or *vice versa*². This means that virements between Rates Services and Trading Services and across Trading Service are not allowed;
 - Virements cannot be permitted in relation to the revenue side of the budget;
 - Virements between functions should be permitted where the proposed shifts in funding facilitate sound risk and financial management (e.g. the management of central insurance funds and insurance claims from separate votes);
 - Virements from the capital budget to the operating budget should not be permitted, Operational funds to the Capital Budget may be done, but only via an Adjustments budget;
 - Virements towards employee related costs should not be permitted, except where:
 - temporary/ contracted (budget for as contracted services in terms to the mSCOA Classification) staff status has changed to permanent staff; or
 - the budget savings resulted from Outsourced Services within the same function in terms of a Council delegated authority).
27. to ensure that monies are spent efficiently and effectively in the repairs and maintenance environment for both operating and capital budgets, no Repairs and Maintenance budget can be utilised unless each project for repairs and maintenance is utilised strictly in terms of the 2025/26 Asset Maintenance Plan and captured accordingly on the Work Break-down Structure (WBS) of the uM-SAP system;
28. to ensure that all capital budgets are spent efficiently and effectively, no approved tenders can proceed unless clearly defined work deliverables are documented in the Contracts module and Project systems module and captured accordingly in the Work Break- down Structure (WBS);
29. Council adopts National Treasury's MFMA Circular number 129 dated 10 December 2024 (**DMS 1714751**) and Circular number 130 dated 20 March 2025 (**DMS 1732875**) that is in line with Section 168(3)(a) of the Municipal Finance Management Act 56 of 2003;

30. the Debt Impairment Policy as per **Annexure M (DMS 1726332)** be approved;
31. Refuse basic charge be applied for companies utilising private companies for waste removal;
32. All sectional title properties be billed water basic charges as a charge related to the ownership of the property rather than one charge to the Body Corporate individually;
33. Cease charging normal water basic charge based on the quantity of the meters and volumes for the sectional titles;
34. The Metered Services Policy as per **Annexure N (DMS 1726343)** be approved;
35. the electricity availability charge be applied to all the prepaid electricity customers as an owner charge;
36. the rates pensioners rebate applications be accepted throughout the financial year;
37. The amended Fixed Asset Management Policy included as **Annexure O (DMS 1660420)**, be approved;
38. The following policies as contained in the respective documents be approved:
 - a. Funding and Reserves Policy **Annexure P (DMS 1670730)**;
 - b. Insurance Policy **Annexure Q (DMS 1670731)**;
 - c. Borrowing Policy **Annexure R (DMS 1670732)**;
 - d. Cash and Investments Policy **Annexure S (DMS 1733752)**; and
 - e. Long-term Financial Plan Policy **Annexure T (DMS 1733755)**.
39. The presentation **(DMS 1726649)** on the Multi-year Medium Term Revenue and Expenditure Framework of the City of uMhlathuze for the 2025/26 financial year be noted.

1.3 Executive Summary

“A professional public service, staffed by skilled, committed and ethical people, is critical to an effective state and ending corruption, patronage and wastage.”

***Hon. President Cyril Ramaphosa (RSA)
State of the Nation Address (SONA) 2023***

Although this pronouncement by the President is a year old, this requirement of the officials in the Municipality is of equal relevance now. The statement intent needs to be taken heed of both at an Administrative and Political level, if the Administration and Council seriously intend to improve service delivery for all our communities.

The application of sound financial management principles for the compilation of the City's financial plan is essential and critical to ensure that the City remains financially viable and that municipal services are provided sustainably, economically, and equitably to all communities.

The City's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship.

The principles that are absolutely critical for real service delivery when implementing the budget are contained in the Presidents statement above. Every effort is being made by the CFO and his team to provide a set of very scarce resources which meet most international and South African standards, however if the strict adherence to both ethical practices and our legislative mandate are not adhered to only a few citizens will benefit therefrom and not the vast majority.

In the process of compiling the Tabled 2025/26 MTREF, the submissions received from the Departments which were all project based could be broken down into the following categories:

Scenario	Capital		
	2025/26	2026/27	2027/28
	R 000	R 000	R 000
Departmental Allocations as per Budget Policy	422 524	502 573	507 573
Initial Departmental Submissions	384 389	428 685	433 671
Final Departmental Submissions	408 866	434 292	440 827
TABLED BUDGET	408 987	429 293	439 827

Scenario	Operating Budget		
	Revenue	Expenditure	Deficit
	R 000	R 000	R 000
First (excl tariff increases)	4 691 285	5 915 958	(1 224 673)
Second (excl tariff increases)	4 691 285	5 412 908	(721 623)
Third (incl tariff increases)	5 862 917	6 008 928	(146 012)
TABLED BUDGET	5 862 917	6 008 928	(146 012)

For the Tabled 2025/26 MTREF, the Municipal Budget Policy Guide (**DMS 1687735 – Detail and DMS 1698351 – Summary**) read together with the Budget Process Plan (**DMS 1687733**) to guide the Administration throughout the compilation of the whole budget.

MFMA Circular No 129 (DMS 1714751) Annexure L1 issued on 10 December 2024 and 130 (DMS 1732875) issued on 20 March 2025 Annexure L2 is included as part of this report. These circulars need to be read thoroughly by both the Council and the Administration. **These circulars were also used in compiling the Tabled 2025/26 MTREF.**

The following table summarizes the status of all the Trading Services and those funded by Rates:

Description	2025/26 Medium Term Revenue & Expenditure Framework		
R thousand	Budget Year 2025/26	Budget Year +1 2026/27	Budget Year +2 2027/28
Electricity and Energy Sources			
Surplus/(Deficit) for the year	136 452	103 052	110 509
Water Management			
Surplus/(Deficit) for the year	(63 393)	(53 580)	(32 501)
Waste water management			
Surplus/(Deficit) for the year	(88 820)	(78 681)	(82 164)
Waste management			
Surplus/(Deficit) for the year	34 413	44 652	38 990
Rates and other Services			
Surplus/(Deficit) for the year	(164 664)	(105 167)	(54 820)
Surplus/(Deficit) for the year	(146 012)	(89 723)	(19 985)

A critical review was undertaken of expenditure on non-core and non-priority spending items in line with NT's Cost containment measures outlined in NT's MFMA circular number 82 and as endorsed in the Cost Containment Regulations (**DMS 1348572**). The latter read together with the requirements of MFMA Budget circulars 129 and 130 issued in December 2024 and March 2025 respectively were used to compile the Budget.

The National Treasury endeavours to ensure that municipalities prepare a budget document that provides concise and understandable financial and non-financial information, which will ensure that informed decisions are made to promote effective financial management and service delivery. By ensuring, that the allocation of financial resources is aligned to service delivery targets it will be clear what services are being promised when budgets are approved.

The National Treasury created a template called "Batho Pele City" as a guide for municipal officials responsible to produce their real municipal budget documents.

The aim of the "Batho Pele" Budget Guide is to provide more detailed guidance on the format and content of a municipal budget so as to ensure full compliance with both the letter and the spirit of Schedule A of the Municipal Budget and Reporting Regulations. The "Batho Pele" Budget is intended to be a template that municipal officials can use as a basis and guide for producing their own municipality's budget documents. The Chief Financial Officer has found this template to be very comprehensive and useful for many aspects of assessing financial performance and service delivery monitoring, hence subscribes to the guide fully.

The following main challenges in compiling this 2025/26 MTREF. They can be summarised as follows:

- The primary challenge with this budget is that despite reducing the initial deficit from R1,2 billion to R146 million together with an anticipated 2% growth in revenue, the overall Rates and Tariffs increases are above the inflation sitting at 11%.
- The Municipality's historic impediment of having a Property Tax (Rates) base that is too small for the budget still remains. Between all the services, by far the greatest concern lies with the services financed by Property Tax (Rates). This Tabled budget has the Rates Services sitting with a R165 million deficit for 2025/26 and R105 million and R55 million deficit for the outer years.
- The majority of residential households in uMhlathuze are not levied Property Rates. This is because the individual properties within the Ingonyama Trust land are not separately valued and not subject to the Municipal Property Rates Act. This is despite the same communities enjoying most of the municipal services that are funded by Property Rates Revenue. This flaw in the current legislation is also applicable to those commercial and business activities taking place within the Ingonyama Trust area. There is a rapid increase in demand for services in these areas – roads, water, refuse, electricity, sanitation but no commensurate revenue.
- The Constitutional mandate for uMhlathuze is to provide basic municipal services in the Ingonyama Trust area. However, the deployment of those services without formal town planning and engineering protocol is not only ineffective and inefficient, but the extent thereof and demand for services on such a large scale without order is simply unsustainable from a service delivery perspective.
- There is no Equitable Share allocation for properties that do not pay Property Rates. The significance here is that the delivery of basic services is very dependent on Property Rates, yet there is zero allocation from the National Equitable Share allocation for Property Rates itself. This weakness in the financial structure of the Municipal MTREF needs to be addressed at a National level as it cannot be resolved at a local level. This is a National Policy matter. As an interim measure, National Treasury has been requested over the years to increase Equitable Share to the equal extent that the Municipal Property Rates Act cannot be applied to the residents of the Ingonyama Trust land as these residents hold no legal title to the land. Indirectly, the National Treasury has assisted by increasing the ES marginally above inflation over the last few years which has certainly helped.
- Due to a community's perceived poor quality of water quality and supply from the municipality, many residents who can afford alternative sources such as boreholes, are doing so without permission. This is putting residents' health at risk and reducing the municipality's revenue streams which are required to cater for the water infrastructure.
- It appears that the Water Losses in uMhlathuze are deteriorating. From 2021/2022 the gross loss was 38%, 2022/2023 gross loss was 57%, 2023/2024 gross loss was 55% and as at the end of January 2025 the Gross water loss is sitting at 62.2%. The projected water loss in financial terms for the 2025/26 MTREF is R473 million.
- Although Council has received Level II Accreditation, the subsidisation of Housing services which is not a Constitutional mandate can be construed as an "unfunded" mandate due to the fact the Property Rates must now fund the deficit of R50 million – refer to **Table 26** for details.

- Waste Water Management Service shows a deficit of R88,9 million (R95 million deficit for Adjusted 2024/25), this is a concern and efforts will need to be made to reduce this deficit in the coming MTREF by reducing costs, therefore the introduction of more efficient and effective operations.
- Although Employee related costs as a percentage of total Expenditure amounts to 22.1% and appears to be below the 30% industry standard, it is not realistic for specifically uMhlathuze Municipality to be comfortable with this figure because of the high electricity purchase cost which distorts Council's budget figures when compared to other secondary cities. Without a properly researched formula in place, it is difficult to guide Council to a specific benchmark, but in COU situation that figure should be no more than the current 22.1% given the distortion in COU budget caused by the high Electricity Turnover. More significantly with a number of services outsourced, a more conservative approach would be to add the Contracted Services costs (8.2%) together with Employee related Costs. This figure amounts to 30.3% (22.1% + 8.2%). As can be seen this cost is over the 30% norm.
- A broad management view (Particularly from Finance Department) is held that with the uMhlathuze Municipality not having a correct municipal grading, the strategic long term negative effect thereof is now taking its toll on efficient and effective service delivery. The long term reality of not attracting appropriate capacity from the market is the output resulting in the latter outcome. Evidence of this fact is apparent in the extent to which services are outsourced and professional advisory services that are contracted to perform both mundane and many professional municipal skills required by the Municipality on a daily basis. This point further substantiated by the fact that the combination of Municipal Remuneration Plus Contracted Services, now amount to 50 per cent of Gross Income (Total Income Less Electricity and Water Purchases) or 30.3% of Expenditure Budget. Both these figures over the norm of 30%.
- Although extensive effort was made during the budgeting process to retain Repairs and Maintenance of Infrastructure at 8% of Property Plant and Equipment, this internationally accepted norm was not achieved in this budget and now sits at 7.9% of PPE. This has increased from 2024/25 at 7.7%. The outer years 2026/27 and 2027/28 increase to 8% and 8.2% respectively. Over the MTREF the norm is achieved.
- The great dependency of the Refuse Service (Solid Waste Management) to Equitable Share is a risk for the Municipality. However, it does appear promising that the Senior Management are working on a Revenue Enhancement Strategy, which will be applied in the coming financial year.
- In order to try and ensure that all the trading services are managed efficiently and effectively, the City Manager has tasked the Chief Operations Officer together with the Chief Financial Officer to form Trading Services Committees. The TSC will meet on a regular basis to address under-performing revenue trends and to reduce (maximise) expenditure items.

The main positives that come out of compilation of the 2025/26 MTREF can be summarised as follows:

- The 2025/26 MTREF has a deficit of R146,2 million, an improvement from an Adjusted 2024/25 deficit of R285,8 million.
- The Financial Services has continued with the strategy of ensuring that tariffs are **unit cost reflective** and that the **corresponding Revenue Tariffs** are **more equitable and affordable** across the various consumer and ratepayer categories.
- It is noted with appreciation that for the 2025/26 MTREF Equitable Share was increased by 5% over the 2024/25 MTREF – R556 million to R585 million.
- Although all services funded by Rates are running at a deficit, Rates revenue is greater than the gross contribution made by electricity to the municipality's income base, which this trend points in the right direction of lowering dependency on electricity services which is a significant risk to the financial stability of this municipality.

The following budget principles, guidelines and assumptions directly informed the compilation of the 2025/26 MTREF:

- Revenue does include a projected 2% local economic growth with effect from each of the 2025/26 and outer years;
- Revenue cash flow assumes a 95% recovery;
- All Revenue Tariffs are based on a cost reflective unit cost per all trading services;
- Capital from own funding (Capital Replacement Reserve and Borrowing) allocated on a prioritised model between Functions using asset values and Income generating ability;
- The internal capital funding mix for the 2025/26 MTREF is based on a 95% to 5% weighting towards borrowing and capital replacement reserve respectively;
- The above weighting is going to require Council to consider approving a Section 46 loan of R162 million in the 2025/26 year;
- The basket of municipal services tariffs collectively has been kept below 11.00% despite the 12.72% increase in electricity purchases; and
- There will be no budget allocated to National and Provincial funded projects unless the necessary grants to the municipality are reflected in the National and Provincial budget and have been gazetted as required by the annual Division of Revenue Act.

Following the tabling of the MTREF, National Treasury will review and make comments on the Tabled budget. This assists the Municipality in ensuring quality when preparing the budget in terms of MFMA. This assessment is scheduled for the 15 May 2025.

National Treasury will normally, from a quality perspective, assess the budget against the following three criteria:

- Credibility;
- Relevance; and
- Sustainability.

1.4 Procurement and supply chain management reform

In support of the Batho Pele Budget towards improved service delivery, the Supply Chain Management Unit (SCMU) will continue to put in framework agreements for panel of services and works in line with the MTREF.

Framework agreements are agreements between an organ of state and one or more contractors, with a purpose to establish the terms governing the purchase orders to be awarded during a given period, in particular with regards to price and, where appropriate, the quantity envisaged. This framework can be activated immediately without any procurement delays or delays in the market response.

1.5 Operating Revenue Framework

Revenue Strategy

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the City and continued economic development;
- Efficient revenue management, which aims to ensure an above 95 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by calculating the revenue requirement of each service this had to be adjusted to cater for affordable tariffs;
- The Universal approach to tariff setting provides for the cross subsidization between the different consumer affordability levels;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA); and
- Increased ability to extend new services and recover costs where economically possible;
- The municipality's Indigent Policy and rendering of free basic services and subsidized services to both the destitute and poor consumers.

Tariff-setting is pivotal and strategic in the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the City.

Primary Challenges in Producing the Revenue Budget

- At the top of the list by far is the **lack of growth** in local economic activity and now exacerbated by the current economic conditions;
- To keep up with an expanding need for services, together with a 12,74% in Eskom tariffs but without corresponding escalation in revenue has forced Council to escalate rates and tariff charges above inflationary parameters;
- The semi informal type of development in traditional areas (Primarily Ingonyama Trust areas) is posing the largest challenge in terms of recovering the revenue for the service provided in these arrears. The majority of the outstanding residential consumer debt is owed by the consumers from the traditional arrears for water consumed;
- The main issues on Government Debt remain the lack of available budget to the relevant Government Departments. The debt owing by the Government Departments appear to be a long term issue that will require constant monitoring and intervention;
- Credit control actions taken in the Traditional areas are a difficult for many reasons, therefore ineffective and inefficient in outcomes; and
- With the roll out of Prepaid Water Meters, a looming risk is the extent that such installations are going to be by-passed.

Primary Positive Aspects of Producing the Revenue Budget

- There has been an extensive effort placed on trying to make the service charges not only affordable but also equitable across the different income levels of our residential consumers;
- There is extensive effort put into ensuring that our indigent consumers do get basic services free of charge;
- The roll out of water prepayment meters for indigent consumers is resulting in curbing escalating debt with water;
- The strict credit control actions have reduced escalating debt post the Covid period, except for the recovery for rural residential water consumers and a few organs of state, whose debt is escalating; and
- A prepayment water installation has been started and extended to the rural areas that will contribute towards reducing the debt in these areas but with the looming risk of by-passed installations.

The following table is a summary of the 2025/26 MTREF (classified by main revenue source):

Table 1 Summary of turnover revenue classified by main revenue source

Total Revenue (excluding capital transfers and contributions)	5 338 040	100%	5 862 917	100%	6 198 918	100%	6 603 376	100%
Total revenue from rates and service charges	3 952 271	74,0%	4 396 090	75,0%	4 674 513	75,4%	4 987 097	75,5%

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

Revenue generated from rates and services charges forms a significant percentage of the revenue basket for the City. The municipality will continue to significantly generate its own revenue and will only depend on the operational transfers to the equivalent of 10,6 per cent.

Rates and service charges revenue comprise of 75 per cent of total operating revenue mix. In 2024/25, revenue from rates and service charges totalled R3,9 billion and is projected to increase to R4,3 billion in 2025/26 and steadily increase to R4,6 billion and R4,9 billion in 2026/27 and 2027/28 respectively.

Electricity service charges are the largest contributor towards total municipal revenue in terms of turnover amounting to an average of 45,2 per cent over the MTREF. However, it needs to be noted that the actual revenue contributed by Electricity Service to municipal service delivery is the gross profit of Electricity Turnover less Bulk purchase cost which amounts to R 613 million (16,7% of Gross Revenue) in the 2025/26 financial year. The Rates revenue of R840 (22,8% of Gross Revenue), implies that Rates revenue is the largest contributor towards actual service delivery. **(See Table 3 below)**

Table 3 Gross Percentage proportion in revenue by main revenue source

Description R thousand	Current Year 2024/25		2025/26 Medium Term Revenue & Expenditure Framework

Total revenue from rates and service charges	2 008 308	59,2%	2 211 616	60,1%	2 320 047	60,3%	2 491 431	60,7%

The property rates at 22,8% of gross revenue is still prejudiced by the Ingonyama Trust are not yet forming part of the MPRA while geographically representing 47 per cent of the municipal jurisdiction.

The trading service water is the third largest revenue, contributing 13,3 per cent towards the total revenue projected at R639 million in 2025/26 and R489m in terms of gross revenue.

Operating grants and transfers totals R621,1 million in the 2025/26 financial year, steadily increases to R644,5 million in 2026/27 and to R673.5 million in 2027/28. Local Government Equitable Share will grow at an annual rate of 5 per cent for 2025/26 as well as for the two outer years. **This covers the likely above-inflation increases in the costs of bulk water and electricity. This also allows for faster increases in the allocations to poorer and rural municipalities through the redistributive components of the equitable share formula.**

The following table gives a breakdown of the various operating grants and subsidies allocated to the municipality over the medium term:

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the City.

Although the City has strived to ensure that affordability takes preference, the increased demand for services in non-revenue generating activities together with the 12.74% increase in Electricity purchase prices from Eskom has resulted in above inflationary tariff increases.

The Guideline and Benchmark Method used by the National Energy Regulator of South Africa, when approving municipal electricity tariffs was declared unlawful and invalid by the High Court. NERSA has to be applauded for communicating the tariff increases on time again in this financial year, however, the new tariff tool for approving the tariffs that they introduced in the 2023/24 financial year is technical and is still not workshopped. 11.64 percent will be the electricity tariff increase for the MTREF.

The current challenge facing the City is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions.

1.5.1 Property Rates

The property rates are levied in accordance with the Municipal Property Rates Act, 2004 (Act No.6 of 2004), (MPRA) and the Local Government Municipal Finance Management Act.

Property rates are levied per individual property depending on the property value compared with the valuation of all rateable properties in the municipal area.

Rebates and concessions are granted to certain property categories based on usage or ownership as guided by the MPRA.

The following table stipulates the Property Rates Policy exemptions and rebates summary:

Table 5 Property Rates Policy exemptions and rebates

Rates Category	Rebates, Exemptions and reductions
Rates Category	Rebates, Exemptions and reductions
RES	R 15 000 Impermissible to all Developed Residential Properties
	R 145 000 Reduction to all Residential Properties with a value below R 480 000
	R 250 000 Reduction to Pensioners
	Places of Worship Exempted as part of Legislation
BUS	No rebates, exemptions or reductions
	Public Benefit Organisations – Regulated Ratio 1:0,25
	Non-profit organisations – 20% Rebate upon successful application
Agricultural	5% Rebate upon successful application
PBO's	Public Benefit Organisations – Regulated Ratio 1:0,25
PSI	30% reduction as per Legislation
Mining	No rebates, exemptions or reductions
Industrial	No rebates, exemptions or reductions
Vacant Land	No rebates, exemptions or reductions

Table 6 Comparison of proposed rates to levied for the 2025/26 financial year and the two outer years

Category	Current Tariff (1 July 2024)	Proposed tariff (from 1 July 2025)	2026/27	2027/28	Ratio to Residential Tariff
	C	C	C	C

Public Service Infrastructure - Private	0,0031	0,0033	0,0036	0,0039	1:0,25
Public Service Infrastructure - Municipal	0,0031	0,0033	0,0036	0,0039	1:0,25
Public Service Infrastructure - State	0,0031	0,0033	0,0036	0,0039	1:0,25
Public Benefit Organisations	0,0031	0,0033	0,0036	0,0039	1:0,25

The two outer years are increased by 9% and 7% respectively.

General Valuation roll:

- In terms of section 30 of Municipal Property Rates Act No.6 of 2004. (1) A municipality intending to levy a rate on property must in accordance with this Act cause-
 - A general valuation to be made of all properties in the municipality determined in terms of subsection (2); and
 - a valuation roll to be prepared of all properties determined in terms of subsection (3)
- The City's current General Valuation (GV) roll is ending 30 June 2025.

3. The Valuer was supposed to compile the draft roll with the intention of submitting it to the municipality by 30 November 2024 however delays were experienced due to objection during the award of the tender.
4. On the 18 of March 2025, the draft roll was submitted however 849 properties were still missing from the roll which led to Revenue Section to decide to continue with the existing property values for the 2025/26 draft budget.
5. A certified roll is anticipated to be submitted to the municipality before the end of March 2025 so that a public notice can be issued.
6. The rates rebates will be reviewed in order to avoid a rate shock to customers.
7. The new General Valuation roll will then be implemented from 01 July 2025.

1.5.2 Sale of Water and Impact of Tariff Increases

The traditional areas are the second challenge in terms of recovering the service provided in these arrears. The majority of the outstanding consumer debt is owed by the consumers from the traditional arrears for water consumed.

The City took a decision to find alternative ways of recovering and curbing the ever increasing debt in traditional areas and the concept of introducing an alternative way in billing these consumers for water consumption is replacing their conventional meters with prepaid water meters. All indigent customers have already been moved to prepaid water meters plus few non-indigent customers. In the forthcoming financial years more prepaid water meters will be installed including installations to businesses.

Free water allocation will be reduced from eight (8) kilolitres to seven (7) kilolitres a month. This reduction is a strategy for aligning the municipality with National Treasury norms (Phase-in implementation).

In the past financial years, the municipality billed water basic charge for sectional titles based on the volume of water consumed and the quantities of meters. This benefitted the body co-operates because for each meter, the municipality had to calculate the free water for all units in the body corporate and only charge one commercial basic charge. The revised methodology will bill the body co-operate the basic charges equal to the number of units in that particular body co-operate. The new initiative of billing water basic charge for each sectional title as an ownership charge is aimed at correcting the unfairness from previous year practices and maximise revenue for the municipality.

In line with the initiative to ensure that residents pay for water and as the revenue enhancement strategy, the City has applied a targeted approach where the seven (7) kilolitres are provided to consumers who do not use more than seven (7) kilolitres of water over 30 days' period.

Further to the above, water tariff scales have been revised to breakeven on the fourth scale. This effectively means that customers consuming between 21 kilolitres and 25 kilolitres will be paying the breakeven tariff then any consumption beyond 25 kilolitres will be charged using economic tariff. This initiative is aimed at assisting the municipality with recovering the costs of providing the water service in line with section 74 (2)(d) of Municipal Systems Act No. 32 of 2000 which reads as follows: "tariffs must reflect the costs reasonably associated with rendering the service, including capital, operating, maintenance, administration and replacement costs and interest charges".

The recommended restrictions from department of Water Affairs are as follows:

Table 7 Department of Water Affairs Restrictions in Drought Periods

Category	Level one Restrictions	Level two Restrictions	Level three Restrictions	Level four Restrictions
Industries	5%	10%	15%	15%
Domestic Use	10%	20%	30%	60%
Agricultural Use	50%	60%	70%	90%

A summary of the proposed tariffs for households (residential) and non-residential are as follows:

Table 8 Proposed Water Tariffs for T2 scales

91 kl per month and above	30,1382	33,6795	36,0370	39,2804

- a) Tariff Structure 1 (T1) will be for indigent customers with consumption not exceeding seven (7) kl per month. These customers will not be liable for paying the basic charge and this applies to both the universal approach and the targeted approach;
 - b) Tariff Structure 2 (T2) will be for households managing their consumption to be greater than seven (7) kl per month but not exceeding 25 kl per month; and
 - c) Tariff Structure 3 (T3) will be for all the customers not in (a) and (b) above, customers consuming above 25 kl per month. These customers will be billed from the first scale to the highest scale based on the consumption consumed using the applicable tariffs;
- Water is a trading service which means it should break-even or make a surplus. Non-residential water tariffs have been restructured so that the first scale is above the break-even tariff.

The following table shows the impact of the proposed increases in water tariffs on the water charges for a single dwelling-house:

Table 10 Comparison between current water charges and increases (Domestic)

Monthly consumption	Current amount 2024/25 payable	Proposed amount 2025/26 payable	Difference (Increase)	Percentage change
kℓ	R	R	R	
20	332,85	382,77	49,93	15,00%
30	787,28	889,63	102,35	13,00%
40	1 762,51	1850,63	88,12	5,00%
50	2 203,14	2313,29	110,16	5,00%
80	3 525,02	3701,26	176,25	5,00%
100	4 406,27	4626,58	220,31	5,00%

Water tariffs increased by average of ten (10) per cent in the proposed 2025/26 and the two outer years by seven (7) percent and eight (8) respectively.

Prepaid water tariffs

Prepaid water tariffs have been revised to include water basic charge; this change of tariffs will not disadvantage this customer group; however, they will start paying similar amount to that of the conventional customers. These basic charges are allocated to different scales, which means customers who have low consumption will benefit from not paying the full basic charge.

The table below shows prepaid water tariffs:

CATEGORY	CURRENT TARIFFS 2024/25	PROPOSED TARIFFS 2025/26
	Rand per kl	Rand per kl
RESIDENTIAL	Prices excluding VAT	Prices excluding VAT
0-7kl		
0-8kl

0-15 kl per month	24,5583	
0-30 kl per month		33,2554
31 - 60 kl per month	28,7820	39,0249
61 - 90 kl per month	33,9914	40,7649
91 kl per month and above	30,1382	33,6794

1.5.3 Sale of Electricity and Impact of Tariff Increases

The average electricity tariff increase which the City has applied is 12,74 percent effective from the 1st of July 2025.

Registered indigents will again be granted 50 kWh per month free.

In addition to the free 50 units, the indigent customers to be granted additional 300 units that can be bought per month but be capped at 350 units each month;

There will be an introduction of basic charge on Electricity for alternative energy sources. This charge will be applicable to customers with solar panels.

The following table shows the impact of the proposed increases in electricity tariffs on the electricity charges for domestic customers:

Table 11 Comparison between current electricity charges and increases (Domestic)

Monthly consumption	Current amount 2024/25 payable	Proposed amount 2025/26 payable	Difference (Increase)	Percentage change
kWh	R	R	R	
100	144,65	163,08	18,43	12,74%
250	361,63	407,70	46,07	12,74%
500	1317,55	1485,41	167,86	12,74%
750	2066,40	2329,66	263,26	12,74%
1 000	2755,20	3106,21	351,01	12,74%
2 000	6284,40	7085,03	800,63	12,74%

The municipality implements the inclining block tariff and this stepped tariff structure has a higher tariff as customer consumption increases. The aim is to subsidise the lower consumption users (mostly the poor).

The City has been implementing this inclining block tariff for years and it causes an increase in the volumes of sales to be experienced during the first days of the month when the tariffs are in their first scale for prepaid customers. The municipality has opened third party channels to ensure convenience to those customers who wish to not be inconvenienced by long queues during these peak times.

The electricity supply load shedding has negatively affected the expected volumes to be derived from the sale of electricity by Council. Further to that, companies are entering into wheeling agreements and should the municipality fail to intercept these arrangements, the electricity revenue will be reduced drastically.

The municipality is currently faced with customers who are moving to other alternative sources of energy, which means the municipality will generate less revenue. Customers who are off grid or partially off grid are not contributing to infrastructure maintenance, yet immediately when there is rain for five (5) days the same customers connects back to the grid. In order to address the aforementioned issues, the municipality decided to introduce a basic charge for all the prepaid electricity customers. Customers who purchase electricity will enjoy lower tariffs, effectively meaning that they are less likely to be affected by basic charge. Customers who are off grid will be liable for the full basic charge.

1.5.4 Sanitation and Impact of Tariff Increases

A tariff increase of seven (7) per cent for sanitation from 1 July 2025 is proposed. This is based on the input cost assumptions related to water. Properties below the market value of R160 000 are not charged for sewerage discharged.

The following table compares the current and proposed tariffs:

Table 12 Comparison between current sanitation charges and increases

Tariff Code	Detail	2024/25		2025/26		%	2026/27		%	2027/28		%
		Excl VAT	Incl VAT	Excl VAT	Incl VAT		Excl VAT	Incl VAT		Excl VAT	Incl VAT

The following table shows the impact of the proposed increases in sanitation tariffs on the sanitation charges for a single dwelling-house:

Table 13 Comparison between current sanitation charges and increases, single dwelling- houses

Monthly sanitation consumption kℓ	Current amount 2024/25 Payable R	Proposed amount 2025/26 payable R	Difference (15% increase) R
20	274.20	293.40	19.20

Refer to the comprehensive Tariff of Charges contained on **Annexure C (DMS 1705155)** for residential, business and undeveloped sites tariffs.

1.5.5 Waste Removal and Impact of Tariff Increases

The City uses the property valuation sliding scales to charge Waste Removal for households. Properties in the City's valuation roll are a total of 36 238, majority (40 per cent) of which is within R200 000 to R700 000 property values.

The city operates business waste removal based on the number of times (demand based) the service is required by the business.

There will be introduction of Refuse removal basic charge for business utilising private waste removal companies. This is done so that Council is able to sustainably and ethically maintain the social responsibility to all the residents of uMhlathuze.

The waste removal is proposed to increase by six (6) per cent effective from 1 July 2025. The following table compares current and proposed amounts payable from 1 July 2025:

Table 14 Comparison between current waste removal fees and increases

Tariff Code	Detail	2024/25		2025/26		%	2026/27		%	2027/28		%

Waste removal fees increased by average of six (6) per cent in 2025/26 then six (6) per cent in 2026/27 and five (5) per cent in 2026/27.

1.5.6 Overall impact of tariff increases on households

The following table shows the overall expected impact of the tariff increases on a medium and an indigent household receiving free basic services.

Note that in all instances the overall impact of the tariff increases on household's bills has been kept at an average of eleven (11) percent including indigent households.

Middle income household range is defined as:

- property value of R700 000;
- 1 000 kWh electricity; and
- 30kl water.

Affordable household range is defined as:

- property value of R500 000;
- 500 kWh electricity; and
- 25kl water

Indigent household is defined as:

- property value of R 300 000;
- 350 kWh electricity; and
- 20kl water (50 kWh electricity and 7 kl water free).

1.5.7 Tariff Setting Tool

National Treasury issued a tariff setting tool and guide as part of MFMA Budget circular No. 98 on 6 December 2019 and since 2019, has encouraged municipalities to utilise the tool.

With effect, from 2024/25 MTREF, municipalities are expected to submit the completed National Treasury tariff tool (in excel format) illustrating that the revenue component of the budget is credible and funded and that the municipality's tariffs are cost reflective.

The 2024/25 tariff-setting tool is available on **DMS 1668918**. **It must be noted that the 2025/26 tariff setting tool will be available after the budget has been adopted by Council and the string files have been submitted to National Treasury.**

1.6 Operating Expenditure Framework

The City's expenditure framework for the 2025/26 budget and MTREF is informed by the following:

- Given that one of the primary drivers of this budget is to keep tariff increases within the inflationary envelope of 5 per cent, expenditure allocations in excess of the 2024/25 Adjustments budget are very limited;
- Drivers that are beyond the Administrations control are the Electricity price increase of 11,32% and the perennial unfunded service delivery mandates like housing and the delivery of services in non-rateable areas of the Municipality
- Drivers above the 5% target, that are within the Administrations control that need to be managed lie in the ineffective and inefficient use of resources like PPE and labour, resulting in additional costs for contracted services, fuel and oil, and increased water losses;
- Repairs and maintenance as a percentage of PPE equates to 7,6 per cent, which is slightly below the National norm of 8% but it is augmented by a higher capital amount allocated for renewing and upgrading existing infrastructure.
- Funding of the budget over the medium-term is informed by Section 18 and 19 of the MFMA and Circulars 129 and 130 released in December 2024 and March 2025;

The following table is a high-level summary of the 2025/26 MTREF (classified per main type of operating expenditure):

Table 16 Summary of operating expenditure by standard classification item

The budgeted allocation for **employee related costs** for the 2025/26 financial year totals R 1 328 million, which equals 22,1% per cent of the total operating expenditure.

The collective agreement regarding salaries/wages came into operation on 1 July 2024 and shall remain in force until 30 June 2029 (**DMS 1695228**). This agreement sets out the salary increases for the 2025/26 to 2028/29 financial years.

Based on the agreement, the salary increases from 1 July 2025, will be determined based on the average CPI percentage for the period 1 February 2024 until 31 January 2025 plus zero comma seventy five per cent (0.75). This has been calculated at 5.01 per cent.

For budget purposes, a 5.25 per cent increase has been utilised.

No provision for any new or previously unfunded posts has been made in the 2025/26 MTREF.

For Councillors allowances, a 5% increase for them has also been provided for.

The challenge with the organizational structure is that it has no grading structure since 2000. For the size of the organisation required in this environment, this anomaly is a very serious risk. Consequently, over the years, positions which require highly skilled and competent officials will never be filled or retained appropriately i.e. at the mercy of an antiquated grading system. To exacerbate this situation even further Job Evaluation (JE) processes are embarked upon but are done out of context. At a recent Job Evaluation (JE) process meeting, representatives of SALGA confirmed that JE processes cannot proceed in the absence of a Municipal Grading.

The risk of this from a financial and service delivery perspective is that the municipality is forced to employ officials who potentially may not have the requisite skills to perform tasks appropriately this has a knock on effect on productivity and the standard of service delivery.

A further knock on effect is that basic maintenance is outsourced due to the inability of the Municipality been able to employ appropriate skills. As well known, emergency maintenance can never be scoped properly and therefore subject to commercial abuse both wittingly and unwittingly. These inefficiencies and potential fraud and corruption cost the Council many millions of rands. This mainly due to the lack of quality assurance, which is a management responsibility.

Evidence of the above risk can also be clearly observed in the extent to which basic service delivery functions are performed by contractors. This financial burden on consumers and ratepayers is clearly evident when adding the cost of contracted services to the employees' related benefits. This amount is R 1 820 million. For the 2025/26 year this makes up 49% of the Gross Income (Total Income Less Purchases) or 30 % of Expenditure Budget. This is an indication that the Municipality may lack the requisite skills for service delivery, therefore seeking relief through outsourcing.

One of the overriding solutions here is that of a Municipal Grading in the first instance and an organogram suited for such grading for the administration. Since 2000 the structure of the organogram is dictated by the influences of the different Councils over the years and different managers, hence no collectively and best practice structured organizational structure is necessarily in place for proper service delivery. The correct grading will rationalize this anomaly and ensure the trajectory of future posts created and filled is done properly.

The provision of debt impairment was determined based on an annual collection rate of 95 per cent and the Credit Control and Debt Management Policy of the City. For the 2025/26 financial year this amount is R225 million (R 202,7m Adjusted 2024/25). This increases being a clear indication of the effects of the current economic conditions and the partial implementation of credit control policy in the Traditional areas.

Provision for depreciation and asset impairment has been informed by the Municipality's Financial Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate at which an asset is consumed. Budget appropriations in this regard total R342,6 million for the 2025/26 financial and equates to 5,7 per cent of the total operating expenditure.

Finance charges consist primarily of the repayment of interest on long-term borrowing (cost of capital). Finance charges on the budget make up 3,1 per cent (R191 million) of operating expenditure excluding annual redemption.

Bulk purchases are directly informed by the purchase of electricity from Eskom. This is budgeted for the 2025/26 to be R2 034 million.

Water Inventory. A significant improvement in change to the version 6.5 of *mSCOA* is the treatment of bulk purchase of water, which is no longer reflected as an expense, but rather as inventory item. The expenses are reflected as both that that is lost and that that is sold plus that that is consumed for municipal purposes, as from 1 July 2021.

Materials Inventory. Similarly, to Water Inventory, Materials and Suppliers, Consumable Stores and Finished Goods are only reflected as expenses when consumed. This business reform was always in place and does not alter municipal processes.

Contracted Services has decreased by 2.2 per cent from the Adjusted 2024/25. Emphasis is being placed on reducing reliance on contracted services. Contracted services together with Employee Related Costs amount to 30.3% (22.1% + 8.2%) of total operating cost. There is a direct relationship between the efficiency and effectiveness of personnel versus that of the private sector, with the common factor between both sectors lying with level of management of resources they have at their disposal.

Other expenditure comprises of various line items relating to the daily operations of the municipality. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved.

Losses comprises of the water losses that have arisen as a results of Inventory – Water.

Further details relating to contracted services can be seen in Table 73 MBRR SA1 (see pages 237 to 240).

The following figure gives a breakdown of the main expenditure categories for the 2025/26 financial year.

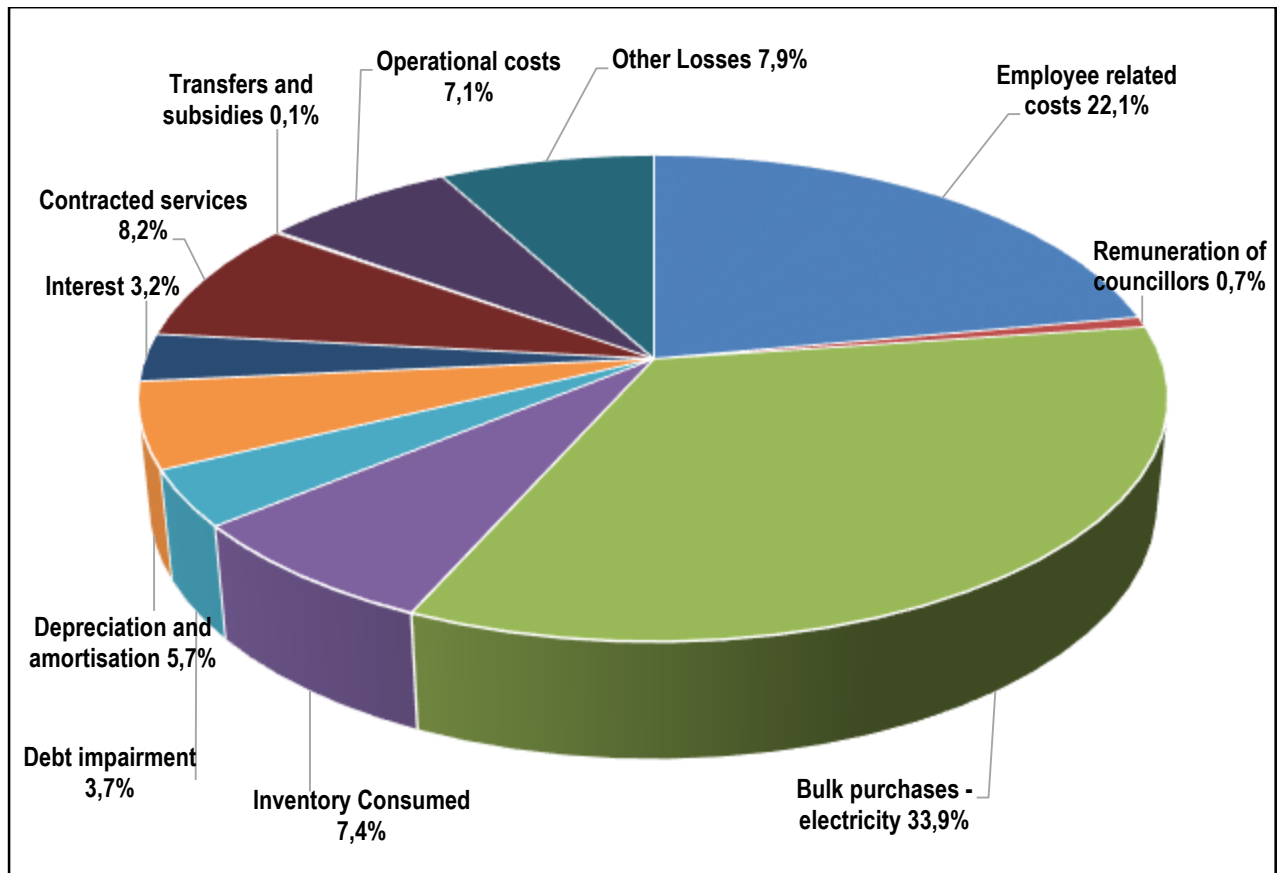

Figure 1 Main operational expenditure categories for the 2025/26 financial year

1.6.1 Priority given to repairs and maintenance

Aligned to the priority being given to preserving and maintaining the City's current infrastructure, the 2025/26 budget and MTREF provide for extensive growth in the area of asset maintenance. The weakness however in this environment is that there is no Municipal wide asset renewal strategy and repairs and maintenance plan of the City. Although there are software enablers in the Municipality that supports asset maintenance plans, however these are not effectively explored. In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. Considering these cost drivers, the following table is a consolidation of all the expenditures associated with repairs and maintenance:

Table 17 Operational repairs and maintenance

Description R thousand	2021/22	2022/23	2023/24	Current Year 2024/25		2025/26 Medium Term Revenue & Expenditure Framework		
	Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Budget Year 2025/26	Budget Year +1 2026/27	Budget Year +2 2027/28

Repairs and Maintenance by Expenditure Item								
Employee related costs	220 438	245 860	96 504	370 577	370 577	390 032	409 534	430 011
Inventory Consumed (Project Maintenance)	74 449	98 706	89 872	100 324	94 330	95 998	101 277	104 316
Contracted Services	131 383	144 663	122 183	133 305	142 658	115 726	122 091	126 364
Operational Costs	207	5 961	5 159	3 156	11 877	10 478	10 394	10 584
Total Repairs and Maintenance Expenditure	426 478	495 190	313 719	607 362	619 441	612 233	643 296	671 274

During the compilation of the 2025/26 MTREF operational repairs and maintenance was identified as a strategic imperative owing to the ageing of the City's infrastructure and historic deferred maintenance. The labour and transport component of the repairs and maintenance has increased significantly by 5.3 per cent in the 2025/26 financial year, from R 370 million to R 390 million. The materials and contracted services component combined has decreased by 11%. Departments are encouraged to utilise internal labour and transport instead of reliance on contracted services. There is a clear indication here that in the Repairs and Maintenance environment internal resources are not being deployed. If additional funding on the material component is required based on actual spending as at Mid-year, this will be considered in the 2025/26 Adjusted Budget.

In relation to the total operating expenditure, **repairs and maintenance** as a percentage of Total operating expenditure comprises the following **10.2; 10.2 and 10.1 per cent** of the respective financial years MTREF. In addition, repairs and maintenance as a percentage of PPE comprises of **7.6; 7.8 and 8.0 per cent** of the respective financial years MTREF. Even though the percentage of PPE equates to 7.6 per cent which is marginally below the National norm, it is augmented by a higher amount allocated for renewing and upgrading existing infrastructure in the capital budget.

The table below provides a breakdown of the repairs and maintenance in relation to asset class:

Table 18 Repairs and maintenance per asset class

R&M as % Operating Expenditure	10,1%	10,4%	6,0%	10,9%	11,0%	11,0%	16,8%	10,7%	10,7%

For the 2025/26 financial year, 66.6 per cent or R 407,6 million of total repairs and maintenance will be spent on infrastructure assets. Electrical infrastructure has received a significant proportion of this allocation totalling at 19.8 per cent (R 121,2 million) followed by Water infrastructure at 19.7 per cent (R 120 million), road transport infrastructure at 14.8 per cent (R 90,5 million), sanitation at 9.7 per cent (R 59 million) and storm water infrastructure at 2,4 per cent (R 14,7 million). Community assets has been allocated R 80 million of total repairs and maintenance equating to 13 per cent. Transport assets has been allocated R 80 million (13.2 per cent).

As alluded to in the observations of the organizational structure, the skills available in that structure and the extent to which outsourced work can be managed efficiently and effectively, will dictate whether assets management improves or deteriorates service delivery going forward.

1.7 Capital expenditure

The following table provides a breakdown of budgeted capital expenditure by vote:

Table 19 2025/26 Medium-term capital budget per vote

For 2025/26 an amount of R328 million has been appropriated for the development of infrastructure which represents 80 per cent of the total capital budget. In the outer years this amount totals R344 million, 80 per cent and R 351 million, 80 per cent respectively for each of the financial years. Water infrastructure receives the highest allocation of R 125,7 million in 2025/26 which equates to 38 per cent followed by waste water infrastructure at 25 per cent, R80,6 million, R48,5 million electrical infrastructure at 15 per cent, and then R46 million road infrastructure at 14 per cent.

Total new assets represents 46 per cent or R 189 million of the total capital budget, whilst renewal and upgrade of existing assets represents 54 per cent or R 219 million of the total capital budget. The percentage allocation is consistent over the MTREF. The municipality is already moving in the direction of reducing expenditure on new asset and greater focus being place on existing assets, with special focus on infrastructure. It was encouraging to see that MFMA Circular 130 is guiding municipalities towards this direction, with the advice of 60 percent on renewal/upgrade of assets and 40 percent on new assets.

Further detail relating to asset classes and proposed capital expenditure is contained in Table 33 MBRR A9 (Asset Management) on pages 93xxxx to 99xxxx. In addition to the MBRR Table A9, MBRR Tables 65 to 69 MBRR SA34a, b, c, d and e provides a detailed breakdown of the capital programme relating to new asset construction; capital asset renewal as well as operational repairs and maintenance by asset class (refer to pages 182xxxx to 193xxxx).

Furthermore, pages 200xxx to 234xxx contain a detail breakdown of the capital budget per project over the medium-term.

The following graph provides a breakdown of the capital budget to be spent on infrastructure related projects over the MTREF.

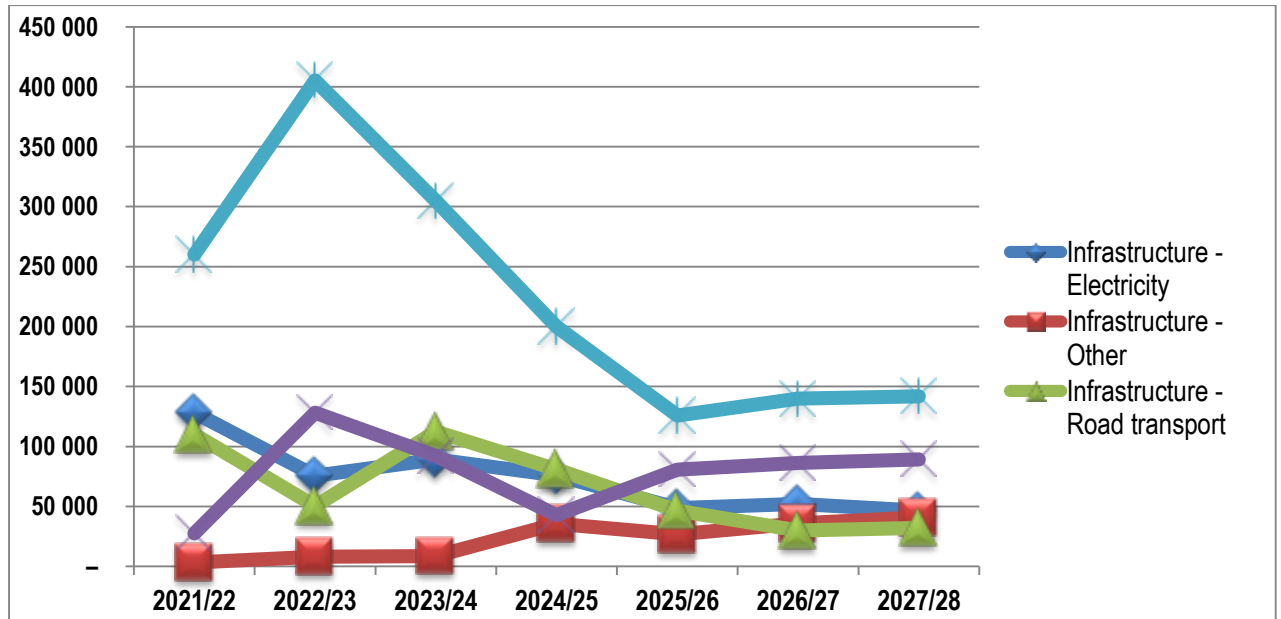

Figure 2 Capital Infrastructure Programme

1.8 Annual Budget Tables

The following pages present the ten **main** budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2025/26 budget and MTREF as approved by the Council. Each table is accompanied by *explanatory notes* on the following page.

Explanatory notes to Table A1 - Budget Summary

1. Table A1 is a budget summary and provides a concise overview of the City's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
 - a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF
 - b. Capital expenditure is balanced by capital funding sources, of which
 - i. Transfers recognised is reflected on the Financial Performance Budget;
 - ii. Borrowing is incorporated in the net cash from financing on the Cash Flow Budget
 - iii. Internally generated funds are financed from accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive indicates that the necessary cash resources are available to fund the Capital Budget.
4. The Cash backing/surplus reconciliation shows that the municipality has been paying attention to managing this aspect of its finances, and consequently its obligations are cash-backed. This places the municipality in a very positive financial position. To strengthen this favourable position, Council has adopted an Investment, Working Capital and Capital Replacement Reserves Policy.
5. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor. The section of Free Services shows that the amount spent on Free Basic Services and the revenue cost of free services provided by the municipality continues to increase however it needs to be noted that this table does not cater for the cross subsidisation value of the lower end tariffs in the tiered structure of basic service charges. **This implies that the values reflected as Free Basic Services and the revenue cost are in reality much higher should one include the cross-subsidisation that takes place within the lower end of the tariffs, plus the fact the Free Basic Services cannot be delivered in the absence of all the services financed by Rates. In addition, the municipality continues to make progress in addressing service delivery backlogs.**

Explanatory notes to Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.
2. **Note the Total Revenue on this table includes capital revenues (Transfers recognised – capital) and so does not balance to the operating revenue shown on Table A4.**
3. Note that as a general principle the revenues for the Trading Services should exceed their expenditures. The table highlights that this is the case for Electricity, Water and the Waste management functions only. **As already noted above, the municipality will be undertaking a detailed study of this function to explore ways of improving efficiencies and provide a basis for re-evaluating the function's tariff structure.** However, if the capital revenues (Transfers recognised – capital) is removed from the calculation of the surpluses for each trading service, water service is running at an R 63 deficit and Waste Water Services at a R 88,9m deficit.
4. Other functions that show a deficit between revenue and expenditure are being financed from rates revenues and other revenue sources. **The major concern here is that all other services are now running at an R 164,6 million deficit. You will not notice this in Table A2 as the capital transfers distort the actual revenue. Refer to Table 26 for the actual calculation. This implies that the whole Municipality has a high risk dependency on Electricity Revenue and Waste Management, given that Water and Waste Water Management Trading services have deficits.**

Explanatory notes to Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

1. Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the City. This means it is possible to present the operating surplus or deficit of a vote. The following table is an analysis of the surplus or deficit for the electricity and water trading services.

Surplus/(Deficit) for the year	57 670	(158 143)	(248 751)	9 534	(285 877)	(285 877)	(146 012)	(89 723)	(19 985)

1. It needs to be noted that surpluses/deficits reflected above **exclude** capital revenues (Transfers recognised – capital), which shows the real picture of the actual operational surpluses for all trading services.
2. The electricity trading surplus over the 2025/26 MTREF is 5 per cent or R136,4 million and decreases to 3.6 per cent in 2027/28 or R 110 million.
3. The deficit on the water management account amounts to R 63 million (4.8 per cent) in the 2025/26 financial year and increases to a lower deficit of 2.2 per cent in 2027/28 or R 32,5 million.
The challenge here is that based on the fact that the bulk of the costs are fixed, the Water Service which is a trading service and needs to keep making a marginal surplus. The Administration has

to ensure that costs remain reasonable in this service to guarantee it self-sustaining in the long term.

4. The deficit of R 88,8 million on Waste Water Management is of concern and efforts will need to be made to reduce this deficit in the coming MTREF by reducing costs therefore the introduction of more efficient and effective operations.
5. The surplus on the waste management amounts to R 34,4 million (14 per cent) in the 2025/26 financial year and improves to a marginally higher surplus of R 38,9 million (14.4 per cent) in 2027/28.
6. Note that the surpluses on these trading accounts are utilised as an internal funding source for the capital programme for asset renewal, refurbishment and the development of new asset infrastructure, and used to cross-subsidise other municipal services.

1. This table highlights the extent of cross-subsidisation from the trading services to the Community and public safety, Economic and environmental and Housing services. These services are running at a R164,6 million deficit. Ideally they should just breakeven or have a marginal surplus.
2. This implies that the whole Municipality has a high risk dependency on Electricity. The concern here is confined to all services funded by Rates plus the added burden that Water and Waste Water Management trading services do not make material surpluses to cushion the situation.
3. Although this deficit is a serious concern, a positive trend that is developing can be seen in the Rates Revenue contribution to the municipal income base which has surpassed the gross contribution made by Electricity.
4. Although Council has received Level II Accreditation, the subsidisation of Housing services can be construed as an “unfunded” mandate.

Explanatory notes to Table A4 - Budgeted Financial Performance (revenue and expenditure)

1. Total revenue is R5,8 billion in 2025/26 and escalates to R6,1 billion by 2026/27 and R6,6 billion by 2027/28. This represents a year-on-year increase of 9,83 per cent for the 2025/26 financial year from the 2024/25 Adjusted Budget and 5,73 per cent for the 2026/27 financial year and 6,52 per cent for the 2027/28 financial year.
2. Revenue to be generated from Property Rates is R 840 million in the 2025/26 financial year and increases to R 916 million by 2026/27 which represents 14 per cent of the operating revenue base of the City and therefore remains significant source of funding for the municipality. It remains relatively constant over the medium-term and tariff increases which have been factored in at 15 per cent for the respective financial years of the MTREF.
3. Services charges relating to electricity, water, sanitation and refuse removal constitutes the biggest component of the revenue basket of the City totalling R 3,5 billion for the 2025/26 financial year and increasing to R4 billion by 2027/28. For the 2025/26 financial year services charges amount to 61 per cent of the total revenue base, and a slight economic growth has been built into these revenue figures. It is anticipated that the economy will improve slightly in the coming financial years.
4. Transfers recognised – operating includes the local government equitable share and other operating grants from national and provincial government. It needs to be noted that in real term the grants receipts from national government has increased over the MTREF by 5 per cent for the 2025/26 year, 4 per cent for the 2026/27 year and 4 per cent for the 2027/28 year.
5. The following graph illustrates the major expenditure items per type.

**Figure 3 Expenditure by major type**

Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, functional classification and funding source

1. Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by functional classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
2. The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations. In relation to multi-year appropriations, for 2025/26 R 399 million has been allocated of the total R409 million capital budget, which totals 98 per cent. This allocation decreases slightly to R 407 million in 2026/27 and increases further to R 415 million in 2027/28.
3. Single-year capital expenditure has been appropriated at R 10 million for the 2025/26 financial year and increases to levels of R 22 million in the 2026/2027 year and R 25 million in the 2027/28 year.
4. Unlike multi-year capital appropriations, single-year appropriations relate to expenditure that will be incurred in the specific budget year such as the procurement of vehicles and specialized tools and equipment. The budget appropriations for the two outer years are indicative allocations based on the departmental business plans as informed by the IDP and will be reviewed on an annual basis to assess the relevance of the expenditure in relation to the strategic objectives and service delivery imperatives of the City. For the purpose of funding assessment of the MTREF, these appropriations have been included but no commitments will be incurred against single-year appropriations for the two outer-years.
5. The capital programme is funded from national and provincial grants and transfers, borrowing and internally generated funds from current year surpluses. For 2025/26, capital transfers totals R 227 million (56 per cent) and increases to R 231 million in the 2027/28 financial year (53 per cent). Borrowing has been provided at R 162 million for 2025/26, R 179 million for 2026/27 and R 178 million for 2027/28. Internally generated funding totaling R 20 million, R 25 million and R 31 million for each of the respective financial years of the MTREF.

Explanatory notes to Table A6 - Budgeted Financial Position

1. Table A6 is consistent with international standards of good financial management practice, and improves understandability for councilors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. Table A6 is supported by an extensive table of notes (SA3 which can be found on page 243xxx to 247xxx providing a detailed analysis of the major components of a number of items, including:
 - Trade and other receivables from exchange and non-exchange transactions;
 - Inventory;
 - Property, plant and equipment;
 - Trade and other payables from exchange and non-exchange transactions;
 - Provisions;
 - Changes in net assets; and
 - Reserves
4. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
5. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition, the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.
3. It can be seen that the cash levels of the City are slightly improving when comparing with current year (2024/25) adjusted budget to 2025/26 period and the years thereafter owing directly to a myriad of cash flow interventions introduced mainly being collection rate levels and the balance funding mix for capital programs.
4. The 2025/26 MTREF has been informed by the planning principle of ensuring adequate cash reserves over the medium-term.
5. Cash and cash equivalents totals R 201,3 million as at the end of the 2025/26 financial year and increases to a surplus of R 385 million by 2027/28 as more reliance is being placed on borrowings for capital projects and less utilization of internal reserves.

Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence, the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year-end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would be either a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
5. The surplus amounts to R 157 million in 2025/26 and decreases to R 129 million in 2026/27 and to R 120 million 2027/28. This clearly indicate that from a funding perspective the municipality is committing lesser internal reserves, which needs to be cash-backed for future capital expenditure.

Explanatory notes to Table A9 - Asset Management

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
2. National Treasury has recommended that municipalities should allocate at least 60 per cent of their capital budget to the renewal and upgrading of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE.
3. The City has allocated 54 per cent of the capital budget on the renewal and upgrade of existing assets, this is as a result an initiative to ensure that the existing aging infrastructure is renewed and upgraded to ensure continuous service provision to existing consumers.
4. Repairs and maintenance as a per cent age of PPE equates to 7,6 per cent, which is below the National norm but it is augmented by a higher amount allocated for renewing and upgrading existing infrastructure.
5. The following graph provides an analysis between depreciation and operational repairs and maintenance over the MTREF. It highlights the City's strategy to address the maintenance backlog.

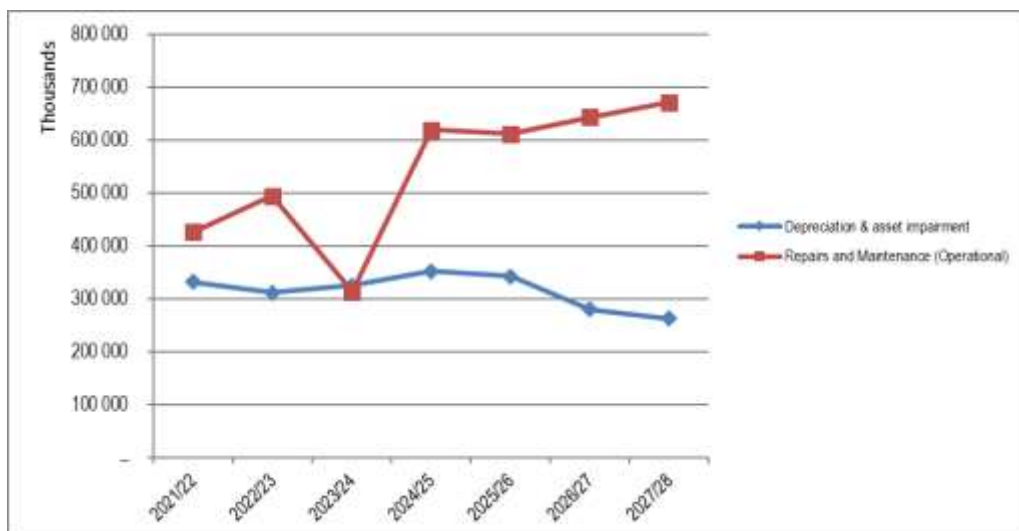

Figure 4 Depreciation in relation to repairs and maintenance over the MTREF

Explanatory notes to Table A10 - Basic Service Delivery Measurement

1. Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The City continues to make progress with the eradication of backlogs.
3. The budget provides for a universal approach to the provision of free subsidised services to both indigent and poor households for the 2024/25 MTREF.
4. **This Municipality is of the view that following the strict Indigent route of free basic services for indigent consumers only and ignoring the plight of the poor and less wealthy is not the correct approach in the application of the Equitable Share. Instead equitable distribution that arises from a dual tiered or block tariffs structure accommodating seamless both indigent and poor households, but not providing subsidized (below cost) service tariffs to the middle to higher income consumers would be the fairest and equitable approach.**
5. Cost of Free Basic Services provided - Informal Formal Settlements – After an internal consultation with the Management of the Revenue Section it has been agreed that the cost of Free Basic Services provided for Informal Formal Settlements will be extracted from the financial System in preparation for the 2025/26 MTREF (Adopted).
6. City of uMhlathuze does not at the present moment have a system that automates the reporting of the Cost of Free Basic Services.

Part 2 – Supporting Documentation

2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the following Councillors and officials:

- Mayor
- Deputy Mayor
- Speaker
- Municipal Whip
- City Manager
- Chief Financial Officer – Chairperson
- Deputy City Managers
- Any other official on invitation

The primary aim of the Budget Steering Committee is to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the City's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

The Budget Steering committee met on the 26 March 2025 for the Mayor to provide guidance on the Budget Process. Consultation will continue until the Adopted Budget is approved in May 2025.

2.1.1 Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2024) a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor tabled to Council the required budget time schedule on 15 August 2024. The report (RPT 178842 and DMS 1687733) was adopted by Council on 15 August 2024. Key dates applicable to the process were:

- **26 September 2024** – Issuing of the 2025/26 Medium Term Revenue and Expenditure Framework (MTREF) guideline memorandum and budget policy document addressing various budget assumptions, internal budget processes, policies and requirements in terms of the Municipal Budgeting and Reporting Regulations etc.;

- **21 October 2024 to 27 November 2024** - Submission of the 2024/25 Adjusted Capital and Operating Budget, analysed according to activities aligned to Council's strategic objectives, as set out in the draft IDP as well as the Capital and Operating Budget for the 2025/26 Medium Term Revenue and Expenditure Framework Plan (MTREF);
- **23 January 2025** - Council considered the 2024/25 Mid-year Review;
- **27 February 2025** – Council considered the 2024/25 Adjusted Budget;
- **17 & 18 February 2025** – National Treasury's 2024/25 Visit for Mid-year Budget and Performance Assessment;
- **28 March 2025** - Tabling in Council of the Draft 2025/26 IDP and 2025/26 MTREF for public consultation;
- **April/May 2025** – Publication of Budget insert in various publications in light of restrictions placed on holding of Public meetings due to the Corona virus pandemic. Furthermore, the Mayor discussed the budget on local radio stations as well as on regional television programmes (refer to section 2.1.3 for further details of the proposed schedule);
- **10 May 2025** - Closing date for written comments;
- **15 May 2025** – National Treasury's 2025/26 Tabled MTREF Engagement and Municipal Benchmarking Exercise;
- **10 to 15 May 2025** – finalisation of the 2025/26 IDP and 2025/26 MTREF, taking into consideration comments received from the public, comments from National Treasury, and updated information from the most recent Division of Revenue Act and financial framework; and
- **22 May 2025** - Adopting of the 2025/26 MTREF before Council for consideration and approval.

There have been no significant deviations from the key dates set out in the Budget Time Schedule Tabled by Council.

2.1.2 Enterprise Resource Planning (ERP) uM-SAP

uMhlathuze Municipality in 2014 took a decision to do away with multi-systems that existed within the municipality and to have one single system. During that time the Municipality went out on Tender for a company that was going to assist the Municipality in finding a solution that was going to meet the business requirements of uMhlathuze. In 2015 the Municipality eventually went out on Tender for an ERP solution and the solution of choice was SAP which was proposed by EOH in their Bid document through a Bidding process.

The Scope of work for the ERP at a high level was as follows:

- Time and attendance integration with Human Resources and Payroll
- Maintaining the data integrity of all master data shared across IT environments
- Reduction in the number of manual processes and Controls that are currently in place
- Improvement in the level of and timeliness of reporting
- Increase in the use of automated controls and notification
- A move towards a more electronic based environment
- Consolidation, optimisation and integration initiative that will focus on detailed business process re-alignment, systems enhancement and the implementation of the listed SAP applications that can aid the resolution of challenges and support the Municipality towards mSCOA compliance.

The implementation of the SAP solution started in October 2017 and the majority of the SAP Modules are live except for HCM Payroll which went LIVE on 1 August 2023.

The payroll was run parallel to the legacy municipal payroll system for the period 1 March 2023 to 31 July 2023 to eliminate inaccuracies.

This implementation has also come at a time where National Treasury is also introducing some reforms and those embedded in this new system. The system also required the municipality to make some changes to how certain things were done and to move into an environment that has very little manual intervention. In that case because of anxiety, administration needed to have a Change Management Specialist to allay the fears of staff, and the Unions were also consulted in order to ensure that every employee understands the objective of having to change ways of doing things.

2.1.3 IDP and Service Delivery and Budget Implementation Plan

Integrated Development Planning is an approach to planning that involves the entire municipality and its citizens in finding the best solutions to achieve good long-term development.

uMhlathuze's Integrated Development Plan is a super plan for the organisation which gives an overall framework for development. The IDP is a strategic tool that guides and informs planning, budgeting and managing. Our IDP aims to co-ordinate the work of local and other spheres of Government in a coherent plan to improve the quality of life for all the people living in our jurisdiction. It takes into account the existing conditions and problems and resources available for development. The plan looks at economic and social development for the area as a whole. Amongst other things, it also sets a framework for how land should be used (SDF), what infrastructure and services are needed and provided.

Section 25(1) of the MSA specifically require a municipal Council to within a prescribed period after the start of the electoral term adopt a single, inclusive, and strategic plan for the development of the municipality. Furthermore, the Act requires IDPs to "link, integrate and coordinate plans", as well as "take into account proposals for the development of the municipality". (read with *Section 24 (1) of the MFMA 56 of 2003*). ***In May 2022, Council adopted the Fifth Generation IDP 2022-2027 bearing a five-year strategic framework for the City.***

Section 34 of the MSA makes provision for the annual amendment/revision of the approved municipal IDP together with its sector plans, accordingly the City is in the process of developing an Integrated Development Plan Review for 2025/26, with a Draft being considered by council in March together with the Draft MTREF 2025/26.

The Integrated Development Plan Review 2024/25 which currently in implementation until the 2025/26 IDP Review is considered and approved by Council in May 2025 is outcome based and built on the foundations of Government Priorities. During the IDP development process, Government priorities are incorporated into the municipal strategic framework which directly informs the municipal Service Delivery and Budget Implementation Plan. This fair alignment between IDP and Government priorities is confirmed through the municipal budgeting.

The uMhlathuze's Integrated Development Plan Review 2025/26 is developed with special consideration to the following primary policy developments:

- The National Development Plan (NDP)
- KZN Provincial Growth and Development Strategy (PGDS) - reviews
- The Back to Basics (B2B) Programme for municipalities
- The Integrated Urban Development Framework IUDF)
- The District Growth and Development Plan (DGDP)

- The District Development Model (DDM)

Some of the important legislative developments include:

- Spatial Planning Land Use Management Act No. 16 of 2013, (SPLUMA)
- National Land Transport Act No. 5 of 2009.
- Department of Planning Monitoring and Evaluation (DPME)'s Draft Planning Framework Bill.

On the international front, important developments include the following:

- The African Union launched Africa 2063;
- The Sustainable Development Goals (SDGs)
- National Urban Agenda; and
- The Paris Accord Addressing climate change.

Sector Planning

While the IDP is the municipal's main planning document, it draws on, and is informed by a large number of other plans and strategic frameworks developed by the other spheres of Government and various Departments, inter alia:

- Spatial Development Framework
- Integrated Human Settlement Plan
- Local Economic Development Plan
- Water Services Development Plan
- Integrated Waste Management Strategy
- Electricity Master Plan
- Financial Plan
- Air Quality Plan;
- Disaster Management Plan
- Electricity Mater Plan

Each of these plans offer comprehensive information and data that informs the IDP to a large extent.

uMhlathuze Municipality gave notice to the local community of the particulars of the process it intended to follow, when developing an Integrated Development Plan Review 2025/26. The community had to be consulted on its development needs and priorities. The local community and organs of state, including traditional authorities, and other role players were consulted during the public participation period. The following mechanisms were used effectively to ensure maximum attendance and fruitful engagements

- Local Radio Slots
- City's Official Social Network Platforms (Facebook, Twitter, WhatsApp)
- Municipal Website
- Physical meetings

During the public participation engagements, the ultimate aim was for Council to:

- Identify the real needs of all communities in the uMhlathuze
- Prioritize such needs and development challenges
- Collective development of appropriate solutions to address such needs
- Empower local communities to take ownership for their own development

The IDP has been taken into a business and financial planning process leading up to the 2025/26 MTREF, based on the approved 2024/25 MTREF, Mid-year Review and adjusted budget. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2025/26 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets after reviewing the mid-year and second quarter performance against the 2024/25 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

2.1.4 Financial Modelling and Key Planning Drivers

As part of the compilation of the 2025/26 MTREF, extensive financial modelling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2025/26 MTREF:

- City growth – None put into this three year MTREF;
- Policy priorities and strategic objectives;
- In absence of an IDP prioritization model, capital allocations are based on an arithmetic calculation using historic distribution of assets and income generation per function proportionately;
- Asset maintenance resource allocations based on best practice;
- Economic climate and trends (i.e. inflation, Eskom increases, household debt, migration patterns);
- Performance trends;
- The approved 2024/25 adjustments budget and performance against the SDBIP;
- Cash Flow Management Strategy;
- Debtor payment levels;
- Loan and investment possibilities;
- The need for tariff increases versus the ability of the community to pay for services; and
- Improved and sustainable service delivery

In addition to the above, the strategic guidance given in National Treasury's MFMA Circulars 129 and 130 has been taken into consideration in the planning and prioritisation process.

2.1.5 Community Consultation

The 2025/26 MTREF that will be tabled before Council on 27th March 2025 will be presented to the community for consultation.

A detailed insert will be included the local newspapers highlighting the Tabled 2025/26 Medium Term Revenue and Expenditure Framework (MTREF) and inviting comments from the public via email.

Furthermore, the Executive Committee will be approving a schedule of public meetings that will be held at various locations to provide an opportunity for the public to comment on the budget.

A meeting will also be scheduled with the AmaKhosi and their leadership in order to strengthen Council's relationship with traditional leaders.

The dual approach that provides for the engagement of Ward Committees firstly and thereafter the broad community, proved to be a success in the previous years' budget public participation processes. It created a sense of ownership and belonging to the Ward Committees and allowed them to assist in various ways during the process of broader community participation.

The administrative planning process also took into consideration the cluster approach that was used in the previous years' budget public participation. The advantage and benefit for the use of clusters is that it creates a shared sense of belonging amongst the citizens as well as an understanding of the diverse issues and needs amongst the community.

The following table sets out the meetings that are proposed and have been prepared by the Community Facilitation section for the 2025/26 budget public participation process:

CLUSTER	WARDS	AREA	VENUE	PROPOSED DATES	TIME
Amakhosi	Amakhosi	Richards bay	Richards Bay Council Chambers	03 April 2025 (Thursday)	11:00
1	Ward Committees and Community Development Workers	Empangeni	Empangeni Civic Centre Hall	04 April 2025 (Friday)	13:00
6, 10 & 11	9, 23, 24, 25, 27, 28 and 29	Ngwelezane	Ngwelezane Community Hall	09 April 2025 (Wednesday)	13:00
13	31, 32 & 33	Ntambanana	Ntambanana Community Hall	12 April 2025 (Saturday)	13:00
7	12, 13 & 14	Madlankala	Madlankala Community Hall	16 April 2025 (Wednesday)	13:00
8 & 9	15, 16, 17, 18, 19, 20, 21 & 22	eSikhaleni	eSikhaleni TVET Hall	25 April 2025 (Friday)	13:00
4	10, 11, 30 & 34	Vulindlela	Vulindlela Community Hall	07 May 2025 (Wednesday)	13:00
Stakeholders	Stakeholders	Richards bay	Richards Bay Auditorium	8 May 2025 (Thursday)	14:00
2, 3 and 5	1, 2, 3, 4, 5, 6, 7, 8 and 26	eNseleni	eNseleni Community Hall	10 May 2025 (Saturday)	13:00

Table 35 Dates for the 2025/26 budget public participation meetings

The programme is an endeavour to ensure maximum participation, particularly by Council's role-players. The programme is rigorous, extensive and gruelling due to time constraints as previously mentioned, largely exacerbated by public holidays that in the main create extended weekends that would make it difficult to hold meetings on those days, i.e. Easter Weekend, Freedom Day and Workers' Day etc.

The Tabled Budget will also be published on the municipality's website, and detailed copies of the 2025/26 Medium Term Revenue and Expenditure Framework (MTREF) will be made available for inspection at all municipal offices and libraries within the City of uMhlathuze.

All documents in the appropriate format will be provided to National Treasury, and other national and provincial departments in accordance with section 23 of the MFMA, to provide an opportunity for them to make inputs.

Submissions that will be received during the community consultation process have been addressed, and where relevant, will be considered as part of the finalisation of the 2025/26 MTREF.

2.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realized through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A municipal IDP provides a five-year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery.

Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning provides a strategic environment for managing and guiding all planning, development and decision making in the municipality.

It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the City, issues of national and provincial importance are reflected in the IDP uMhlathuze municipality. The City of uMhlathuze has a clear understanding of such intent, and is therefore consistently ensuring that strategically it complies with the key national and provincial priorities.

The IDP drives the strategic development of the Municipality. The Municipality's budget is fully influenced by the strategic objectives identified in the IDP. The service delivery budget implementation plan (SDBIP) ensures that the Municipality implements programmes and projects based on the IDP targets and associated budgets. The performance of the Municipality is tabled in its Annual report.

It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the City, issues of national and provincial importance are reflected in the IDP of uMhlathuze municipality. The City of uMhlathuze has a clear understanding of such intent, and is therefore consistently ensuring that strategically it complies with the key national and provincial priorities.

The IDP drives the strategic development of the Municipality. The Municipality's budget is fully influenced by the strategic objectives identified in the IDP. The service delivery budget implementation plan (SDBIP) ensures that the Municipality implements programmes and projects based on the IDP targets and associated budgets. The performance of the Municipality is tabled in its Annual report.

Below is the table which shows the link between IDP, Budget and National and Provincial objectives.

2.3 Measurable performance objectives and indicators

Legislative requirements

Outlined in Section 40 of the Municipal Systems Act of 2000 (MSA), Municipalities must establish mechanisms to monitor and review its Performance Management System (PMS) so as to measure, monitor, review, evaluate and improve performance at organisational, departmental and employee levels. Section 34 of the MSA furthermore point out that the Integrated Development Plan (IDP) has to be reviewed on an annual basis, and that during the IDP review process the Key Performance Areas, Key Performance Indicators and Performance Targets be reviewed and this review will form the basis for the review of the Organisational Performance Management and Performance Contracts of Senior Managers.

The Municipal Planning and Performance Management Regulations (2001) stipulates that a “municipality’s performance management system entails a framework that describes and represents how the municipality’s cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role-players” (Chapter 3, Section 7, Municipal Planning and Performance Management Regulations, 2001).

Performance Management framework

In line with the provision of Chapter 6, Section 38 of the Municipal Systems Act, 2000 (Act No. 32 of 2000), the City of uMhlathuze established the Performance Management System in the interest of promoting a culture performance management among its political structures, political office bearers, councillors and the administration; as well as to administer the affairs of the municipality in an economical, effective, efficient and accountable manner.

Performance Management is one of the core functions of the City Manager emanating from the legislative requirement in Section 55 of the Municipal Systems Act (MSA). This section stipulates that the Municipal Manager, as head of administration of a municipality is, subject to the policy directions of the municipal council, responsible and accountable for the implementation of the municipality’s integrated development plan, and the monitoring of progress with implementation of the plan as well as operating in accordance with the municipality’s performance management system as outlined in Chapter 6 of the MSA.

The Municipality has key documents that guides the effective implementation of Organizational Performance Management and reviewed on annual basis for adoption by Council, namely:

- Organizational Performance Management Framework and Policy
- Individual Performance Management and Development Policy
- Service Delivery and Budget Implementation Plan
- Standard Operating Procedures for the Collation, Collection, Verification and Storage of Performance Information
- Technical Indicator Descriptions

Organisational Performance Management Process

The legislative framework as set out above provides for performance management at various levels in a municipality including organisational (sometimes also referred to as municipal, corporate or strategic) level, operational (also referred to as services, departmental or section/team level) and lastly, at individual level as. These levels are however integrated and interdependent on each other.

The following diagram illustrates performance at various levels in the organisation:

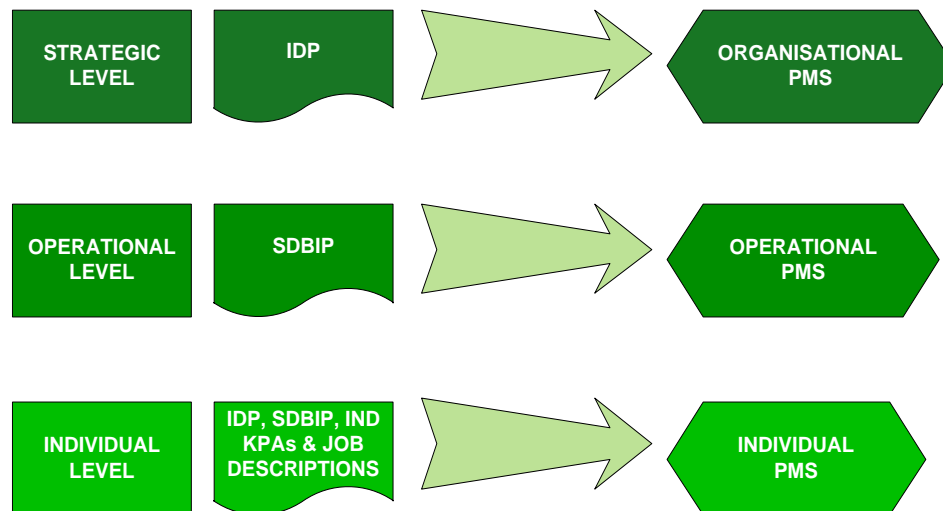

Figure 5 Performance at various levels

The process of managing performance at organisational level in the uMhlatuze Municipality involves the stages as set out in the following diagram:

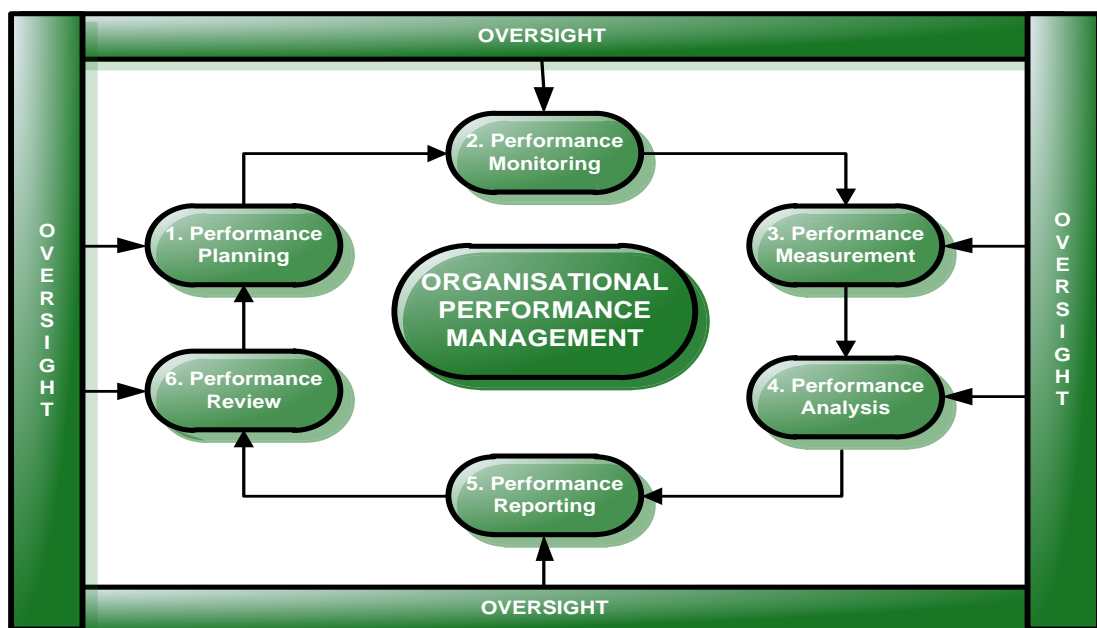

Figure 6 Performance process

Key performance indicators have been refined in support of the municipality's development priorities and objectives as set out in the revised IDP framework (aligned with the organizational structure and Council's priorities) for the five year IDP period to ensure consistency in measuring and reporting on long terms strategies and projects. Measurable performance targets with regard to each of these development priorities and objectives were established and are reflected on the Top Layer SDBIP. A process to ensure regular reporting is in place and gets reported quarterly to the Council via the Performance Audit Committee.

Individual performance agreements and performance plans were prepared in line with provisions prescribed in the Performance Regulations (Notice 805, published on 1 August 2006 in the official gazette) and signed by the City Manager and Deputy City Managers (Heads of Department). These agreements are fully implemented and aligned with the Non-Financial Component of the Service Delivery and Budget Implementation Plan as required in terms of the Municipal Finance Management Act (No 56 of 2003)

The following diagram illustrates a summary of the reviewed performance management framework for the City of uMhlathuze for performance measurement and reporting, adhering to the guidelines suggested by KwaZulu-Natal Province, Department for Cooperative Governance and Traditional Affairs:

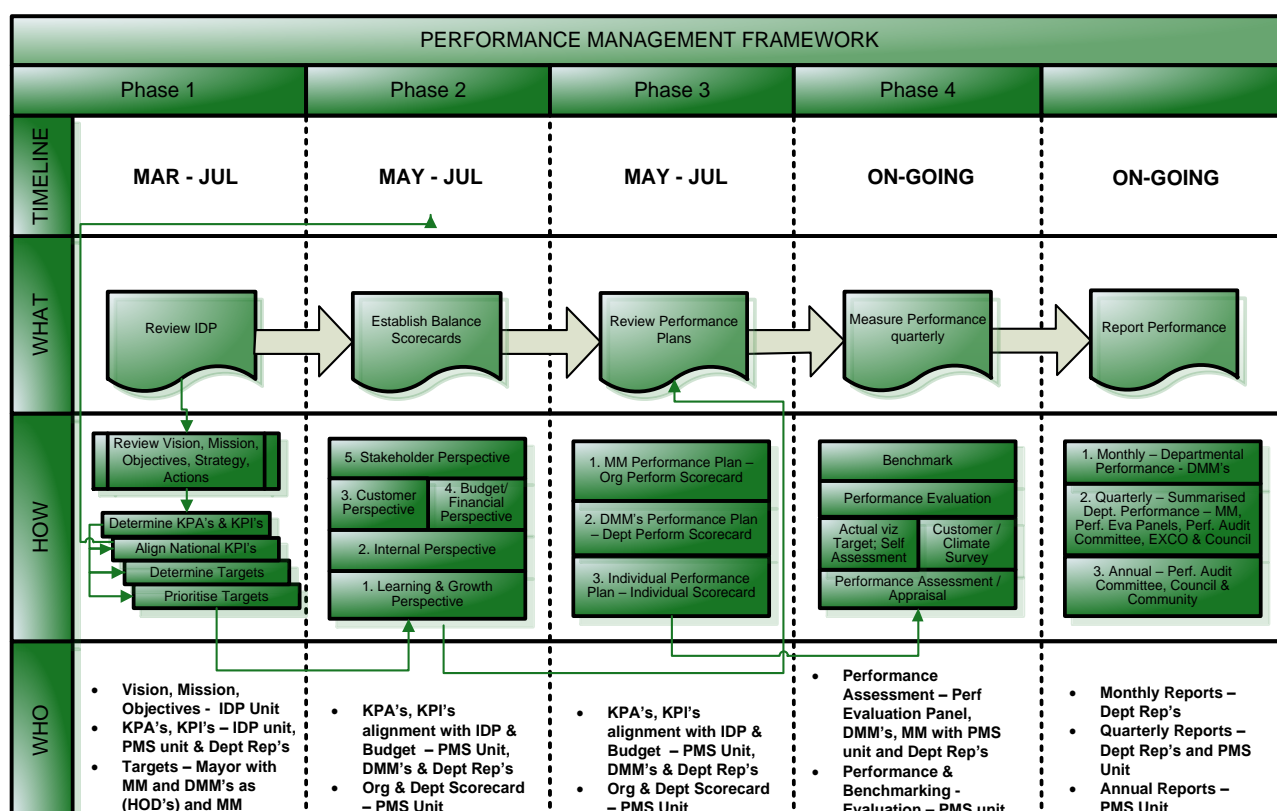

Figure 7 uMhlathuze Performance Management Framework

Performance Audit Committee

The Performance Audit Committee was established in terms of Section 14(2) (a) of the Local Government: Municipal Planning and Performance Management Regulations of 2001 and

membership changed over time. The membership of the PAC as approved by Council as per Council resolution 15078, item RPT 172404 is as follows:

- Mr R M J Baloyi – Chairperson (external member);
- Mrs S X Khanyile (external member);
- Cllr X Ngwezi (Mayor) or;
- Cllr CM Botha (Deputy Mayor in the event of possible non-availability by Councillor X Ngwezi)

The Performance Audit Committee is meeting on a quarterly basis for each financial year to consider the reported quarterly performance achievements reported on the Top Layer of the Service Delivery Budget Implementation Plan as well as the Non-Financial Performance Achievements reported in terms of the Departmental Service Delivery Budget Implementation Plans (Component 3).

Auditing of Performance Information

According to the Municipal Planning and Performance Management Regulations and the MFMA, the Municipal Council must form an audit committee with at least three members, the majority of whom must not be employees of the municipality. It is not permitted for a Councillor to be on an audit committee, and the chairperson may not be the employee of the municipality. Nonetheless, uMhlathuze Council decided to keep the Performance Audit Committee and the Audit Committee separate. This allows council members to serve on the Performance Audit Committee and offer their opinions on subjects pertaining to Performance Management.

In accordance with the Audit Committee Charter, the Audit Committee depends on the work completed by the Performance Audit Committee. It also receives and reviews reports and meeting minutes that the Performance Audit Committee submits to it at the appointed sessions.

In reviewing the municipality's Performance Management System, the Performance Audit Committee focuses on economy, efficiency, effectiveness and impact in so far as the key performance indicators and performance targets set by the municipality are concerned. It places major focus on areas outlined in the Integrated Development Plan (IDP) and the Service Delivery Budget Implementation Plan (SDBIP) and performs the following functions:

- Review and comment on compliance with statutory requirements and performance management best practices and standards.
- Review and comment on the alignment of the Integrated Development Plan, the Budget, Service Delivery and Budget Implementation Plan and performance agreements.
- Review and comment on relevance of indicators to ensure they are measureable and relate to services performed by the Municipality.
- Review compliance with in-year reporting requirements.
- Review the quarterly performance reports submitted by internal audit.
- Review and comment on the Municipality's annual reports within the stipulated timeframes. Review and comment on the Municipality's performance management system and make recommendations for its improvement at least twice a year.
- At least twice during a financial year submit an audit report to the municipal council concerned.

The Audit Committee interrogates reports that are submitted by Internal Audit Unit of the Municipality within the Office of the City Manager. In carrying out the duties, the Chief Audit Executive is assisted by a group of service providers designated for internal audit role. As

part of quarterly reviews, the Performance Management System and Predetermined Objectives are audited and the results are reported using the internal audit plan that follows:

Audit Project	Focus Areas
Review of Performance Information - Quarter 1 – 4 Review of Annual Performance Report	<ul style="list-style-type: none"> • Consistency in reporting; • Measurability and reliability; • Performance reports reviews; • Performance score verification (Municipal Manager and Deputy Municipal Managers); • Compliance with relevant laws and regulations.

Figure 8 Performance Management internal audit plan

The Auditor General finally audits all achievements reported in the Organisational Performance Management System Scorecard as reported in the Draft Annual Performance Report that is submitted together with the Draft Annual Financial Statements at the end of August of each year. Their findings are reported in their management letter and are included in the Annual Report. The information reported therefore is validated for correctness.

Annual Organisational Performance Information

The annual Organisational Performance Targets are compiled in a table format, (as prescribed by KZN CoGTA), and reported on a quarterly basis to track performance. The Organisational Performance report is presented to the Auditor General for auditing together with the Annual Financial Statements by 31 August of each year.

The Organisational Performance Scorecard (Tables) once finalized and approved is read in conjunction with the uMhlathuze Annual Report, including the Annual Financial Statements as well as Auditor General Report on the Annual Financial Statements and Performance Information.

The number of households served with basic services as reflected in the table also includes the performance of external service providers delivering basic services to the community as contemplated in section 46(1)(a) of the Municipal Systems Act (No. 32 of 2000). Water distribution to the community by uMhlathuze is delivered through water purification by WSSA and through purified water purchased from the uMngeni-uThukela Water. Electricity is distributed to communities by uMhlathuze Municipality in the municipal licensed area, through purchasing electricity from ESKOM. Other Basic Services delivered by uMhlathuze Municipality include, solid waste removal (refuse collection) and sanitation. The uMhlathuze municipality is fortunate not to become reliant on external service providers, i.e. water, sanitation, solid waste removal services delivered by the district municipality like most other local municipalities do.

The following table provides the main measurable performance objectives the municipality undertakes to achieve this financial year.

2.3.1 Performance indicators and benchmarks

2.3.1.1 *Borrowing Management*

Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. The ability of a municipality to raise long term borrowing is largely dependent on its creditworthiness and financial position. As with all other municipalities, City of uMhlathuze's borrowing strategy is primarily informed by the Finance charges to Operating Expenditure (Max 10%) and Debt to Equity ratio (Max 30%), Debt to Operating Revenue (Max 45%) and the status of its Capital Replacement Reserves (Max 80% of Cash Backed Reserves). The structure of the City's debt portfolio is dominated by vanilla annuity loans. The following financial performance indicators have formed part of the compilation of the 2025/26 MTREF:

- ***Finance Charges and redemption to Operating Expenditure and to own Revenue*** is a measure of the cost of borrowing in relation to the operating expenditure and own revenue. It can be seen that the cost of borrowing is 6,8 per cent in 2025/26 and decreasing to 6,4 per cent in 2026/27 and 6,7% in 2027/28. In addition the mix of capital funding for the MTREF has taken a change whereby borrowed funds are predominately the funding source on capital expenditure excluding grants over the MTREF. While borrowing is considered a prudent financial instrument in financing capital infrastructure development such funding will be confined to assets with a useful life exceeding 10 years in line with our loan repayment term of 12 years as well as limiting such financing to assets that generate revenue.

2.3.1.2 *Safety of Capital*

The ***gearing ratio*** is a measure of the total long term borrowings over funds and reserves. The gearing ratio increases to 25,9 per cent in the 2025/26 and decreasing to 23,1 per cent in 2027/28 financial year due to continued borrowings over the MTREF. Though the ratio is still sitting comfortably lower than the 45 per cent limit, the Municipality will continue to monitor its risk exposure in the borrowing market as well as its performance. It is through this monitoring that the municipality has opted to reduce borrowed funding for the capex over the MTREF.

2.3.1.3 *Liquidity*

- ***Current ratio*** is a measure of the current assets divided by the current liabilities and as a benchmark the City has set a limit of 1, hence at no point in time should this ratio be less than 1. For the 2025/26 MTREF the current ratio is 1:1 as well as for the two outer years of the MTREF. Going forward it will be necessary to improve these levels and maintain them at a consistent level of 1.5:1 and above.
- ***The liquidity ratio*** is a measure of the ability of the municipality to utilize cash and cash equivalents to meet its current liabilities immediately ideally the municipality should have the equivalent cash and cash equivalents on hand to meet at least the current liabilities, which should translate into a liquidity ratio of 1. Anything below 1 indicates a shortage in cash to meet creditor obligations. For the 2025/26 MTREF the current ratio is 0,7 as well as for the two outer years of the MTREF.

The ratio is consistently not at required level of 1 and above for the 3 years and this mainly due to the deficit operational deficit that is also absorbed by cash balances.

2.3.1.4 *Revenue Management*

- As part of the financial sustainability strategy, an aggressive revenue management framework has been continued from previous years to maintain cash inflow. The intention of the strategy is to streamline the revenue value chain by ensuring accurate billing, customer service, and credit control and debt collection with specific focus in the “traditional areas”.

2.3.1.5 *Creditors Management*

- The City has managed to ensure that creditors are settled within the legislated 30 days of invoice. This relates to all invoices that services and goods fully certified by user departments as received and have followed the approved procure to pay processes.

2.3.1.6 *Other Indicators*

- Employee costs as a percentage of operating revenue decreases slightly over the MTREF. Although the ratio is 22,7 per cent for the 2025/26 MTREF, this may appear favourable however needs to be read in conjunction with the comments under section 1.6 – Operating Expenditure Framework as well as the comments under the Executive Summary.
- Repairs and maintenance as percentage of operating revenue remains constant over the MTREF owing directly to continued effort to ensure that resources in the repairs and maintenance cost centres are maximised.

2.3.2 Free Basic Services: basic social services package for indigent households

The social package assists households that are poor or face other circumstances that limit their ability to pay for services. These are done in a universal and targeted approach. The universal approach is through the tariff structures and provides for 7kl free water and 50 kWh electricity free for users below a threshold. In addition, rates and refuse removal charges are billed then written off for consumers that have a property valued below the prescribed threshold.

The targeted approach is applied as well where individual customers are found destitute completely that despite the universal approach still cannot afford their accounts. These customers' accounts are administered on a dedicated personal basis and then written off according to the Credit Control and Debt Collection Policy.

The cost of the social package of the registered indigent households is largely financed by national government through the local government equitable share received in terms of the annual Division of Revenue Act.

The only weakness in the current service charge can be found in the residential Water and Electricity Tiered (Block) Tariff structure, where medium to upper income consumers are paying below cost tariffs for the bottom scales. A solution here has been proposed to the National Treasury through a Policy document on Free & Subsidized Services, project of which appears to be on hold at National level.

2.4 Overview of budget related-policies

The City's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

2.4.1 Review of credit control and debt collection procedures/policies

The Credit Control & Debt Collection Policy was last reviewed and approved by Council during the 2017/18 budget year in terms of Council Resolution number 11979 dated 21 November 2017 and is available on **DMS 1158108**.

It is recommended that the credit control and debt collection policy remain unchanged.

The policy itself is functioning very well which is evident from the relative high collection rates that are still being achieved.

Issues that are preventing /hampering the implementation of the policy will be addressed in a separate report.

The 2025/26 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 95 percent on current billings, same percentage will apply in the two outer years.

2.4.2 Asset Management, Infrastructure Investment and Funding Policy

The policy aims to implement key asset management and investment objectives that would sustain the financial and physical health of the Municipality specifically related to but not limited to areas where infrastructure is utilised to derive revenue, service delivery and investment opportunities. In addition, the policy sets out the treatment related to areas of compliance contained within the asset management function. Therefore, investments in municipal infrastructure is paramount to the economic growth and development of the Municipality.

The strategy in the framework will remain with emphasis on renewal of existing infrastructure however see a gradual shift towards balancing the prioritisation of new infrastructure amidst the support to housing interventions, municipal investments, socio-economic improvements, community infrastructure, etc. Over the next three years, the Municipality will continue expediting its investments around renewal and upgrade of existing infrastructure related to the rendering of basic services, community and housing infrastructure needs, etc. In addition, to the renewal of existing assets, the need for the repairs and maintenance of existing assets is considered within the framework hence a move by the Municipality to invest more in repairs and maintenance.

Further, continued improvements in technology generally allows many assets to be renewed at a lesser 'real' cost than the original construction cost. Therefore, it is considered prudent to allow for a slightly lesser continual level of annual renewal than the average annual depreciation. The Asset Management Policy is therefore considered a strategic guide in ensuring a sustainable approach to asset renewal, repairs and maintenance. In addition, the policy prescribes the accounting and administrative policies and procedures relating to immovable and movable assets.

The amended policy is contained on DMS 1706550 (Annexure O)

2.4.3 Budget Adjustment Policy

The adjustments budget process is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the financial management practices of municipalities. To ensure that the City continues to deliver on its core mandate and achieves its developmental goals, the mid-year review and adjustment budget process will be utilised to ensure that underperforming functions are identified and funds redirected to performing functions.

No amendments are necessary for this policy in the 2025/26 financial year because Budget Adjustments are governed by the respective legislation.

2.4.4 Supply Chain Management Policy

The Supply Chain Management Policy was adopted by Council on the 4 October 2005. The sixth amendment of the Supply Chain Management Policy was done in terms of Supply Chain Management Regulations clause 3(1) (b) and was adopted by Council on 19 September 2017 in terms of Council Resolution number 11867 and incorporates the relevant Code of Conduct to the Supply Chain Management.

2.4.5 Virement Policy

The Virement Policy aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA and the City's system of delegations. The Virement Policy was approved by Council via resolution 6737 on 6 July 2010 and was subsequently amended on 4 October 2011 and again on 28 May 2013. A further amendment was necessary in the 2017/18 Budget year to ensure compliance with mSCOA regulations. The revised policy was approved in terms of Council resolution number 11645 dated 31 May 2017.

There are a number of challenges, which the Virement Policy brings about. It allows room for funds from very important Repairs and Maintenance projects to be moved around, simply because of no proper maintenance plans informing the very generous allocation of resources to this activity in the first instance. It generally allows the too liberal movement of funds from one project to another where there is no proper mandate/planning but emergency/ad hoc perceived needs/wants arise.

No amendments to this policy is required in the 2025/26 MTREF. This policy is contained on DMS 1424600.

2.4.6 Tariff of Charges Policy

The City's tariff policy provides a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery. **The policy is amended and approved annually with the MTREF.**

2.4.7 Cost Containment Policy

The Municipal Cost Containment Regulations (MCCR) is effective from 1 January 2019. Council's approved the Cost Containment Policy (**DMS 1407523**) in terms of Council Resolution number 14091 dated 26 August 2020 (RPT 167608).

No amendments to this policy is required in the 2025/26 MTREF. This policy is contained on DMS 1407523.

2.4.8 Debt Impairment Policy

The policy aims to ensure that debtors are disclosed in the annual financial statement at the amounts deemed collectable and the uncollectable debt is written off within the guidelines of existing policy and applicable legislation.

The policy contained on DMS 1726332 (Annexure M). No amendments are proposed for this policy in the 2025/26 financial year.

2.4.9 Cash and Investment Policy

Council amended the Cash Management and Investment Policy on 23 May 2024. The aim of the policy is to ensure that the City's surplus cash and investments are adequately managed, especially the funds set aside for the cash backing of certain reserves. The policy details the minimum cash and cash equivalents required at any point in time and introduce time frames to achieve certain benchmarks.

Minor amendments to this policy has been made in the 2025/26 MTREF. This policy is contained on DMS 1733752 (Annexure S).

2.4.10 Borrowing Policy

The policy aims to ensure that the Municipality manages interest rate and credit risk exposure as well as to maintain long-term debt within the specified limits in order to ensure adequate provision for the repayment capital charges.

No amendments to this policy is required in the 2025/26 MTREF. This policy is contained on DMS 1670732 (Annexure R).

2.4.11 Funding and Reserves Policy

This policy aims at ensuring that City's operational and capital budgets are adequately funded. The policy also deals with the reserves that are required to be maintained, their purposes, and their alignment to the capital budget funding.

No amendments to this policy is required in the 2025/26 MTREF. This policy is contained on DMS 1670730 (Annexure P).

2.4.12 Long-term Financial Plan Policy

This is a new policy, which aims to ensure that Council's strategies will maximise the probability of the municipality's financial sustainability into the future.

The policy contained on DMS 1733755 (Annexure T) is a new policy, which will be amended and approved annually with the MTREF.

2.4.13 Insurance Policy

The purpose of this policy is to provide for the risk of loss on Municipality's assets as well as other critical resources. It also provides guidelines for the risk that the Municipality will absorb through its own self-insurance reserve and the budgeting thereof.

No amendments to this policy is required in the 2025/26 MTREF. This is contained on DMS 1670731 (Annexure Q).

2.4.14 Metered Services Policy

The policy aims to ensure that the consumption by individual users of services is measured through accurate and verifiable metering systems.

This policy is contained on DMS 1726343 (Annexure N).

All the above policies are available on the City's website, as well as the following budget related policies:

- Property Rates Policy;
- Trade Effluent Management Policy; and
- Fraud Prevention policy.

2.5 Overview of budget assumptions

2.5.1 External factors

Owing to the economic slowdown, financial resources are limited due to reduced payment levels by consumers. This has resulted in declining cash inflows, which has necessitated restrained expenditure to ensure that cash outflows remain within the affordability parameters of the City's finances. This comment may appear contradictory to the very clear improvement in Cash Flows overall, however that is simply due to the accumulations for the Capital Replacement Reserves (Capital Funds), funds of which disguise the very tight situation the Municipality finds itself with the Operating Budget.

2.5.2 General inflation outlook and its impact on the municipal activities

There are five key factors that have been taken into consideration in the compilation of the 2025/26 MTREF:

- National Government macro-economic targets as per MFMA circular 129 and 130;
- The general inflationary outlook and the impact on City's residents and businesses;
- The impact of municipal cost drivers;
- The increase in prices for bulk electricity and water; and
- The increase in the cost of remuneration. Employee related costs comprise 22.1 per cent of total operating expenditure in the 2025/26 MTREF.

2.5.3 Interest rates for borrowing and investment of funds

The MFMA specifies that borrowing can only be utilised to fund capital or refinancing of borrowing in certain conditions. The City engages in a number of financing arrangements to minimise its interest rate costs and risk. However, for simplicity the 2025/26 MTREF is based on the assumption that all borrowings are undertaken using both variable and fixed interest rates for amortisation-style loans requiring both regular principal and interest payments.

2.5.4 Collection rate for revenue services

The base assumption is that tariff and rating increases will increase at a rate higher than CPI over the long term. It is also assumed that current economic conditions, and relatively controlled inflationary conditions, will continue for the forecasted term.

The rate of revenue collection is currently expressed as a percentage (95 per cent) of annual billings. Cash flow is assumed to be 95 per cent of billings, plus an increased collection of arrear debt from the revised collection and credit control policy. The performance of arrear collections will however only be considered a source of additional cash in-flow once the performance has been carefully monitored.

2.5.5 Growth or decline in tax base of the municipality

Debtor's revenue is assumed to increase at a rate that is influenced by the consumer debtors' collection rate, tariff/rate pricing, real growth rate of the City, household formation growth rate and the poor household change rate.

2.5.6 Salary increases

The collective agreement regarding salaries/wages came into operation on 1 July 2024 and shall remain in force until 30 June 2029 (**DMS 1695228**). This agreement sets out the salary increases for the 2025/26 to 2028/29 financial years.

Based on the agreement, the salary increases from 1 July 2025, will be determined based on the average CPI percentage for the period 1 February 2024 until 31 January 2025 plus zero comma seventy five per cent (0.75). This has been calculated at 5.01 per cent.

For budget purposes, a 5.25 per cent increase has been utilised.

No provision for any new or previously unfunded posts has been made in the 2025/26 MTREF.

2.5.7 Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard, various measures were implemented to align IDPs, provincial and national strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives:

- Creating jobs;
- Enhancing education and skill development;
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption.

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of the national, provincial and local objectives. See relevant section in the Integrated Development Plan.

2.5.8 Ability of the municipality to spend and deliver on the programmes

The slow spend on the 2023/24 Adjusted Capital Budget was of serious concern to Administration, however procurement plan will be prepared to expedite the implementation of the procurement process for the 2024/25 MTREF. Due to a monthly monitoring of the procurement plan being undertaken through the Capital Spend Project Team, spending in the 2024/25 financial year was improved significantly. The Executive Management Committee (EMCO) ensures that the mechanisms introduced to resolve numerous internal and external factors hindering performance are adhered to.

2.6 Overview of budget funding

2.6.1 Medium-term outlook: operating revenue

The following table is a breakdown of the operating revenue over the medium-term:

Table 42 Breakdown of the operating revenue over the medium-term

Description R thousand	2025/26 Medium Term Revenue & Expenditure Framework					
	Budget Year 2025/26	%	Budget Year +1 2026/27	%	Budget Year +2 2027/28	%
Revenue By Source						
Property rates	840 481	14.3%	916 125	14.8%	980 254	14.8%
Service charges	3 555 609	60.6%	3 758 388	60.6%	4 006 843	60.7%
Interest earned - external investments	45 000	0.8%	45 000	0.7%	45 000	0.7%
Transfers recognised - operational	621 195	10.6%	644 531	10.4%	673 523	10.2%
Other own revenue	800 631	13.7%	834 875	13.5%	897 757	13.6%
Total Operating Revenue (excluding capital transfers and contributions)	5 862 917	100.0%	6 198 918	100.0%	6 603 376	100.0%
Total Operating Expenditure	6 008 928		6 288 641		6 623 362	
Surplus/(Deficit)	(146 012)		(89 723)		(19 985)	

The following graph is a breakdown of the operational revenue per main category for the 2025/26 financial year.

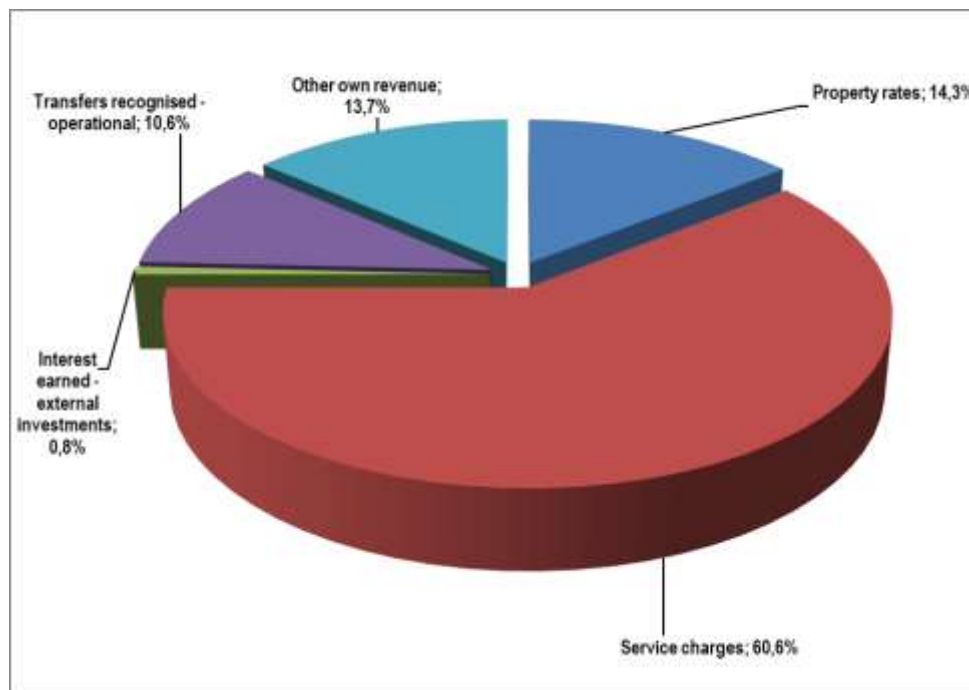

Figure 9 Breakdown of operating revenue over the 2025/26 MTREF

Tariff setting plays a major role in ensuring desired levels of revenue. Getting tariffs right assists in the compilation of a credible and funded budget. The City derives most of its operational revenue from the provision of goods and services such as water, electricity, sanitation and solid waste removal. Property rates, operating and capital grants from organs of state and other minor charges (such as building plan fees, licenses and permits etc.).

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the City and continued economic development;
- Efficient revenue management, which aims to ensure an above 95 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services i.e. ensuring that functional areas are fully costed with all municipal expenses that are applicable to such service;
- Determining the tariff escalation rate by calculating the revenue requirement of each service this overall tariff then adjusted per different strategy per different consumer category. In uMhlathuze referred to as the Universal Tariff approach.
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs where economically possible;
- Revenue enhancement, investment and cash management;
- Pricing risk strategy to ensure that rates and general grows to a level that can sustain the municipality;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the City which has been extensively reviewed to ensure that customer are clear on how the municipality will raise revenue

The above principles guide the annual increase in the tariffs charged to the consumers and the ratepayers aligned to the economic forecasts.

The proposed tariff increases for the 2025/26 MTREF on the different revenue categories are:

Tariff setting plays a major role in ensuring desired levels of revenue. Getting tariffs right assists in the compilation of a credible and funded budget. The City derives most of its operational revenue from the provision of goods and services such as water, electricity, sanitation and solid waste removal. Property rates, operating and capital grants from organs of state and other minor charges (such as building plan fees, licenses and permits etc.).

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the City and continued economic development;
- Efficient revenue management, which aims to ensure an above 95 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);

- Achievement of full cost recovery of specific user charges especially in relation to trading services i.e. ensuring that functional areas are fully costed with all municipal expenses that are applicable to such service;
- Determining the tariff escalation rate by calculating the revenue requirement of each service this overall tariff then adjusted per different strategy per different consumer category. In uMhlathuze referred to as the Universal Tariff approach.
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs where economically possible;

- Tariff policies of the City which has been extensively reviewed to ensure that customer are clear on how the municipality will raise revenue

The above principles guide the annual increase in the tariffs charged to the consumers and the ratepayers aligned to the economic forecasts.

The proposed tariff increases for the 2025/26 MTREF on the different revenue categories are:

Table 43 Proposed tariff increases over the medium-term

Categories	Current Increase (%) (Average) 2024/2025	Proposed Increase (%) (Average) 2025/26	Proposed Increase (%) (Average) 2026/27	Proposed Increase (%) (Average) 2027/28
Property rates	9,00%	8,00%	9,00%	7,00%
Electricity	10,09%	11,64%	6,00%	6,19%
Water	10,00%	11,75%	7,00%	9,00%
Refuse	6,00%	6,00%	6,00%	5,00%
Sewer	9,00%	7,00%	6,00%	5,00%

Services charges relating to electricity, water, sanitation and refuse removal constitutes the biggest component of the revenue basket of the City totalling R 3,5 billion for the 2025/26 financial year.

Operational grants and subsidies amount to R 621 million, R 645 million and R 674 million for each of the respective financial years of the MTREF, or 10,6; 10,4 and 10,2 per cent of operating revenue.

Investment revenue contributes significantly to the revenue base of the City with a budget allocation of R 45 million for the respective three financial years of the 2025/26 MTREF. It needs to be noted that whilst a healthy working capital is important for a Municipality, the practise in this Municipality comes from a historical trend of utilising cash reserves to fund service delivery initiatives instead of generating interest returns.

The tables below provide detail investment information and investment particulars by maturity.

Table 44 MBRR Table SA15 – Detail Investment Information

The above table is graphically represented as follows for the 2025/26 financial year.

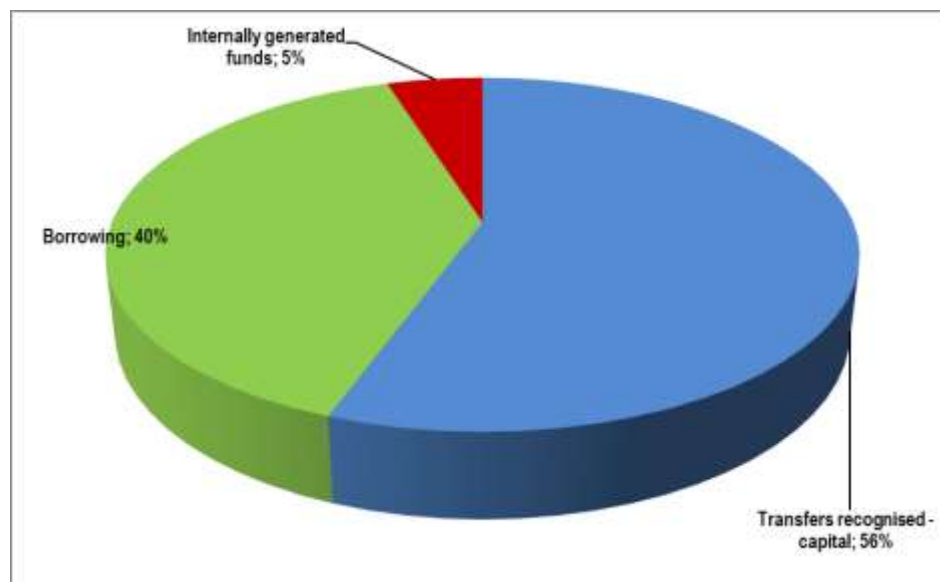

Figure 10 Sources of capital revenue for the 2025/26 financial year

Capital grants and receipts equates to 56 per cent of the total funding source which represents R 227 million for the 2025/26 financial year and increases to R 231 million by 2027/28.

The following table is a detailed analysis of the City's borrowing liability.

Table 47 MBRR Table SA17 – Detail of borrowings

Borrowing - Categorized by type	2021/22	2022/23	2023/24	Current Year 2024/25			2025/26 Medium Term Revenue & Expenditure Framework

Total Borrowing	916 085	1 662 708	1 663 697	1 862 561	1 851 449	1 851 449	1 795 036	1 787 901	1 754 792

The following graph illustrates the growth in outstanding borrowing for the 2021/22 to 2027/28 period.

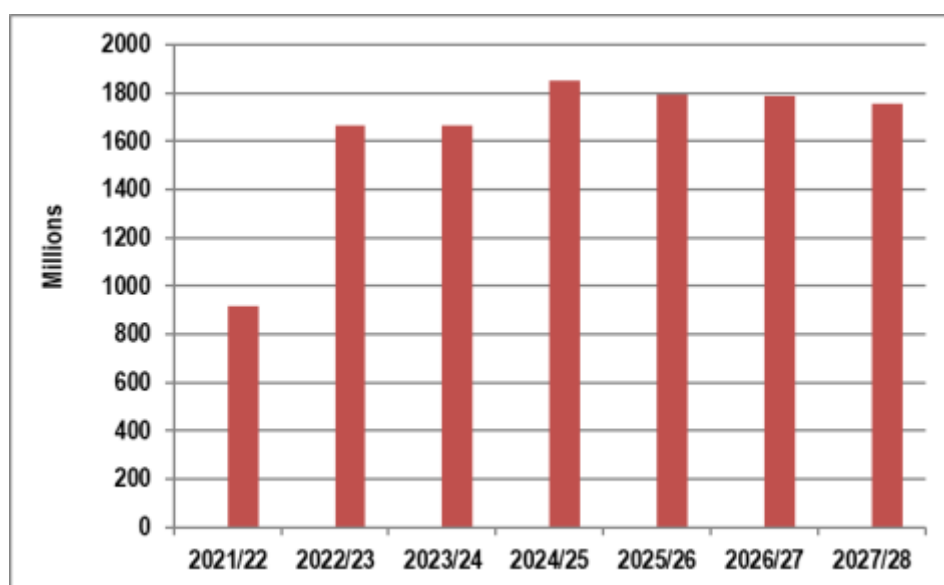

Figure 11 Growth in outstanding borrowing (long-term liabilities)

Internally generated funds consist of a mixture between surpluses generated on the operating statement of financial performance and cash backed reserves. In determining the credibility of this funding source it becomes necessary to review the cash flow budget as well as the cash backed reserves and accumulated funds reconciliation, as discussed below. Internally generated funds consist of R20 million in 2025/26, R25 million in 2026/27 and R31 million in 2027/28.

Table 48 MBRR Table SA18 – Capital transfers and grant receipts

The integrated urban development grant (IUDG) is allocated to selected urban local municipalities in place of the municipal infrastructure grant. The grant recognises that municipalities differ in terms of their context and introduces a differentiated approach to encourage integrated development in cities. It is intended to:

- Support spatially aligned public infrastructure investment that will lead to functional and efficient urban spaces;
- Enable and incentivise municipalities to invest more non-grant funding in infrastructure projects in intermediate cities.

The grant extends some of the fiscal reforms already implemented in metropolitan municipalities to non-metropolitan cities and is administered by the Department of Cooperative Governance.

Municipalities must meet certain criteria and apply to receive the integrated urban development grant instead of the municipal infrastructure grant in terms of a process set out in section 27 (5) of the Division of Revenue Act. The qualification criteria cover the following areas:

- Management stability (low vacancy rates among senior management)
- Audit findings
- Unauthorised, irregular, fruitless and wasteful expenditure
- Capital expenditure
- Reporting in terms of the MFMA

To remain in the grant, cities must continue to meet or exceed the entry criteria. If they do not do so, they will be placed on a performance improvement plan. If they still do not meet the criteria in the subsequent year, they will shift back to receiving grant transfers through the municipal infrastructure grant, which comes with closer oversight and support from National and Provincial departments.

In addition to the basic formula based allocation, municipalities participating in the IUDG are also eligible to receive a performance-based incentive component, which is based on performance against weighted indicators as determined by CoGTA.

2.6.3 Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves the understanding for councillors and management. Some specific features include:

- Clear separation of receipts and payments within each cash flow category;
- Clear separation of capital and operating receipts from government, which also enables cash from 'Ratepayers and other' to be provide for as cash inflow based on actual performance. In other words, the *actual collection rate* of billed revenue; and
- Separation of borrowing and loan repayments (no set-off), to assist with MFMA compliance assessment regarding the use of long term borrowing (debt).

Table 49 MBRR Table A7 – Budget cash flow statement

Cash/cash equivalents at the year begin:	820 790	684 764	495 109	310 148	272 467	272 467	147 424	201 397	278 931
Cash/cash equivalents at the year end:	684 764	495 109	272 467	505 853	147 424	147 424	201 397	278 931	384 604

The above table shows cash and cash equivalents of the City. It can be seen that the cash levels of the City declined from 2023/24 into 2024/25 adjustment budget mainly due decreases in collection rates and increases expenditure levels. However, there is a positive increase in the 2025/26 MTREF with cash balances of R201,3 million for 2025/26, R278,9 million for 2026/27 and R385 million for 2027/28. . The improvement over the MTREF is mainly due to significantly

reducing funding from capital replacement reserve so that the municipality gradually builds up enough cash reserve to back internal capital funding. In addition, the reduction of the operation deficit throughout the MTREF.

There is still other room for improvement in this regard and the following will be key for the municipality to sustain this level and also improve:

1. Real organic growth in the local economy;
2. Political and executive support for credit control in the residential environment, particularly the rural areas;
3. Addressing the high rate of non-revenue water;
4. A prudent stance is taken of the use of scarce funds;
5. All resources (especially human resources) in the service delivery environment are used efficiently and effectively.

2.6.4 Cash Backed Reserves/Accumulated Surplus Reconciliation

This following table meets the requirements of MFMA Circular 42 which deals with the funding of a municipal budget in accordance with sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- What are the predicted cash and investments that are available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that was/is available. A shortfall (applications > cash and investments) is indicative of non-compliance with section 18 of the MFMA requirement that the municipality's budget must be 'funded'. Non-compliance with section 18 is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded (budgeted spending is greater than funds available or to be collected). It is also important to analyse trends to understand the consequences, e.g. the budget year might indicate a small surplus situation, which in itself is an appropriate outcome, but if in prior years there were much larger surpluses then this negative trend may be a concern that requires closer examination.

Table 50 MBRR Table A8 – Cash backed reserves/accumulated surplus reconciliation

Surplus(shortfall) - Excluding Non-Current Creditors Trf to Debt Relief Benefits	379 333	645 044	383 013	693 777	165 915	165 915	157 420	128 714	120 121
Creditors transferred to Debt Relief - Non-Current portion	-	-	-	-	-	-	-	-	-
Surplus(shortfall) - Including Non-Current Creditors Trf to Debt Relief Benefits	379 333	645 044	383 013	693 777	165 915	165 915	157 420	128 714	120 121

From the above table it can be seen that the cash surplus is R 157 million in the 2025/26 financial year and decreases to R129 million and R 120 million by 2026/27 and 2027/2028 respectively, including the projected cash and cash equivalents as determined in the cash flow forecast. The following is a breakdown of the application of this funding:

- Unspent conditional transfers (grants) are automatically assumed to be an obligation as the municipality has received government transfers in advance of meeting the conditions. Ordinarily, unless there are special circumstances, the municipality is obligated to return unspent conditional grant funds to the national revenue fund at the end of the financial year. In the past these have been allowed to 'roll-over' and be spent in the ordinary course of business. Based on the current expenditure patterns and the awarded tenders in which construction has not commenced the municipality will have to approach National Treasury for a roll-over of funds in terms of the DORA requirements.
- Provisions for statutory requirements include VAT owing to timing differences resulting from year- end obligations.
- The main purpose of other working capital is to ensure that sufficient funds are available to meet obligations as they fall due. A key challenge is often the mismatch between the timing of receipts of funds from debtors and payments due to employees and creditors. For the purpose of the cash backed reserves and accumulated surplus reconciliation a provision equivalent to two month's operational expenditure has been provided for. Any underperformance in relation to collections could place upward pressure on the ability of the City to meet its creditor obligations.

It can be concluded that the City is funded for all the years in the MTREF, though the cash reserves are very tight.

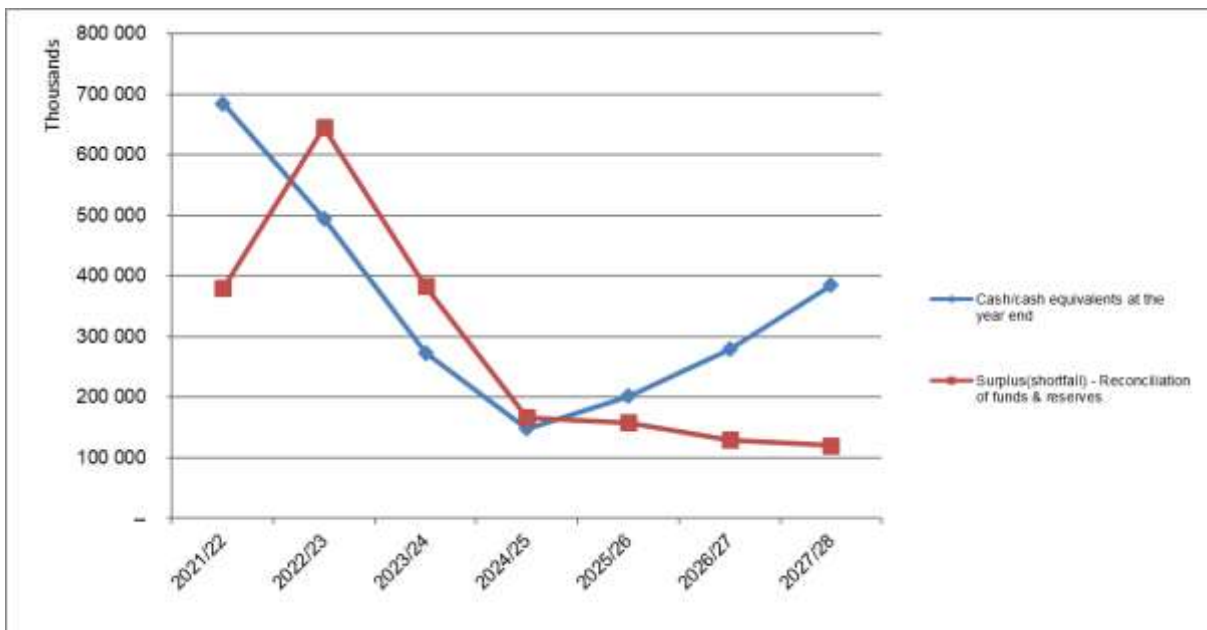

Figure 12 Cash and cash equivalents / Cash backed reserves and accumulated funds

2.6.5 Funding compliance measurement

National Treasury requires that the municipality to assess its financial sustainability against fourteen different measures that look at various aspects of the financial health of the municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of financial performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA. Each of the measures is discussed below

Table 51 MBRR Table SA10 – Funding compliance measurement

Description	MFMA section	2021/22	2022/23	2023/24	Current Year 2024/25			2025/26 Medium Term Revenue & Expenditure Framework		
		Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Budget Year 2025/26	Budget Year +1 2026/27	Budget Year +2 2027/28

2.6.5.1 Cash/cash equivalent position

The City's forecast cash position was discussed as part of the budgeted cash flow statement. A 'positive' cash position, for each year of the MTREF would generally be a minimum requirement, subject to the planned application of these funds such as cash-backing of reserves and working capital requirements.

If the municipality's forecast cash position is negative, for any year of the medium term budget, the budget is very unlikely to meet MFMA requirements or be sustainable and could indicate a risk of non-compliance with section 45 of the MFMA which deals with the repayment of short term debt at the end of the financial year. The forecasted cash and cash equivalents for the 2025/26 MTREF shows R 201,3 million, R 278,9 million and R 384,6 million for each respective financial year.

2.6.5.2 Cash plus investments less application of funds

The purpose of this measure is to understand how the municipality has applied the available cash and investments as identified in the budgeted cash flow statement. The detail reconciliation of the cash backed reserves/surpluses is contained in Table 32, on [page 91xxx](#). The reconciliation is intended to be a relatively simple methodology for understanding the budgeted amount of cash and investments available with any planned or required applications to be made. This has been extensively discussed above.

2.6.5.3 Monthly average payments covered by cash or cash equivalents

The purpose of this measure is to understand the level of financial risk should the municipality be under stress from a collection and cash in-flow perspective. Regardless of the annual cash position an evaluation should be made of the ability of the City to meet monthly payments as and when they fall due. It is especially important to consider the position should the municipality be faced with an unexpected disaster that threatens revenue collection such as rate boycotts. Notably, the ratio has marginally improved for the period 2025/26 MTREF the municipality's improving cash position sets the ratio at 0,5 and then increases to 0,7 for the 2026/27 and 0,9 for the 2027/28 financial years. As indicated above the City the Investment, Working Capital and Capital Replacement Reserves Policy requires a ratio of two months' coverage.

2.6.5.4 Surplus/deficit excluding depreciation offsets

The main purpose of this measure is to understand if the revenue levels are sufficient to conclude that the community is making a sufficient contribution for the municipal resources consumed each year.

For the 2025/26 MTREF the indicative outcome is a surplus R81,3 million then R 136 million and R 211 million. This however is **not a true reflection** of the Operating performance as this figure includes capital revenues (Transfers recognised – capital). The City Manager has indicated that expenditure needs to be significantly reduced to eliminate the deficit

2.6.5.5 Property Rates/service charge revenue as a percentage increase less macro inflation target

The purpose of this measure is to understand whether the municipality is contributing appropriately to the achievement of national inflation targets. This measure is based on the increase in 'revenue', which will include both the change in the tariff as well as any assumption about real growth such as new property development, services consumption growth etc.

The factor is calculated by deducting the maximum macro-economic inflation target increase (which is currently 5,3 per cent). The result is intended to be an approximation of the real increase in revenue. From the table above it can be seen that the percentage increases to 5,2% for the respective financial year of the 2025/26 MTREF. This is not a reflection of economic growth in the area but rather a reflection of cost drivers which have increased more than inflation targets such as bulk water and electricity and employee related costs.

2.6.5.6 Cash receipts as a percentage of ratepayer and other revenue

This factor is a macro measure of the rate at which funds are 'collected'. This measure is intended to analyse the underlying assumed collection rate for the MTREF to determine the relevance and credibility of the budget assumptions contained in the budget. It can be seen that the outcome is at 106 per cent for 2025/26 MTREF. This percentage is however inflated by the output VAT component that is included in the cash receipts amount on the cash flow table. Given that the assumed collection rate was based on a 95 per cent performance target, it either implies that the Municipality must either increase its' credit control endeavours in the Rural Areas or alternatively lower its collection rate target of 95 per cent to be more realistic. This measure and performance objective will have to be meticulously managed. Should performance with the mid-year review and adjustments be positive in relation to actual collections of billed revenue, the adjustments budget will be amended accordingly

2.6.5.7 Debt impairment expense as a percentage of billable revenue

This factor measures whether the provision for debt impairment is being adequately funded and is based on the underlying assumption that the provision for debt impairment (doubtful and bad debts) has to be increased to offset under-collection of billed revenues. The provision has been appropriated at 5,1 per cent over the MTREF which is a reflection of the high standard of credit and debt control for the City. Given the comments mentioned above regarding the debtors' situation within the rural environment these provisions may need to be reviewed in the next budget cycle.

Council has performed an assessment of the Debt impairment and revised its method of calculating the budgeted outstanding debtors. The change is reflected on Table 30 - A6 Budgeted Financial Position and Table 75 SA3 - Supporting detail to Statement of Financial Position.

In terms of the debt impairment, the municipality is of the view that the provision that it currently has is sufficient to cover the risk of non-payment. Included in the debtors outstanding is the portion that will have not reached 90 days and therefore may still be recoverable. The trend is that about 50% of the outstanding debt (inclusive of current) is between current and 30 days.

2.6.5.8 Capital payments percentage of capital expenditure

The purpose of this measure is to determine whether the timing of payments has been taken into consideration when forecasting the cash position. This indicator clearly illustrates that the municipality plans to spend 100% of its capital budget. The amount shown in the indicator includes the input VAT portion, hence it is reflected at 115% as per the cash flow table.

2.6.5.9 Borrowing as a percentage of capital expenditure (excluding transfers, grants and contributions)

The purpose of this measurement is to determine the proportion of a municipality's 'own-funded' capital expenditure budget that is being funded from borrowed funds to confirm MFMA compliance. Externally funded expenditure (by transfers/grants and contributions) has been excluded. This ratio is sitting at 89,2% for 2025/26; 87,9% for 2026/27 and 85,4% for 2027/2028. This is in line with the strategy of firstly building up enough cash reserves for the cash replacement reserve prior to budgeting for the capital expenditure against it

2.6.5.10 Transfers/grants revenue as a percentage of Government transfers/grants available

The purpose of this measurement is mainly to ensure that all available transfers from national and provincial government have been budgeted for. A percentage less than 100 per cent could indicate that not all grants as contained in the Division of Revenue Act (DoRA) have been budgeted for. The City has budgeted for all transfers.

2.6.5.11 Consumer debtors change (Current and Non-current)

The purpose of these measures are to ascertain whether budgeted reductions in outstanding debtors are realistic. There are 2 measures shown for this factor; the change in current debtors and the change in long term receivables, both from the Budgeted Financial Position. Only one indicator is reflected above which illustrates a stable trend in that debtors are decreasing mainly by the increase in debt impairment provision as well as the increase in collection rate.

2.6.5.12 Repairs and maintenance expenditure level

This measure must be considered important within the context of the funding measures criteria because a trend that indicates insufficient funds are being committed to asset repair could also indicate that the overall budget is not credible and/or sustainable in the medium to long term because the revenue budget is not being protected. Details of the City's strategy pertaining to asset management and repairs and maintenance are contained in Table 68 MBRR SA34c on [on page 190 to 192](#).

2.6.5.13 Asset renewal/rehabilitation expenditure level

This measure has a similar objective to aforementioned objective relating to repairs and maintenance. A requirement of the detailed capital budget is to categorise each capital project as a new asset or a renewal/rehabilitation project. The objective is to summarise and understand the proportion of budgets being provided for new assets and also asset sustainability. The indicator in this regard is showing a significant increase and also in line with the justification on the repairs and maintenance budget. Further details in this regard are contained in Table 66 [MBRR SA34b on page 185 to 187](#)

2.10 Contracts having future budgetary implications

In terms of the City's Supply Chain Management Policy, no contracts are awarded beyond the medium-term revenue and expenditure framework (three years). In ensuring adherence to this contractual time frame limitation, all reports submitted to either the Bid Evaluation and Adjudication Committees must obtain formal financial comments from the Financial Management Division of the Treasury Department.

2.11 Capital expenditure details

The following three tables present details of the City's capital expenditure programme, firstly on new assets, then the renewal of assets and finally on the repair and maintenance of assets.

Table 65 MBRR Table SA34a – Capital expenditure on new assets by asset class

Description	2021/22	2022/23	2023/24	Current Year 2024/25			2025/26 Medium Term Revenue & Expenditure Framework

2.12 Legislation compliance status

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

1. In year reporting

Reporting to National Treasury in electronic format was fully complied with on a monthly basis. Section 71 reporting to the Executive Mayor (within 10 working days) has progressively improved and includes monthly published financial performance on the City's website.

2. Internship programme

The City is participating in the Municipal Financial Management Internship programme and has employed seven interns undergoing training in various divisions of the Financial Services Department. From the onset of this programme, Council has appointed twenty six interns on a permanent basis.

3. Budget and Treasury Office

The Budget and Treasury Office has been established in accordance with the MFMA.

4. Audit Committee

An Audit Committee has been established and is fully functional.

5. Enterprise Risk Management Committee

A ERM committee has been established and is fully functional

6. Service Delivery and Implementation Plan

The detail SDBIP document is at a draft stage and will be finalised after approval of the 2025/26 MTREF in May 2025 directly aligned and informed by the 2025/26 MTREF.

7. Annual Report

Annual report is compiled in terms of the MFMA and National Treasury requirements.

8. MFMA Training

The MFMA training module in electronic format is presented at the City's internal centre and training is ongoing.

2.13 Other supporting documents
